Un'indagine sui dolci abruzzesi Towards a New Standard Theoretical and Empirical Studies on the Restandardization of Italian *Walter de Gruyter GmbH & Co KG* In many European languages the National Standard Variety is converging with spoken, informal, and socially marked varieties. In Italian this process is giving rise to a new standard variety called Neo-standard Italian, which partly consists of regional features. This book contributes to current research on standardization in Europe by offering a comprehensive overview of the re-standardization dynamics in Italian. Each chapter investigates a specific dynamic shaping the emergence of Neo-standard Italian and Regional Standard Varieties, such as the acceptance of previously non-standard features, the reception of Old Italian features excluded from the standard variety, the changing standard language ideology, the retention of features from Italo-Romance dialects, the standardization of patterns borrowed from English, and the developmental tendencies of standard Italian in Switzerland. The contributions investigate phonetic/phonological, prosodic, morphosyntactic, and lexical phenomena, addressed by several empirical methodologies and theoretical vantage points. This work is of interest to scholars and students working on language variation and change, especially those focusing on standard languages and standardization dynamics. *Europe and Empire On the Political Forms of Globalization Fordham Univ Press* The European Union and the single currency have given Europe more stability than it has known in the past thousand years, yet Europe seems to be in perpetual crisis about its global role. The many European empires are now reduced to a multiplicity of ethnicities, traditions, and civilizations. Europe will never be One, but to survive as a union it will have to become a federation of "islands" both distinct and connected. Though drawing on philosophers of Europe's past, Cacciari calls not to resist Europe's sunset but to embrace it. Europe will have to open up to the possibility that in few generations new exiles and an unpredictable cultural hybridism will again change all we know about the European legacy. Though scarcely alive in today's politics, the political unity of Europe is still a necessity, however impossible it seems to achieve. *Forma, esplora, anima Percorsi di trasformazione nelle comunità periferiche Rubbettino Editore* Comunità, spazio, interiorità, relazione, sosta, riflessività, sono solo alcune delle dimensioni che attraversano la vita quotidiana e che intrecciano la trama del racconto di un'esperienza formativa triennale rivolta ad animatori di comunità, promossa dalle Acli. Dal tentativo di "tenere in dialogo" una pluralità di linguaggi differenti nasce questo libro singolare, in cui confluiscono i principali contributi di riflessione, gli spunti, i concetti, gli approcci e le energie, frutto di un percorso corale. Docenti, formatori, ricercatori sociali, partecipanti, coordinatori del processo offrono il proprio apporto di idee e di esperienze, come in una conversazione a distanza che origina da una molteplicità di luoghi: l'aula, il territorio, il gruppo, la comunità, il pensiero, l'azione di ricerca e altro. È un invito a cogliere un'opportunità, ad inoltrarsi nei sentieri aperti delle domande che conducono verso direzioni inesplorate. Cosa significa agire processi di partecipazione e sviluppo nella comunità? Come l'animazione può diventare una pratica sociale discorsiva, capace di far emergere e organizzare le domande sociali? È possibile riconsiderare i rapporti tra centro e periferia, cogliendone gli aspetti trasformativi a partire dal vissuto di chi abita gli spazi? Quali implicazioni incontriamo nel ripensare percorsi educativi e di crescita della persona? Avanzando tra questi interrogativi il volume accompagna attraverso un viaggio dove la formazione, l'animazione e l'esplorazione, si nutrono una dell'esperienza dell'altra, sperimentano un legame complesso nella pratica e nella riflessione. Non si tratta di un libro definitivo. I contenuti e gli stimoli proposti non rispondono ad una tesi preconstituita e, per questo, cercando di uscire dalle consuete traiettorie, si prestano ad una rilettura alla luce di quello che accade ora: l'esperienza di una emergenza sanitaria come quella che stiamo vivendo **L'INVASIONE BARBARICA SABAUDA DEL MEZZOGIORNO D'ITALIA QUELLO CHE NON SI OSA DIRE** *Antonio Giangrande* E' comodo definirsi scrittori da parte di chi non ha arte né parte. I letterati, che non siano poeti, cioè scrittori stringati, si dividono in narratori e saggisti. E' facile scrivere "C'era una volta..." e parlare di cazzate con nomi di fantasia. In questo modo il successo è assicurato e non hai rompiballe che si sentono diffamati e che ti querelano e che, spesso, sono gli stessi che ti condannano. Meno facile è essere saggisti e scrivere "C'è adesso..." e parlare di cose reali con nomi e cognomi. Impossibile poi è essere saggisti e scrivere delle malefatte dei magistrati e del Potere in