With the support of the Rockefeller Foundation and the wealthy Di Tella family, CLAEM offered two-year fellowships to some of the most recognized young composers of the region to undertake graduate studies in a unique privileged setting under the direction of Alberto Ginastera and with permanent and visiting faculty that included Gerardo Gandini, Francisco Kröpfl, Mario Davidovsky, Iannis Xenakis, Luigi Nono, Aaron Copland, Luigi Dallapiccola, Bruno Maderna, Riccardo Malipiero, Olivier Messiaen, Roger Sessions, and Earle Brown. In **Elite Art Worlds**, author Eduardo Herrera combines oral histories, ethnographic research, and archival sources to reveal CLAEM as a meeting point of US and Argentine philanthropy, local experiences in transnational currents of artistic experimentation and innovation, and regional discourses of musical Latin Americanism. The story of CLAEM shows how musical avant-gardes were articulated, embodied, resignified, and institutionalized in Latin America, how composers during the 1960s engaged with discourses of Latin Americanism as professional strategy, identification marker, and musical style, and sheds light into the role of art in the legitimation and construction of elite status and identity. By looking at CLAEM as both an artistic and a philanthropic project, Herrera illuminates the relationships between foreign policy, corporate interests, and funding for the arts concerning Latin America and the U.S. in the mid-twentieth century"-- **The Political Elite in a Developing Society** *Academic Foundation Study*, with reference to Orissa, India. **Elite Dualism and Leadership Selection in China** *Routledge* Who are the top political leaders in China? What are the major criteria in elite recruitment? How is job promotion in high politics determined? By studying over one and a half thousand top political Chinese leaders, this book seeks to answer these questions and, as a result, defines how Chinese leadership is stratified. Unlike existing research on Chinese leaders, **Elite Dualism and Leadership Selection in China** draws on extensive statistical information and data analysis. It evidences how political development in the reform era has led to the division of labour between the Chinese Communist Party (CCP) and the government in governance, leading to two distinctive career paths in the two political systems respectively. Key issues examined include: * the different criteria the CCP and the government demand * the requirements for promotion * the effect of university education on the rate of mobility * the different affiliations of the two groups * the role of cooptation in leadership selection. Many of the elites discussed are still leading figures in China, making this book the most up-to-date and extensive biographical data set in elite studies. This allows for a meaningful analysis of elite behaviour in China for the first time in Chinese Studies. This book will be useful to both students of Chinese studies and comparative politics and will also interest researchers, political commentators, statesmen and China-watchers. **The Power Elite and the State How Policy Is Made in America** *Transaction Publishers* This volume presents a network of social power, indicating that theories inspired by C.Wright Mills are far more accurate views about power in America than those of Mills's opponents. Dr. Domhoff shows how and why coalitions within the power elite have involved themselves in such policy issues as the Social Security Act (1935) and the Employment Act (1946), and how the National Labor Relations Act (1935) could pass against the opposition of every major corporation. The book describes how experts worked closely with the power elite in shaping the plans for a post-World War II world economic order, in good part realized during the past 30 years. Arguments are advanced that the fat cats who support the Democrats cannot be understood in terms of narrow self-interest, and that moderate conservatives dominated policy-making under Reagan. **Mass and Elite in Democratic Athens Rhetoric, Ideology, and the Power of the People** *Princeton University Press* This book asks an important question often ignored by ancient historians and political scientists alike: Why did Athenian democracy work as well and for as long as it did? Josiah Ober seeks the answer by analyzing the sociology of Athenian politics and the nature of communication between elite and nonelite citizens. After a preliminary survey of the development of the Athenian "constitution," he focuses on the role of political and legal rhetoric. As jurymen and Assemblymen, the citizen masses of Athens retained important powers, and elite Athenian politicians and litigants needed to address these large bodies of ordinary citizens in terms understandable and acceptable to the audience. This book probes the social strategies behind the rhetorical tactics employed by elite speakers. A close reading of the speeches exposes both egalitarian and elitist elements in Athenian popular ideology. Ober demonstrates that the vocabulary of public speech constituted a democratic discourse that allowed the Athenians to resolve contradictions between the ideal of political equality and the reality of social inequality. His radical