What is e-book?

Nicolae Sfetcu The e-book guide for publishers: how to publish, EPUB format, ebook readers and suppliers. An electronic book (also e-book, ebook, electronic book, digital book) is a book-length publication in digital form, consisting of text, images, or both, and produced on, published through, and readable on computers or other electronic devices. An e-book can be purchased/borrowed, downloaded, and used immediately, whereas when one buys or borrows a book, one must go to a bookshop, a home library, or public library during limited hours, or wait for a delivery. Electronic publishing or ePublishing includes the digital publication of e-books and electronic articles, and the development of digital libraries and catalogues. EPUB (short for electronic publication; alternatively capitalized as ePub, ePUB, EPub, or epub, with "EPUB" preferred by the vendor) is a free and open e-book standard by the International Digital Publishing Forum (IDPF). Self-publishing is the publication of any book or other media by the author of the work, without the involvement of an established third-party publisher. One of the greatest benefits brought about by ebooks software is the ability for anyone to create professional ebooks without having to fork out thousands of dollars to design and publish a book. People can easily become authors overnight and earn income from selling online ebooks.

Stop Family Anxiety

A Guide for Anxiety Disorders in Parents, Grandparents, Teenagers and Children of All Ages

Bookpod This breakthrough book addresses the current problem of anxiety in families and the suffering of family members from anxiety disorders parents, school going or younger children, teenagers or grandparents. Step-by-step solutions are offered clearly and without jargon. This book provides families with three major ways of overcoming anxiety: 1.Stopping the cycle of anxiety spreading in families. Anxiety is like a virus. When one person suffers from anxiety, it can spread to other family members without anyone realising it is happening. Home life can begin to deteriorate and break down. 2.Ways in which a family can unite to support an anxious loved one, and how individual members can help each other to recover. 3.Information about how to cope with all common anxiety disorders, including generalised anxiety disorder, panic attacks, agoraphobia, social anxiety, phobias, obsessive compulsive disorder, post-traumatic stress disorder and separation anxiety. Conditions associated with anxiety such as depression, eating disorders, ADD/ADHD are discussed as well. The issues covered in this book include: The difference between worry, everyday anxiety and anxiety disorders. Understanding relationships and developing stronger family bonds. The causes of anxiety. Changing destructive, anxious thinking with cognitive behavioural therapy. Reducing anxiety by nurturing self-esteem and developing assertiveness. Preventing anxiety caused by bullying at school, work and cyber bullying. Spiritual belief as a means of finding meaning and purpose. Methods of deep breathing, relaxation and mindfulness. The calming effect of exercise the effect of substance abuse on anxiety. Exciting current research studies on anxiety giving information and hope. About the Author: Joan Zawatzky is a psychologist who brings her experience

of over 25 years in counselling individuals, couples and families to this book. She writes directly and compassionately, offering practical support to sufferers of anxiety and their families. This book follows her previous book, *Depression: Light at the End of the Tunnel*. She is also the author of *The Scent of Oranges*, *The Elephant's Footprint* and *The Third Generation*."

The Readies

In 1930, Bob Brown predicted that the printed book was bound for obsolescence. The time has come, he insisted, to rid the reader of the cumbersome book. He invented a machine that would allow one to read books and any text extremely fast and in a hyper abbreviated form. He called these abbreviated texts, with em dashes replacing words: readies. He envisioned sending the condensed texts through wireless networks. *The Readies*, describes these eponymously named abbreviated texts and his plans for a reading machine, but since he printed only 150 copies, the volume is practically unknown outside of a small circle of scholars. With this new edition, Craig Saper hopes to introduce Bob Brown's Roving Eye Press books to a new generation of readers.

The Scent of Oranges

Garev Pub International Linda Van Wyk returns to South Africa to attend her father's funeral and tries to honor his last request that she investigate the murder of her younger brother, but she is confronted with a post-apartheid country beset by violence, poverty, AIDS, and superstition, and by her own family's secrets.

Elementary Number Theory in Nine Chapters

Cambridge University Press This book serves as a one-semester introductory course in number theory. Throughout the book, Tattersall adopts a historical perspective and gives emphasis to some of the subject's applied aspects, highlighting the field of cryptography. At the heart of the book are the major number theoretic accomplishments of Euclid, Fermat, Gauss, Legendre, and Euler, and to fully illustrate the properties of numbers and concepts developed in the text, a wealth of exercises has been included. The reader should have "pencil in hand" and ready access to a calculator or computer. For students new to number theory, whatever their background, this is a stimulating and entertaining introduction to the subject.