generale, che per logica ti perseguitano per farti cessare di scrivere. Devastante è farlo senza essere di sinistra. Quando si parla di veri scrittori ci si ricordi di Dante Alighieri e della fine che fece il primo saggista mondiale. Le vittime, vere o presunte, di soprusi, parlano solo di loro, inascoltati, pretendendo aiuto. Io da vittima non racconto di me e delle mie traversie. Ascoltato e seguito, parlo degli altri, vittime o carnefici, che l'aiuto cercato non lo concederanno mai. "Chi non conosce la verità è uno sciocco, ma chi, conoscendola, la chiama bugia, è un delinquente". Aforisma di Bertolt Brecht. Bene. Tante verità soggettive e tante omertà son tasselli che la mente corrompono. Io le cerco, le filtro e nei miei libri compongo il puzzle, svelando l'immagine che dimostra la verità oggettiva censurata da interessi economici ed ideologie vetuste e criminali. Rappresentare con verità storica, anche scomoda ai potenti di turno, la realtà contemporanea, rapportandola al passato e proiettandola al futuro. Per non reiterare vecchi errori. Perché la massa dimentica o non conosce. Denuncio i difetti e caldeggio i pregi italici. Perché non abbiamo orgoglio e dignità per migliorarci e perché non sappiamo apprezzare, tutelare e promuovere quello che abbiamo ereditato dai nostri avi.

The Complete Danteworlds A Reader's Guide to the Divine Comedy *University of Chicago Press* Dante Alighieri's Divine Comedy has, despite its enormous popularity and importance, often stymied readers with its multitudinous characters, references, and themes. But until the publication in 2007 of Guy Raffa's guide to the Inferno, students lacked a suitable resource to help them navigate Dante's underworld. With this new guide to the entire Divine Comedy, Raffa provides readers—experts in the Middle Ages and Renaissance, Dante neophytes, and everyone in between—with a map of the entire poem, from the lowest circle of Hell to the highest sphere of Paradise. Based on Raffa's original research and his many years of teaching the poem to undergraduates, *The CompleteDanteworlds* charts a simultaneously geographical and textual journey, canto by canto, region by region, adhering closely to the path taken by Dante himself through Hell, Purgatory, and Paradise. This invaluable reference also features study questions, illustrations of the realms, and regional summaries. Interpreting Dante's poem and his sources, Raffa fashions detailed entries on each character encountered as well as on many significant historical, religious, and cultural allusions. L'altro

It considers whether their use is an individual matter, rather than a political and social one, with some apps based on a medical framework positively promoting physical activity and meditation, or whether data-sharing can foster social discrimination. **The Value of Worthless Lives Writing Italian American Immigrant Autobiographies** *Fordham Univ Press* There are many good books on Italian immigration to the United States, including success biographies, field researches and historical investigations. What is lacking however is an account of the immigrant experience from a "grassroots" point of view. This book tells the stories of a normal people, the great majority of the immigrant population, through their own, sometimes almost illiterate, words. With this book I aim to contribute to this country's story of immigration with these first-hand accounts of those who lived it, first-generation immigrants. It was said once, by Giuseppe Prezzolini, that Italian immigration left tears and sweat but not "words." The material of this book proves such arrogance wrong. I tried to be as thorough as possible in my field research looking for such "words" on both sides of the Ocean. I consulted Italian and American archives, I looked for books out of print, and scavenged for unpublished ones in private houses and forgotten drawers. What I found fills a silence and gives a wider spectrum of the immigrant experience, from the miner to the tailor, from the janitor to the professor. The book will interest scholars of Italian immigration because it adds information from within the protagonists' self. Their tales may be average, their memory may be inaccurate but their drive toward a new life and their immigrant "philosophy," made of grinding teeth and hope, is all there in its most fresh features. The book will also interest scholars of the autobiographical genre because it adds a new facet to the autobiographical voice. There are only a few studies on the life writing of the lower class (which come from France and England, not the US). I have tried to formulate new concepts that describe the autobiographical "I" of these works, conc **Voci di antichi e di moderni saggi di letteratura italiana Agricoltura attualità italiane e straniere The Imagined Immigrant Images of Italian Emigration to the United States Between 1890 and 1924** *Fairleigh Dickinson Univ Press* Using original sources--such as newspaper articles, silent movies, letters, autobiographies, and interviews--Ilaria