reevaluation of leadership and political power in classical Athens restores key elements of the social and ideological context of the first western democracy. **Diversity in the Power Elite How it Happened, Why it Matters** *Rowman & Littlefield Publishers* This book looks systematically at the extent to which Jews, women, African Americans, Latinos, Asians and gay men and lesbians have entered the higher circles of power that constituted what sociologist C. Wright Mills called 'the power elite.' Using a deft combination of academic research and telling anecdotes, the book examines the backgrounds and careers of such well-known members of the power elite as attorney general Alberto Gonzales, secretary of state Condoleezza Rice, former secretary of state Colin Powell, and former CEO of Hewlett-Packard Carly Fiorina to explain why and how the power elite has diversified and the effect this diversification has had on the way power works in the United States. **The Best How Elite Athletes Are Made** *Hachette UK* "Insightful, thoughtful, and altogether wonderful." DANIEL COYLE, New York Times bestselling author of THE TALENT CODE "This book is a must read." EDDIE JONES, Head Coach, England Rugby "An engrossing guidebook for youth athletes, parents, coaches and perhaps even fantasy-league fans looking for a little insight." The Washington Post **THE SECRETS OF SUPERHUMAN PERFORMANCE THE BEST** reveals how the most incredible sportspeople in the world get to the top and stay there. It is a unique look at the path to sporting greatness; a story of origins, serendipity, practice, genetics and the psychology of excellence, as well as of sports science and cutting edge technology. Packed with gripping personal stories and exclusive interviews with top athletes including Siya Kolisi, Marcus Rashford, Pete Sampras, Steph Curry, Jamie Carragher, Ian Poulter, Helen Glover, Ada Hegerberg, Elena Delle Donne, Joey Votto and Mike Hussey, it explains how the best athletes develop the extraordinary skills that allow them to perform remarkable feats under extreme pressure. Get inside the minds of champions and understand first-hand what makes them perform during high-octane competition, what they think about in the heat of the moment and what drives them to do what they do. By combining examples from numerous original interviews with top athletes and leading sports science research, **THE BEST** deconstructs superhuman performance and answers the question on every sports fan's mind: "How did they do that?" "Fascinating and insightful... The Best isn't a one size fits all, it's a highly thought out, well-researched and accessible book that gives recommendations based on context and sport." JOANNE O'RIORDAN, The Irish Times **ABOUT THE AUTHORS** A. Mark Williams is an academic and one of the world's leading authorities on expertise and its acquisition in sport. He has published 18 books and written over 500 scientific articles on how people become skilled and achieve success in sport and across other professional domains. He has worked across the globe as a consultant with numerous Olympic and professional sports and has vast experience as a scientist, author and educator, and as an applied sports scientist. Tim Wigmore is the author of Cricket 2.0: Inside the T20 Revolution, the winner of the Wisden Book of the Year award for 2020. He is a sports writer for The Daily Telegraph, and has also written regularly for The New York Times, The Economist, the New Statesman and ESPNcricinfo. It's unclear who exactly is in charge and what role they play. The same influential people seem to reappear time after time in different professional guises, pressing their own agendas in one venue after another. According to award-winning public policy scholar and anthropologist Janine Wedel, these are the powerful "shadow elite," the main players in a vexing new system of power and influence. In this groundbreaking book, Wedel charts how this shadow elite, loyal only to their own, challenge both governments'; rules of accountability and business codes of competition to accomplish their own goals. From the Harvard economists who helped privatize post-Soviet Russia and the neoconservatives who have helped privatize American foreign policy (culminating with the debacle that is Iraq) to the many private players who daily make public decisions without public input, these manipulators both grace the front pages and operate behind the scenes. Wherever they maneuver, they flout once-sacrosanct boundaries between state and private. Profoundly original, **Shadow Elite** gives us the tools we need to recognize these powerful yet elusive players and comprehend the new system. Nothing less than our ability for self-government and our freedom are at stake. **Military Force and Elite Power in the Formation of Modern China** *Routledge* The China we know today emerged at the end of a long period of internal rebellions, civil wars, foreign invasions, and revolutionary insurrections that stretched across the nineteenth century to the mid-point of the twentieth. This book explores one important consequence of this situation—the increased role of military force in the determination of elite social, political, and economic power, and presents fascinating case studies of the warlords, militia leaders, and military officers who benefited from this. Examining the intersection of military force and elite power in the formative years of modern Chinese history, this book highlights just how important military force was to elite power in nineteenth- and early twentieth-century China in a context of frequent warfare and political turmoil. It shows that

