HEAVEN AND HELL

EASY TO READ LAYOUT

Fv Editions **Heaven and Hell, or the Divine Justice according to Spiritism** "It is certain that we live, think, and act; it is not less certain that we shall die. But, on leaving Earth, where shall we go? What will become of us? Shall we be better off, or shall we be worse off? Shall we continue to exist, or shall we cease to exist? "To be, or not to be," is the alternative presented to us; it will be for always, or not at all; it will be everything, or nothing; we shall live on eternally, or we shall cease to live, once and forever. The alternative is well worth the consideration." A.K Of the four principal works of Allan Kardec, **Heaven and Hell** is the third. It gives a series of spirit-narratives confirmatory of the Spiritist theory. These works constitute the basis of a religious belief that is equally in harmony with reason, with science, with experience, and with aspiration. They consequently supply the true substitute for the unreasoning faith that is so rapidly dying out from the minds of men, the true antidote to the scientific materialism of the day, the true cure for the selfishness which is the practical outcome of the short-sightedness that regards our present life as the sum of our existence, the true explanation and guide of the sentiment which prompts each human being to desire something better than the unsatisfying conditions among which he finds himself.

MAN AND HIS SYMBOLS

Dell The landmark text about the inner workings of the unconscious mind—from the symbolism that unlocks the meaning of our dreams to their effect on our waking lives and artistic impulses—featuring more than a hundred images that break down Carl Jung’s revolutionary ideas “What emerges with great clarity from the book is that Jung has done immense service both to psychology as a science and to our general understanding of man in society.”—The Guardian “Our psyche is part of nature, and its enigma is limitless.” Since our inception, humanity has looked to dreams for guidance. But what are they? How can we understand them? And how can we use them to shape our lives? There is perhaps no one more equipped to answer these questions than the legendary psychologist Carl G. Jung. It is in his life’s work that the unconscious mind comes to be understood as an expansive, rich world just as vital and true a part of the mind as the conscious, and it is in our dreams—those personal, integral expressions of our deepest selves—that it communicates itself to us. A seminal text written explicitly for the general reader, *Man and His Symbols* is a guide to understanding the symbols in our dreams and using that knowledge to build fuller, more receptive lives. Full of fascinating case studies and examples pulled from philosophy, history, myth, fairy tales, and more, this groundbreaking work—profusely illustrated with hundreds of visual examples—offers invaluable insight into the symbols we dream that demand understanding, why we seek meaning at all, and how these very symbols affect our lives. By illuminating the means to examine our prejudices, interpret psychological meanings, break free of our influences, and recenter our individuality, *Man and His Symbols* proves to be—decades after its conception—a revelatory, absorbing, and relevant experience.

PEACE AND WAR

A THEORY OF INTERNATIONAL RELATIONS

Transaction Publishers *Peace and War* by Raymond Aron is one of the greatest books ever written on international relations. Aron's starting point is the state of nature that exists between nations, a condition that differs essentially from the civil state that holds within political communities. Ever keeping this brute fact about the life of nations in mind and ranging widely over political history and many disciplines, Aron develops the essential analytical tools to enable us to think clearly about the stakes and possibilities of international relations. In his first section, *Theory*, Aron shows that, while international relations can be mapped, and probabilities discerned, no closed, global *science* of international relations is anything more than a mirage. In the second part, *Sociology*, Aron studies the many ways various subpolitical forces influence foreign policy. He emphasizes that no rigorous determinism is at work: politics and thus the need for prudent statesmanship are inescapable in international relations. In part three, *History*, Aron offers a magisterial survey of the twentieth century. He looks at key developments that have had an impact on foreign policy and the emergence of what he calls *universal history*, which brings far-flung peoples into regular contact for the first time. In a final section, *Praxeology*, Aron articulates a normative theory of international relations that rejects both the bleak vision of the Machiavellians, who hold that any means are legitimate, and the naiveté of the idealists, who think foreign policy can be overcome. This new edition of *Peace and War* includes an informative introduction by Daniel J. Mahoney and Brian C. Anderson,

situating Aron's thought in a new post-Cold War context, and evaluating his contribution to the study of politics and international relations.

THE FIRST AND LAST FREEDOM

Random House If truth can set us free, where do we find it? In *The First and Last Freedom*, Krishnamurti argues that we will not find truth in formal institutions, nor in organised religions and their dogmas, nor in any guru or outside authority; for, according to Krishnamurti, truth can only be realised through self-understanding. Controversial and challenging, yet always enlightening, Krishnamurti guides us through society's common concerns, such as suffering and fear, love and loneliness, sex and death, the meaning of life, the nature of God, and personal transformation - consistently relating these topics to the essential search for pure truth and perfect freedom. This classic philosophical and spiritual study offers wisdom and insights particularly suited to our own uncertain times.

