Ethiopian Literature in Amharic The Brothers Karamazov First Avenue Editions Four brothers reunite in their hometown in Russia. The murder of their father forces the brothers to question their beliefs about each other, religion, and morality. The World as Will and Representation Aegitas The World as Will and Representation is the central work of the German philosopher Arthur Schopenhauer. One of the most important philosophical works of the nineteenth century, the basic statement of one important stream of post-Kantian thought. It is without question Schopenhauer's greatest work. Conceived and published before the philosopher was 30 and expanded 25 years later, it is the summation of a lifetime of thought. "...This book will be of interest to general readers, undergraduates, graduates, and scholars in the field." --George Lăzăroiu, PhD, Institute of Interdisciplinary Studies in Humanities and Social Sciences, New York, Analysis and Metaphysics Five Feet Apart Simon & Schuster Books for Young Readers Now a major motion picture starring Cole Sprouse and Haley Lu Richardson! Goodreads Choice Winner, Best Young Adult Fiction of 2019 In this #1 New York Times bestselling novel that's perfect for fans of John Green's The Fault in Our Stars, two teens fall in love with just one minor complication—they can't get within a few feet of each other without risking their lives. Can you love someone you can never touch? Stella Grant likes to be in control—even though her totally out of control lungs have sent her in and out of the hospital most of her life. At this point, what Stella needs to control most is keeping herself away from anyone or anything that might pass along an infection and jeopardize the possibility of a lung transplant. Six feet apart. No exceptions. The only thing Will Newman wants to be in control of is getting out of this hospital. He couldn't care less about his treatments, or a fancy new clinical drug trial. Soon, he'll turn eighteen and then he'll be able to unplug all these machines and actually go see the world, not just its hospitals. Will's exactly what Stella needs to stay away from. If he so much as breathes on Stella she could lose her spot on the transplant list. Either one of them could die. The only way to stay alive is to stay apart. But suddenly six feet

doesn't feel like safety. It feels like punishment. What if they could steal back just a little bit of the space their broken lungs have stolen from them? Would five feet apart really be so dangerous if it stops their hearts from breaking too?

The Count of Monte Cristo BookRix The Count of Monte Cristo is an adventure novel by French author Alexandre Dumas. It is one of the author's most popular works, along with The Three Musketeers. Like many of his novels, it is expanded from plot outlines suggested by his collaborating ghostwriter Auguste Maquet. The story takes place in France, Italy and islands in the Mediterranean during the historical events of 1815-1838. It begins from just before the Hundred Days period (when Napoleon returned to power after his exile) and spans through to the reign of Louis-Philippe of France. The historical setting is a fundamental element

of the book. An adventure story primarily concerned with themes of hope, justice, vengeance, mercy and forgiveness, it focuses on a man who is wrongfully imprisoned, escapes from jail, acquires a fortune and sets about getting revenge on those responsible for his imprisonment. However, his plans have devastating consequences for the innocent as well as the guilty. In addition, it is a story that involves romance, loyalty, betrayal and selfishness, shown throughout the story as characters slowly reveal their true inner nature. The book is considered a literary classic today. According to Luc Sante, "The Count of Monte Cristo has become a fixture of Western civilization's literature, as inescapable and immediately identifiable as Mickey Mouse, Noah's flood, and the story of Little Red Riding Hood." A featured resource in the Linux Foundation's "Evolution of a SysAdmin" Introductory Grammar of Amharic Otto Harrassowitz Verlag This book closes the gap for beginners who want to study the Amharic language and had difficulties in finding the right grammar for this purpose: The first grammar of Amharic, the national language of Ethiopia, was published by Hiob Ludolf in 1698. The Amharic grammar published by Praetorius in 1879 is based on Amharic religious texts and on scattered material, usually composed by missionaries. A milestone in the study of Amharic is Marcel Cohen's Traite de langue

amharique (1936), but this grammar, too is not completely suited for beginners since the author's generalizations are at times aimed at linguists. The grammar that comes closest to the concept of a beginner's grammar is that of C.H. Dawkin (1960), yet this grammar is extremely short, does not give examples and does not introduce the student to the intricacies of the language. The new book gives all the grammatical forms and the sentences of the present grammar in Amharic script and in phonetic transcription. The illustrative examples have a free and a literal translation. This procedure should likewise prove to be useful for the Semitist as well as for the general linguist.

