*Singing Dragon* This comprehensive textbook provides a detailed, practical and thorough basis for the understanding and application of the homeopathic process. Drawing on the experience and knowledge of a wealth of contributors, the book offers the foundations for the safe and broadest practice of modern homeopathy. Divided into 6 sections, this book takes the understanding of homeopathy from basic principles to the treatment of acute and chronic illnesses, the first prescription, and difficult, confused and hidden cases. Each section progresses through five themes broadly divided into philosophy, material medica, case taking, case analyses and case management. Each theme is woven together through the text and, section by section, builds into an essential study guide for the homeopathic student. It provides opportunities for reflection, and invites all practitioners to engage in their own personal and professional development.

*Forgotten Books* Excerpt from The Biblical Repertory and Theological Review, Vol. 3: July, 1831 Force them out of their place in the great scheme Of infinite wisdom, and the result is invariably injurious to themselves and to society. To be where and what God wills us to be, is our perfection and highest usefulness. It is Of more practical importance than men are wont to imagine, thus to eye and follow the divine arrangements. As God has given a diversity of constitution to the sexes, suited to the different purposes they are to accomplish, so he has given to different periods Of life different susceptibilities and powers, which are intimations of his will, and consequently Of our duty, with regard to them. The dependence Of the young on their parents; the feelings Of parents towards their children; the susceptibility of the youthful mind; the quickness Of perception; the tenacity Of the memory and pliability of the feelings, all declare that this is the forming period Of life; that God designs it to be employed and improved as such. This is, indeed, a universally admitted truth; and education has ever been one of the most absorbing subjects of interest. Though this be admitted, it is still true that the formation Of character in the young has been, and is still lamentably neglected. The development of the intellect and communication Of knowledge have ever been the grand, if not exclusive objects Of education. How is it, at present, in our schools, academies and colleges? Is not the whole course of instruction directed almost exclusively to these Objects? Is not the cultivation of the social virtues and the religious feelings, in a great measure, left to take care of itself? We cannot but think that there is here a lamentable deficiency in all our systems; that the intellectual, in Opposition to the moral powers Of the soul, are too exclusively the Objects Of as siduous care. No one will pretend that the latter are second in importance to the former. We all admit, that it is the moral nature Of man, which raises him into the Sphere Of im mortal beings, connects him with the infinite, and stamps an incomprehensible value on the soul. The subordinate part, therefore, assigned to the cultivation of these feelings in youth, cannot be accounted for on the assumption Of their inferior importance. It may be, there is an impression on many minds that these powers are less susceptible, or stand less in need of cultivation. That this impression is erroneous, it needs only a moment's reflection to perceive. Were this the case, it would be an anomaly in our whole constitution. All the other faculties, whether of mind or body, which God has given us, are susceptible Of cultivation, and are dependent on it, for their. About the Publisher *Forgotten Books* publishes hundreds of thousands of rare and classic books. Find more at [www.forgottenbooks.com](http://www.forgottenbooks.com) This book is a reproduction of an important historical work. *Forgotten Books* uses state-of-the-art technology to digitally reconstruct the work, preserving the original format whilst repairing imperfections present in the aged copy. In rare cases, an imperfection in the original, such as a blemish or missing page, may be replicated in our edition. We do, however, repair the vast majority of imperfections successfully; any imperfections that remain are intentionally left to preserve the state of such historical works.

**THE LIFE OF LUDWIG VAN BEETHOVEN (VOL. 1-3)**

---

---

**COMPLETE EDITION**

---

---

*e-artnow* The Life of Ludwig van Beethoven is the first scholarly biography of Ludwig van Beethoven, covering Beethoven's life to 1816. Thayer became aware of many discrepancies in the already existing biographies of Beethoven, so in 1849 he sailed for Europe to undertake his own researches, learning German and collecting information. Still after many updates Thayer's biography of Beethoven is regarded as a standard work of reference on the composer.

**AMERICAN RELIGIOUS HISTORY: BELIEF AND SOCIETY THROUGH TIME [3 VOLUMES]**

---

**ABC-CLIO** A mix of thematic essays, reference entries, and primary source documents covering the role of religion in American history and life from the colonial era to the present. Often controversial, religion has been an important force in shaping American culture. Religious convictions strongly influenced colonial and state governments as well as the United States as a new republic. Religious teachings, values, and practices deeply affected political structures and policies, economic ideology and practice, educational institutions and instruction, social norms and customs, marriage, and family life. By analyzing religion's interaction with American culture and prominent religious leaders and ideologies, this reference helps readers to better understand many fascinating, often controversial, religious leaders, ideas, events, and topics. The work is organized in three volumes devoted to particular periods. Volume one includes a chronology highlighting key events related to religion in American history and an introduction that overviews religion in America during the period covered by the volume, and roughly 10 essays that explore significant themes. These essays are followed by approximately 120 alphabetically arranged reference entries providing objective, fundamental information about topics related to religion in America. Each volume presents nearly 50 primary source documents, each introduced by a contextualizing headnote. A selected, general bibliography closes volume three. Timelines in each volume highlight key events in American religious history. Some 30 essays survey broad themes central to American religious history. Roughly 360 reference entries provide fundamental information about specific topics related to religion in American history. Excerpts from around 150 primary source documents provide first-hand accounts of how religion has shaped American history. Entry bibliographies and a selected, general, end-of-work bibliography direct users to additional information resources.
