HANDBOOK OF MATERIALS FOR PERCUSSION MUSICAL INSTRUMENTS

[Springer Nature](#) This book describes the properties of materials used for making percussion instruments for classical music played by a symphony orchestra in which the instruments could be played as a soloist instrument or as a group or several groups of instruments, as they are included into a musical work. A chapter is devoted to the bells. The scope of this book is primarily confined to percussion instruments of symphony orchestras taking into account the centuries of musical art and tradition. This book bridges the gap in the technical literature on describing the properties of materials for percussion instruments—timpani, other drums, marimba, xylophone, vibraphone, gong, cymbal, triangle, celesta, castanets.

OPEN ACCESS AND THE HUMANITIES

CONTEXTS, CONTROVERSIES AND THE FUTURE

[Cambridge University Press](#) If you work in a university, you are almost certain to have heard the term 'open access' in the past couple of years. You may also have heard either that it is the utopian answer to all the problems of research dissemination or perhaps that it marks the beginning of an apocalyptic new era of 'pay-to-say' publishing. In this book, Martin Paul Eve sets out the histories, contexts and controversies for open access, specifically in the humanities. Broaching practical elements alongside economic histories, open licensing, monographs and funder policies, this book is a must-read for both those new to ideas about open-access scholarly communications and those with an already keen interest in the latest developments for the humanities. This title is also available as Open Access via Cambridge Books Online.

ICOM CODE OF ETHICS FOR MUSEUMS

[Icom](#) Contains minimum standards of professional practice and performance for museums and their staff.

OPERATIONAL MANUAL FOR TWO-DIMENSIONAL TRANSONIC CODE TSFOIL

WORLD RADIO TV HANDBOOK

1952-54 include world-wide radio who's who.

METALS IN AMERICA'S HISTORIC BUILDINGS

[DIANE Publishing](#) Promotes an awareness of metals in America's buildings and monuments, and makes recommendations for the preservation and repair of such metals. Intended for owners, architects, and building managers who are responsible for the preservation and maintenance of America's architectural heritage. When metal building components need rehabilitation or maintenance, info. on proper preservation techniques for each metal and its alloys has not been available. This sourcebook on historic architectural metals is a reference on metals used in architecture; how they are used, how to identify them, and when to replace them. Photos

HUMAN INTERACTION, EMERGING TECHNOLOGIES AND FUTURE APPLICATIONS III

PROCEEDINGS OF THE 3RD INTERNATIONAL CONFERENCE ON HUMAN INTERACTION AND EMERGING TECHNOLOGIES: FUTURE APPLICATIONS (IHET 2020), AUGUST 27-29, 2020, PARIS, FRANCE

[Springer Nature](#) This book reports on research and developments in human-technology interaction. A special emphasis is given to human-computer interaction, and its implementation for a wide range of purposes such as healthcare, aerospace, telecommunication, and education, among others. The human aspects are analyzed in detail. Timely studies on human-centered design, wearable technologies, social and affective computing, augmented, virtual and mixed reality simulation, human rehabilitation and biomechanics represent the core of the book. Emerging technology applications in business, security, and infrastructure are also critically examined, thus offering a timely, scientifically-grounded, but also professionally-oriented snapshot of the current state of the field. The book is based on contributions presented at the 3rd International Conference on Human Interaction and Emerging Technologies: Future Applications, IHET 2020, held on August 27-29, 2020. It offers a timely survey and a practice-oriented reference guide to researchers and professionals dealing with design and/or management of the new generation of service systems.

AERONAUTICAL CHART USER'S GUIDE

[Simon and Schuster](#) The updated 11th edition of the Aeronautical Chart User's Guide by the FAA is a great reference for novice pilots and professionals alike. Printed in full color with detailed examples, this book provides all the information students and pilots need to know about all the symbols and information provided on US aeronautical charts and chart navigation publications. Readers will find information on VFR charts, aeronautical chart symbols, helicopter route charts, flyway planning charts, IFR enroute charts, explanation of IFR enroute terms and symbols, Terminal Procedure Publications (TPPs), explanation of TPP terms and symbols, airspace classifications, and an airspace class table.

