**ANALYZING THE GRAMMAR OF ENGLISH**

---

**, THIRD EDITION**

---

Georgetown University Press **Analyzing the Grammar of English** offers a descriptive analysis of the indispensable elements of English grammar. Designed to be covered in one semester, this textbook starts from scratch and takes nothing for granted beyond a reading and speaking knowledge of English. Extensively revised to function better in skills-building classes, it includes more interspersed exercises that promptly test what is taught, simplified and clarified explanations, greatly expanded and more diverse activities, and a new glossary of over 200 technical terms. Analyzing the Grammar of English is the only English grammar to view the sentence as a strictly punctuational construct—anything that begins with a capital letter and ends with a period, a question mark, an exclamation mark, or three dots—rather than a syntactic one, and to load, in consequence, all the necessary syntactic analysis onto the clause and its constituents. It is also one of the very few English grammars to include—alongside multiple examples of canonical or "standard" language—occasional samples of stigmatized speech to illustrate grammar points. Students and teachers in courses of English grammatical analysis, English teaching methods, TESOL methods, and developmental English will all benefit from this new edition.

### **A READER**

---

Routledge Devised in collaboration with the Open University and Macquarie University, Australia, **Analysing English in a Global Context** is specifically designed for the postgraduate student market, as well as for teachers of English as a second or foreign language throughout the world. This is a groundbreaking Reader which includes specially commissioned pieces as well as classic texts and provides a global perspective on the changing uses and forms of English and its impact on language teaching contexts. Students' skills in analysing these forms will be developed through an examination of the major functional models and their strengths and weaknesses.

## **AN ANNOTATED BIBLIOGRAPHY OF NINETEENTH-CENTURY GRAMMARS OF ENGLISH**

---

John Benjamins Publishing **In the 19th century, education became accessible to much wider circles of society in a great**

number and variety of schools and the teaching of grammar came to be obligatory from 1870/72 with the advent of general education. Whereas these general trends of the 19th century are well-known to scholars working in different disciplines of social history, and the history of education in particular, it is still true that major sections of the evidence are largely uncollected. This is especially so for school books: there is virtually a gap between the 18th century and the present grammatical tradition. This bibliography lists some 1930 works on English grammar published in the 19th century, mainly in Britain and the US, half of which are accompanied by short descriptions of their physical make-up, content and affiliation.

## **ANALYZING SYNTAX**

---

### **A LEXICAL-FUNCTIONAL APPROACH**

---

Cambridge University Press **Analyzing Syntax: A Lexical-Functional Approach is a comprehensive and accessible textbook on syntactic analysis, designed for students of linguistics at advanced undergraduate or graduate level. Working within the Lexical Functional Grammar (LFG) approach, it provides students with a framework for analyzing and describing grammatical structure, using extensive examples from both European and non-European languages. Topics covered include: tests for constituency, passivization and other relation-changing processes, reflexive pronouns, the control relation, Topic and Focus, relative clauses and Wh-questions, causative constructions, serial verbs, quirky case, and ergativity. As well as building on what linguists have learned about language in general, particular attention is paid to the unique features of individual languages. While its primary focus is on syntactic structure, the book also deals with aspects of meaning, function and word-structure that are directly relevant to syntax. Clearly organised into topics, this textbook is ideal for one-semester courses in syntax and grammatical analysis.**

---

## **STUDENT-DRIVEN LEARNING STRATEGIES FOR THE 21ST CENTURY CLASSROOM**

---

IGI Global **The creation of a successful learning environment involves the examination and improvement upon current teaching practices. As new strategies emerge, it becomes imperative to incorporate them into the classroom. Student-Driven Learning Strategies for the 21st Century Classroom provides a thorough examination of the benefits and challenges experienced in learner-driven educational settings and how to effectively engage students in these environments. Focusing on technological perspectives, emerging pedagogies, and curriculum development, this book is ideally designed for educators, learning designers, upper-level students, professionals, and researchers interested in innovative approaches to student-driven education.**