GODDESSES, WHORES, WIVES AND SLAVES

WOMEN IN CLASSICAL ANTIQUITY

Random House What did women do in ancient Greece and Rome? Did Socrates' wife Xanthippe ever hear his dialogues on beauty and truth? How many many women actually read the histories of Herodotus and Thucydides? When pagan goddesses were as powerful as gods, why was the status of women generally so low? Why, in traditional histories, is half the population effectively invisible? This unique and important book spans a period of 1500 years - from the fall of

Troy to the death of Constantine. It examines all the available evidence - literary and archaeological - and reconstructs the lives of women from all classes of society.

PLANETARY TRANSITION

We are on the threshold of the great transition, when our planet will go from being a world of trials and expiations to one of regeneration. This transition has been part of the heavenly plan for a long time; thus, it will not occur in an obvious manner, overnight, as if by magic, but as a slow, gradual, yet undelayable transformation. Natural tragedies, such as the Indian Ocean tsunami in 2004 - the subject of our considerations in this book - are part of this process because they are meant to make humankind progress more quickly by expunging criminal spirits - those unamenable to order and to moral and spiritual evolution, which can no longer be delayed. Those spirits will spend an amount of time on other worlds, learning the laws of Love and of the Good until they are fit to return to our planet to make their contribution to the progress of humankind. In this extraordinary book, our dear readers will learn about the mechanisms and lofty reasons for the planetary transition in favor of pressing and necessary changes that promote respect for laws, ethics and nature, transforming men and women into complete beings who are conscious of their duties to God, themselves and others.

THE FIRST WIFE

A TALE OF POLYGAMY

Archipelago After twenty years of marriage, Rami discovers that her husband has been living a double--or rather, a quintuple--life. Tony, a senior police officer in Maputo, has apparently been supporting four other families for many years. Rami remains calm in the face of her husband's duplicity and plots to make an honest man out of him. After Tony is forced to marry the four other women--as well as an additional lover--according to polygamist custom, the rival lovers join together to declare their voices and demand their rights. In this brilliantly funny and feverishly scathing critique, a major work from Mozambique's first published female novelist, Paulina Chiziane explores her country's traditional culture, its values and hypocrisy, and the subjection of women the world over.

THE PURPOSE DRIVEN CHURCH

GROWTH WITHOUT COMPROMISING YOUR MESSAGE AND MISSION

Zondervan Every church is driven by something. Tradition, finances, programs, personalities, events, seekers, and even buildings can each be the controlling force in a church. But Rick Warren believes that in order for a church to be healthy it must become a purpose driven church by Jesus. Now the founding pastor of Saddleback Church shares a proven five-part strategy that will enable your church to grow. . . - Warmer through fellowship - Deeper through discipleship - Stronger through worship - Broader through ministry - Larger through evangelism. Discover the same practical insights and principles for growing a healthy church that Rick has taught in seminars to over 22,000 pastors and church leaders from sixty denominations and forty-two countries. The Purpose Driven Church® shifts the focus away from church building programs to emphasizing a people-building process. Warren says, "If you will concentrate on building people, God will build the church."

TWO THOUSAND YEARS AGO

HISTORIC EPISODES OF CHRISTIANITY IN THE FIRST CENTURY

EDICEI of America On the banks of Lake Gennesaret, Publius Lentulus (Emmanuel) has an encounter with Christ; Publius has gone to beseech Jesus to heal his little daughter, Flavia, who has contracted leprosy. Moved and magnetized by emotions he has never felt before, he hears the Master tell him: ". . . It would have been better if you had come publicly and in broad daylight in order to learn once and for all the sublime lesson of faith and humility. ". . . After many years of deviation from the path of the good due to your blatant wrongs, today you have come to the turning point for the regeneration of you entire life. ". . . It is up to you, however, to take advantage of it either now or a few millennia from

now. . . ". . . But no one can impose an act that is against your conscience if it is your desire to spurn this blessed moment indefinitely!" He perceives that Jesus is praying. That very night, his daughter begins to improve noticeably until she is completely well. What are the consequences of this encounter with the Divine Master? - Flavia is healed. - Livia, Publius's wife, a patrician woman, converts to Christianity. - Publius returns to his political affairs but refuses to believe that Jesus was the author of his daughter's recovery. Emmanuel narrates this personal experience with the richness of detail that characterizes all his books so that we can ponder the precious "moments" that we are offered throughout our lives; moments that are often wasted, thereby retarding our progress and evolution.

KINSHIP AND BEYOND

THE GENEALOGICAL MODEL RECONSIDERED

Berghahn Books The genealogical model has a long-standing history in Western thought. The contributors to this volume consider the ways in which assumptions about the genealogical model—in particular, ideas concerning sequence, essence, and transmission—structure other modes of practice and knowledge-making in domains well beyond what is normally labeled “kinship.” The detailed ethnographic work and analysis included in this text explores how these assumptions have been built into our understandings of race, personhood, ethnicity, property relations, and the relationship between human beings and non-human species. The authors explore the influences of the genealogical model of kinship in wider social theory and examine anthropology's ability to provide a unique framework capable of bridging the “social” and “natural” sciences. In doing so, this volume brings fresh new perspectives to bear on contemporary theories concerning biotechnology and its effect upon social life.

