IN MY TIME

A PERSONAL AND POLITICAL MEMOIR

Simon and Schuster In this eagerly anticipated memoir, former Vice President Dick Cheney delivers an unyielding portrait of American politics over nearly forty years and shares personal reflections on his role as one of the most steadfast and influential statesmen in the history of our country. The public perception of Dick Cheney has long been something of a contradiction. He has been viewed as one of the most powerful vice presidents—secretive, even mysterious, and at the same time opinionated and unflinchingly outspoken. He has been both praised and attacked by his peers, the press, and the public. Through it all, courting only the ideals that define him, he has remained true to himself, his principles, his family, and his country. Now in an enlightening and provocative memoir, a stately page-turner with flashes of surprising humor and remarkable candor, Dick Cheney takes readers through his experiences as family man, policymaker, businessman, and politician during years that shaped our collective history. Born into a family of New Deal Democrats in Lincoln, Nebraska, Cheney was the son of a father at war and a high-spirited and resilient mother. He came of age in Casper, Wyoming, playing baseball and football and, as senior class president, courting homecoming queen Lynne Vincent, whom he later married. This all-American story took an abrupt turn when he flunked out of Yale University, signed on to build power line in the West, and started living as hard as he worked. Cheney tells the story of how he got himself back on track and began an extraordinary ascent to the heights of American public life, where he would remain for nearly four decades: * He was the youngest White House Chief of Staff, working for President Gerald Ford—the first of four chief executives he would come to know well. * He became Congressman from Wyoming and was soon a member of the congressional leadership working closely with President Ronald Reagan. * He became secretary of defense in the George H. W. Bush administration, overseeing America’s military during Operation Desert Storm and in the historic transition at the end of the Cold War. * He was CEO of Halliburton, a Fortune 500 company with projects and personnel around the globe. * He became the first vice president of the United States to serve out his term of office in the twenty-first century. Working with George W. Bush from the beginning of the global war on terror, he was—and remains—an outspoken defender of taking every step necessary to defend the nation. Eyewitness to history at the highest levels, Cheney brings to life scenes from past and present. He describes driving through the White House gates on August 9, 1974, just hours after Richard Nixon resigned, to begin work on the Ford transition; and he portrays a time of national crisis a quarter century later when, on September 11, 2001, he was in the White House bunker and conveyed orders to shoot down a hijacked airliner if it would not divert. With its unique perspective on a remarkable span of American history, In My Time will enlighten. As an intimate and personal chronicle, it will surprise, move, and inspire. Dick Cheney’s is an enduring political vision to be reckoned with and admired for its honesty, its wisdom, and its resonance. In My Time is truly the last word about an incredible political era, by a man who lived it and helped define it—with courage and without compromise.

IN MY TIME

A PERSONAL AND POLITICAL MEMOIR

Simon and Schuster For the first time, former Vice President Dick Cheney opens up about a life and career in politics that has spanned more than four decades.

NOW IT'S MY TURN

A DAUGHTER'S CHRONICLE OF POLITICAL LIFE

Simon and Schuster Who is Mary Cheney? In the most eagerly awaited political memoir of the season, Mary Cheney, who served as a top campaign aide to her father, the vice president, presents a behind-the-scenes look at the high-intensity world of presidential politics and talks for the first time about her life, her family, and her role in the campaigns of 2000 and 2004. As a senior adviser to her father, she was in the middle of every major event of the 2000 and 2004 presidential contests -- at the conventions, the debates, and on the trail. Both elections made history -- and so did Mary. And for the first time ever, she writes about what it was like to be at the center of her father's campaigns as his daughter, as a member of the senior staff, and, though she never intended it, as a political target for the other side. Mary, her experiences, and her opinions, have been the subject of intense debate in the media and from activists on both ends of the political spectrum, but she has never spoken publicly about herself, her life, or her political views -- until now. In Now It's My Turn, a frank, funny, and down-to-earth memoir, Mary Cheney describes life inside the bubble of a national campaign. She talks about her close relationship with her parents, how it feels to be pursued by the press, and what it was like when John Edwards and John Kerry made her sexual orientation an issue in live debates televised to millions of Americans. As she describes it, life inside a presidential campaign can be uplifting, frustrating, and heartbreaking, but no matter what else it may be, it's always entertaining.

