MAN THE HUNTER

Routledge **Man the Hunter** is a collection of papers presented at a symposium on research done among the hunting and gathering peoples of the world. Ethnographic studies increasingly contribute substantial amounts of new data on hunter-gatherers and are rapidly changing our concept of Man the Hunter. Social anthropologists generally have been reappraising the basic concepts of descent, fi liation, residence, and group structure. This book presents new data on hunters and clarifi es a series of conceptual issues among social anthropologists as a necessary background to broader discussions with archaeologists, biologists, and students of human evolution.

THE PLACE WHERE YOU GO TO LISTEN

IN SEARCH OF AN ECOLOGY OF MUSIC

Wesleyan University Press **Did Alaska create the music of John Luther Adams, or did the music create his Alaska? For the past thirty years, the vastness of Alaska has swept through the distant reaches of the composer's imagination and every corner of his compositions. In this new book Adams proposes an ideal of musical ecology, the philosophical foundation on which his largest, most complex musical work is based. This installation, also called The Place Where You Go to Listen, is a sound and light environment that gives voice to the cycles of sunlight and darkness, the phases of the moon, the seismic rhythms of the earth, and the dance of the aurora borealis. Adams describes this work as "a place for hearing the unheard music of the world around us." The book includes two seminal essays, the composer's journal telling the story of the day-to-day emergence of The Place, as well as musical notations, graphs and illustrations of geophysical phenomena.**

EUROPE AND THE PEOPLE WITHOUT HISTORY

Univ of California Press **'The intention of this work is to show that European expansion not only transformed the historical trajectory of non-European societies but also reconstituted the historical accounts of these societies before European intervention. It asserts that anthropology must pay more attention to history.'** (AMAZON)

EMPIRE OF THE BEETLE

HOW HUMAN FOLLY AND A TINY BUG ARE KILLING NORTH AMERICA'S GREAT FORESTS

Greystone Books Ltd Beginning in the late 1980s, a series of improbable bark beetle outbreaks unsettled iconic forests and communities across western North America. An insect the size of a rice kernel eventually killed more than 30 billion pine and spruce trees from Alaska to New Mexico. Often appearing in masses larger than schools of killer whales, the beetles engineered one of the world's greatest forest die-offs since the deforestation of Europe by peasants between the eleventh and thirteenth centuries. The beetle didn't act alone. Misguided science, out-of-control logging, bad public policy, and a hundred years of fire suppression created a volatile geography that released the world's oldest forest manager from all natural constraints. Like most human empires, the beetles exploded wildly and then crashed, leaving in their wake grieving landowners, humbled scientists, hungry animals, and altered watersheds. Although climate change triggered this complex event, human arrogance assuredly set the table. With little warning, an ancient insect pointedly exposed the frailty of seemingly stable manmade landscapes. Drawing on first-hand accounts from entomologists, botanists, foresters, and rural residents, award-winning journalist Andrew Nikiforuk, investigates this unprecedented beetle plague, its startling implications, and the lessons it holds.

OPTIONALITY

HOW TO SURVIVE AND THRIVE IN A VOLATILE WORLD

Thales Press Not Sure What the Future Holds? No Problem. It's hard not to be worried about the future, especially if you just lost your job, are trying to plan your career, or are suddenly missing thousands of dollars from your retirement account. In *Optionality*, finance journalist Richard Meadows lays out a guide for not only becoming resilient to shocks, but positioning yourself to profit from an unpredictable world. Meadows takes us on a journey from quitting his office job at age 25, to lounging on tropical beaches living the early retirement dream, to finding and adopting an ancient philosophy for systematically pursuing the good life. Learn how to: • Find investment opportunities with open-ended upside, and maximise the chances of a 'moonshot' success • Make life-changing choices under conditions of uncertainty • Achieve the kind of financial freedom that lets you live life on your own terms • Protect against disaster, build support networks, and create a safety buffer of resilience in every area of life • Develop a systems approach to making your own luck *Optionality* is the key to navigating an uncertain world. In this entertaining and insightful debut, Meadows delivers a timely message: optionality has never been so valuable, and only those who have it will survive and thrive.

FAST, EASY, AND IN CASH

ARTISAN HARDSHIP AND HOPE IN THE GLOBAL ECONOMY

University of Chicago Press What happens to skilled craftsmen when global trade brings cheap mass-produced goods to market? Economic anthropologists have been wondering and worrying about the fate of artisans and their crafts for decades. In "Fast, Easy, and In Cash," veteran ethnographers Jason Antrosio and Rudi Colloredo-Mansfeld show how disruptive to local economies global capitalism has been, but they also shed light on what it takes to survive as an artisan amid intense competition. Using lively and often surprising examples from collaborative research in Ecuador and Columbia, they describe the time-tested tactics small-batch producers have used to sustain their livelihoods and foster distinctively indigenous forms of capitalism. Antrosio and Colloredo-Mansfeld explain that their stories can teach us not just how to make money in uncertain economic environments but also how to turn work into a socially-conscious activity while defending and expanding local economies. This is a clear-eyed account of how people can successfully

respond to the disruptions of global capitalism that will be welcomed by economic anthropologists and anyone else concerned with building sustainable economic communities in neoliberalism's wake."

