TEDDY is often used as a reference in other peer-reviewed books and journals for energy and environment-related data. It gives an annual overview of the developments in the energy supplying and consuming sectors as well as the environment sector. It also provides a review of the government policies that have implications for these sectors of the Indian economy. TERI Energy Data Directory Yearbook, or TEDDY, is an annual publication brought out by TERI since 1986. TEDDY is often used as a reference in other peer-reviewed books and journals for energy and environment-related data. It gives an annual overview of the developments in the energy supplying and consuming sectors as well as the environment sector. It also provides a review of the government policies that have implications for these sectors of the Indian economy. Each edition of TEDDY contains India's commercial energy balances for the past four years that provide comprehensive information on energy flows within different sectors of the economy and how they have been changing over time. These energy balances and conversion factors are a valuable ready reckoner for anybody working on energy and related sectors. **Stock Markets in Islamic Countries An Inquiry into Volatility, Efficiency and Integration** Springer This book explores the volatility, efficiency and integration of stock markets in Islamic countries. It presents recent trends, growth and performance, before moving on to explore how patterns change during different business cycles for short-term and long-term investors, and ranks the efficiency of the various markets. It addresses how the level of market integration has been affected during different economic periods, and concludes by summarising the performance of the stock markets, suggesting potential future directions for these markets. **Deschutes National Forest (N.F.), BLT Project Environmental Impact Statement Licorice industry in China: Implications for licorice producers in Uzbekistan** Intl Food Policy Res Inst **Measuring Energy Security Trends in the Diversification of Oil and Natural Gas Supplies** International Monetary Fund We present evidence on one facet of energy security in OECD economies - the extent of diversification in sources of oil and natural gas supplies. Viewed from the perspective of the energy-importing countries as a whole, there has not been much change in diversification in oil supplies over the last decade, but diversification in sources of natural gas supplies has increased steadily. We document the cross-country heterogeneity in the extent of diversification. We also show how the extent of diversification changes if account is taken of the political risk attached to suppliers; the size of the importing country; and transportation risk. **Governance for Structural Transformation in Africa** Springer This book explores how better governance can help Africa to achieve structural transformation (understood to be the reallocation of factors of production across and within sectors to better support inclusive development), which history has shown to be key to sustained, inclusive growth. The book begins with a review of the existing literature on the links between governance and structural transformation and the success or otherwise of various sub regions in achieving structural transformation. It continues with a range of contributors addressing original empirical research on the relationships between different approaches to institutions and trade and industrial policies and structural transformation in Africa. The book makes recommendations for a new approach to governance in Africa that can deliver the structural transformation that the continent needs for Africans to enjoy shared prosperity, poverty reduction and development. **Water Quality Monitoring and Assessment** BoD – Books on Demand The book attempts to covers the main fields of water quality issues presenting case studies in various countries concerning the physicochemical characteristics of surface and groundwaters and possible pollution sources as well as methods and tools for the evaluation of water quality status. The authors provide an overview of the freight-transportation system and the problems it faces, concluding with a discussion of key system-modernization issues, including increasing capacity, making the system less vulnerable to disruption, addressing environmental concerns, and building support for funding. **Report of the Tests of Metals and Other Materials for Industrial Purposes Made with the United States Testing Machine at Watertown Arsenal, Massachusetts** Global Tuberculosis Control **WHO Report Business Statistics** Pearson Education India **Beer Handbook Global HR Challenges Facing the Function** Gower Publishing, Ltd. The HR function is having to adjust itself to the implications of the globalisation of business activity. This has meant adjusting its philosophy, policies and practices to fit new organisational imperatives, as well as creating its own refashioned service delivery model. Peter Reilly and Tony Williams's Global HR explores the key issues of building an international brand, culture and talent pool, whilst contributing to business and functional transformation, drawing on examples from multinationals in telecoms, fast-moving consumer goods, manufacturing, software, services and commodities. In doing so, they offer insights into managing people and businesses that no organization can ignore.
