Macmillan Publishers Aus. Ben Brooksby is a fifth-generation farmer from St Helens Plains in western Victoria. When he was younger, he struggled with anxiety and other mental health issues, as do so many others in rural communities. A simple social media post helped him to turn things around. After he shared a photo on Instagram showing himself naked in a truck full of lentils, he received a huge response, with other farmers wanting to share their own photos - and their stories. As the Naked Farmer movement

grew, Ben met people from all around the country who wanted to get naked for mental health. As they got their kits off, they also opened up about their struggles. This is a heartwarming, moving and candid collection of stories of the challenges our farmers are facing, and the way these communities are banding together in response. In Battle for Peace

The Story of My 83rd Birthday

Oxford University Press W. E. B. Du Bois was a public intellectual, sociologist, and activist on behalf of the African American community. He profoundly shaped black political culture in the United States through his founding role in the NAACP, as well as internationally through the Pan-African movement. Du Bois's sociological and historical research on African-American communities and culture broke ground in many areas, including the history of the post-Civil War Reconstruction period. Du Bois was also a prolific author of novels, autobiographical accounts, innumerable editorials and journalistic pieces, and several works of history. One of the most neglected and obscure books by W. E. B. Du Bois, In Battle for Peace frankly documents Du Bois's experiences following his attempts to mobilize Americans against the emerging conflict between the United States and the Soviet Union. A victim of McCarthyism, Du Bois endured a humiliating trial—he was later acquitted—and faced political persecution for over a decade. Part autobiography and part political statement, In Battle for Peace remains today a powerful analysis of race in America. With a series introduction by editor Henry Louis Gates, Jr., and an introduction by Manning Marable, this edition is essential for anyone interested in African American history.

Medical Anthropology

A Biocultural Approach

Oxford University Press, USA Intended as the primary text for introductory courses on medical anthropology, this book integrates human biological data relevant to health and disease with both evolutionary theory and the social environments that more often than not produce major challenges to health and survival. Because students who take this fastest-growing anthropology course come from a variety of disciplines (anthropology, biology, especially pre-med students, and health sciences, especially), the text does not assume anything beyond a basic high-school level familiarity with human biology and anthropology. The authors first present basic biological information on a particular health condition and then expand their analysis to include evolutionary, historical, and cross-cultural perspectives. Among the topics covered are nutrition, infectious disease, stress, reproductive health, behavioral disease, aging, race/racism and health, mental health, and healers and healing.

TimeWorm

Page Publishing Inc Brenda Heller & Jimmy Adams 10605 A piercing scream stopped him in his tracks. By instinct he dropped to a squat. He caught his breath as he had ignored the flooding room and now felt the icy water press against his chest. The noise grew louder as it moved closer to where Theo squatted neck-deep in the frigid water. "Murphy!" Shards of the tile wall behind him flew in

every direction as the bullet slammed into it, well above where Theo's head had previously been. Seventeen-year-old Theo is caught up in a teenage world of driftboarding and HoloGames until his father's friend and fellow scientist, Viktor Brack, destroys the laboratory, vowing to use a time machine to rewrite history. Trapped behind sealed doors, Theo promises himself to retrieve a book of secrets and prevent Brack's evil plot. Theo and his robotic dog, Murphy, follow Brack over 100 years earlier to Nazi Germany. After his own escape from a pit of death, Theo is rescued until forces of evil and Hitler's Youth attempt to kill him. He is found by sixteen-year-old Gracie, who understands the dangers of the streets. For both teens, the need to survive becomes a reality never touched by Theo's false world of the HoloGame. Together, the teens take Murphy as they join an underground society, and begin a trek against the evil of Hitler's regime. Dark alleys, tunnels, and creatures of repulsion force Theo and Gracie into a life-or-death fight to save both past and future. Jimmy Adams and Brenda Heller are teachers who met at the high school in Derby, Kansas. Jimmy lives in the city and was born in Pennsylvania. Brenda lives in the country and was born in Kansas. However, both enjoy running, the outdoors, and teaching teens. Each holds a degree in history, so when Jimmy had an idea to blend the truth of history with a flair of imagination, the series began. TimeWorm and the books to follow bring the events of yesterday as alive and daring as the moments in which they first occurred.