IN MY TIME : A PERSONAL AND POLITICAL MEMOIR

EXCEPTIONAL

WHY THE WORLD NEEDS A POWERFUL AMERICA

Simon and Schuster "Former vice president Dick Cheney and his daughter Liz Cheney explain the unique and indispensable nature of American power, reveal the damage done by President Obama's abandonment of this principle, and show how America can and must lead again"--

CHENEY

THE UNTOLD STORY OF AMERICA'S MOST POWERFUL AND CONTROVERSIAL VICE PRESIDENT

Harper Collins During a forty-year career in politics, Vice President Dick Cheney has been involved in some of the most consequential decisions in recent American history. He was one of a few select advisers in the room when President Gerald Ford decided to declare an end to the Vietnam War. Nearly thirty years later, from the presidential bunker below the White House in the moments immediately following the attacks of September 11, 2001, he helped shape the response: America's global war on terror. Yet for all of his influence, the world knows very little about Dick Cheney. The most powerful vice president in U.S. history has also been the most secretive and guarded of all public officials. "Am I the evil genius in the corner that nobody ever sees come out of his hole?" Cheney asked

rhetorically in 2004. "It's a nice way to operate, actually." Now, in *Cheney: The Untold Story of America's Most Powerful and Controversial Vice President*, New York Times bestselling author and Weekly Standard senior writer Stephen F. Hayes offers readers a groundbreaking view into the world of this most enigmatic man. Having had exclusive access to Cheney himself, Hayes draws upon hundreds of interviews with the vice president, his boyhood friends, political mentors, family members, reticent staffers, and senior Bush administration officials, to deliver a comprehensive portrait of one of the most important political figures in modern times. The wide range of topics Hayes covers includes Cheney's withdrawal from Yale; his early run-ins with the law; the incident that almost got him blackballed from working in the Ford White House; his meteoric rise to congressional leadership; his opposition to removing Saddam Hussein from power after the first Gulf War; the solo, cross-country drive he took after leaving the Pentagon; his selection as Bush's running mate; his commanding performance on 9/11; the aggressive intelligence and interrogation measures he pushed in the aftermath of those attacks; the necessity of the Iraq War; the consequences of mistakes made during and after that war; and intelligence battles with the CIA and their lasting effects. With exhaustive reporting, Hayes shines a light into the shadows of the Bush administration and finds a very different Dick Cheney from the one America thinks it knows.

HEART

AN AMERICAN MEDICAL ODYSSEY

Simon and Schuster Former Vice President Dick Cheney and his longtime cardiologist, Dr. Jonathan Reiner, share the story of Cheney's thirty-five-year battle with heart disease—providing insight into the incredible medical breakthroughs that have changed cardiac care over the last four decades. For as long as he has served at the highest levels of business and government, Vice President Dick Cheney has also been one of the world's most prominent heart patients. Now, for the first time ever, Cheney, together with his longtime cardiologist, Jonathan Reiner, MD, shares the very personal story of his courageous thirty-five-year battle with heart disease, from his first heart attack in 1978 to the heart transplant he received in 2012. In 1978, when Cheney suffered his first heart attack, he received essentially the same treatment President Eisenhower had had in 1955. Since then, cardiac medicine has been revolutionized, and Cheney has benefitted from nearly every medical breakthrough. At each juncture, when Cheney faced a new health challenge, the technology was one step ahead of his disease. Cheney's story is in many ways the story of the evolution of modern cardiac care. *Heart* is the riveting, singular memoir of both doctor and patient. Like no US politician has before him, Cheney opens up about his health struggles, sharing harrowing, never-before-told stories about the challenges he faced during a perilous time in our nation's history. Dr. Reiner provides his perspective on Cheney's case and also gives readers a fascinating glimpse into his own education as a doctor and the history of our understanding of the human heart. He masterfully chronicles the important discoveries, radical innovations, and cutting-edge science that have changed the face of medicine and saved countless lives. Powerfully braiding science with story and the personal with the political, *Heart* is a sweeping, inspiring, and ultimately optimistic book that will give hope to the millions of Americans affected by heart disease.

THE GREAT RIFT

DICK CHENEY, COLIN POWELL, AND THE BROKEN FRIENDSHIP THAT DEFINED AN ERA

Henry Holt and Company The Great Rift is a sweeping history of the intertwined careers of Dick Cheney and Colin Powell, whose rivalry and conflicting views of U.S. national security color our political debate to this day. Dick Cheney and Colin Powell emerged on the national scene more than thirty years ago, and it is easy to forget that they were once allies. The two men collaborated closely in the successful American wars in Panama and Iraq during the presidency of George H. W. Bush—but from this pinnacle, conflicts of ideology and sensibility drove them apart. Returning to government service under George W. Bush in 2001, they (and their respective allies within the administration) fell into ever-deepening antagonism over the role America should play in a world marked by terrorism and other nontraditional threats. In a wide-ranging, deeply researched, and dramatic narrative, James Mann explores each man's biography and philosophical predispositions to show how and why this deep and permanent rupture occurred. Through dozens of original interviews and surprising revelations from presidential archives, he brings to life the very human story of how this influential friendship turned so sour and how the enmity of these two powerful men colored the way America acts in the world.