This book is about how to get there. 'Peter Thiel has built multiple breakthrough companies, and Zero to One shows how.'
ELON MUSK, CEO of SpaceX and Tesla 'This book delivers completely new and refreshing ideas on how to create value in the world.'
MARK ZUCKERBERG, CEO of Facebook 'When a risk taker writes a book, read it. In the case of Peter Thiel, read it twice. Or, to be safe, three times. This is a classic.'

Start-up Nation The Story of Israel's Economic Miracle Hachette UK What the world can learn from Israel's meteoric economic success. **Start-Up Nation** addresses the trillion dollar question: How is it that Israel -- a country of 7.1 million, only 60 years old, surrounded by enemies, in a constant state of war since its founding, with no natural resources-- produces more start-up companies than large, peaceful, and stable nations like Japan, China, India, Korea, Canada and the UK? With the savvy of foreign policy insiders, Senor and Singer examine the lessons of the country's adversity-driven culture, which flattens hierarchy and elevates informality-- all backed up by government policies focused on innovation. In a world where economies as diverse as Ireland, Singapore and Dubai have tried to re-create the "Israel effect", there are entrepreneurial lessons well worth noting. As America reboots its own economy and can-do spirit, there's never been a better time to look at this remarkable and resilient nation for some impressive, surprising clues.

Students are urged to think for themselves and engage with Marx's powerful methods of argument and explanation. Shapiro shows that *Capital* is key to understanding critical theory and cultural production. This highly focused book will prove invaluable to students of politics, cultural studies and literary theory.

Modern Abyssinia: The Power of Continuity Ethiopia Through the Eyes of Its Children Nordic Africa Institute "In this gracefully written book Dr. Eva Poluha wrestles with important issues of Ethiopian political culture and cultural continuity and transmission in general. Drawing upon her years of experience in the country, as well as the data from this school ethnography, she has produced a stimulating and thought-provoking work for those interested in problems of cross-cultural education as well as in Ethiopia." -- Herbert S. Lewis, Professor Emeritus, Department of Anthropology, University of Wisconsin-Madison

Children play a vital role as a source of information on politics but have been neglected as political actors in research contexts. In this study, children are used as a window to an Ethiopian society where hierarchical relations persist, despite the numerous political and administrative transformations of the past century. With data gathered through participant observation the book examines how young, Addis Abeba school children learn to adapt to and reproduce relations of superordination or subordination based on gender, age, strength and social position. The children's experiences are viewed in the historical context of state-citizen relations where hierarchy and obsession with control have been and continue to be dominant. The discussion focuses on the power of

continuity in the reproduction of cultural patterns and political behaviour, and on how change towards more egalitarian relations could come about. Crime and Punishment Standard Ebooks Crime and Punishment tells the story of Rodion Raskolnikov, an ex-student who plans to murder a pawnbroker to test his theory of personality. Having accomplished the deed, Raskolnikov struggles with mental anguish while trying to both avoid the consequences and hide his guilt from his friends and family. Dostoevsky's original idea for the novel centered on the Marmeladov family and the impact of alcoholism in Russia, but inspired by a double murder in France he decided to rework it around the new character of Raskolnikov. The novel was first serialized in The Russian Messenger over the course of 1866, where it was an instant success. It was published in a single volume in 1867. Presented here is Constance Garnett's 1914 translation. This book is part of the Standard Ebooks project, which produces free public domain ebooks. The genie allowed each person to bring one thing. The first friend brought a canteen so he wouldn't die of thirst. The second friend brought an umbrella to keep the sun off. The Equatoguinean brought a car door, because if it got too hot she could just roll down the window! *** Did you hear about the Equatoguinean who wore two jackets when she painted the house? Ethnicity and Power in the Contemporary World United Nations Univ Violent internal conflicts are the predominant form of warfare in the world today, and there is an urgent need to understand their causes and find ways for their prevention or resolution. The 15 essays collected here present a variety of perspectives, conceptions, arguments, and conclusions regarding ethnicity, power, and conflict in the contemporary world. Scholars from Africa, Europe, Asia, and North America explore conflicts and conflict resolution approaches in regions of the former Soviet Union, the Horn of Africa, India, the Basque region of Spain, the former Yugoslavia, Northern Ireland, and the United States. The cases that are presented here reveal the complexity of conflict and the variety of factors and motives underlying the resurgence of ethnicity and the shifting power relationships of the post-Cold War world, and they demonstrate that the solutions will at times necessarily be complex and various. Readers of this timely study will discover a wide geographic and experiential range and a rich and lively debate among the essays on one of the most urgent dilemmas of the contemporary world.