AIR CARRIER OPERATIONS

Whether a Part 121 airline or a Part 135 charter operator, a company lives or dies by its compliance with the applicable Federal Aviation Regulations, or FARs (14 CFR). Air Carrier Operations introduces students of aviation to the significant Federal Aviation Regulations affecting airline operations. Students and professionals gain an appreciation of the variety of regulatory issues involved in air carrier operations and gather the background information they need to identify and apply the relevant regulations. This book examines the many regulations governing an air carrier and focuses primarily on Part 121 air carriers; in addition, coverage includes Part 119 and relevant portions of Parts 135, 91, 61 and 25 of the Federal Aviation Regulations. The text emphasizes Instrument Flight Rules (IFR) flight operations, particularly useful to instrument-rated pilots and aircraft dispatchers. For this third edition, the authors collaborated with two seasoned FAA Licensed Flight Dispatchers, enhancing the content relevant to students preparing for the FAA Flight Dispatcher Certificate. In addition, updates and revisions throughout reflect new FAA regulatory changes to provide students, pilots, flight crews, dispatchers, and management professionals with the essential information pertinent to today's air carrier operations. Air Carrier Operations is a college-level text ideal for Air Carrier Flight Operations and Airline Operations courses, is used extensively in Airline Dispatcher Training courses, and is an excellent preparation for airline interviews and initial airline pilot training.

DEBRETT'S WEDDING HANDBOOK

[eBook Partnership](#) Debrett's revised and updated Wedding Handbook is the definitive guide to planning your wedding day. It provides practical and expert advice on all aspects of the planning process, from announcing the engagement, to drawing up a guest list, budgeting, recruiting a wedding team, finding a venue and choosing food, drink and entertainment. The Wedding Handbook is an essential tool to smooth the planning and organisation stages and ensure you and your spouse-to-be are fully versed in what to expect from the day itself. It also includes a checklist of tasks and a timetable of events for the day to ensure that nothing is forgotten in the run-up to your wedding day. The revised edition features advice and information on the traditional British wedding, while also advocating ways in which such traditions can be adapted to honour your vision and incorporate elements personal to you.

PRACTICAL ASPECTS OF KNOWLEDGE MANAGEMENT

5TH INTERNATIONAL CONFERENCE, PAKM 2004, VIENNA, AUSTRIA, DECEMBER 2-3, 2004, PROCEEDINGS

[Springer Science & Business Media](#) This book contains the papers presented at the 5th International Conference on Practical Aspects of Knowledge Management organized by the Department of Knowledge Management, Institute of Computer Science and Business Informatics, University of Vienna. The event took place on December 02-03, 2004 in Vienna. The PAKM conference series offers a communication forum and meeting ground for practitioners and researchers engaged in developing and deploying advanced business solutions for the management of knowledge and intellectual capital. Contributions pursuing integrated approaches which consider organizational, technological and cultural issues of knowledge management have been elected for presentation. PAKM is a forum for people to share their views, to exchange ideas, to develop new insights, and to envision completely new kinds of solutions for knowledge management problems. The accepted papers are of high quality and are not too specialized so that the main issues can be understood by someone outside the respective field. This is crucial for an interdisciplinary exchange of ideas. Like its predecessors, PAKM 2004 featured two invited talks. It is a real joy seeing the visibility of the conference increase and noting that knowledge management researchers and practitioners from all over the world submitted papers. This year, 163 papers and case studies were submitted, from which 48 were accepted.

HUMAN PERFORMANCE & LIMITATIONS AND OPERATIONAL PROCEDURES

THE ROLE OF THE READER

EXPLORATIONS IN THE SEMIOTICS OF TEXTS

[Indiana University Press](#) . . . not merely interesting and novel, but also exceedingly provocative and heuristically fertile. --The Review of Metaphysics . . . essential reading for anyone interesting in . . . the new reader-centered forms of criticism. --Library Journal In this erudite and imaginative book, Umberto Eco sets forth a dialectic between 'open' and 'closed' texts.

