THE PENTIUM CHRONICLES

THE PEOPLE, PASSION, AND POLITICS BEHIND INTEL'S LANDMARK CHIPS

Wiley-IEEE Computer Society Press Publisher Description

ACHTUNG-PANZER!

THE DEVELOPMENT OF ARMOURED FORCES, THEIR TACTICS AND OPERATIONAL POTENTIAL

Arms & Armour This is one of the most significant military books of the twentieth century. By an outstanding soldier of independent mind, it pushed forward the evolution of land warfare and was directly responsible for German armoured supremacy in the early years of the Second World War. Published in 1937, the result of 15 years of careful study since his days on the German General Staff in the First World War, Guderian's book argued, quite clearly, how vital the proper use of tanks and supporting armoured vehicles would be in the conduct of a future war. When that war came, just two years later, he proved it, leading his Panzers with distinction in the Polish, French and Russian campaigns. Panzer warfare had come of age, exactly as he had forecast. This first English translation of Heinz Guderian's classic book - used as a textbook by Panzer officers in the war - has an introduction and extensive background notes by the modern English historian Paul Harris.

UNDERCOVER REPORTING

THE TRUTH ABOUT DECEPTION

Northwestern University Press In her provocative book, Brooke Kroeger argues for a reconsideration of the place of oft-maligned journalistic practices. While it may seem paradoxical, much of the valuable journalism in the past century and a half has emerged from undercover investigations that employed subterfuge or deception to expose wrong. Kroeger asserts that undercover work is not a separate world, but rather it embodies a central discipline of good reporting—the ability to extract significant information or to create indelible, real-time descriptions of hard-to-penetrate institutions or social situations that deserve the public's attention. Together with a companion website that gathers some of the best investigative work of the past century, Undercover Reporting serves as a rallying call for an endangered aspect of the journalistic endeavor.

THE FORBIDDEN ABYSS PART ONE

BRENT SPINER & VLADIMIR PUTIN

Createspace Independent Publishing Platform The truth about the real Brent Spiner and Vladimir Putin that you will never hear in Jesuit News (i.e. CNN, MSNBC, FOX, BBC, etc.). This is the fascinating and unbelievable true story behind the first two men who fell in love with Gail Chord Schuler (Gail Chana in this book) and how the Jesuit Order has targeted Gail Chord Schuler, Brent Spiner and Vladimir Putin, forcing them to parade in a charade before the world filled with Jesuit wives and extortioners who will stop at nothing to prevent Brent Spiner and Vladimir Putin from marrying the woman they love: Gail Chord Schuler. Nobody should vote in the U.S. Presidential election (2016) without reading this book. This book shows the heart of the real Vladimir Putin, who is nothing like how Jesuit News portrays him to the world. Knowing the truth will set us free. How a Presidential candidate handles Vladimir Putin exposes their stance on the Jesuit Order, which, in turn, exposes whether they are a Jesuit patsy or a courageous leader. This book reveals that Vladimir Putin is the strongest anti-Jesuit world leader in the world today, simply because he is in love with the woman the Jesuits fear the most: Gail Chord Schuler. The extent to which Jesuits will go to bring down Gail Chord Schuler, Brent Spiner and Vladimir Putin will blow you away in this horrifying, yet fascinating, true story. This is the first half of the very long book The Forbidden Abyss Part One: 1990 to 2011, and covers the history of Brent Spiner and Vladimir Putin from 1990 to 2012. It omits the second half of The Forbidden Abyss Part One: 1990 to 2011, which is about the August 2011 Quebec trial.

OBAMA'S RING

THE SEAT OF SATAN

Createspace Independent Pub Does Barack Obama's ring carry a sinister message? The idea that his ring carried an Islamic message was debunked when a photo

revealed that was not the message on the ring. What that photo revealed was even more sinister than an Islamic message. It revealed a Satanic association of Biblical importance. Displayed on Obama's ring are two coiled serpents. Many verses in the Bible refer to Satan as a serpent; starting in the Garden of Eden in Genesis, and moving to the church at Pergamos, in Revelation. According to Apostle John, writing from Patmos to the seven churches of Asia Minor, Satan's seat was at the church of Pergamos. John's reference was to the icon for the great medical center there which was represented by serpents. Using that reference from Apostle John's letter to Pergamos, there are many other clues in the Bible, and from current events, that suggest Barack Obama might be the one described in the Book of Revelation as the deceiver, that great threat to Israel and Christians. The author reveals many connections to suggest that possibility. The author describes the major event that will allow the rise of the Antichrist, how the Antichrist will get his great power, how the second beast will support the first beast, and why and how those Biblical writings are tied directly to current events. According to the author: Agenda 21, the Muslim Brotherhood, the One World Order, Wahabbism, and the actions by Barack Obama reveal signs of the 'End Times.' This book ties all these things together to show a clear and revealing picture of that Biblical prophesy.