The Guy I'm Not Dating

Harvest House Publishers "Yowza!" exclaims Kara Richardson when she sees the handsome proprietor of the new delicatessen in town, Gabe Paolino—who soon expresses mutual interest. This would be the start of a perfect love story, except for one thing—Kara has vowed to stop dating until she feels God's leading. But when humorous circumstances send Kara and Gabe on a road trip to Florida, hope springs anew. Even with Kara's flirtatious coworker Tiffany—"a hyena in heels"—along for the ride, the uncouple begins a lively journey that could change their paths forever. This memorable, charming story of love's persistence captures the honor of waiting on God's timing, and the adventure of finding the perfect guy to not date.

The Immigrant's Guide to Living in Australia

Australia is a country superbly organised to assist new immigrants and overseas business people wanting to relocate their business and staff to Australia. Before taking that huge step you need to know what to look for and where to find it. This second edition of *The Immigrants Guide* has been researched and compiled to provide you with the complete 'how to make it' in Australia. Whether you are planning your journey or seeking information about a future move to Australia, this book answers all your questions and provides you with tips on how to make the change easier and more successful. What do I take with me on the plane? Who will meet me at the airport? What should I look out for when renting a home or unit? How expensive is it to rent a house or unit in Melbourne, Sydney or Perth? What are real estate prices in Melbourne and Sydney? How do I go about buying my first home and what traps should I avoid? What is the salary structure like in Australia as compared to my home country? How do I go about finding a job? What is the status of women in Australian society? Until I find a job, are there any unemployment benefits that I would be entitled to? Will I have to undergo military service in Australia? How does the Australian taxation system operate? How does the banking system work and how do I get an introduction to a bank? What kind of child care facilities are there if both parents are to work? What is the cost of education in Australia? Can I send my child to a private school if I have the means? With the high cost of medical care today, is there a national health scheme in existence? What is the Australian attitude to household pets? All this and much, much more, including the most up-to-date statistics are covered in this handy book. About the Author: Hymie Zawatzky understands what it means to be an immigrant - to leave one's homeland and embark on a journey to an unknown destination. He and his wife arrived in Australia from South Africa in 1979 and settled in Melbourne. His parents emigrated from Europe in the 1920s. As a qualified and experienced chartered accountant (FCPA) he was able to find his first job and establish himself in Australia. Later he moved on to start his own consulting company specialising in the retail and property industry. The process of immigration and assisting new migrants is one of his interests. This led him to serve on the steering committee of the Ethnic Council of Victoria and to establish a new ethnic radio station in Victoria. Presently nearly every ethnic group broadcasts on radio. He is the author of *Australia the Immigrant's Guide to Retail*, *Retail Survival in Tough Time* and *The Retailers Guide to Carbon Tax*, all of which are available for review on his web site ww.placeofbooks.com. His practical and theoretical understanding of Australian finance, his own experience in immigrating, plus a great deal of research, has given him an ideal background to writing this book.

Learning to Read in a Digital World

John Benjamins Publishing Company With digital screens becoming increasingly ubiquitous in the lives of children, from their homes to their classrooms, understanding the influence of these technologies on the ways children read takes on great importance. The aim of this edited volume is to examine how advances in technology are shaping children's reading skills and development. The chapters in this volume explore the influence of various aspects of digital texts, the child's cognitive and motivational skills, and the child's environment on reading development in digital contexts. Each chapter draws upon the expertise of scientists and researchers across countries and disciplines to review what is currently known about the influence of technology on reading, how it is studied, and to offer new insights and research directions based on recent work.