JAMES MADISON

A LIFE RECONSIDERED

Penguin A major new biography of the fourth president of the United States by New York Times bestselling author Lynne Cheney Lin-Manuel Miranda's play "Hamilton" has reignited interest in the founding fathers; it features James Madison among its vibrant cast of characters. This majestic new biography of James Madison explores the astonishing story of a man of vaunted modesty who audaciously changed the world. Among the Founding Fathers, Madison was a true genius of the early republic. Outwardly reserved, Madison was the intellectual driving force behind the Constitution and crucial to its ratification. His visionary political philosophy and rationale for the union of states—so eloquently presented in *The Federalist* papers—helped shape the country Americans live in today. Along with Thomas Jefferson, Madison would found the first political party in the country's history—the Democratic Republicans. As Jefferson's secretary of state, he managed the Louisiana Purchase, doubling the size of the United States. As president, Madison led the country in its first war under the Constitution, the War of 1812. Without precedent to guide him, he would demonstrate that a republic could defend its honor and independence—and remain a republic still.

KNOWN AND UNKNOWN

A MEMOIR

Penguin Visit www.rumsfeld.com for more. Discover *Known and Unknown Deluxe* offering an unprecedented reading experience for a memoir by a major public figure. For web-connected readers, it features more than 500 links to never-before-available original documents from Donald Rumsfeld's extensive personal archive. It includes State Department cables, correspondence, and memoranda on topics such as Vietnam, Watergate, the days following 9/11, the wars in Iraq and Afghanistan, and much more. Available in ePub and Adobe Reader. Like Donald Rumsfeld, *Known and Unknown* pulls no punches. With the same directness that defined his career in public service, Rumsfeld's memoir is filled with previously undisclosed details and insights about the Bush administration, 9/11, and the wars in Afghanistan and Iraq. It also features Rumsfeld's unique and often surprising observations on eight decades of history: his experiences growing up during the Depression and World War II, his time as a Naval aviator; his service in Congress starting at age 30; his cabinet level positions in the Nixon and Ford White Houses; his assignments in the Reagan administration; and his years as a successful business executive in the private sector. Rumsfeld addresses the challenges and controversies of his illustrious career, from the unseating of the entrenched House Republican leader in 1965, to helping the Ford administration steer the country away from Watergate and Vietnam, to bruising battles over transforming the military for the 21st century, to the war in Iraq, to confronting abuse at Abu Ghraib and allegations of torture at Guantanamo Bay. Along the way, he offers his plainspoken, first-hand views and often humorous and surprising anecdotes about some of the world's best known figures, from Margaret Thatcher to Saddam Hussein, from Henry Kissinger to Colin Powell, from Elvis Presley to Dick Cheney, and each American president from Dwight D. Eisenhower to George W. Bush. Rumsfeld relies not only on his memory but also on previously unreleased and recently declassified documents. Thousands of pages of documents not yet seen by the public will be made available on an accompanying website. *Known and Unknown* delivers both a fascinating narrative for today's readers and an unprecedented resource for tomorrow's historians. Proceeds from the sales of *Known and Unknown* will go to the veterans charities supported by the Rumsfeld Foundation.

THE CO-PRESIDENCY OF BUSH AND CHENEY

Stanford University Press The Bush administration is out but the American public continues to suffer from its disastrous domestic and foreign policies. In this excellently documented work, presidential scholar Shirley Anne Warshaw offers an in-depth analysis and exploration of the political maneuvering that got us into our current mess. Combining her study of the motivations of both Dick Cheney and George W. Bush, knowledge of the spheres in which they operated, and personal interviews with White House staff and Washington insiders, Warshaw demonstrates that these complementary conservatives were nothing less than co-presidents. Breaking with popular sentiment, she denies that Bush's authority was hijacked or stolen. Bush, rather, focused on building what he called a moral and civil society, anchored by a war on science and by the proliferation of faith-based programs, while allowing Cheney to lead in business and foreign policy. Warshaw highlights Cheney's decades-long career in Washington and his familiarity with its inner workings to present a complete picture of this calculating political powerhouse who continues to capture headlines. From Cheney's unprecedented merging of the vice president's office into the president's to his abhorrence of what he deemed congressional interference in the president's ability to do his job, Warshaw paints an intriguing, and at times frightening, portrait.

ANGLER

THE CHENEY VICE PRESIDENCY

[Penguin](#) Evaluates the ways in which Dick Cheney has redefined the role of the American vice presidency by assuming unprecedented responsibilities and wielding history-making power.

DAYS OF FIRE

BUSH AND CHENEY IN THE WHITE HOUSE

[Anchor Books](#) A senior White House correspondent presents a history of the Bush and Cheney White House years that shares anecdotes by more than two hundred insiders to explore the inner conflicts that shaped the handling of significant events.