WINDFALL

WIND ENERGY IN AMERICA TODAY

University of Oklahoma Press Not long ago, energy experts dismissed wind power as unreliable and capricious. Not anymore. The industry has arrived, and the spinning blades of this new kid on the electric power block offer hope for a partial solution to our energy problems by converting nature's energy into electricity without exposing our planet and its inhabitants to the dangers of heat, pollution, toxicity, or depletion of irreplaceable natural resources. Windfall tells the story of this extraordinary transformation and examines the arguments both for and against wind generation. In Windfall, Robert W. Righter explains how wind is transformed into energy and examines the land-use decisions that affect the establishment of new wind farms. The book also discusses the role of tax credits and other government subsidies in the creation of transmission systems between the turbines and end users in cities. Currently the world's fastest-growing source of energy, wind generation has also given rise to backlash. A critical advocate of wind energy whose career as a historian has focused on environmental controversies, Righter addresses the cultural dimensions of resistance to wind energy and makes considered predictions about the directions wind energy may take. His sympathetic treatment of opposing arguments regarding landscape change, unwanted noise, bird deaths, and human medical implications are thought-provoking, as is his recommendation that we place the lion's share of turbines on the Great Plains. Most books on wind energy are technical manuals. Righter's book does not shy away from scientific explanations, but he does not write for engineers. His broad, historically informed vision will appeal to policy makers at the federal, state, and local levels and to anyone interested in a technology increasingly significant to supplying America's energy needs.

STONE AGE ECONOMICS

Routledge **Stone Age Economics** is a classic of economic anthropology, ambitiously tackling the nature of economic life and how to study it comparatively. This collection of six influential essays is one of Marshall Sahlins' most important and enduring works, claiming that stone age economies formed the original affluent society. The book examines notions of production, distribution and exchange in early communities and examines the link between economics and cultural and social factors. This edition includes a new foreword by the author.

MANNAHATTA

A NATURAL HISTORY OF NEW YORK CITY

Abrams On September 12, 1609, Henry Hudson first set foot on the land that would become Manhattan. Today, it's difficult to imagine what he saw, but for more than a decade, landscape ecologist Eric Sanderson has been working to do just that. **Mannahatta: A Natural History of New York City** is the astounding result of those efforts, reconstructing in words and images the wild island that millions now call home. By geographically matching an 18th-century map with one of the modern city, examining volumes of historic documents, and collecting and analyzing scientific data, Sanderson re-creates the forests of Times Square, the meadows of Harlem, and the wetlands of downtown. His lively text guides readers through this abundant landscape, while breathtaking illustrations transport them back in time. **Mannahatta** is a groundbreaking work that provides not only a window into the past, but also inspiration for the future.

EFFECTS OF NOISE ON WILDLIFE

Elsevier **Effects of Noise on Wildlife** emerged from the Symposium on the Effects of Noise on Wildlife, organized by ICA-WG4 as part of the 9th International Congress on Acoustics in Madrid, Spain, July 4-9, 1977. The book begins by examining some popular and relatively well-known aspects of animal behavior in relation to noise. This is followed by separate chapters on the physiological responses of large domestic animals to various sound environments; the effects of sonic booms on native fauna; wildlife-powerline interactions; the effects of transmission line audible noise on wildlife; and the effects of acoustical noise on selected marine biological systems. Subsequent chapters deal with the effects of noise stress on gestating female mice and the environmental impact of noisy activities on wildlife. The book concludes with a discussion of the impact of existing noise-related policy on animals and government and public policy needs. This book is intended for readers in administrative services and agencies responsible for nature protection.

BRIGANDS KEY

"A perfect storm of menace...breathhtaking! The underwater scenes are marvelous, and the portrait of the monstrous hurricane as it batters the key and surges over it is mightily gripping." --the Florida Weekly... Death Sweeps in off the Gulf of Mexico... An ageless, impossible corpse at the bottom of the sea. A lethal plague. A ruthless murderer. A monster hurricane. Archaeologist Carson Grant came to Brigands Key to escape the limelight and repair his shattered reputation, and finds himself instead staring down the Four Horsemen of the Apocalypse. When Carson Grant discovers the body of a man at the bottom of the sea, suspicion of murder falls squarely upon him. Citizens mysteriously begin to fall ill and die, others disappear, and others are murdered, while an ambitious governor and an unbending president engage in a battle of wills over the fate of Brigands Key. With a hurricane bearing down on the quarantined island, Grant enlists infectious diseases researcher Kyoko Nakamura and teen misfit Charley Fawcett in a desperate race against time to break the spiral of death and unravel the mystery of a decades-old corpse and a staggeringly valuable prize shrouded in secrets of the past. Pitted against them is a killer who will stop at nothing to claim that prize. Winner of the Royal Palm Literary Award, Brigands Key is an edge-of-your-seat roller coaster ride through murder, vengeance, and secrets best left undisturbed.