Prime Numbers

The Elephant's Footprint

Bookpod The *Elephant's Footprint* is an intriguing crime novel laced with romance and set against a South African backdrop. Linda, a sharp and intuitive detective leaves Australia, to return to her birthplace Rustenburg, amidst the excitement of the World Cup soccer challenge. She finds the once lush farmland crippled by drought, lawlessness is on the rise and disease is rampant. At critical times, such as this, the local community seek help from their healers and witchdoctors. Even Voodoo resurfaces. Her skill in detection is well known, and she is persuaded to join an overworked police force in a murder investigation. Initially, the police believe that an elephant savaged a young woman found dead in a nature reserve. However, it soon becomes clear that sinister human influences are at play. This is the first in a number of bizarre killings of female healers. Inundated with crime and the added responsibility of security during the World Cup, the police give up the search for the killer and she continues to investigate alone. She meets and falls in love with George, an archaeologist working on rock paintings in the area. With his support, she challenges evil forces trying to remove her from the case. But will her perseverance and George's scientific knowledge help her to uncover the murderer? About the Author: Joan Zawatzky was born in South Africa. After completing her studies, first in art and then in psychology, she moved to Australia, where she worked for many years as a counselling psychologist. Though painting remained a hobby, she decided to try her hand at writing. She wrote *There's a Light at the End of the Tunnel*, to help her clients overcome depression. *The Scent of Oranges*, her first novel, is set in South Africa and was shortlisted for the Australian Books Alive Programme in 2007. Recently she began writing full-time. The *Elephant's Footprint* is her latest novel, and the next in her South African series. She lives in Melbourne with her husband and their Siamese cat. Praise for the *Scent of Oranges*: "The elegance of Joan Zawatzky's writing is a big part of what makes this story so memorable and delightful. Her words flowed right through me and led me into a story so full of life, nature and relationships. I never wanted it to end." Ashley Merril, *Front Street Review*. "The *Scent of Oranges* by Joan Zawatzky is the first book I've read by this author but hope to read more. Right away I was transported to South Africa. I could picture everything that Linda saw as if I was her. Joan captures the essence of South Africa with the mystery and intrigue of murder." Cheryl's Book Nook "Zawatzky's style is wonderfully descriptive and I felt transported to South Africa through the pages of the book. I also loved learning more about South Africa and its people. *The Scent of Oranges* dynamically explores intense interpersonal relationships and I found it fascinating." Tara's View on Books. "The South African setting is beautifully recreated, with lovely descriptions of the landscape and people, and the author has written a thoughtful depiction of life under the terrible system of apartheid and its aftermath." Book Buzz "I think this novel will really appeal to people who like to sit and savour the writing and ...a mystery unfolding." *Peeking Between the Pages*

Aging Friendly Technology for Health and Independence

8th International Conference on Smart Homes and Health Telematics, ICOST 2010, Seoul, Korea, June 22-24, 2010, Proceedings

Springer Science & Business Media We are living in a world full of innovations for the elderly and people with special needs to use smart assistive technologies and smart homes to more easily perform activities of daily living, to continue in social participation, to engage in entertainment and leisure activities, and to enjoy living independently. These innovations are inspired by new technologies leveraging all aspects of ambient and pervasive intelligence with related theories, technologies, methods, applications, and services on ubiquitous, pervasive, Aml, universal, mobile, embedded, wearable, augmented, invisible, hidden, context-aware, calm, amorphous, sentient, proactive, post-PC, everyday, autonomic computing from the engineering, business and organizational perspectives. In the field of smart homes and health telematics, significant research is underway to enable aging and disabled people to use smart assistive technologies and smart homes to foster independent living and to offer them an enhanced quality of life. A smart home is a vision of the future where computers and computing devices will be available naturally and unobtrusively anywhere, anytime, and by different means in our daily living, working, learning, business, and infotainment environments. Such a vision opens tremendous opportunities for numerous novel services/applications that are more immersive, more intelligent, and more interactive in both real and cyber spaces.

How Writing Works

A Guide to Composing Genres

Oxford University Press, USA "College students are expected to master new genres in every course they take. Yet composition instructors can't possibly teach students every genre they will need for their college courses or careers. Instead of telling students how to write a genre, authors Jack and Pryal help students learn how a genre works using a genre toolkit that asks three questions: "What is it?" "Who reads it?" and "What's it for?" By taking this problem-solving approach to writing, How Writing Works prepares students for any writing situation that they may encounter at school, home, or work. Distinctive Features * The Genre Toolkit helps students identify a genre's structure, audience, and purpose * Integrated Assignments show students how to construct a series of small assignments that lead up to a major chapter project * Individual, Team, and Multimedia Projects draw from a variety of popular, professional, and academic examples to address rhetorical challenges of visual, written, and oral communication"--