## **THE R.I. SCHOOLMASTER**

---

---

### **LANGUAGE AND GENDER: ANALYZING INTERACTION IN A BRAZILIAN PORTUGUESE AND ENGLISH LANGUAGE MIXED-SEX SETTING**

---

Universal-Publishers This dissertation attempts to investigate some interactional features in the conversation of women and men taking into account verbosity, turn-taking, use of standard forms, directness and assertiveness. To do so, an ethnographic method of natural conversation video-recording was utilized within a group of 2 female and 2 male Brazilian Portuguese speakers and 2 females and 2 males in a group of English speakers. This study suggests that the amount of talk uttered by women and men when they are in informal occasions may not vary so drastically. Accordingly, this investigation also shows that females and males may interrupt each other's conversation almost equally and may make the same use of colloquial language in informal settings. However, it also shows that women are more likely to make use of hedging devices than men. Hence, the observation of natural talk between women and men seems to suggest that both genders might make similar use of the language with respect to some interactional features of language found in their conversation in informal settings such as the ones described throughout this paper.

---

### **ABSOLUTE CLAUSES IN ENGLISH FROM THE SYSTEMIC FUNCTIONAL PERSPECTIVE**

---

---

#### **A CORPUS-BASED STUDY**

---

Springer This book focuses on the structural diversity, semantic variability, case choice, stylistic characteristics and diachronic distribution of English absolute clauses. The syntactic roles assumed by absolute clauses in the traditional sense can be categorized into clausal adjuncts, attendant circumstances and appositives. These three types of function correspond to the three hypotactic expansions in the relation system of clause complexes in Systemic Functional Linguistics, i.e., elaboration, extension and enhancement. This research, therefore, redefines absolute clauses in the framework of SFL and proposes four syntactic types of absolute clauses: absolute paratactic clauses (elaboration), absolute hypotactic clauses (extension and enhancement), absolute projected clauses (fact and act) and absolute embedded clauses (subject). Based on the Brown family corpora, BNC and COHA, this research finds that different function types of absolute clauses differ in terms of their stylistic and diachronic distributions, and both nominative and accusative cases are acceptable.

## **NAVIGATING ENGLISH GRAMMAR**

---

---

---

### **A GUIDE TO ANALYZING REAL LANGUAGE**

---

John Wiley & Sons **An engaging and fresh take on the rules and politics of English grammar, written in lively prose. It goes a step further than most books on grammar by providing an overview of the field, with a discussion of historical and current debates about grammar, and how we define, discuss, and approach it. Presents a novel, inquiry-based approach to understanding speakers' unconscious knowledge of English grammar Makes lucid connections, when relevant, with current linguistic theory Integrates language change and variation into the study of grammar Examines historical sources of socially evaluative perceptions of grammar, as 'good' or 'bad', and notions of language authority Provides syntactic explanations for many modern punctuation rules Explores some of the current controversies about grammar teaching in school and the role of Standard English in testing and assessment**

---

---

### **AN INTRODUCTION**

---

Cambridge University Press **Analyzing Grammar is a clear introductory textbook on grammatical analysis, designed for students beginning to study the discipline. Covering both syntax (the structure of phrases and sentences) and morphology (the structure of words), it equips them with the tools and methods needed to analyze grammatical patterns in any language. Students are shown how to use standard notational devices such as phrase structure trees and word-formation rules, as well as prose descriptions. Emphasis is placed on comparing the different grammatical systems of the world's languages, and students are encouraged to practice the analyses through a diverse range of problem sets and exercises. Topics covered include word order, constituency, case, agreement, tense, gender, pronoun systems, inflection, derivation, argument structure and grammatical relations, and a useful glossary provides a clear explanation of each term. Accessibly written and comprehensive, Analyzing Grammar is set to become a key text for all courses in grammatical analysis.**

### **THEORIZING AND ANALYZING LANGUAGE TEACHER AGENCY**

---

---

Multilingual Matters **This volume examines the agency of second/foreign language teachers in diverse geographical contexts and in both K-12 and adult education. It offers new understandings and conceptualizations of second/foreign language teacher agency through a variety of types of empirical data. It also demonstrates the use of different methodologies or analytic tools to study the multidimensional, dynamic and complex nature of second/foreign**

language teacher agency. The chapters draw on a range of theories and approaches to language teacher agency (including ecological theory, positioning theory, complexity theory and actor-network theory) that expand our understanding of the concept, while at the same time presenting various analytic approaches such as discourse studies and narrative inquiry. The chapters also analyze the connection of agency to other relevant topics, such as teacher identity, emotions, positioning and autonomy.
