Studies in short fiction Proceedings Parenting Without Guilt A Parent's Guide to Practical Problem Solving CreateSpace There are times when what a youngster does or says is absolutely baffling to mom or dad. How can 15-year-old Sarah spend hours prepping her hair and not give one second to cleaning her room? Likewise, what's wrong with 10-year-old Mark who knows he shouldn't bully his little brother but does so anyway? Certainly parents want answers, and no one is surprised when a parent falls back on interrogating a child or teen with repeated "Why?" or "What were you thinking?" questions.Unfortunately, searching for the reasons children behave as they do by asking the ubiquitous "Why?" is ultimately unsuccessful and, frankly, irrelevant. "I don't know," "Because," or "I wasn't thinking," is the usual child response, resulting in frustrated parents and youngsters who feel embarrassed, stupid or annoyed.Drs. Charles C. Larson and John B. Dockstader, each with more than thirty years of experience working with parents and youngsters, advise parents to step back from situations such as those described and offer, instead, techniques for evaluating and solving family problems without needing to know "Why?". The authors counsel parents how to determine if a problem exists, who owns the problem and who is best equipped to solve it. Numerous real-life examples are presented to illustrate the problem-solving process and solutions.In Parenting Without Guilt, parents learn not only to solve family problems, but also why the challenges parents and youngsters face today are more demanding than ever before. In addition, parents are guided through each stage of child development, from birth to young adulthood, with attention to typical problems any parent may anticipate. Resources that parents can use to help them resolve family discords are discussed, to include working with educators, clergy, pediatricians, private practitioners and others.With compassion, humor and wisdom gained through practical experience, Drs. Larson and Dockstader offer information and advice that provides any parent with the skills to raise successful children without guilt, anxiety or distress. The Legislative Manual of the State of Wisconsin Torts!, third edition MIT Press A law school casebook that maps the progression of the law of torts through the language and example of public judicial decisions in a range of cases. A tort is a wrong that a court is prepared to recognize, usually in the form of ordering the transfer of money ("damages") from the wrongdoer to the wronged. The tort system offers recourse for people aggrieved and harmed by the actions of others. By filing a lawsuit, private citizens can demand the attention of alleged wrongdoers to account for what they've done—and of a judge and jury to weigh the claims and set terms of compensation. This book, which can be used as a primary text for a first-year law school torts course, maps the progression of the law of torts through the language and example of public judicial decisions in a range of cases. Taken together, these cases show differing approaches to the problems of defining legal harm and applying those definitions to a messy world. The cases range from alleged assault and battery by "The Schoolboy Kicker" (1891) to the liability of General Motors for "The Crumpling Toe Plate" (1993). Each case is an artifact of its time; students can compare the judges' societal perceptions and moral compasses to those of the current era. This book is part of the Open Casebook series from Harvard Law School Library and MIT Press. Official Report of the Proceedings of the Board of Education of the City of Chicago The Devil In The White City Random House 'An irresistible page-turner that reads like the most compelling, sleep defying fiction' TIME OUT One was an architect. The other a serial killer. This is the incredible story of these two men and their realization of the Chicago World's Fair of 1893, and its amazing 'White City'; one of the wonders of the world. The architect was Daniel H. Burnham, the driving force behind the White City, the massive, visionary landscape of white buildings set in a wonderland of canals and gardens. The killer was H. H. Holmes, a handsome doctor with striking blue eyes. He used the attraction of the great fair - and his own devilish charms - to lure scores of young women to their deaths. While Burnham overcame politics, infighting, personality clashes and Chicago's infamous weather to transform the swamps of Jackson Park into the greatest show on Earth, Holmes built his own edifice just west of the fairground. He called it the World's Fair Hotel. In reality it was a torture palace, a gas chamber, a crematorium. These two disparate but driven men are brought to life in this mesmerizing, murderous tale of the legendary Fair that transformed America and set it on course for the twentieth century . . .
