LA COMPÉTENCE DES AGENTS DU FISC

Editions L'Harmattan L'ouvrage que l'on va lire repose sur une enquête ethnographique menée durant huit années, auprès des personnels des services extérieurs de la Direction Générale des Impôts (DGI) implantés en Bretagne. En les suivant à travers leurs témoignages, leurs "histoires de vie", le lecteur sera sans doute étonné de découvrir les agents du fisc dans des rôles qu'il n'a pas l'habitude de les voir endosser. Il constatera que leur action quotidienne, faite d'engagement intellectuel et émotionnel, de tension entretenue et contenue, se résout en un exercice d'improvisation dans un espace de contraintes. Et il sera inéluctablement conduit à récuser le stéréotype du fonctionnaire des impôts réduit à n'être que le pur produit d'une bureaucratie si "moderne" soit-elle... Surtout, il pourra mesurer la portée que l'auteur entend accorder dans son propos au concept de compétence. Loin de désigner la seule "technicité" - devenue véritable lieu commun au sein de toute la profession -, ce terme vise ici un savoir plus englobant : cette aptitude qu'ont les gens ordinaires à réfléchir sur leurs propres pratiques et qui leur permet de réinterpréter discrètement, mais efficacement, le cadre normatif dans lequel ils sont insérés. S'avancant sur un terrain somme toute peu exploré, l'auteur propose à l'appui de sa démonstration une analyse des mises en scène qui structurent l'une des organisations les plus fantasmagiques qui soit - l'administration fiscale française. Par les divers éclairages qu'il croise, empruntant à

la fois - de propos délibéré - aux méthodes de l'analyse sociologique et aux débats que suscitent les approches renouvelées du fait juridique, ce livre intéressera tous ceux qui se sentent concernés, par ce stupéfiant phénomène social que l'on nomme : la vie de l'institution.

UNE CHANCE POUR L'HUMANITÉ

Editions L'Harmattan Alors que depuis 9 000 ans, où après 291 000 années de nomadisme dans la liberté, sans épidémies, sans guerres et sans impôts, nous étions devenus sédentaires, domestiquant mais nous autodomestiquant aussi, l'absurdité était entrée dans nos vies. Pour ne plus jamais nous quitter jusqu'ici. Ce livre raconte certes cette brève histoire de l'absurdité, écrite en cette ère du « coronalithique », mais il en propose surtout le traitement en apprenant à penser grand. Parce que c'est dans l'étriqué que nous avons attrapé l'absurdité. Notamment celle d'avoir dû attendre une pandémie pour voir enfin que la politique ne peut avoir pour téléologie que le maintien de la vie.

EPISTEMIC MODALITIES AND EVIDENTIALITY IN CROSS-LINGUISTIC PERSPECTIVE

Walter de Gruyter GmbH & Co KG **This volume explores phenomena which come under the heading of epistemic modalities and evidentiality in more or less well-known languages (Germanic, Romance, Balto-Slavic, Hungarian, Tibetan, Lakandon and Yucatec Maya, Arwak-Chibchan Kogi and Ika). It reveals cross-linguistic variations in the structuring of these vast fields of enquiry and clearly demonstrates the relevance and interplay of multiple factors involved in the analysis of these two conceptual domains. Although the contributions present diverging descriptive traditions, they are nonetheless within the broad domain of functional-typological linguistics and give access to distinct yet comparable approaches. They all converge around a number of key issues: modal verbs; the relationship between epistemic modality and evidentiality; the relationship of modal notions with some tense and aspect notions; the notions of (inter)subjectivity, commitment and (dis)engagement; the prosodic variation of modal adverbs, the**

diachronic connections between negation and evidential markers, the connection with mirativity. The volume is of interest to linguists and advanced graduate students working in general and theoretical linguistics, semantics, pragmatics, cognition, and typology.

THE CASE FOR MARRIAGE

WHY MARRIED PEOPLE ARE HAPPIER, HEALTHIER AND BETTER OFF FINANCIALLY

Crown A groundbreaking look at marriage, one of the most basic and universal of all human institutions, which reveals the emotional, physical, economic, and sexual benefits that marriage brings to individuals and society as a whole. The Case for Marriage is a critically important intervention in the national debate about the future of family. Based on the authoritative research of family sociologist Linda J. Waite, journalist Maggie Gallagher, and a number of other scholars, this book's findings dramatically contradict the anti-marriage myths that have become the common sense of most Americans. Today a broad consensus holds that marriage is a bad deal for women, that divorce is better for children when parents are unhappy, and that marriage is essentially a private choice, not a public institution. Waite and Gallagher flatly contradict these assumptions, arguing instead that by a broad range of indices, marriage is actually better for you than being single or divorced- physically, materially, and spiritually. They contend that married people live longer, have better health, earn more money, accumulate more wealth, feel more fulfillment in their lives, enjoy more satisfying sexual relationships, and have happier and more successful children than those who remain single, cohabit, or get divorced. The Case for Marriage combines clearheaded analysis, penetrating cultural criticism, and practical advice for strengthening the institution of marriage, and provides clear, essential guidelines for reestablishing marriage as the foundation for a healthy and happy society. "A compelling defense of a sacred union. The Case for Marriage is well written and well argued, empirically rigorous and learned, practical and commonsensical." -- William J. Bennett, author of The Book of Virtues "Makes the absolutely critical point that marriage has been misrepresented and misunderstood." -- The Wall Street Journal www.broadwaybooks.com

