### **THE WESTERN FRONT**

---

---

### **LANDSCAPE, TOURISM AND HERITAGE**

---

*Pen and Sword* The Western Front has become, once again, and after 100 years, an important and increasingly popular tourist destination. The Centenary is already encouraging large numbers of visitors to engage with this highly poignant landscape of war and to commemorate the sacrifice and loss of a previous generation. Interest is also being sharpened in the Ôplaces of warÕ as battle-sites, trench-systems, bunkers and mine craters gain a clearer identity as war heritage. For the first time this book brings together the three strands of heritage, landscape and tourism to provide a fresh understanding of the multi-layered nature of the Western Front. The book approaches the area as a rich dynamic landscape which can be viewed in a startling variety of ways: historically, materially, culturally, and perceptually. To illustrate these two dominant interpretations of the regionÕs landscape Ð commemorative and heritage Ð are highlighted and their relationship to tourism explored. Tourism is a lens through which these layers can be peeled away, and each understood and interacted with according to the individualÕs own knowledge,

motivation, and degree of emotional engagement. Tourism is not regarded here as a passive phenomenon, but as an active agent that can determine, dictate and inscribe this evocative landscape. *The Western Front: Heritage, Landscape and Tourism* is a timely addition to our increasing interest in the First World War and the places where it was fought. It will be indispensable to those who seek a deeper understanding of the conflict from previously undervalued perspectives.

## **LEISURE MATTERS**

---

### **THE STATE AND FUTURE OF LEISURE STUDIES**

---

*Venture Publishing Incorporated, U.S.* This book updates and expands Jackson and Burtons "Mapping the Past, Charting the Future" (1989) and "Leisure Studies: Prospects for the Twenty-First Century" (1999). The need to do so was driven by the significant new developments in the leisure studies field as well as the arrival of new and upcoming experts in specific areas of study. The book features new sections on: Disciplinary Perspectives (including chapters on anthropology, history, philosophy, psychology, sociology, biology, and economics of leisure); Cognate Area Perspectives (including chapters on leisure, health, and physical activity; leisure and religion/spirituality; sport as leisure; and tourism); International Perspectives (including chapters on leisure in Africa, Australia and New Zealand, East Asia, Europe, Latin America); Diverse Perspectives (including chapters on leisure in terms of youth, family, older adults, immigrants, racial and ethnic groups, the LGBTQ community; and people with disabilities). Other book chapters focus on leisure theory; leisure, time, and technology; leisure needs, motivations, and constraints; leisure, place, and social capital; leisure planning, marketing, and management; leisure research methods; and the future of the leisure studies field. Approximately 80% of each chapter summarises the current state of that specific leisure concept, topic, or area, while the remaining 20% dares to speculate imaginatively about where it could (and should) proceed in the future. Both summary and speculation are limited to approximately 6,000 words, as chapter authors were instructed to heed French philosopher Blaise Pascals (1656) oft-cited apology that I have only made this letter longer because I have not had the time to make it shorter. While the book maintains the spirit and rigour of Jackson and Burtons earlier books, it also reflects the growth and maturity that has subsequently occurred in the leisure studies field.

## **RECREATION BUSINESS**

---

---

### **STRATEGIES FOR SUCCESS**

---

Recreation Business: Strategies for Success is a conversation about leisure-based businesses for classroom and online courses. From the point of view of a senior scholar who has studied leisure and its social contexts for 5 decades, Kelly begins by introducing the scope and variety of recreation businesses and discusses major issues in the field. Then he turns toward social and behavioral science research about recreation and leisure that has been developed since 1970, answering the question, how does this research guide and direct the beginning and operation of a recreation business? Throughout the book, Kelly encourages dialogue and learning through questions, cases, research ideas, debates, online resources, and more. The beginning is that leisure is different. The focus is on what a recreation business sells or rents: an experience. The crucial element is quality. And decades of study have yielded a lot of insight into how leisure experiences can be raised to a level that will attract and retain clients. John R. (Jack) Kelly

## **PREVENTING FATAL INCIDENTS IN SCHOOL AND YOUTH GROUP CAMPS AND EXCURSIONS**

---

---

### **UNDERSTANDING THE UNTHINKABLE**

---

*Springer* This book approaches the prevention of fatal incidents in outdoor education and related fields through detailed study of past tragedies. Although safety in many fields is built on accumulated lessons from past incidents, tragedies on school or youth group camps and excursions are so infrequent and so widely scattered that knowledge from previous incidents can elude those who would benefit. Nevertheless, the emergence of unlearned lessons from the past weighs heavily when those affected by a tragedy judge whether an incident should have been prevented. This book provides a foundation for a detailed and comprehensive understanding of fatality prevention in outdoor education, and in youth camps and excursions. It compiles, examines, and analyses information on fatal incidents that have occurred over many decades, involving many kinds of groups and endeavours, from around the globe. No previous work has attempted this task.