the way in which military empowerment unfolded and who exactly was empowered, depended heavily on shifting military and political conditions, and each case confirms the extent to which military force emerged as a consistently significant determinant of elite power across this period. Indeed, the transformative effect of military force on social and political structures of power revealed by these studies sheds distinctive light on the prevalence, and wide-ranging impact, of military conflicts in this period. In turn, these studies also provide a particular perspective on the fluid boundaries of, as well as the constraints on, elite power in Chinese society in a time of intense social and political change. This book makes an important contribution to our understanding of the rise of modern China, and provides a keen insight into impact of war on the country, as such, it will be welcomed by students and scholars interested in Chinese history, Asian history, and military history more broadly. *Comparing Party System Change* Routledge This volume examines the recent changes which have occurred in party systems across Europe. It concludes that parties in many countries are no longer bare reflections of traditional social groups. Rather, the structure in which parties compete is increasingly open and flexible, and subject to on-going change. The combination of comparative and individual case-studies provides strong evidence that political parties remain a potent, if changing, force in politics throughout Europe. *Palestinian Politics and the Middle East Peace Process Consensus and Competition in the Palestinian Negotiating Team* Routledge Eight years after the second Palestinian uprising, the Oslo accords signed in 1993 seem to have failed. This book explores one of the major aspects of the bilateral peace process - the composition and behaviour of the Palestinian negotiating team, which deeply impacted the outcome of the negotiations between 1991 and 1997. *A New African Elite Place in the Making of a Bridge Generation* Berghahn Books Focusing on a sub-set of the Dagomba of northern Ghana, this book looks at the first generation to go through secondary school in the north. After university and post-graduate education, they relocate to Accra, the capital, hundreds of miles south. They crossed social and physical space and have become cosmopolitan while holding on to tradition and attachment to their home town. This bridge generation are patrons to those living up north. This book charts their path into elite status and argues that they use the tools gained through education and social connections to influence politics back home. *Making Elite Lawyers Visions of Law at Harvard and Beyond Harvard Law School* is more than a law school; it's a cultural icon. Home to the best and the brightest, training ground for the corporate elite. Surprisingly enough, however, an overwhelming majority of students in any entering class identifies itself as liberal to leftist in its political orientation. Then why does the majority of any graduating class choose corporate law practice over public interest work? What happens to students in those three years between orientation and commencement? *Making Elite Lawyers* is the first detailed study of legal education at America's premier law school. Drawing on in-depth interviews, student questionnaires, and his own classroom observations, author Robert Granfield documents the conservatizing effects of the Harvard legal education on a broad cross-section of the student population, paying particular attention to the fate of women, students of color, and those from working-class backgrounds at Harvard Law School. In his analysis of the legal curriculum, Granfield shows how the boot-camp of first-year law school marks the emergence of a finely-tuned legal consciousness which comes to value gamesmanship over ideals, and competition and victory over right and wrong. As learning to "think like a lawyer" begins to take its toll on students - leaving them confused and alienated by this legal education - students are forced to pragmatically conclude that their moral beliefs are a thing apart from their work as attorneys. *Making Elite Lawyers* reveals how the "Harvard Mystique" also helps conservatize students. From the moment they arrive on campus for orientation to the manner in which they are wined and dined as summer associate candidates by top-flight corporate law firms, students are encouraged to accept the status, power, and money that the Harvard Law School experience confers. By offering students the psychological and material path of least resistance into America's higher circles, Granfield concludes, Harvard ultimately only schools its attorneys to represent the interests of the social and political status quo. *Building the Elite The Complete Guide to Building Resilient