Eye of the Raven

A Mystery of Colonial America

Catapult From the Edgar Award-winning author of Bone Rattler. "Evocative language, tight plotting, and memorable characters make this a standout" (Publishers Weekly, starred review). With the aid of the Native American Shaman Conawago, Duncan McCallum has begun to heal from the massacre of his Highland clan by the British. But his new life is shattered when he and Conawago discover a dying Virginian officer nailed to an Indian shrine tree. To their horror, the authorities arrest Conawago and schedule his hanging. As Duncan begins a desperate search for the truth, he finds himself in a maelstrom of deception and violence. The year is 1760, and while the British army wishes to dismiss the killing as another casualty of its war with France, Duncan discovers a pattern of ritualistic murders related to provincial treaty negotiations and struggles between tribal factions. Ultimately he realizes that to find justice, he must brave the sprawling colonial capital of Philadelphia. There the answers are to be found in a tangle of Quakers, Christian Indians, and a scientist obsessed with the electrical experiments of the celebrated Dr. Franklin. With the tragic resolution in sight, Duncan understands the real mysteries underlying his quest lie in the hearts of natives who, like his Highland Scots, have glimpsed the end of their world approaching. "The pleasures of Eliot Pattison's books, and Eye of the Raven is another smashing example, are threefold: high adventure in perilous landscapes, a hero stubbornly seeking the truth, and the haunting mysteries of ancient cultures." —Otto Penzler, editor of The Big Book of Female Detectives

The Vote Collectors

The True Story of the Scamsters, Politicians, and Preachers behind the Nation's Greatest Electoral Fraud

UNC Press Books In November 2018, Baptist preacher Mark Harris beat the odds, narrowly fending off a blue wave in the sprawling Ninth District of North Carolina. But word soon got around that something fishy was going on in rural Bladen County. At the center of the mess was a local political operative named McCrae Dowless. Dowless had learned the ins and outs of the absentee ballot system from Democrats before switching over to the Republican Party. Bladen County's vote-collecting cottage industry made national headlines, led to multiple election fraud indictments, toppled North Carolina GOP leadership, and left hundreds of thousands of North Carolinians without congressional representation for nearly a year. In The Vote Collectors, Michael Graff and Nick Ochsner tell the story of the political shenanigans in Bladen County, exposing the shocking vulnerability of local elections and explaining why our present systems are powerless to monitor and prevent fraud. In their hands, this tale of rural corruption becomes a fascinating narrative of the long clash of racism and electioneering—and a larger story about the challenges to democracy in the rural South. At a time rife with accusations of election fraud, The Vote Collectors shows the reality of election stealing in one southern county, where democracy was undermined the old-fashioned way: one absentee ballot at a time.

Part of Our Lives

A People's History of the American Public Library

Oxford University Press, USA "Part of Our Lives challenges the conventional idea that public libraries are valuable mostly because they are essential to democracy. Instead, this book uses the voices of generations of public library users to argue that Americans have loved their libraries for the useful information they make accessible; the public spaces they provide; and the commonplace reading materials they supply that help users make sense of the world around them."--

Without You

Tragedy brought us together, but something stronger made me want to stay. Julian was the boy next door. My brother's best friend, he fit with my family in ways I never could. While he and Rhett went on to play house, I left the only life I knew, desperate for a fresh start. Until everything changed. Heartache came along, and the aftermath of my brother's death was here to stay. I was now face to face with Julian more than I ever wanted to be. Being around him brought up all my insecurities, forced me to deal with hard truths, and conjured up feelings I had no business entertaining. He wasn't the man I thought I knew. He was complex and layered, and inherently beautiful in all the ways I'd never noticed. Not on another person. Not on another man. Not until him.