TRINITY AND SOCIETY

Wipf and Stock Publishers In this book, Brazilian Leonardo Boff, Franciscan priest and professor of theology, joins other contemporary theologians in defending both the truth and the practical value of the doctrine of the Trinity. For Boff, the community of Father, Son, and Holy Spirit is not only the truth about God; it is also the prototype of human community dreamed of by those who wish to improve society, the model for any just, egalitarian (while respecting differences) social organization. Frequently expressing agreement with Moltmann's 'The Trinity and the Kingdom', Boff argues that true and relevant Trinitarian faith must begin not with the oneness, but with the threeness of God; not with theistic speculation about God as the solitary One, but with openness to the self-revelation of God as a community or society of divine persons, who are what they are in their co-existence, co-relatedness, and self-surrender to each other. Boff also suggests how a social doctrine of the Trinity enables us to overcome the conflict between individualistic capitalism and collectivistic socialism, oppressor and oppressed, male and female, church authorities and church members.

THE WAR OF GODS

RELIGION AND POLITICS IN LATIN AMERICA

Verso In the 1960s liberation theology addressed itself to the problems of a continent racked by poverty and oppression. Comprising a network of localized communities and pastoral organizations, it soon became something much more than a doctrinal current. Liberationist Christianity defined itself in a multitude of social struggles, particularly in Brazil and Central America.

THE RITUAL PROCESS

STRUCTURE AND ANTI-STRUCTURE

Routledge In **The Ritual Process: Structure and Anti-Structure**, Victor Turner examines rituals of the Ndembu in Zambia and develops his now-famous concept of "Communitas." He characterizes it as an absolute inter-human relation beyond any form of structure. The Ritual Process has acquired the status of a small classic since these lectures were first published in 1969. Turner demonstrates how the analysis of ritual behavior and symbolism may be used as a key to understanding social structure and processes. He extends Van Gennep's notion of the "liminal phase" of rites of passage to a more general level, and applies it to gain understanding of a wide range of social phenomena. Once thought to be the "vestigial" organs of social conservatism, rituals are now seen as arenas in which social change may emerge and be absorbed into social practice. As Roger Abrahams writes in his foreword to the revised edition: "Turner argued from specific field data. His special eloquence resided in his ability to lay open a sub-Saharan African system of belief and practice in terms that took the reader beyond the exotic features of the group among whom he carried out his fieldwork, translating his experience into the terms of contemporary Western perceptions. Reflecting Turner's range of intellectual interests, the book emerged as exceptional and eccentric in many ways: yet it achieved its place within the intellectual world because it so successfully synthesized continental theory with the practices of ethnographic reports."

THE SECOND SEX

Random House Of all the writing that emerged from the existentialist movement, Simone de Beauvoir's groundbreaking study of women will probably have the most extensive and enduring impact. It is at once a work of anthropology and sociology, of biology and psychoanalysis, from the pen of a writer and novelist of penetrating imaginative power. **THE SECOND SEX** stands, five decades after its first appearance, as the first landmark in the modern feminist upsurge that has transformed perceptions of the social relationship of man and womankind in our time

AN AMAZONIAN MYTH AND ITS HISTORY

Oxford University Press, USA Peter Gow unites the ethnographic data collected by the fieldwork methods invented by Malinowski with Levi-Strauss's analyses of the relations between myth and time. His book is an analysis of a century of social transformation in an indigenous Amazonian society, the Piro people of Peruvian Amazonia, taking as its starting point a single myth told to the author by a Piro man. Gow explores Piro history and ethnography outwards into the domains of myth-telling in general, and following the logic of certain important myths, further out into important domains of Piro experience such as visual art, shamanry and girls' initiation ritual. All of these domains, like the myths themselves, have been demonstrably changing over the period since the 1880s. The book then shows how these changes are in fact transformations of transformations, changes in social forms that are intrinsically about change. The logic of these changes are then followed through the historical circumstances of Piro people from the 1880s to the 1980s, to show how the intrinsically transformational nature of Piro social forms led them to respond in the ways that they did to the coming of rubber bosses, missionaries, and film-makers. This book makes an important contribution to debates in anthropology on the nature of history and social change, as well as addressing neglected areas such as myth, visual art, and the methodological issues involved in addressing fieldwork and archival data.

PRISONS OF POVERTY

U of Minnesota Press In this title, the author examines how penal policies emanating from the United States have spread throughout the world. The author argues that the policies have their roots in a network of Reagan-era conservative think tanks, which used them as weapons in their crusade to dismantle the welfare state and, in effect, criminalise poverty.