Special Operators The Monterrey Elite and the Mexican State, 1880-1940* University of Texas Press After the Revolution of 1910, a powerful group of Monterrey businessmen led by the Garza-Sada family emerged as a key voice of the Mexican private sector. The Monterrey Elite and The Mexican State is the first major historical study of the "Grupo Monterrey," the business elite that transformed Monterrey into a premier industrial center, the "Pittsburgh" of Mexico. Drawing on archival resources in the United States and Mexico and the work of previous scholars, Alex Saragoza examines the origins of the Monterrey elite. He argues that a "pact" between the new state and business interests was reached by the 1940 presidential elections—an accord that paved the way for the "alliance for profits" that has characterized relations between the Mexican state and capitalists since that time. More than a standard business history, this study delves into both the intimate social world of the Garza-Sadas and their allies and the ideas, beliefs, and vision of the Monterrey elite that set it apart from and often against the Mexican government. In so doing, *The Monterrey Elite and the Mexican State* reveals the underlying forces that led to the most historic battle between the private sector and the Mexican state: the dramatic showdown in 1936 between the Garza-Sadas and then President Lázaro Cárdenas in Monterrey, Nuevo León. *Philanthropic Foundations New Scholarship, New Possibilities* Indiana University Press "Foundations are socially and politically significant, but this simple fact... has mostly been ignored by students of American history.... This collection represents an important contribution to an emerging field." -- Kenneth Prewitt, Social Science Research Council *The Elite Secretary The Definitive Guide to a Successful Career* iUniverse Secretaries have been in existence since the establishment of the office and will undoubtedly continue to exist as long as there are offices and bosses. But the role has expanded from earlier years, and the responsibilities and duties have evolved as well. In *The Elite Secretary*, author Sandra C. Rorbak, who has been a secretary on three continents throughout her career of more than twenty years, provides specific information on how to succeed in the position. *The Elite Secretary* clarifies what novice secretaries really need to know: what to do (and what not to do) on the first day, how to handle the bully boss and other unsavory office personalities, what to expect in the modern office, and how to become an elite secretary. It provides real-life examples for both new and experienced secretaries, explaining what to expect on the job and how to handle ambiguous situations. What are the advantages and disadvantages of temping? How do male and female employers differ? How does one navigate office politics? An informative, how-to guide, *The Elite Secretary* includes practical tools such as rsum suggestions, a day-by-day checklist for interview preparation, competency guidelines, and a sample dress code policy to help you become a top-notch secretary. *Human Development and Interaction in the Age of Ubiquitous Technology* IGI Global The human condition is affected by numerous factors in modern society. In modern times, technology is so integrated into culture that it has become necessary to perform even daily functions. *Human Development and Interaction in the Age of Ubiquitous Technology* is an authoritative reference source for the latest scholarly research on the widespread integration of technological innovations around the globe and examines how human-computer interaction affects various aspects of people's lives. Featuring emergent research from theoretical perspectives and case studies, this book is ideally designed for professionals, students, practitioners, and academicians. *Nordic Elite Sport Same Ambitions, Different Tracks* Copenhagen Business School Press DK This book provides an insightful overview over similarities and differences in the structures an methods applied in Nordic elite sport. It represents a milestone in understanding how these countries have dealt with the challenges of modern elite sport within a historical context. Despite initial similarities with respect to the structure and role of the sports movement, there are significant differences between the countries. The book represents a substantial contribution to the understanding of how the elite sports systems have developed within the broader sports movements, and how they are positioned to deal with today's challenges under the watchful eye of the broader society. *The Dark Order of the Elite Corporatist Rule of Tyranny* Xlibris Corporation The basic theme of this story is based upon a poem I wrote about the corruption and greed controlling Wall Street entitled "We the Elite." The two main characters are the oligarchs who call themselves the Order Elite, and the anarchists who have become impoverished by the corrupt system of economics described as corporatist, crony, and predatory capitalism. The anarchists rebel against the system and are exiled from the mainstream society, building a complete police state inside a secure area separated by security walls and security forces