The Story Of Numbers

#N/A This book is more than a mathematics textbook. It discusses various kinds of numbers and curious interconnections between them. Without getting into hardcore and difficult mathematical technicalities, the book lucidly introduces all kinds of numbers that mathematicians have created. Interesting anecdotes involving great mathematicians and their marvelous creations are included. The reader will get a glimpse of the thought process behind the invention of new mathematics. Starting from natural numbers, the book discusses integers, real numbers, imaginary and complex numbers and some special numbers like quaternions, dual numbers and p-adic numbers. Real numbers include rational, irrational and transcendental numbers. Iterations on real numbers are shown to throw up some unexpected behavior, which has given rise to the new science of "Chaos". Special numbers like e, pi, golden ratio, Euler's constant, Gauss's constant, amongst others, are discussed in great detail. The origin of imaginary numbers and the use of complex numbers constitute the next topic. It is shown why modern mathematics cannot even be imagined without imaginary numbers. Iterations on complex numbers are shown to generate a new mathematical object called 'Fractal', which is ubiquitous in nature. Finally, some very special numbers, not mentioned in the usual textbooks, and their applications, are introduced at an elementary level. The level of mathematics discussed in this book is easily accessible to young adults interested in mathematics, high school students, and adults having some interest in basic mathematics. The book concentrates more on the story than on rigorous mathematics.

China Rich Girlfriend

On the eve of her wedding to Nicholas Young, heir to one of the greatest fortunes in Asia, Rachel should be over the moon. She has a flawless Asscher-cut diamond from JAR, a wedding dress she loves more than anything found in the salons of Paris and a fiance willing to sacrifice his entire inheritance in order to marry her. But Rachel still mourns the fact that her birth father, a man she never knew, won't be able to walk her down the aisle. Until: a shocking revelation draws Rachel into a world of Shanghai splendour beyond anything she has ever imagined. Here we meet Carlton, a Ferrari-crashing bad boy known for Prince Harry-like antics; Colette, a celebrity girlfriend chased by fevered paparazzi; and the man Rachel has spent her entire life waiting to meet: her father. Meanwhile, Singapore's It Girl, Astrid Leong, is shocked to discover that there is a downside to having a newly minted tech billionaire husband. A romp through Asia's most exclusive clubs, auction houses and estates, China Rich Girlfriend brings us into the elite circles of Mainland China, introducing a captivating cast of characters and offering an inside glimpse at what it's like to be gloriously, crazily, China-rich.

Switched

Book One in the Trylle Trilogy

Pan Macmillan Switched is the first novel in Amanda Hocking's bestselling trilogy, Trylle. Wendy Everly knew she was different the day her mother tried to kill her and accused her of having been switched at birth. Although certain she's not the monster her mother claimed she is, she does feel that she doesn't quite fit in. She's bored and frustrated by her small-town life - and then there's the secret she can't tell anyone. Her mysterious ability - she can influence people's decisions, without knowing how, or why . . . When the intense and darkly handsome newcomer Finn suddenly turns up at her bedroom window one night, her world is turned upside down. He holds the key to her past, the answers to her strange powers and is the doorway to a place she never imagined could exist: Förening, the home of the Trylle. Finally everything makes sense. Among the Trylle she is not just different, but special. But what marks her out as chosen for greatness in this world also places her in grave danger. With everything around her changing, Finn is the only person she can trust. But dark forces are conspiring - not only to separate them, but to see the downfall of everything that Wendy cares about. The fate of Förening rests in Wendy's hands, and the decisions she and Finn make could change all their lives forever . . .

Slow Death by Rubber Duck

How the Toxic Chemistry of Everyday Life Affects Our Health

Vintage Canada Funny, thought-provoking, and incredibly disturbing, Slow Death by Rubber Duck reveals that just the living of daily life creates a chemical soup inside each of us. Pollution is no longer just about belching smokestacks and ugly sewer pipes - now, it's personal. The most dangerous pollution has always come from commonplace items in our homes and workplaces. Smith and Lourie ingested and inhaled a host of things that surround all of us all the time. This book exposes the extent to which we are poisoned every day of our lives. For this book, over the period of a week - the kind of week that would be familiar to most people - the authors use their own bodies as the reference point and tell the story of pollution in our modern world, the miscreant corporate giants who manufacture the toxins, the weak-kneed government officials who let it happen, and the effects on people and families across the globe. Parents and concerned citizens will have to read this book. Key concerns raised in Slow Death by Rubber Duck: • Flame-retardant chemicals from electronics and household dust polluting our blood. • Toxins in our urine caused by leaching from plastics and run-of-the-mill shampoos, toothpastes and deodorant. • Mercury in our blood from eating tuna. • The chemicals that build up in our body when carpets and upholstery off-gas. Ultimately hopeful, the book empowers readers with some simple ideas for protecting themselves and their families, and changing things for the better.