## **PASTIMES**

---

---

### **THE CONTEXT OF CONTEMPORARY LEISURE**

---

This sixth edition reflects almost 40 years of scholarship as well as professional and personal practice in recreation, parks, and tourism. The text has become one of the most widely adopted titles in university courses worldwide. In this new edition of the book, the phenomenon of leisure is presented through new research findings and contemporary societal dilemmas to suggest that leisure is one of the most interesting, relevant, and exciting subjects of study today. The book reflects a wide range of material from the disciplines of leisure studies, sociology, psychology, economics, political science, anthropology, geography, the humanities, and media and cultural studies. Indeed, more than a textbook, this is very much a point of view. Leisure is presented as a human phenomenon that is individual and collective, vital and frivolous, historical and contemporary, factual and subjective, and good and bad. As a learning tool, this sixth edition teaches more. It contains updated and new illustrations of concepts through field-based cases, biographical features, exploratory activities, and research studies. In the first part, leisure is defined as a condition of humanity. Its meanings are traced through the humanities and history, as well as in today's connotations. The benefits of leisure are presented, ranging from freedom to pleasure to risk to spirituality, and leisure's benefit to healthful well-being is demonstrated. As well, part one of the text presents theories for explaining leisure behavior. Part Two discusses leisure as a cultural mirror -- its societal context. Chapters include leisure and anthropology, geography, technology, popular culture, and taboo recreation. Finally, in Part Three, the functional side of leisure is explored in terms of its instrumental relationship to work, money, time, and equity. Leisure systems of public, private, and commercial sponsorship are described to confirm leisure's utility. Instructor resources and a website for student resources available.

## **YOUTH DEVELOPMENT, 2ND ED**

---

---

### **PRINCIPLES AND PRACTICES IN OUT-OF-SCHOOL TIME SETTINGS**

---

Out-of-school time (OST) settings are powerful contexts for youth development when programs and services are intentionally designed. Youth Development Principles and Practices in Out-of-School Time Settings was written to increase the capacity of students and professionals to facilitate youths' optimal transition to adulthood through maximizing the developmental benefits accrued by participating in OST programs and experiences. Peter A. Witt and Linda L. Caldwell, two well-respected researchers in the youth development field, have brought together a group of outstanding authors who provide an exceptional blend of theory- and practice-based information critical to anyone seeking to conceptualize, design, and evaluate OST

programs. All chapters are based on tenets of positive youth development necessary to enable youth to thrive. The book is divided into five sections: (1) youth development principles and foundational information (e.g., youth today as well as an historical perspective on youth work); (2) developing youths potential (including specific chapters on leisure and recreation, youth sport, nature-based activities and the arts); (3) systematic program planning and evaluation of youth programs. (4) the role of adults and families in the lives of youth; (5) issues of diversity in youth development (e.g., race and ethnicity, immigrant, LGBT, and ability level). A final chapter discusses the knowledge, skills, and behaviors necessary to become a skilled youth professional. Each chapter ends with thought-provoking discussion questions and assignments that encourage application and further exploration of the chapters content. The book is a must read for students and practitioners seeking to understand youth today and support their development through out-of-school time programs.

## **SPORT, LEISURE AND SOCIAL JUSTICE**

---

*Taylor & Francis* Social inequalities are often reproduced in sport and leisure contexts. However, sport and leisure can be sites of resistance as well as oppression; they can be repressive or promote positive social change. This challenging and important book brings together contemporary cases examining different dimensions of inequality in sport and leisure, ranging from race and ethnicity to gender, sexual orientation, disability, religion and class. Presenting research-based strategies in support of social justice, this book places the experiences of disadvantaged communities centre stage. It addresses issues affecting participation, inclusion and engagement in sport, while discussing the challenges faced by specific groups such as Muslim women and LGBT young people. Including original theoretical and methodological insights, it argues that the experiences of these marginalised groups can shed a light on the political struggles taking place over the significance of sport and leisure in society today. Sport, Leisure and Social Justice is fascinating reading for students and academics with an interest in sport and politics, sport and social problems, gender studies, race and ethnicity studies, or the sociology of sport.

## **INTRODUCTION TO RECREATION SERVICES FOR PEOPLE WITH DISABILITIES, 4TH ED**

---

Introduction to Recreation Services for People With Disabilities continues to reflect a broad-based explanation of the role of practitioners in the interrelated fields of therapeutic recreation, inclusive recreation, and special recreation. This fourth edition represents a major revision, including the most current research and thinking about the interdisciplinary fields of recreation and disability studies. This book is intended to be an introductory text for all students in parks and recreation/leisure studies departments. Every student, whether she or he intends to work in a provincial park or a state hospital, a community recreation center or a community mental health center, a public school or a cruise ship, needs a basic level of knowledge about people with disabilities. The central theme of this book is that people with disabilities are people who have the same needs and wants as anyone else and deserve the right to be at the center of their services. Each person with a disability is a person first, not a disability. Recreation services must be centered around the person who is being served. That is, whether treatment-oriented recreation therapy, goal-oriented special recreation, or activity-oriented inclusive recreation, it is the person and not the professional or even the activity that must be at the center of service delivery. It is our hope that you will begin to see people with disabilities as people as you learn about recreation and therapeutic recreation services. If you emerge from this book (or your class) with this person-centered knowledge, then you will have learned a lot about how to provide recreation services to people with disabilities. Whether or not you happen to be a person with a disability, our more earnest hope is that you will emerge with a commitment to ensure that people with disabilities are treated as people who are at the center of their programs and services. This means that you will become an advocate, maybe even a zealot, on behalf of people with disabilities. You will encourage friends and colleagues to use people-first and respectful language. You will refrain from jokes that perpetuate stereotypes. You will be part of a new breed of recreation and therapeutic recreation professionals who celebrate differences and strive to provide person-centered and responsive services.