THE GOOD FIGHT

A LIFE IN LIBERAL POLITICS

[Simon and Schuster](#) Former vice president Walter Mondale makes a passionate, timely argument for American liberalism in this revealing and momentous political memoir. For more than five decades in public life, Walter Mondale has played a leading role in America's movement for social change—in civil rights, environmentalism, consumer protection, and women's rights—and helped to forge the modern Democratic Party. In *The Good Fight*, Mondale traces his evolution from a young Minnesota attorney general, whose mentor was Senator Hubert H. Humphrey, into a U.S. senator himself. He was instrumental in pushing President Johnson's Great Society legislation through Congress and battled for housing equality, against poverty and discrimination, and for more oversight of the FBI and CIA. Mondale's years as a senator spanned the national turmoil of the Nixon administration; its ultimate self-destruction in the Watergate scandal would change the course of his own political fortunes. Chosen as running mate for Jimmy Carter's successful 1976 campaign, Mondale served as vice president for four years. With an office in the White House, he invented the modern vice presidency; his inside look at the Carter administration will fascinate students of American history as he recalls how he and Carter confronted the energy crisis, the Iran hostage crisis, the Soviet invasion of Afghanistan, and other crucial events, many of which reverberate to the present day. Carter's loss to Ronald Reagan in the 1980 election set the stage for Mondale's own campaign against Reagan in 1984, when he ran with Geraldine Ferraro, the first woman on a major party ticket; this progressive decision would forever change the dynamic of presidential elections. With the 1992 election of President Clinton, Mondale was named ambassador to Japan. His intriguing memoir ends with his frank assessment of the Bush-Cheney administration and the first two years of the presidency of Barack Obama. Just as indispensably, he charts the evolution of Democratic liberalism from John F. Kennedy to Clinton to Obama while spelling out the principles required to restore the United States as a model of progressive government. *The Good Fight* is replete with Mondale's accounts of the many American political heavyweights he encountered as either an ally or as an opponent, including JFK, Johnson, Humphrey, Nixon, Senator Edward M. Kennedy, the Reverend Jesse Jackson, Senator Gary Hart, Reagan, Clinton, and many others. Eloquent and engaging, *The Good Fight* illuminates Mondale's philosophies on opportunity, governmental accountability, decency in politics, and constitutional democracy, while chronicling the evolution of a man and the country in which he is lucky enough to live.

DICK CHENEY SAVES PARIS

[Ryan Forsythe](#) With insight, humor, and a bit of "I don't know what," Ryan Forsythe turns the modern political satire on its head in this alternative historical novel exploring why Dick Cheney has done the things he's done. We first meet a young Richard Bruce "Dick" Cheney in the year 2791 as he endures another of his Dad's lectures on the terrible no good Gore presidency—the source of all suffering in the world after a series of freak time travel accidents vaporized our dearest celebrities. Soon Cheney is on a joyride through time with his buddy Kimo. Unfortunately, their time machine stalls out on the Interyear and Dick finds he is stuck in the Nixon administration. Recalling his father's rants, Cheney realizes he has the opportunity to change history. If he can ensure Gore loses the 2000 election, perhaps 800 years later he could finally make his old man proud. Will the assistance of alien pinochle player Donald Rumsfeld be enough? Or will he have to enlist both foul-mouthed mob boss Ralph Nader and the secretly Republication robot Joseph Lieberman? And what does the Iran-Contra scandal have to with any of this? Forsythe skewers the conventions of modern books and DVDs, with numerous "bonus features." Included are a "Deleted Epilogue" (obviously not deleted); a faux Author Commentary featuring Forsythe and Cheney discussing Cheney's actions in chapter one; and a Reading Group Guide, featuring discussion questions and an author interview. *Dick Cheney Saves Paris* heralds a new voice in the genre of personal and political madcap sci-fi meta- anti- novels. Read the book about which Brian K. Vaughan says, 'There is no way in hell I'm gonna read this, much less blurb it.'

VICE

DICK CHENEY AND THE HIJACKING OF THE AMERICAN PRESIDENCY

[Random House](#) The untold story of Dick Cheney: the most powerful yet most unpopular vice president in American history. Cheney's relentless rise to political prominence over three decades happened almost by stealth. Veteran reporters Lou Dubose and Jake Bernstein reveal the disturbing truth about the man who successfully co-opted executive control over the U.S. government, serving as the de facto 'shadow president' in one of the most controversial White House administrations in memory. With unique access to numerous first-hand sources, this account provides startling revelations concerning the war on terror, Cheney's relationship with the CIA and his involvement with Enron. Dubose and Bernstein explore Cheney's ruthless manouevers and ambitious drive that consistently steered America to the right, an impact that can still be felt in American politics today. Credited by *Vanity Fair* as one of the key influences behind Adam McKay's Oscar-nominated film *VICE*, this utterly gripping exposé chronicles the hijacking of the American presidency and illustrates the arrogance of power as never before.