Serra depicts a large tapestry of images that accompanied mass Italian migration to the U.S. at the turn of the twentieth century. She chooses to translate the Italian concept of *immaginario* with the Latin *imago* that felicitously blends the double English translation of the word as "imagery" and "imaginary." *Imago* is a complex knot of collective representations of the immigrant subject, a mental production that finds concrete expression; impalpable, yet real. The "imagined immigrant" walks alongside the real one in flesh and rags. **La Bella Lingua My Love Affair with Italian, the World's Most Enchanting Language** *Crown* A celebration of the language and culture of Italy, *La Bella Lingua* is the story of how a language shaped a nation, told against the backdrop of one woman's personal quest to speak fluent Italian. For anyone who has been to Italy, the fantasy of living the Italian life is powerfully seductive. But to truly become Italian, one must learn the language. This is how Dianne Hales began her journey. In *La Bella Lingua*, she brings the story of her decades-long experience with the "the world's most loved and lovable language" together with explorations of Italy's history, literature, art, music, movies, lifestyle and food in a true opera amorosa — a labor of her love of Italy. Over the course of twenty-five years, she has studied Italian through Berlitz, books, CDs, podcasts, private tutorials and conversation groups, and, most importantly, time spent in Italy. In the process the Italian language became not just a passion and a pleasure, but a passport into Italy's storia and its very soul. She invites readers to join her as she traces the evolution of Italian in the zesty graffiti on the walls of Pompeii, in Dante's incandescent cantos and in Boccaccio's bawdy *Decameron*. She portrays how social graces remain woven into the fabric of Italian: even the chipper "ciao," which does double duty as "hi" and "bye," reflects centuries of *bella figura*. And she exalts the glories of Italy's food and its rich and often uproarious gastronomic language: Italians deftly describe someone uptight as a *baccala* (dried cod), a busybody who noses into everything as a *prezzemolo* (parsley), a worthless or banal movie as a *polpettone* (large meatball). Like Dianne, readers of *La Bella Lingua* will find themselves innamorata, enchanted, by Italian, fascinated by its saga, tantalized by its adventures, addicted to its sound, and ever eager to spend more time in its company. **Imperial City Rome under Napoleon** *University of Chicago Press* In 1798, the armies of the French Revolution tried to

transform Rome from the capital of the Papal States to a Jacobin Republic. For the next two decades, Rome was the subject of power struggles between the forces of the Empire and the Papacy, while Romans endured the unsuccessful efforts of Napoleon's best and brightest to pull the ancient city into the modern world. Against this historical backdrop, Nicassio weaves together an absorbing social, cultural, and political history of Rome and its people. Based on primary sources and incorporating two centuries of Italian, French, and international research, her work reveals what life was like for Romans in the age of Napoleon. "A remarkable book that wonderfully vivifies an understudied era in the history of Rome. . . . This book will engage anyone interested in early modern cities, the relationship between religion and daily life, and the history of the city of Rome."—*Journal of Modern History* "An engaging account of Tosca's Rome. . . . Nicassio provides a fluent introduction to her subject."—*History Today* "Meticulously researched, drawing on a host of original manuscripts, memoirs, personal letters, and secondary sources, enabling [Nicassio] to bring her story to life."—*History Tailoring Health Messages Customizing Communication With Computer Technology* *Routledge* Through the use of new technologies, researchers, and practitioners in health education and health communication can now provide health information and behavior change strategies that are customized based on the unique needs, interests, and concerns of different individuals. These tailored health messages can be highly effective in assisting individuals in understanding and responding to health concerns. In this volume, Matthew Kreuter, David Farrell, and their colleagues define the process of tailoring and describe its uses in health communication programs. They present a theoretical and public health rationale for tailoring and support their position with empirical evidence. They also lay out the steps involved in creating and delivering tailored health communication programs, which can then be applied in practice. Practitioners, researchers, and students in health communication, health psychology, public health, and related areas will find this book to be a vital and invaluable resource for improving communication about health issues. *Le Donne Italiane Nella Poesia Provenzale: Su La Treva Di G. de la