THE MIRROR BOOK

MIRROR SAILING FROM START TO FINISH

Fernhurst Books Limited The Mirror dinghy was a significant factor in the boom of dinghy sailing in the 1960s, introducing thousands to the delights of sailing. While sailing has come a long way since then and there have been a lot of far more exotic craft launched, the Mirror remains a fantastic boat in which to learn to sail and to compete at the highest levels. With this second edition, The Mirror Book has been bought into the Start to Finish series format alongside such revered books as The Laser Book, The Topper Book, The Catamaran Book and The Foiling Dinghy Book. Like these titles, this book tells you everything you need to know about sailing the boat (whether it be the original gaff-rigged boat or has the newer Bermuda rig). Written for those starting out through to those striving to win a championship, the book is packed with practical advice and illustrated with step-by-step photographs. It covers: setting up the Mirror and early sailing experiences; developing skills on all points of sailing and with the spinnaker; racing & masterclasses to become a championship winner. Over 180 photographs show you exactly how it's done, and 72 diagrams illustrate key boat parts, the different points of sailing and complex on-the-water scenarios with clarity. It is written by Peter Aitken, formerly the UK National Mirror Coach, who has coached teams to win world championships in the Mirror, Cadet and 420 classes, and Tim Davison, a successful racer and author of countless books on sailing. The UK Mirror Class Association have contributed to this update and it is endorsed by Dave Wade, double Mirror National Champion, who says: "Armed with this book, your understanding of Mirror sailing techniques will grow, and your results will improve. I thoroughly recommend it."

THE COMPLETE WOODEN RUNABOUT RESTORATION GUIDE

Voyageur Press Now MBI Publishing Company's two top-selling boating titles are written by one of the world's top authorities on the subject of antique wooden boat restoration are available in one volume. In this comprehensive restoration guide for owners and enthusiasts of wooden powerboats of all makes and models built from the early 1920s through the 1960s, author Don Dannenberg covers all major woodworking aspects of restoration: surveying, disassembly, repair, reconstruction, and varnishing. But when it comes to restoring a classic wooden powerboat, getting the frame, planking, and deck right is just one part of the story. Danenberg also walks enthusiasts through the topics of hardware, running gear, electrical wiring, plumbing, instruments, upholstery, trailers, and maintenance. Fully illustrated with step-by-step color photos and written in an entertaining style in which the author stresses sound reconstruction techniques over preservation of original components, this comprehensive volume also includes resource listings, glossaries, and School of Hard Knocks sidebars.

FISHING YESTERDAY'S GULF COAST

Texas A&M University Press Renowned fishing guide Barney Farley worked the Texas coastal waters out of Port Aransas for more than half a century. In these stories and reflections, Farley imparts a lifetime of knowledge about fish silver trout, sand trout, speckled trout, redfish, ling, catfish, jack, kingfish, you name it_ and gives advice about how to fish, where to fish, and when to fish. Perhaps no one could chronicle the changes in sport and commercial fishing along the Central Texas Coast more ably and more passionately than Farley. When he came to Texas in 1910, he reported that he could get in a rowboat and using only a push pole, make his way "to the fishing grounds and catch a hundred pounds or more of trout and redfish" in a few hours. A couple of years later, the shrimp trawlers arrived. As they plied the Gulf in increasing numbers, they depleted the shrimp populations in the bays, and Farley watched the fish move farther and farther offshore, following their ever more elusive food source. From his perspective in the mid1960s, Farley was not satisfied simply to lament the disappearance of onceabundant species. He also strongly voiced his views on the need for conservation. Many of the problems he identified are still with us, and some of the solutions he prescribed have since been adopted. This book is both an appealing reminiscence and a cautionary tale. Anyone who cares about fishing and the health of the Gulf's waters will find an authoritative and completely engaging voice in Barney Farley.

THE MACHINE GUNNERS

Nelson Thornes It's 1940, and Britain is at war. Young Chas McGill has the second-best collection of war souvenirs in town, but desperately wants it to be the best. Amidst the bombs and air raids, Chas and his friends plan their own war effort in their newly built bunker. Friendships are forged and loyalties tested, in the adventure of a lifetime. Robert Westall's "The Machine Gunners" has been read, studied - and loved - by successive generations of younger readers. It won the Carnegie Medal and was voted one of the most important children's novels of the past seventy years. This thrilling stage adaptation comes from the award-winning playwright Ali Taylor, and premiered at the Polka Theatre, London. It provides rich opportunities for discussion in the classroom, and for staging by schools, youth theatres and amateur companies.