WORSE THAN WATERGATE

THE SECRET PRESIDENCY OF GEORGE W. BUSH

[Hachette+ORM](#) Nixon's White House counsel discusses the Bush-Cheney administration in this New York Times bestseller: "Powerful . . . a riveting book." —Los Angeles Times Book Review Former White House counsel John Dean, with the unique viewpoint and expertise born of working for Richard Nixon during the Watergate scandal, here looks critically at the administration of George W. Bush and Dick Cheney, arguing that its worldview—and its tendency toward secrecy and deception—set America back decades, and may ultimately do more damage to the nation than Nixon at his worst. "He has become a discerning connoisseur of presidential venality." —The New York Times "Few critics have as effectively put the disparate pieces together." —Publishers Weekly

TELLING THE TRUTH

[Touchstone](#) The former chairwoman of the National Endowment for the Humanities shows how a disbelief in objectivity and truth have led to a moral and intellectual crisis that threatens the nation's cultural, political, and educational institutions. Reprint. 25,000 first printing.

NO HIGHER HONOR

A MEMOIR OF MY YEARS IN WASHINGTON

[Broadway Books](#) A former national security advisor and secretary of state offers the compelling story of her eight years serving at the highest levels of government, including the difficult job she faced in the wake of 9/11.

FOR THE RECORD

[HarperCollins UK](#) 'The political memoir of the decade' Sunday Times The referendum on Britain's membership of the EU is one of the most controversial political events of our times. For the first time, the man who called that vote talks about the decision and its origins, as well as giving a candid account of his time at the top of British politics.

AFTER THE FALL

BEING AMERICAN IN THE WORLD WE MADE

[Bloomsbury Publishing](#) "In 2017, as Ben Rhodes was helping former president Barack Obama begin his next chapter, the legacy they worked to build for eight years was being taken apart. To understand what was happening in his own country, Rhodes decided to look outward, at the wider world. Over the next three years, he traveled to dozens of countries, meeting with politicians, dissidents, and activists confronting the same forces that produced the Trump presidency: spreading nationalism, authoritarianism, and disinformation. Along the way, he was spied on by former Mossad operatives and the Chinese government, met with Hong Kong protesters and Russian oppositionists, and found people from Europe to Asia to the United States struggling to reconcile their own identities with the crude nationalism of their leaders--all while pursuing new strategies to fight back. Equal parts memoir and reporting, 'After the Fall' is an ambitious and essential work of discovery. Throughout, Rhodes reflects on how the 2008 financial crisis completed a collapse of public confidence in America, globalization, and democracy itself, opening a door to the wave of strongman leaders who have transformed our world--men like Viktor Orban in Hungary, Vladimir Putin in Russia, and Xi Jinping in China. He wrestles with how peoples' yearning for identity and belonging has been weaponized by nationalists. And he learns from a diverse set of characters--from Obama to rebels to rising politicians--how we can choose a more hopeful story going forward"--Publisher's description.

MANIC

A MEMOIR

[Harper Collins](#) An attractive, highly successful Beverly Hills entertainment lawyer, Terri Cheney had been battling debilitating bipolar disorder for the better part of her life—and concealing a pharmacy's worth of prescription drugs meant to stabilize her moods and make her "normal." In explosive bursts of prose that mirror the devastating mania and extreme despair of her illness, Cheney describes her roller-coaster existence with shocking honesty, giving brilliant voice to the previously unarticulated madness she endured. Brave, electrifying, poignant, and disturbing, Manic does not simply explain bipolar disorder—it takes us into its grasp and does not let go.

TESLA

MAN OUT OF TIME

[Simon and Schuster](#) In this "informative and delightful" (American Scientist) biography, Margaret Cheney explores the brilliant and prescient mind of Nikola Tesla, one of the twentieth century's greatest scientists and inventors. In Tesla: Man Out of Time, Margaret Cheney explores the brilliant and prescient mind of one of the twentieth century's greatest scientists and inventors. Called a madman by his enemies, a genius by others, and an enigma by nearly everyone, Nikola Tesla was, without a doubt, a trailblazing inventor who created astonishing, sometimes world-transforming devices that were virtually without theoretical precedent. Tesla not only discovered the rotating magnetic field -- the basis of most alternating-current machinery -- but also introduced us to the fundamentals of robotics, computers, and missile science. Almost supernaturally gifted, unfailingly flamboyant and neurotic, Tesla was troubled by an array of compulsions and phobias and was fond of extravagant, visionary experimentations. He was also a popular man-about-town, admired by men as diverse as Mark Twain and George Westinghouse, and adored by scores of society beauties. From Tesla's childhood in Yugoslavia to his death in New York in the 1940s, Cheney paints a compelling human portrait and chronicles a lifetime of discoveries that radically altered -- and continue to alter -- the world in which we live. Tesla: Man Out of Time is an in-depth look at the seminal accomplishments of a scientific wizard and a thoughtful examination of the obsessions and eccentricities of the man behind the science.

DICK

THE MAN WHO IS PRESIDENT

Contending that Dick Cheney is the actual decision maker who is running today's government, a critical analysis draws on interviews with such figures as Nelson Mandela and Gore Vidal and identifies the vice president's role in setting energy policy, furthering the war in Iraq, and promoting corporate and religious interests. 40,000 first printing.

