It all comes down to whether an adolescent giant Automaton, a truly mad, Mad Scientist, a surly Necromancer, a Banshee's granddaughter, and a reluctant furry monster straight from under your little sister's bed can manage not to kill each other - or, at least, quit fighting over the tele-privilege-schedule long enough to get the job done! Not likely.

Guide to Modified Exhaust Systems

A Reference for Law Enforcement Officers and Motor Vehicle Inspectors

Linden Publishing Guide to Modified Exhaust Systems: A Reference for Law Enforcement Officers and Motor Vehicle Inspectors is a slim, portable manual for law enforcement officials, motor vehicle inspectors, prosecutors, and legislators, as well as all citizens who desire peace and quiet. Excessive noise is a major public health issue. High noise levels are associated with hearing loss, heart disease, sleep deprivation, chronic fatigue, ringing of the ears, and aggressive behavior. Loud noise also damages communities, reduces property values, and denies individuals the right to peacefully enjoy their own home and property. One of the major sources of excessive and unnecessary noise is from motorcycles equipped with modified exhaust systems. By definition, a modified exhaust is not of the type installed at the time of manufacture, does not meet the manufacturer's specifications, does not comply with manufacturing regulatory standards, and is the root cause of excessively loud vehicles. Guide to Modified Exhaust Systems: A Reference for Law Enforcement Officers and Motor Vehicle Inspectors concisely provides law enforcement personnel and regular citizens the tools they need to fight back against excessive vehicle noise levels. The book includes numerous color photographs to make it easy to visually identify the illegal equipment installed on some motorcycles that is responsible for the great majority of nuisance noise levels.

Stayin' Safe

The Art and Science of Riding Really Well

Whitehorse Press Larry Grodsky devoted his life to motorcycle safety. Through the riding courses he taught and his "Stayin' Safe" columns in *Rider* magazine (from 1988 until his untimely death in 2006), he helped thousands of motorcyclists improve their skills and their ability to ride really well. This collection of Grodsky's columns reveals his ability to illuminate complex and sometimes highly technical subjects with an entertaining and personal style, spiced with his trademark wry wit and keen observations of human behavior. A master teacher, Grodsky was constantly learning from his students, always striving to find the best way to lead riders towards the mastery of their two-wheeled vehicles. Many of his columns focus on helping riders develop specific skills (complete with practice exercises), while others deal with the riding environment and riders' mental processes. Although it is packed with information useful to both novice and experienced motorcyclists, this book is not structured as a how-to guide to motorcycle proficiency. Rather, it is a collection of thoughtful essays to be read and savored individually. Readers will be rewarded by the beautifully written stories of a great motorcycle riding instructor who has left his mark on a generation of grateful riders.

The first manual was later revised to serve both as a classroom textbook and as an onboard reference handbook.This newly updated manual, the fourth revision, in keeping with Maritime Administration policy, has been restructured to include improved and more effective methods of plotting techniques for use in Ocean, Great Lakes, Coastwise and Inland Waters navigation.Robert J. Slave Stealers

True Accounts of Slave Rescues: Then and Now

Follow two abolitionists who fought one of the most shockingly persistent evils of the world: human trafficking and sexual exploitation of slaves. Told in alternating chapters from perspectives spanning more than a century apart, read the riveting 19th century first-hand account of Harriet Jacobs and the modern-day eyewitness account of Timothy Ballard. Harriet Jacobs was an African-American, born into slavery in North Carolina in 1813. She thwarted the sexual advances of her master for years until she escaped and hid in the attic crawl space of her grandmother's house for seven years before escaping north to freedom. She published an autobiography of her life, *Incidents in the Life of a Slave Girl*, which was one of the first open discussions about sexual abuse endured by slave women. She was an active abolitionist, associated with Frederick Douglass, and, during the Civil War, used her celebrity to raise money for black refugees. After the war, she worked to improve the conditions of newly-freed slaves. As a former Special Agent for the Department of Homeland Security who has seen the horrors and carnage of war, Timothy Ballard founded a modern-day "underground railroad" which has rescued hundreds of children from being fully enslaved, abused, or trafficked in third-world countries. His story includes the rescue and his eventual adoption of two young siblings--Mia and Marky, who were born in Haiti. Section 2 features the lives of five abolitionists, a mix of heroes from past to present, who call us to action and teach us life lessons based on their own experiences: Harriet Tubman--The "Conductor"; Abraham Lincoln--the "Great Emancipator"; Little Mia--the sister who saved her little brother; Guesno Mardy--the Haitian father who lost his son to slave traders; and Harriet Jacobs--a teacher for us all.
