TURN YOUR STARTUP INTO MONEY MAKING ROBOT

MeetCoogole This book questions business standards that we read about and repeat, just because someone else applied them. Of course, caution and good examples are essential and important principles to apply to any business, but we have to keep in mind that conclusions aren't one size fits all. Each of them occurred at a specific time, within a certain context, with specific constraints, and all that changes fast, especially in the startup environment. Planning and thinking need to be limited and time framed. Planning is important, but getting things done is even more so. For startups this principle is crucial: if you don't start doing it, someone else will. What you really need to do is stop talking and start working. This book shows you the way. You'll learn how to be more productive, how to get exposure without breaking the bank, and tons more counterintuitive ideas that will inspire and provoke you. There's plenty

of advice about raising funds, finding a great team and how to handle growth.

GO LEGAL YOURSELF!

KNOW YOUR BUSINESS LEGAL LIFECYCLE

John Wiley & Sons Avoid legal pitfalls for your business from day one A common characteristic of entrepreneurs is the attitude: “I’m not going to do that until I absolutely have to.” And it’s understandable why: with limited time and resources it seems logical to focus on tasks like product development, production, marketing, and delivery—the ones that get your product or service out into the marketplace. The last thing you want to do is spend money and effort on legal issues, which is why they often drop to the bottom of the pile. But this can be a costly mistake—and Go Legal Yourself is here to make sure it’s one you avoid. Attorney, inventor, and businesswoman—named Top Woman Entrepreneur by LA Dreams Magazine in 2017—Kelly Bagla knows about doing business from both the entrepreneurial and legal sides of the fence. And in Go Legal Yourself, she guides you through the four key legal lifecycle phases every business experiences—and sets you up for worry-free success from day one. Establish yourself as the correct legal entity Gather and complete the relevant documentation Protect your brand Identify and avoid common (and expensive) pitfalls Plan and manage growth, enter new markets, and keep a sharp competitive edge Wherever you are with your business, this book is your

guarantee you have all your legal ducks in a row—and that no nasty legal surprises stand between you and your target: success.

THE STARTUP PLAYBOOK

FOUNDER-TO-FOUNDER ADVICE FROM TWO STARTUP VETERANS

John Wiley & Sons Get the real guidance you need to create and build your first startup company from founders who have been there many times before. The first run printing of The Startup Playbook SOLD OUT! So, we revised, expanded, and improved this second edition, including a new foreword by Brad Feld, author of Venture Deals. We still give our personal, how-to guide for building your startup from the ground up. You'll find a collection of the major lessons and shortcuts we've learned that will shift the odds in your favor. We're sharing our tips, secrets, and advice in a frank, founder-to-founder discussion with you. We make no bones about our bias. We're on your side, the founder's side. While venture capitalists, investors, and accelerators/incubators can add great value in the startup ecosystem, this book isn't about their points of view. We'll tell you where our interests as founders diverge from those on the other side of the table—investors, bankers, advisors, board members, and others—and what to do when that happens. The Startup Playbook is not a recipe, it's not a template, it's not a list of tasks to do. It's our insider's guide to starting a company and running it successfully in those critical early months. Between us, we've started over a dozen high-tech software companies and raised over \$500 million in investment capital. We've acquired over thirty-five companies, had three of our startups go public, sold six of them, and we made billions of dollars for shareholders. We've also invested in over eighty startups, advised and mentored over two hundred companies and actively worked with venture capitalists (VCs), incubators, and accelerators to help launch many other new startups. We've had plenty of failures, too. And we've probably learned more from those than from the successes. We share those lessons as well. The Startup Playbook is full of our advice, guidance, do's, and don'ts from our years of experience as founders many times. We

want to share our hard-earned knowledge with you to make success easier for you to achieve. This book is extraordinarily fresh and exciting. In an accessible, straight talk fashion, this book is a manual, and an inspiration. The Startup Playbook is smart and avoids the "I am so smart" over-writing endemic to the genre. Read this as it is presented. You'll be doing yourself a tremendous favor. - Amazon Reviewer