CHENEY ONE ON ONE

A CANDID CONVERSATION WITH AMERICA'S MOST CONTROVERSIAL STATESMAN

[Simon and Schuster](#) A book to challenge the status quo, spark a debate, and get people talking about the issues and questions we face as a country!

WHAT HAPPENED

INSIDE THE BUSH WHITE HOUSE AND WASHINGTON'S CULTURE OF DECEPTION

[Hachette UK](#) Scott McClellan was one of a few Bush loyalists from Texas who became part of his inner circle of trusted advisers, and remained so during one of the most challenging and contentious periods of recent history. Drawn to Bush by his commitment to compassionate conservatism and strong bipartisan leadership, McClellan served the president for more than seven years, and witnessed day-to-day exactly how the presidency veered off course. In this refreshingly clear-eyed book, written with no agenda other than to record his experiences and insights for the benefit of history, McClellan provides unique perspective on what happened and why it happened the way it did, including the Iraq war, Hurricane Katrina, Washington's bitter partisanship, and two hotly contested presidential

campaigns. He gives readers a candid look into who George W. Bush is and what he believes, and into the personalities, strengths, and liabilities of his top aides. Finally, McClellan looks to the future, exploring the lessons this presidency offers the American people as we prepare to elect a new leader.

THE VIRGINIA DYNASTY

FOUR PRESIDENTS AND THE CREATION OF THE AMERICAN NATION

Penguin A vivid account of leadership focusing on the first four Virginia presidents--George Washington, Thomas Jefferson, James Madison, and James Monroe--from the bestselling historian and author of *James Madison*. From a small expanse of land on the North American continent came four of the nation's first five presidents--a geographic dynasty whose members led a revolution, created a nation, and ultimately changed the world. George Washington, Thomas Jefferson, James Madison, and James Monroe were born, grew to manhood, and made their homes within a sixty-mile circle east of the Blue Ridge Mountains. Friends and rivals, they led in securing independence, hammering out the United States Constitution, and building a working republic. Acting together, they doubled the territory of the United States. From their disputes came American political parties and the weaponizing of newspapers, the media of the day. In this elegantly conceived and insightful new book from bestselling author Lynne Cheney, the four Virginians are not marble icons but vital figures deeply intent on building a nation where citizens could be free. Focusing on the intersecting roles these men played as warriors, intellectuals, and statesmen, Cheney takes us back to an exhilarating time when the Enlightenment opened new vistas for humankind. But even as the Virginians advanced liberty, equality, and human possibility, they held people in slavery and were slaveholders when they died. Lives built on slavery were incompatible with a free and just society; their actions contradicted the very ideals they espoused. They managed nonetheless to pass down those ideals, and they became powerful weapons for ending slavery. They inspired Abraham Lincoln and Frederick Douglass and today undergird the freest nation on earth. Taking full measure of strengths and failures in the personal as well as the political lives of the men at the center of this book, Cheney offers a concise and original exploration of how the United States came to be.

FOCUS ON: 100 MOST POPULAR 20TH-CENTURY AMERICAN POLITICIANS

e-artnow.sro

THE ONE PERCENT DOCTRINE

DEEP INSIDE AMERICA'S PURSUIT OF ITS ENEMIES SINCE 9/11

Simon and Schuster In his devastating new book Pulitzer Prize-winning journalist Ron Suskind takes readers inside the defining conflict of our era: the war between the West and a growing, shadowy army of terrorists, armed with weapons of alarming power. Relying on unique access to former and current government officials, this book will reveal for the first time how the US government -- from President Bush on down -- is frantically improvising to fight a new kind of war. Where is the enemy? What have been the real victories and defeats since 9/11? How are we actually fighting this war and how can it possibly be won? Filled with astonishing disclosures, Suskind's book shows readers what he calls "the invisible battlefield" -- a global matrix where US spies race to catch soldiers of jihad before they strike. It is a real-life spy thriller with the world's future at stake. It also reveals the shocking and secret philosophy underpinning the war on terror. Gripping and alarming in equal measure, it will reframe the debate about a war that, each day, redefines America and its place in the world.

THIS WILL NOT PASS

TRUMP, BIDEN, AND THE BATTLE FOR AMERICA'S FUTURE

Simon and Schuster **NEW YORK TIMES BESTSELLER** The shocking, definitive account of the 2020 election and the first year of the Biden presidency by two New York Times reporters, exposing the deep fissures within both parties as the country approaches a political breaking point. This is the authoritative account of an eighteen-month crisis in American democracy that will be seared into the country's political memory for decades to come. With stunning, in-the-room detail, New York Times reporters Jonathan Martin and Alexander Burns show how both our political parties confronted a series of national traumas, including the coronavirus pandemic, the January 6 attack on the Capitol, and the political brinkmanship of President Biden's first year in the White House. From Donald Trump's assault on the 2020 election and his ongoing campaign of vengeance against his fellow Republicans, to the behind-the-scenes story of Biden's selection of Kamala Harris as his running mate and his bitter struggles to unite the Democratic Party, this book exposes the degree to which the two-party system has been strained to the point of disintegration. More than at any time in recent history, the long-established traditions and institutions of American politics are under siege as a set of aging political leaders struggle to hold together a changing country. Martin and Burns break news on most every page, drawing on hundreds of interviews and never-before-seen documents and recordings from the highest levels of government. The book asks the vitally important (and disturbing) question: can American democracy, as we know it, ever work again?