Tor* *Palala Press* This work has been selected by scholars as being culturally important, and is part of the knowledge base of civilization as we know it. Yet, there is one dimension of his thought that remains unexamined by scholars: the presence of the ancient science of astrology in his writings. This book, the first of its kind, identifies the astrological elements and explains the implications of their usage by Agamben. In so doing, this study challenges us to imagine Agamben's thought in a radically new light. A critical account of the presence of astrology and related themes in Agamben's writings, ranging from the earlier works to the more recent publications, illustrates that the astrological signature constitutes a mode of philosophical archaeology that allows for an enhanced understanding of concepts that are central to his works, such as potentiality, the signature, bare life and biopolitics. *Essentials of Marketing Communications* *Pearson Education* *Essentials of Marketing Communications* 3rd edition gives students a concise overview of the strategic and tactical decision-making processes involved in marketing communications. It also links the current theories of marketing communications to consumer behaviour issues as well as explaining how marketing communications works in the real world. The text is ideal for those studying marketing communications for the first time. *Ornament and Crime* *Penguin UK* Revolutionary essays on design, aesthetics and materialism - from one of the great masters of modern architecture Adolf Loos, the great Viennese pioneer of modern architecture, was a hater of the fake, the fussy and the lavishly decorated, and a lover of stripped down, clean simplicity. They convincingly argue that we need to "reset" our approach to management to one that fits today's demanding business environment. Starting with a change in how success is measured and a more realistic view of risk, Lawler and Worley take us through how strategy, governance, organization structure and talent should be managed. The result is an organization that can reliably produce financial, social, and ecological results. Multilingual Europe Facts and Policies *Walter de Gruyter* This book offers an inclusive perspective on the constellation of languages in Europe by taking into account official state languages, regional minority languages and immigrant minority languages. Although "celebrating linguistic diversity" is one of the key propositions in the European discourse on multilingualism and language policies, this device holds for these three types of languages in a decreasing order. All three types of languages, however, are constituent parts of a multilingual European identity and should be taken into account in any type of language policy. Both facts and policies on multilingualism and plurilingual education are addressed in case studies at the national and European level. The selection of case studies is based on a careful weighing of geographical spread of countries and languages across Europe on the one hand, and availability of established expert knowledge on the other. After an Introduction to the theme of the book (Guus Extra and Durk Gorter), Part I deals with official state languages with a focus on the spread of English as lingua franca across Europe (Juliane House), on French and France (Dennis Ager), on Polish in Poland and abroad (Justyna Lesniewska), and on language constellations in the Baltic States (Gabrielle Hogan-Brun). Part II deals with regional minority languages with a focus on Catalan in Spain (Francesc Xavier Vila i Moreno), Frisian in the Netherlands (Durk Gorter et al.), Hungarian as a minority language in Central Europe (Susan Gal), and Saami in the Nordic countries (Mikael Svonni). Part III deals with immigrant minority languages in the United Kingdom (Viv Edwards), Sweden (Lilian Nygren-Junkin), Italy (Monica Barni and Carla Bagna) and Europe at large (Guus Extra and Kutlay Yağmur).

Story of My People *Other Press, LLC* Winner of the 2011 Strega Prize, this blend of essay, social criticism, and memoir is a striking portrait of the effects of globalization on Italy's declining economy. Starting from his family's textile factory in Prato, Tuscany, Edoardo Nesi examines the recent shifts in Italy's manufacturing industry. Only one generation ago, Prato was a thriving industrial center that prided itself on craftsmanship and quality. But during the last decade, cheaply made goods—produced overseas or in Italy by poorly paid immigrants—saturated the market, making it impossible for Italian companies to keep up. In 2004 his family was forced to sell the textile factory. How this could have happened? Nesi asks, and what are the wider repercussions of losing businesses like his family's, especially for Italian culture? *Story of My People* is a denouncement of big business, corrupt politicians, the arrogance of economists, and cheap manufacturing. It's a must-read for anyone seeking insight into the financial crisis that's striking Europe today.