THE PRINCIPLES OF SCIENTIFIC MANAGEMENT

Cosimo Classics It seems, at first glance, like an obvious step to take to improve industrial productivity: one should simply watch workers at work in order to learn how they actually do their jobs. But American engineer FREDERICK WINSLOW TAYLOR (1856-1915) broke new ground with this 1919 essay, in which he applied the rigors of scientific observation to such labor as shoveling and bricklayer in order to streamline their work... and bring a sense of logic and practicality to the management of that work. This highly influential book, must-reading for anyone seeking to understand modern management practices, puts lie to such misconceptions that making industrial processes more efficient increases unemployment and that shorter workdays decrease productivity. And it laid the foundations for the discipline of management to be studied, taught, and applied with methodical precision.

ACHTUNG-PANZER!

THE DEVELOPMENT OF ARMoured FORCES, THEIR TACTICS AND OPERATIONAL POTENTIAL

Arms & Armour This is one of the most significant military books of the twentieth century. By an outstanding soldier of independent mind, it pushed forward the evolution of land warfare and was directly responsible for German armoured supremacy in the early years of the Second World War. Published in 1937, the result of 15 years of careful study since his days on the German General Staff in the First World War, Guderian's book argued, quite clearly, how vital the proper use of tanks and supporting armoured vehicles would be in the conduct of a future war. When that war came, just two years later, he proved it, leading his Panzers with distinction in the Polish, French and Russian campaigns. Panzer warfare had come of age, exactly as he had forecast. This first English translation of Heinz Guderian's classic book - used as a textbook by Panzer officers in the war - has an introduction and extensive background notes by the modern English historian Paul Harris.

The book, authored by an international group of experts, reviews current knowledge, providing an objective and accurate assessment of all aspects of wind turbine noise.

WIND AND WILDLIFE

PROCEEDINGS FROM THE CONFERENCE ON WIND ENERGY AND WILDLIFE IMPACTS, OCTOBER 2012, MELBOURNE, AUSTRALIA

Springer This book gathers papers presented and discussions held at the Conference on Wind Energy and Wildlife Impacts in Melbourne, Australia on 9th October 2012. The purpose of the conference was to bring together researchers, industry, consultants, regulators and Non-Government Organizations to share the results of studies into wind farm and wildlife investigations in Australia and New Zealand. The aim was to further networking and communication between these groups. The conference discussed key issues and areas for future investigation, with the intention of developing consistencies in research and management. Like the Conference, the book showcases current research and management in the field of wind farms and wildlife in Australia and New Zealand; establishes consistencies in research and management; and highlights areas in need of further examination. The papers in these Proceedings are presented in two session topics. The first covers "Investigations and assessment of new wind farms" and the second, "Monitoring, mitigation and offsets." The Proceedings then summarize the panel discussions held at the end of the conference. The themes include improving pre- and post-construction survey design; identifying key knowledge gaps and research priorities; uncertainties and errors in data sets and analysis; creating opportunities to share knowledge; and assessing cumulative impacts across multiple sites.

TASTING ROME

FRESH FLAVORS AND FORGOTTEN RECIPES FROM AN ANCIENT CITY: A COOKBOOK

Clarkson Potter A love letter from two Americans to their adopted city, Tasting Rome is a showcase of modern dishes influenced by tradition, as well as the rich culture of their surroundings. Even 150 years after unification, Italy is still a divided nation where individual regions are defined by their local cuisine. Each is a mirror of its city's culture, history, and geography. But cucina romana is the country's greatest standout. Tasting Rome provides a complete picture of a place that many love, but few know completely. In sharing Rome's celebrated dishes, street food innovations, and forgotten recipes, journalist Katie Parla and photographer Kristina Gill capture its unique character and reveal its truly evolved food culture—a culmination of 2000 years of history. Their recipes acknowledge the foundations of Roman cuisine and demonstrate how it has transitioned to the variations found today. You'll delight in the expected classics (cacio e pepe, pollo alla romana, fiore di zucca); the fascinating but largely undocumented Sephardic Jewish cuisine (hraiimi con couscous, brodo di pesce, pizzarelle); the authentic and tasty offal (guanciale, simmenthal di coda, insalata di nervitti); and so much more. Studded with narrative features that capture the city's history and gorgeous photography that highlights both the food and its hidden city, you'll feel immediately inspired to start tasting Rome in your own kitchen. eBook Bonus Material: Be sure to check out the directory of all of Rome's restaurants mentioned in the book!