THE COLD WAR: THE DEFINITIVE ENCYCLOPEDIA AND DOCUMENT COLLECTION [5 VOLUMES]

ABC-CLIO This sweeping reference work covers every aspect of the Cold War, from its ignition in the ashes of World War II, through the Berlin Wall and the Cuban Missile Crisis, to the collapse of the Soviet Union in 1991. The Cold War superpower face-off between the Soviet Union and the United States dominated international affairs in the second half of the 20th century and still reverberates around the world today. This comprehensive and insightful multivolume set provides authoritative entries on all aspects of this world-changing event, including wars, new military technologies, diplomatic initiatives, espionage activities, important individuals and organizations, economic developments, societal and cultural events, and more. This expansive coverage provides readers with the necessary context to understand the many facets of this complex conflict. The work begins with a preface and introduction and then offers illuminating introductory essays on the origins and course of the Cold War, which are followed by some 1,500 entries on key individuals, wars, battles, weapons systems, diplomacy, politics, economics, and art and culture. Each entry has cross-references and a list of books for further reading. The text includes more than 100 key primary source documents, a detailed chronology, a glossary, and a selective bibliography. Numerous illustrations and maps are inset throughout to provide additional context to the material. Includes more than 1,500 entries covering all facets of the Cold War from its origins to its aftermath, including all political, diplomatic, military, social, economic, and cultural aspects Incorporates the scholarship of more than 200 internationally recognized contributors from around the world, many writing about events and issues from the perspective of their country of origin Offers more than 100 original documents—a collection that draws heavily on material from archives in China, Eastern Europe, and the former Soviet Union Provides hundreds of powerful images and dozens of informative maps detailing specific military conflicts and movements of various groups Includes a detailed chronology of important events that occurred before, during, and after the Cold War

US FOREIGN POLICY AND CHINA

BUSH'S FIRST TERM

Routledge This work is an exploration of how U.S.-China relations were managed by President George W. Bush. Roberts argues that contrary to conventional wisdom, President Bush conducted a calculated, pragmatic and highly successful strategy toward Beijing, which avoided conflict, resolved crisis and significantly increased economic and diplomatic ties. Roberts identifies key players and policies of the Bush White House and the specific themes of engagement (successful and unsuccessful) that unfolded during Bush's first term. Research is based on analysis of primary and secondary documentation, as well as interviews with key White House actors (including Deputy Secretary of State Richard Armitage), and two former Australian Prime Ministers. Topics of discussion include China's changing attitude toward international engagement, China's rising economic power and the tensions this triggered in the American establishment, the nature of U.S. China relations, contemporary and ideological understanding of the Bush Presidency as well as the strengths and weaknesses of different sources of information. US Foreign Policy and China will be of great interest to students and scholars of US foreign policy and China Studies.

MEN, MASCULINITIES AND DISASTER

Routledge In the examination of gender as a driving force in disasters, too little attention has been paid to how women's or men's disaster experiences relate to the wider context of gender inequality, or how gender-just practice can help prevent disasters or address climate change at a structural level. With a foreword from Kenneth Hewitt, an afterword from Raewyn Connell and contributions from renowned international experts, this book helps address the gap. It explores disasters in diverse environmental, hazard, political and cultural contexts through original research and theoretical reflection, building on the under-utilized orientation of critical men's studies. This body of thought, not previously applied in disaster contexts, explores how men gain, maintain and use power to assert control over women. Contributing authors examine the gender terrain of disasters 'through men's eyes,' considering how diverse forms of masculinities shape men's efforts to respond to and recover from disasters and other climate challenges. The book highlights both the high costs paid by many men in disasters and the consequences of dominant masculinity practices for women and marginalized men. It concludes by examining how disaster risk can be reduced through men's diverse efforts to challenge hierarchies around gender, sexuality, disability, age and culture.

WE THE PEOPLE

THE STORY OF OUR CONSTITUTION

Simon and Schuster Now in paperback, Lynne Cheney's New York Times bestselling illustrated history of how the Constitution came to be. "I am mortified beyond expression when I view the clouds which have spread over the brightest morn that ever dawned upon any country." —George Washington America had won the Revolution, but our troubles were far from over. The thirteen states were squabbling, the country could not pay its bills, and in Massachusetts farmers had taken up arms against the government. Was our country, which had fought so hard for its independence, going to survive? In May 1787 delegates from across the country—including George Washington, James Madison, and Benjamin Franklin—gathered in Philadelphia and, meeting over the course of a sweltering summer, created a new framework for governing: the Constitution of the United States. Their efforts turned a shaky alliance of states into a nation that would prosper and grow powerful, drawing its strength for centuries to come from "We the people" and inspiring hope for freedom around the world. Now in paperback for the first time, this richly illustrated tale of a crucial point in our nation's history will enthrall readers young and old.