DIGITAL LIBRARIES AND ARCHIVES

7TH ITALIAN RESEARCH CONFERENCE, IRCDL 2011, PISA, ITALY, JANUARY 20-21, 2011. REVISED PAPERS

[Springer](#) This book constitutes the thoroughly refereed proceedings of the 7th Italian Research Conference on Digital Libraries held in Pisa, Italy, in January 2011. The 20 revised full papers presented were carefully reviewed and cover topics of interest such as system interoperability and data integration; formal and methodological foundations of digital libraries; semantic web and linked data for digital libraries; multilingual information access; digital library infrastructures; metadata creation and management; search engines for digital library systems; evaluation and log data; handling audio/visual and non-traditional objects; user interfaces and visualization; digital library quality.

AMATEUR RADIO

FUNCTIONAL REQUIREMENTS FOR SUBJECT AUTHORITY DATA (FRSAD)

A CONCEPTUAL MODEL

[Walter de Gruyter](#) The purpose of authority control is to ensure consistency in representing a value - a name of a person, a place name, or a term or code representing a subject - in the elements used as access points in information retrieval. The primary purpose of this study is to produce a framework that will provide a clearly stated and commonly shared understanding of what the subject authority data/record/file aims to provide information about, and the expectation of what such data should achieve in terms of answering user needs."

PROCEEDING OF INTERNATIONAL CONFERENCE ON COMPUTATIONAL SCIENCE AND APPLICATIONS

ICCSA 2019

[Springer Nature](#) The book consists of high-quality papers presented at the International Conference on Computational Science and Applications (ICCSA 2019), held at Maharashtra Institute of Technology World Peace University, Pune, India, from 7 to 9 August 2019. It covers the latest innovations and developments in information and communication technology, discussing topics such as soft computing and intelligent systems, web of sensor networks, drone operating systems, web of sensor networks, wearable smart sensors, automated guided vehicles and many more.

THE COMPLETE MULTI-ENGINE PILOT

This is the fifth edition of a book pilots have been relying on to learn multi-engine flying for more than 20 years. Learn fundamentals of flying multi-engine airplanes and the aerodynamic laws that govern multi-engine flight, including energy management, under Bob Gardner's experienced and energetic tutoring. Included is information on both obtaining the multi-engine rating and checking out in a new twin. An integrated flight and ground syllabus details the program for the rating and provides a sample written test, typical of the one used for new-aircraft checkouts. Also contains a complete library of FAA source material on multi-engine flight subjects. The Complete Pilot Series is designed for use in flight schools, for home study, and as a base for student kits.

LIFELINES, THE SOFTWARE MAGAZINE

COMMUNICATION, CONTROL, AND COMPUTER ACCESS FOR DISABLED AND ELDERLY INDIVIDUALS

[Trace Research and Development Center Waisman Center](#) One of a series of three resource guides concerned with communication, control, and computer access for the disabled or the elderly, the book focuses on hardware and software. The guide's 13 chapters each cover products with the same primary function. Cross reference indexes allow access to listings of products by function, input/output feature, and computer model. Switches are listed separately by input/output features. Typically provided for each product are usually an illustration, the product name, vendor, size, weight, power source, connector type, cost, and a description. Part I, "Computer Adaptations," presents the following types of items: modifications for standard keyboards; alternate inputs usable with all software; input devices usable with only some software; input adapters for computers; alternate display systems usable with all software; Braille printers and tactile display components; speech synthesizers; and other software and hardware adaptations. Part II, "Application Software for Special Ed and Rehab," includes software for administration and management; assessment; education, training, and therapy; recreation; and personal tools or aids. Appendixes include a list of additional sources of information, a glossary, addresses of manufacturers listed with their products, and an alphabetical listing of all products in the 3-book series.