protecting property owned and controlled by the Trilateral Corporation (Vector, Solitaire, and Gamble). The third character is the Revolutionary, which was created by a lawyer named John Alexander Hamilton. He is a descendant of the first treasury secretary, Alexander Hamilton. His primary goal is to reform the current corrupt system and restore the principles of the constitution and revive the American system of economics created by Alexander Hamilton. The Revolutionary Party is a political party aimed at reforming and restoring the rights of individuals and restoring democracy to rebuild a peaceful future for a nation besieged by the tyranny of the Order Elite. *Psycho"therapy" Theory, Practice, Modern, and Postmodern Influences* ABC-CLIO A postmodern deconstruction of modern psychiatry, contending that is not science but pseudoscience, reducing its human subjects to little more than twitching neurons, biological drives, and conditioned stimuli, and discounting the value of human consciousness, choice, and dignity. It further develop Privilege *The Making of an Adolescent Elite at St. Paul's School* Princeton University Press As one of the most prestigious high schools in the nation, St. Paul's School in Concord, New Hampshire, has long been the exclusive domain of America's wealthiest sons. But times have changed. Today, a new elite of boys and girls is being molded at St. Paul's, one that reflects the hope of openness but also the persistence of inequality. In *Privilege*, Shamus Khan returns to his alma mater to provide an inside look at an institution that has been the private realm of the elite for the past 150 years. He shows that St. Paul's students continue to learn what they always have--how to embody privilege. Yet, while students once leveraged the trappings of upper-class entitlement, family connections, and high culture, current St. Paul's students learn to succeed in a more diverse environment. To be the future leaders of a more democratic world, they must be at ease with everything from highbrow art to everyday life--from Beowulf to Jaws--and view hierarchies as ladders to scale. Through deft portrayals of the relationships among students, faculty, and staff, Khan shows how members of the new elite face the opening of society while still preserving the advantages that allow them to rule. *Disclosing Elite Ecologies Methodologies For "Doing" Urban Elite Research* Routledge *Disclosing elite ecologies: Methodologies for "Doing" Urban Elite Research* offers a set of methodologies to chart urban elites. Whereas most research has focused on the global super-rich, this book pays specific attention to the multidimensional urban geographies of elite reproduction and transformation, as elites depend on urban contexts for capital accumulation, consumption and leisure, and housing. Adopting an interdisciplinary approach to the topic, contributing authors discuss various theoretical and methodological antecedents in urban studies and related areas of research that have investigated economic elites. Building on, but also moving beyond these bodies of literature, the book rejects a-priori definitions of the size and shape of this social group and instead pursues relational, place specific conceptualizations of elite composition and behavior. In particular, the contributions to the volume show that urban elite research benefits from paying more attention to: (i) boundary work between elites and non-elites; (ii) intra-elite competition and distinction; (iii) national state spaces in determining elite composition; and (iv) the urban sense of belonging of economic elites. This extensive volume provides readers with various empirical inroads into the study of urban elites drawing on research set in Brussels, Fez, London, Lyon, Madrid, Manchester, Milan, New York City, Paris, and Porto Alegre. Taking inspiration from urban and economic geography, elite theory and urban sociology, cultural sociology, political economy, anthropology, criminology, architecture, and migration studies, this book aims to open up the opportunity for methodological cross-fertilization. The chapters in this book were originally published as a special issue of *Urban Geography*. *Elite Mobilities* Routledge Small in number but great in influence, mobile elites have shaped the contours of global capitalism. Today these elites continue to flourish globally but in a changing landscape. The current economic crisis—and rising concerns about the moral legitimacy of extreme wealth—coincides with stern warnings over the risks posed by climate change and the unsustainable use of resources. Often an out-of-bounds topic in critical social science, elites are thought of as too inaccessible a group to interview and too variable a minority to measure. This groundbreaking collection sets out to challenge this perception. Through the careful examination of the movements of the one per cent through the everyday spaces of the ninety-nine per cent, *Elite Mobilities* investigates the shared zones elites inhabit alongside the commons: the executive lounge in the airport, the penthouse in the hotel, or the gated community next to the slum. Bringing together the pioneer scholars in critical sociology today, this collection explores how social