THE POLITICS OF TRUTH

INSIDE THE LIES THAT PUT THE WHITE HOUSE ON TRIAL AND BETRAYED MY WIFE'S CIA IDENTITY

PublicAffairs With a new investigative epilogue by a prominent Washington journalist and a new foreword by the author. Ambassador Joseph Wilson recounts more than two decades of foreign service to our country in this unprecedented look at the life of an American diplomat and an unabashed account of policies that sometimes succeeded and sometimes failed. As the last American official to meet with Saddam before Desert Storm, Wilson successfully parried the dictator's threats to use American hostages as human shields against U.S. bombing. Yet today he finds himself battling threats from his own government because he called a lie a lie. When President Bush alleged that Iraq had pursued uranium from Africa for its nuclear weapons program, Wilson could not stand silent. He had traveled to Niger the previous year and found no evidence to support the president's claim. To intimidate Wilson, senior administration officials disclosed the undercover status of Wilson's wife, CIA operative Valerie Plame, to the press, putting her life in danger. Rather than backing down, Wilson persistently criticized the way the administration misled the nation into war. Now he continues his fight in this groundbreaking book by revealing the perils bred by the war-hungry regime in the White House.

THE EDUCATION OF A PUBLIC MAN

MY LIFE AND POLITICS

U of Minnesota Press Annotation A reprint of the Doubleday edition of 1976 with a new afterword by Norman Sherman. Annotation(c) 2003 Book News, Inc., Portland, OR (booknews.com).

DESTINY AND POWER

THE AMERICAN ODYSSEY OF GEORGE HERBERT WALKER BUSH BY JON MEACHAM | SUMMARY & ANALYSIS

Instaread Summary of Destiny and Power: by Jon Meacham | Includes Analysis Preview: Destiny and Power: The American Odyssey of George Herbert Walker Bush by Jon Meacham is a biography of George H.W. Bush, the 41st president of the United States, who served from 1988 to 1992. The author argues that as president and as a politician, Bush used prudence and compromise to an extent that would seem out of place in today's era of highly partisan US politics. George H.W. Bush had a varied career before winning the presidency: he was a Navy pilot, oilman, congressman, ambassador to the UN, envoy to China, head of the Republican Party, and later director of the CIA. In the executive branch, he first served as vice president of the United States under Ronald Reagan for eight years before beginning his own presidency... PLEASE NOTE: This is a summary and analysis of the book and NOT the original book. Inside this Instaread Summary & Analysis of Destiny and Power: • Summary of book • Introduction to the Important People in the book • Analysis of the Themes and Author's Style

DEADLOCK AND DISILLUSIONMENT

AMERICAN POLITICS SINCE 1968

John Wiley & Sons Deadlock and Disillusionment: American Politics Since 1968 is an insightful consideration of the events people, and policy debates that have shaped and continue to influence, even control, the current political era. Rejects conventional wisdom that the dominant force shaping recent American politics in the last half century has been the "rise of the Right" Considers the achievements and frustrations of each administration, from Nixon to Obama, in its assessment of contemporary U.S. politics Features authorship by an expert scholar in the field who takes a thematic rather than a partisan approach to recent American politics Offers a concise, comprehensive, and thoroughly up-to-date synthesis of the literature in the field and concludes with a comprehensive bibliographical essay, an aid to student research

DECISION POINTS

Random House Decision Points is the extraordinary memoir of America's 43rd president. Shattering the conventions of political autobiography, George W. Bush offers a strikingly candid journey through the defining decisions of his life. In gripping, never-before-heard detail, President George W. Bush brings readers inside the Texas Governor's Mansion on the night of the hotly contested 2000 election; aboard Air Force One on September 11, in the hours after America's most devastating attack since Pearl Harbour; at the head of the table in the Situation Room in the moments before launching the war in Iraq; and behind the Oval Office desk for his historic and controversial decisions on the financial crisis, Hurricane Katrina, Afghanistan, Iran, and other issues that have shaped the first decade of the 21st century. President Bush writes honestly and directly about his flaws and mistakes, as well as his accomplishments reforming education, treating HIV/AIDS in Africa, and safeguarding the country amid chilling warnings of additional terrorist attacks. He also offers intimate new details on his decision to quit drinking, discovery of faith, and relationship with his family. A groundbreaking new brand of memoir, Decision Points will captivate supporters, surprise critics, and change perspectives on one of the most consequential eras in American history - and the man at the centre of events.