EAT, DRINK, RUN.

HOW I GOT FIT WITHOUT GOING TOO MAD

Hachette UK The new hilarious and inspirational memoir from Sunday Times no. 1 bestselling author Bryony Gordon. 'A courageous account that will inspire us all - bloody brilliant' Fearn Cotton 'An honest and damn funny book about daring to dream, about chafing and Vaseline, and running through the pain. I raced through it without getting a stitch' Matt Haig 'The woman who made talking about your thinking not just acceptable but imperative' Daily Telegraph Bryony Gordon was not a runner. A loafer, a dawdler, a drinker, a smoker, yes. A runner, no. But, as she recovered from the emotional rollercoaster of opening up her life in her mental health memoir MAD GIRL, she realised that there were things that might actually help her: getting outside, moving her body and talking to others who found life occasionally challenging. As she ran, she started to shake off the limitations that had always held her back and she saw she had actually imposed them on herself. Why couldn't she be a runner? In April 2017, Bryony Gordon ran all 26.2 miles of the London Marathon. In Eat, Drink, Run., we join her as she trains for this daunting task and rises to the challenge one step at the time. Of course, on top of the aching muscles and blistered feet, there's also the small matter of getting a certain royal to open up about his mental health. Through it all, Bryony shows us that extraordinary things can happen to everyone, no matter what life throws our way. What readers are saying about Eat, Drink, Run.: 'One of the best things about this book is how Bryony manages to make you laugh, make you tearful, but ultimately hopeful about yourself and your own outlook on life and mental health' 'I laughed, I cried, I got inspired to run again' 'Bryony at her best by far! Honest, endearing, beautifully written. We all can relate in some way, if you are in doubt about how you feel, or indeed you are a person that says I can't - read this because you can, we all can'

IN SEARCH OF EXCELLENCE

LESSONS FROM AMERICA'S BEST-RUN COMPANIES

Harper Collins The "Greatest Business Book of All Time" (Bloomsbury UK), *In Search of Excellence* has long been a must-have for the boardroom, business school, and bedside table. Based on a study of forty-three of America's best-run companies from a diverse array of business sectors, *In Search of Excellence* describes eight basic principles of management -- action-stimulating, people-oriented, profit-maximizing practices -- that made these organizations successful. Joining the HarperBusiness Essentials series, this phenomenal bestseller features a new Authors' Note, and reintroduces these vital principles in an accessible and practical way for today's management reader.

RICH ENOUGH?

A LAID-BACK GUIDE FOR EVERY KIWI

HarperCollins Read this one book, set up your money, and get on with your life! Find out what many in the financial world don't want you to know. Laid-back investing is not only easier, it can actually make you richer. Learn how to kill off debt, curb spending, find your best KiwiSaver fund, save painlessly, buy a house or be happy not buying one, and move confidently towards and through retirement (hint: you don't need \$1 million). You'll also learn why it's best to 'set and forget' your investments. And why, beyond a certain point, having more money is not the key to happiness. Unlike many writers of finance books, Mary is not selling anything (except this book!). She just wants you to do well. She's on your side. 'Mary has that rare ability to cut through the jargon to what really matters. She combines expert wisdom and real-world insights, with fantastic results!' DIANE MAXWELL, RETIREMENT COMMISSIONER 'Mary Holm is in the first rank of New Zealanders offering simple and wise advice to those who want to take effective steps to secure their future financial wellbeing. This straightforward guide should help ordinary Kiwis navigate their way through the various traps they can fall into.' SIR MICHAEL CULLEN, FORMER DEPUTY PRIME MINISTER and MINISTER OF FINANCE

BUILT TO LAST

SUCCESSFUL HABITS OF VISIONARY COMPANIES

Harper Collins Drawing upon a six-year research project at the Stanford University Graduate School of Business, James C. Collins and Jerry I. Porras took eighteen truly exceptional and long-lasting companies and studied each in direct comparison to one of its top competitors. They examined the companies from their very beginnings to the present day -- as start-ups, as midsize companies, and as large corporations. Throughout, the authors asked: "What makes the truly exceptional companies different from the comparison companies and what were the common practices these enduringly great companies followed throughout their history?" Filled with hundreds of specific examples and organized into a coherent framework of practical concepts that can be applied by managers and entrepreneurs at all levels, *Built to Last* provides a master blueprint for building organizations that will prosper long into the 21st century and beyond.