scientists can research, map, and 'track' the flows and residues of objects, wealth and power surrounding the hypermobile. *Elite Mobilities* sets a new benchmark in social science efforts to research the powerful and the privileged. It will appeal to students and scholars interested in mobilities, transport, tourism, social stratification, class, inequality, consumption, and global environmental change. *The Politics of Garbage A Community Perspective on Solid Waste Policy Making* University of Pittsburgh Pre Increased environmental awareness, more demands on local governments, a newly invigorated citizen activism, and a decaying and overburdened infrastructure have made taking care of our garbage one of the major policy making challenges facing local communities. Luton uses the case study of Spokane WA to analyze the public administration and socio-political context of solid waste policy making. Luton's thorough exploration of Spokane's experience as opens a window onto

contemporary issues of solid waste management as well as the complex social and political environment in which public administrators must operate. His integration of systems theory in the analysis adds to the book's value as a teaching tool for courses on policy making, urban planning, public administration, and the environment. He examines the complex combination of ecological, political, social and relational dynamics that affect such policies, providing insight into inter-governmental public policy making. The Technical Intelligentsia and the East German Elite Legitimacy and Social Change in Mature Communism *University of California Press* This title is part of UC Press's Voices Revived program, which commemorates University of California Press's mission to seek out and cultivate the brightest minds and give them voice, reach, and impact. Drawing on a backlist dating to 1893, Voices Revived makes high-quality, peer-reviewed scholarship accessible once again using print-on-demand technology. This title was originally published in 1974. The New Elite The dragonriders have been given a second chance. But that only draws more attention to them. Many powerful people want a dragon egg. And they will kill for them. The Gullington has never been more unsafe. Harboring dragon eggs is dangerous business. Sophia Beaufont feels the pressure to protect and also defend like never before. Being a mama to eggs isn't easy. And yet, S. Beaufont would have it no other way. Will the dragon eggs survive the greed seeking to steal them for selfish gains? Elite Business Schools Education and Consecration in Neoliberal Society *Routledge* Social scientists are paying increasing attention to the business and financial elites: There's a great need to understand who these elites are, what they do, and what makes them tick, as individuals but also as a class. By examining elite business schools, the institutions that train and prepare people to assume important leadership and decision-making positions in business, finance and related sectors, we may also learn how the economic elites are made. A key argument in this book is that elite schools are known to create powerful groups in society, offering them the intellectual and analytical means to act as leaders, but, most importantly, the social, moral and aesthetic skills that are deemed necessary to exercise power; in all essential respects elite schools consecrate people. By dominating much of higher education today, and by doing so in a way that creates and reproduces a market-based organization and control of society, elite business schools represent certain interests and ideologies that affect the lives of most people. In understanding how the modern economy is run, elite business schools, therefore, represent critical study objects. This book, based on an in-depth study of the Stockholm School of Economics (SSE), offers a sociological analysis of the world of elite business schools. Specifically, this book examines the consecration of SSE's students from a number of perspectives and in a number of situations, focusing on student union activities, school culture, faculty behavior, teaching, courses and alumni events, noting the symbolic importance of economics and particularly the school's unique relation among the world's business schools to the Nobel Prize. The book addresses the topics with regards to the sociology of elites, management education and organizational studies and will be of interest to researchers, academics, and students also interested in business history, higher education studies, and sociology of education. The Making of Elite Women Revolution and Nation Building in Eritrea *BRILL* This book captures the intriguing stories of different generations of women within the Eritrean nation building process. Theoretical analyses of political and social change are combined with extensive field research to provide a comprehensive picture of modernisation processes in Eritrea. Little Girls in Pretty Boxes The Making and Breaking of Elite Gymnasts and Figure Skaters *Grand Central Publishing* WITH A NEW FOREWORD BY FORMER OLYMPIC GYMNAST JAMIE DANTZSCHER Welcome to the world of women's gymnastics and figure skating--the real world that happens away from the cameras, at the training