Fiesta de diez pesos: Music and Gay Identity in Special Period Cuba Routledge The 'Special Period' in Cuba was an extended era of economic depression starting in the early 1990s, characterized by the collapse of revolutionary values and social norms, and a way of life conducted by improvised solutions for survival, including hustling and sex-work. During this time there developed a thriving, though constantly harassed and destabilized, clandestine gay scene (known as the 'ambiente'). In the course of eight visits between 1995 and 2007, the last dozen years of Fidel Castro's reign, Moshe Morad became absorbed in Havana's gay scene, where he created a wide social network, attended numerous secret gatherings--from clandestine parties to religious rituals--and observed patterns of behavior and communication. He discovered the role of music in this scene as a marker of identity, a source of queer codifications and identifications, a medium of interaction, an outlet for emotion and a way to escape from a reality of scarcity, oppression and despair. Morad identified and conducted his research in different types of 'musical space,' from illegal clandestine parties held in changing locations, to ballet halls, drag-show bars, private living-rooms and kitchens and santería religious ceremonies. In this important study, the first on the subject, he argues that music plays a central role in providing the physical, emotional, and conceptual spaces which constitute this scene and in the formation of a new hybrid 'gay identity' in Special-Period Cuba.

The Health of Lesbian, Gay, Bisexual, and Transgender People Building a Foundation for Better Understanding National Academies Press At a time when lesbian, gay, bisexual, and transgender individuals--often referred to under the umbrella acronym LGBT--are becoming more visible in society and more socially acknowledged, clinicians and researchers are faced with incomplete information about their health status. While LGBT populations often are combined as a single entity for research and advocacy purposes, each is a distinct population group with its own specific health needs. Furthermore, the experiences of LGBT individuals are not uniform and are shaped by factors of race, ethnicity, socioeconomic status, geographical location, and age, any of which can have an effect on health-related concerns and needs. The Health of Lesbian, Gay, Bisexual, and Transgender People assesses the state of science on the health status of LGBT populations, identifies research gaps and opportunities, and outlines a research agenda

for the National Institute of Health. The report examines the health status of these populations in three life stages: childhood and adolescence, early/middle adulthood, and later adulthood. At each life stage, the committee studied mental health, physical health, risks and protective factors, health services, and contextual influences. To advance understanding of the health needs of all LGBT individuals, the report finds that researchers need more data about the demographics of these populations, improved methods for collecting and analyzing data, and an increased participation of sexual and gender minorities in research. The Health of Lesbian, Gay, Bisexual, and Transgender People is a valuable resource for policymakers, federal agencies including the National Institute of Health (NIH), LGBT advocacy groups, clinicians, and service providers. Good As You From Prejudice to Pride - 30 Years of Gay Britain Random House 'One of the most important books about gay culture in recent times' The Quietus Long-listed for the Polari First Book Prize In 1984 the pulsing electronics and soft vocals of Smalltown Boy would become an anthem uniting gay men. A month later, an aggressive virus, HIV, would be identified and a climate of panic and fear would spread across the nation, marginalising an already ostracised community. Yet, out of this terror would come tenderness and 30 years later, the long road to gay equality would climax with the passing of same sex marriage. Paul Flynn charts this astonishing pop cultural and societal U-turn via the cultural milestones that effected change—from Manchester's self-selection as Britain's gay capital to the real-time romance of Elton John and David Furnish's eventual marriage. Including candid interviews from major protagonists, such as Kylie, Russell T Davies, Will Young, Holly Johnson and Lord Chris Smith, as well as the relative unknowns crucial to the gay community, we see how an unlikely group of bedfellows fought for equality both front of stage and in the wings. This is the story of Britain's brothers, cousins and sons. Sometimes it is the story of their fathers and husbands. It is one of public outrage and personal loss, the (not always legal) highs and the desperate lows, and the final collective victory as gay men were finally recognised, as Good As You. Living Icons Persons of Faith in the Eastern Church Living Icons presents an intimate portrait of holiness as exemplified in the lives and thoughts of ten people of faith in the Eastern Orthodox Church. In this inspiring volume, Michael Plekon introduces readers to a diverse and unusual group of men and women who strove to put the Gospel of Christ into action in their lives. The "living icons" Plekon describes were, among other things, priests, theologians, writers, and caregivers to the homeless and poor. One was an artist who became the greatest icon painter in this century; another was assassinated for his teachings in post-Soviet Russia. These remarkable people of faith lived through times of great suffering: forced emigration, the Great Depression, World War II, and the Cold War. Many of them were criticized, if not condemned, by ecclesiastical opponents and authorities. Yet each demonstrate a unique pattern for holiness, illustrating that the path to sainthood is open to all. With the fall of state socialism, Eastern Orthodox churches and monasteries are being reopened and receiving renewed interest from believers and nonbelievers alike. Plekon calls to our attention people like Saint Seraphim of Sarov (1759-1832), a monk, mystic, counselor, healer, and visionary; Father Alexander Men (1935-1990), a Russian whose writings after Glasnost ultimately led to his tragic assassination; Mother Maria Skobtsova (1891-1945), a painter, poet, and political activist who was killed in a concentration camp for hiding her Jewish neighbors; and Father Lev Gillet (1893-1980), one of the twentieth century's greatest spiritual teachers. Living Icons, which includes a foreword by Lawrence S. Cunningham, brings to life the beautiful, and often unfamiliar, spirituality of the Eastern Orthodox Church through

some of its most remarkable members. It shows with simplicity and clarity that Christ and the Gospel are often manifested in extraordinary ways in the lives of ordinary people. **Gay Tourism New Perspectives Channel View Publications** This book examines the emerging and shifting issues in the field of gay tourism, how these relate to significant societal and technological changes and the implications of these changes for theory, policy and practice.
