*Random House* Dreams are the currency of Okri's writing, particularly in this first book of poems, *An African Elegy*, but also in his books of short stories and prize-winning novel *The Famished Road*. Okri's dreams are made on the stuff of Africa's colossal economic and political problems, and reading the poems is to experience a constant succession of metaphors of resolution in both senses of the word. Virtually every poem contains an exhortation to climb out of the African miasma, and virtually every poem harvests the dream of itself with an upbeat restorative ending' - Giles Foden, *Times Literary Supplement*

**TWENTY YEARS OF EDUCATION TRANSFORMATION IN GAUTENG 1994 TO 2014**

---

*African Minds Twenty Years of Education Transformation in Gauteng 1994 to 2014: An Independent Review presents a collection of 15 important essays on different aspects of education in Gauteng since the advent of democracy in 1994. These essays talk to what a provincial education department does and how and why it does these things - whether it be about policy, resourcing or implementing projects. Each essay is written by one or more specialist in the relevant focus area. The book is written to be accessible to the general reader as well as being informative and an essential resource for the specialist reader. It sheds light on aspects of how a provincial department operates and why and with what consequences certain decisions have been made in education over the last 20 turbulent years, both nationally and provincially. There has been no attempt to fit the book's chapters into a particular ideological or educational paradigm, and as a result the reader will find differing views on various aspects of the Gauteng Department of Education's present and past. We leave the reader to decide to what extent the GDE has fulfilled its educational mandate over the last 20 years.*

## **ASSESSMENT AND TEACHING OF 21ST CENTURY SKILLS**

---

### **RESEARCH AND APPLICATIONS**

---

*Springer This book provides a detailed description of research and application outcomes from the Assessment and Teaching of 21st Century Skills project, which explored a framework for understanding the nature of these skills. The major element of this new volume is the presentation of research information from the global assessment of two 21st century skills that are amenable to teaching and learning: collaborative problem solving, and learning in digital networks. The outcomes presented include evidence to support the validity of assessment of 21st century skills and descriptions of consequent pedagogical approaches which can be used both to teach the skills and to use them to enhance key learning goals in secondary education systems. The sections of the volume are connected through a focus on the degree to which innovative assessment tasks measure the constructs of interest. This focus is informed by conceptual and methodological issues associated with affordances of 21st century computer-based assessment. How understanding of the nature of the skills, as derived from these assessments, can guide approaches to the integration of 21st century skills in the classroom, is informed by initiatives adopted by participating countries. The guiding questions in this volume are: "Do the assessment tasks measure the constructs?" and "What are the implications for assessment and teaching in the classroom?" It is the third volume of papers from this project published by Springer.*

### **AN IDEAL GIFT FOR THE YOUNG DAUGHTERS OF THE UMMAH**

---

*Createspace Independent Publishing Platform Allah Ta'ala has created the human being as 'ASHRAFUL MAKHLOOQAAT' (the best of His creation). Males and females have been created differently with their own unique physical and emotional characteristics and needs. All these are signs of His evident power and greatness. A female's first haidh (period / menstruation) is actually a transition or crossing over for her from childhood to adulthood. It is an important time in her life, because along with this change comes huge responsibilities. Apart from physical changes (which take place inside our bodies), we undergo emotional changes (the way we feel), as well as mental changes (the way we understand things). It is, therefore, very important for us to prepare ourselves for this transformation. This body is an amaanah (trust) from Allah Ta'ala. We use it to make the ibaadah (worship) of Allah Ta'ala. Therefore, it is important that we take care of it as best we can in order to fulfill the rights of Allah Ta'ala. However, it is not only our physical strength and mental well-being that we ought to worry about, but also our personal hygiene. This booklet has been compiled especially for our young sisters (9 -12 year olds) and may also be used as a guide for those mothers who find it difficult to speak to their daughters about these matters. The first part of the kitaab should be done in Grade 6 and the second part in Grade 7. With the help of Allah Ta'ala and by means of the following information, we will have a better idea of how our bodies work and how to cope with the physical and emotional changes that our bodies undergo. This kitaab is dedicated to all the young sisters of this ummah. We make dua that Allah Ta'ala makes this kitaab a means of Hidaayat (guidance) for you, Insha Allah!*

## **TSOTSI**

---

Canongate Books *Tsotsi is an angry young gang leader in the South African township of Sophiatown. A man without a past, he exists only to kill and steal. But one night, in a moonlit grove of bluegum trees, a woman he attempts to rape forces a shoebox into his arms. The box contains a baby, and his life is inexorably changed. He begins to remember his childhood, to rediscover himself and his capacity for love. Turned into an Oscar-winning movie in 2006, Tsotsi's raw power and rare humanity show how decency and compassion can survive against the odds.*