THE AUTHORITY OF THE BELIEVER

GENERAL PRESS The Authority of the Believer urges the faithful Christian to take utmost cognizance in their deeds and words, that their closeness to the Lord be soundly affirmed each day. A sublime series of reflections upon what it is to be a good Christian, 'The Authority of the Believer' allows the reader to deeply contemplate. Reflecting on many of the greatest lessons and deeds depicted in the Bible, together with experiences in his own life, John MacMillan shows us just how powerful and capable a true believer in God can be. Faith, purely held and defended against the temptations and distractions of life, is a tool of immense use—the power of Christ and the Heavenly Lord can serve as a great support. John A. MacMillan was a Canadian politician and a preacher who spent his younger years as an emissary to the Chinese and Asian communities of Western Canada, spending time in both Asia and North America where he spread the good word of Christ.

TELEMICROSURGERY

ROBOT ASSISTED MICROSURGERY

Springer Science & Business Media The purpose of this book is to define the basis of telemicrosurgery, a new discipline at the border of robotics and microsurgery. After the history of robotics and microsurgery, the robots and their instrumentation will be described. The chapters will explain the training in telemicrosurgery and then propose some experimental paradigms. The first clinical applications for various specialties will be explored. In closing, potential future applications will be discussed.

EXPLORATIONS IN QUANTUM COMPUTING

Springer Science & Business Media By the year 2020, the basic memory components

of a computer will be the size of individual atoms. At such scales, the current theory of computation will become invalid. "Quantum computing" is reinventing the foundations of computer science and information theory in a way that is consistent with quantum physics - the most accurate model of reality currently known. Remarkably, this theory predicts that quantum computers can perform certain tasks breathtakingly faster than classical computers – and, better yet, can accomplish mind-boggling feats such as teleporting information, breaking supposedly "unbreakable" codes, generating true random numbers, and communicating with messages that betray the presence of eavesdropping. This widely anticipated second edition of Explorations in Quantum Computing explains these burgeoning developments in simple terms, and describes the key technological hurdles that must be overcome to make quantum computers a reality. This easy-to-read, time-tested, and comprehensive textbook provides a fresh perspective on the capabilities of quantum computers, and supplies readers with the tools necessary to make their own foray into this exciting field. Topics and features: concludes each chapter with exercises and a summary of the material covered; provides an introduction to the basic mathematical formalism of quantum computing, and the quantum effects that can be harnessed for non-classical computation; discusses the concepts of quantum gates, entangling power, quantum circuits, quantum Fourier, wavelet, and cosine transforms, and quantum universality, computability, and complexity; examines the potential applications of quantum computers in areas such as search, code-breaking, solving NP-Complete problems, quantum simulation, quantum chemistry, and mathematics; investigates the uses of quantum information, including quantum teleportation, superdense coding, quantum data compression, quantum cloning, quantum negation, and quantum cryptography; reviews the advancements made towards practical quantum computers, covering developments in quantum error correction and avoidance, and alternative models of quantum computation. This text/reference is ideal for anyone wishing to learn more about this incredible, perhaps "ultimate," computer revolution. Dr. Colin P. Williams is Program Manager for Advanced Computing Paradigms at the NASA Jet Propulsion Laboratory, California Institute of Technology, and CEO of Xtreme Energetics, Inc. an advanced solar energy company. Dr. Williams has taught quantum computing and quantum information theory as an acting Associate Professor of Computer Science at Stanford University. He has spent over a decade inspiring and leading high technology teams and building business relationships with and Silicon Valley companies. Today his interests include terrestrial and Space-based power generation, quantum computing, cognitive computing, computational material design, visualization, artificial intelligence, evolutionary computing, and remote olfaction. He was formerly a Research Scientist at Xerox PARC and a Research Assistant to Prof. Stephen W. Hawking, Cambridge University.

2028 END

DECLARING THE END FROM THE BEGINNING

God created a game - it's called The Game of Life. Planet Earth is the playing field, the 10 love commandments are the rules, and we humans are the players who can win or lose. The game is played by two teams, like the game of football. One team's head coach is Jesus and the other team's head coach is Satan. All of us on earth are playing for one of these two teams! Gabriel Ansley Erb wrote the book "2028 END" in order to fully elucidate God's game clock scenario for The Game of Life as contained in the game's handbook, the Holy Bible. The handbook says, "God declared the end from the beginning" (Isaiah 46:10) by using 7 days in the creation event. Each 24 hour creation day foretold of a future 1,000 year period for a total 7,000 year plan God had for The Game of Life to be played on planet earth. And amazingly, to confirm this is all true, God hid a secret prophesy in each creation day foretelling the greatest event He had planned to occur in that day's future millennium!Consequently, Creation day 1 foretold Adam & Eve's fall, which was fulfilled during earth's 1st millennium. Creation day 2 foretold Noah's global flood, which was fulfilled during earth's 2nd millennium. Creation day 3 foretold Moses' Red Sea parting, which was fulfilled during earth's 3rd millennium. Creation day 4 foretold of John the Baptist & Jesus Christ, and so they lived and died during earth's 4th millennium. And the prophecies continue with each Creation day!Gabriel proves all of the above, carefully revealing the prophetic Scriptures as well as the fulfillment Scriptures. Then he reveals a dozen Scriptures proving Christ died earth's 4,000 year and will return earth's 6,000 year. Finally, he proves Christ died Feast of Passover AD 28 and will return Feast of Trumpets 2028. For those who read this book, it is an open and shut case: The Game of Life will end 2,000 years from the year of Christ's death on the cross - AD 2028.