THE RIDDLE OF THE SANDS

A RECORD OF SECRET SERVICE

OUP Oxford `About this coast... In the event of war it seems to me that every inch of it would be important, sand and all.' Executed in 1922 for his involvement in Irish republicanism, Childers is remembered most vividly for his ground-breaking spy novel, The Riddle of the Sands (1903). In spite of good prospects in the Foreign Office, the sardonic civil servant Carruthers is finding it hard to endure the emptiness and boredom of his life in London. He reluctantly accepts an invitation from a college friend, Davies, the shyly intrepid yachtsman, and joins him on a sailing holiday in the Baltic. The regeneration of Carruthers begins as he is initiated into the mysteries of seamanship, but the story builds in excitement as Carruthers and Davies discover a German plot to invade England. Like much contemporary British spy fiction, The Riddle of the Sands reflects the long suspicious years leading up to the First World War and the intricacy of its conception and its lucid detail make it a classic of its genre. This edition is complemented by a fine introduction which examines the novel in its political and historical context. ABOUT THE SERIES: For over 100 years Oxford World's Classics has made

available the widest range of literature from around the globe. Each affordable volume reflects Oxford's commitment to scholarship, providing the most accurate text plus a wealth of other valuable features, including expert introductions by leading authorities, helpful notes to clarify the text, up-to-date bibliographies for further study, and much more.

OVER THE TOP

THE FIRST LONE YACHTSMAN TO SAIL VERTICALLY AROUND THE WORLD

Bloomsbury Publishing Only one person has ever sailed vertically around the world - Adrian Flanagan. Sailing horizontally is difficult enough, crossing thousands of miles of ocean only to get near land at the Capes and battle treacherous currents. However, hundreds of sailors have still managed it. Adrian became obsessed with the idea of sailing vertically around the world as a boy, before he even knew whether it was possible. Thirty years later he managed it. This is his own account of his remarkable adventure. It was an epic challenge, sailing through the perilous waters around Cape Horn and across the remote, hostile stretch of the Russian Arctic. He survived being washed overboard, capsizing, a close encounter with pirates, and also managed to treat not one but two dislocated wrists - all of this alone, a thousand miles or more from anyone who could help him complete his quest. It wasn't all high drama,

however. Adrian experienced moments of awe-inspiring beauty - being accompanied by a pod of whales, and swimming with dolphins. This is a timeless and unique story, pacily written with a sense of humour, but which captures the zeal and determination required to accomplish something nobody else has ever done before.

THE LEGENDARY M. WYLIE BLANCHET

TouchWood Editions M. Wylie 'Capi' Blanchet has accompanied many a seafarer on the B.C. coast-her bestselling book, The Curve of Time, introduced us to a resilient, adventurous, and enigmatic woman ahead of her time. Widowed in 1926, Capi cruised the coast in her 25-foot boat, the Caprice, with her five children and their dog. Beyond this incredible story, however, little is known about the rest of her life. What tied Capi to the West Coast, despite her upbringing and family ties in EasternCanada? What made her see possibility in a boat that had been sunk to the bottom? Insiders' recollections, and her own travels along Capi's route help Cathy Converse explore this very private woman. In revisiting these villages, inlets and islands described in The Curve of Time, Converse evokes Capi's spirit and enriches the impressions she left behind.

CLASSIFICATION AND ILLUSTRATED DEFINITION OF FISHING GEARS

Food & Agriculture Org. This document elaborates the revised International Standard Statistical Classification of Fishing Gear (ISSCFG), as endorsed and adopted for implementation by the FAO Coordinating Working Party on Fishery Statistics (CWP) at its Twenty-fifth Session in February 2016 in Rome, Italy. The classification applies to commercial, subsistence and recreational fisheries in marine and freshwater fisheries. The document provides definitions and illustrations of the configuration and mode of operation of typical fishing gears. The primary purpose is to assist FAO Members, regional fishery bodies, as well as those working on fishery statistics and management, to correctly attribute and report fisheries catches made by different gear types. The document also contributes to the prevention, deterrence and elimination of illegal, unreported and unregulated (IUU) fishing by providing monitoring, control and surveillance personnel with information to identify the type of fishing gear with regard to licence and authorization to carry out fishing operations. Finally, the document also provides context and references for some contemporary conservation issues related to major fishing gear types; it can therefore be used as a reference text for students and researchers in fisheries and marine conservation.