camps and in the private lives of these talented teenage competitors. From starvation diets and debilitating injuries to the brutal tactics of tyrannical gymnastics guru Béla Károlyi, LITTLE GIRLS IN PRETTY BOXES portrays the horrors endured by girls at the hands of their coaches and sometimes their own families--and is now updated with a new introduction and foreword that address the sexual abuse scandal perpetrated by USA Gymnastics national team doctor, Larry Nassar. This groundbreaking book shows how a longstanding culture of abuse made young gymnasts perfect targets for a sexual predator, and continues to plead for sanity, safety, and an end to our national obsession: winning at any cost. Revolutionary State-Making in Dar es Salaam African Liberation and the Global Cold War, 1961-1974 *Cambridge University Press* Explores the intersecting politics of Cold War rivalries, African liberation, and socialist state-making in Dar es Salaam, Tanzania. The Strength of Diversity Human Rights and Pluralist Democracy *Martinus Nijhoff Publishers* At the beginning of the 1990's, all CSCE (Conference on Security and Co-operation in Europe) States committed themselves to pluralist democracy, the rule of law and human rights and fundamental freedoms. The idea of pluralist democracy is also gaining ground in other parts of the world. Political Sociology in a Global Era An Introduction to the State and Society *Routledge* Political Sociology in a Global Era provides a critical analysis of the origins, nature, development, and transformation of the state and society historically and today, examining the class nature and social basis of politics and the state in different societal settings. The book emphasizes the centrality of class relations in explaining political power and the role of the state in class-divided societies by providing powerful theoretical and empirical analyses of themes in political sociology in an era of globalization. It examines in detail the major political issues and events of our time, and makes them relevant to the study of power and politics today. Some of the features of this text include: Introduces a global political sociology emphasizing the dynamics of power relations Provides a critical analysis of the role of politics and the state within the world-historical process Describes classical and contemporary theories of politics and the state Explains the origins and development of the state, discussing the nature of the state, its class basis, and contradictions in different types of societies Considers the dynamics of the capitalist state and traces its development in Europe and the United States from the 18th century to the present Details the role of the advanced capitalist state in the global political economy at the current, advanced stage of late capitalism Discusses the social movements that have been actively struggling against the capitalist state from earlier times to the present, including the Arab Spring, focusing on recent developments in both advanced capitalist and less-developed capitalist societies where mobilization of the masses has led to struggles against the capitalist state on a global scale Offers an original analysis of global capitalism and places it in the context of the current crisis of the global capitalist system Elite Configurations at the Apex of Power *BRILL* This book, prepared under the auspices of the IPSA Research Committee on Political Elites, focuses on the interpenetration between various types of elites. The contributions to this book reveal contrasting patterns of recruitment and selection in terms of career paths, visibility, influence, and power of different elite circles. New Sociologies of Elite Schooling *Routledge* Elite schools have an intriguing capacity to endure and adapt in the face of social, cultural and political change. They help both to reproduce power, privilege and status and also to regularly produce them afresh. The intricacies involved, over time and place, have attracted the abiding empirical, methodological and conceptual interest of sociologists and historians; recently, anthropologists and geographers have also responded to their allure. Collectively, the focus of such studies is usually on class making and the manner in which gender and race/ethnicity, place and mobility overlap and are part of the mix. This edited collection is framed around the notion of a 'new sociology of elite education', but it speaks into this wider space of inquiry in which studies of such schools are becoming more interdisciplinary. In so doing it brings together a new array of conceptual and theoretical tools while also deepening those that already exist. The contributions examine various configurations of contemporary class making and their attendant politics. These explorations are situated in the specificities of geographical locales where the complex dynamics of both national/local educational priorities and global/transnational forces are played out. In addition to showing how these dynamics put pressure on elite schools to redefine them, the book's diverse international focus shines a light on new and emerging global patterns. This book was originally published as a special issue of British Journal of Sociology of Education.