THE DICTATOR'S SEDUCTION

POLITICS AND THE POPULAR IMAGINATION IN THE ERA OF TRUJILLO

Duke University Press The dictatorship of Rafael Trujillo, who ruled the Dominican Republic from 1930 until his assassination in 1961, was one of the longest and bloodiest in Latin American history. The Dictator's Seduction is a cultural history of the Trujillo regime as it was experienced in the capital city of Santo Domingo. Focusing on everyday forms of state domination, Lauren Derby describes how the regime infiltrated civil society by fashioning a "vernacular politics" based on popular idioms of masculinity and fantasies of race and class mobility. Derby argues that the most pernicious aspect of the dictatorship was how it appropriated quotidian practices such as gossip and gift exchange, leaving almost no place for Dominicans to hide or resist. Drawing on previously untapped documents in the Trujillo National Archives and interviews with Dominicans who recall life under the dictator, Derby emphasizes the role that public ritual played in Trujillo's exercise of power. His regime included the people in affairs of state on a massive scale as never before. Derby pays particular attention to how events and projects were received by the public as she analyzes parades and rallies, the rebuilding of Santo Domingo following a major hurricane, and the staging of a year-long celebration marking the twenty-fifth year of Trujillo's regime. She looks at representations of Trujillo, exploring how claims that he embodied the popular barrio antihero the tiguere (tiger) stoked a fantasy of upward mobility and how a rumor that he had a personal guardian angel suggested he was uniquely protected from his enemies. The Dictator's Seduction sheds new light on the cultural contrivances of autocratic power.

THE NEW FRONTIERS OF FASHION LAW

MDPI Fashion law encompasses a wide variety of issues that concern an article of clothing or a fashion accessory, starting from the moment they are designed and following them through distribution and marketing phases, all the

way until they reach the end-user. Contract law, intellectual property, company law, tax law, international trade, and customs law are of fundamental importance in defining this new field of law that is gradually taking shape. This volume focuses on the new frontiers of fashion law, taking into account the various fields that have recently emerged as being of great interest for the entire fashion world: from sustainable fashion to wearable technologies, from new remedies to cultural appropriation to the regulation of model weight, from advertising law on the digital market to the impact of new technologies on product distribution. The purpose is to stimulate discussion on contemporary problems that have the potential to define new boundaries of fashion law, such as the impact of the heightened ethical sensitivity of consumers (who increasingly require effective solutions), that a comparative law perspective renders more interesting. The volume seeks to sketch out the new legal fields in which the fashion industry is getting involved, identifying the new boundaries of fashion law that existing literature has not dealt with in a comprehensive manner.

THE PALGRAVE HANDBOOK OF WINE INDUSTRY ECONOMICS

Springer This Palgrave Handbook offers the first international comparative study into the efficiency of the industrial organization of the global wine industry. Looking at several important vineyards of the main wine countries, the contributors analyze differences in implementation and articulation of three key stages: grape production, wine making and distribution (marketing, selling and logistics). By examining regulations, organization theory, industry organizational efficiency and vertical integration, up to date strategies in the sector are presented and appraised. Which models are most efficient? What are the most relevant factors for optimal performance? How do reputation and governance impact the industry? Should different models co-exist within the wine countries for global success? This comprehensive volume is essential reading for students, researchers and professionals in the wine industry.

LEARNING FROM THE SLUMS FOR THE DEVELOPMENT OF EMERGING CITIES

Springer This book deals with slums as a specific question and a central focus in urban planning. It radically reverses the official version of the history of world cities as narrated during decades: slums are not at the margin of the contemporary process of urbanization; they are an integral part of it. Taking slums as its central focus and regarding them as symptomatic of the ongoing transformations of the city, the book moves to the very heart of the problem in urban planning. The book presents 16 case studies that form the basis for a theory of the slum and a concrete development manual for the slum. The interdisciplinary approach to analysing slums presented in this volume enables

researchers to look at social and economic dimensions as well as at the constructive and spatial aspects of slums. Both at the scientific and the pedagogical level, it allows one to recognize the efforts of the slum's residents, key players in the past, and present development of their neighborhoods, and to challenge public and private stakeholders on priorities decided in urban planning, and their mismatches when compared to the findings of experts and the demands of users. Whether one is a planner, an architect, a developer or simply an inhabitant of an emerging city, the presence of slums in one's environment - at the same time central and nonetheless incongruous - makes a person ask questions. Today, it is out of the question to be satisfied with the assumption of the marginality of slums, or of the incongruous nature of their existence. Slums are now fully part of the urban landscape, contributing to the identity and the urbanism of cities and their stakeholders.

US FOREIGN POLICY ON TRANSITIONAL JUSTICE

DOING BUSINESS 2017

EQUAL OPPORTUNITY FOR ALL

World Bank Publications Fourteenth in a series of annual reports comparing business regulation in 190 economies, **Doing Business 2017** measures aspects of regulation affecting 10 areas of everyday business activity: • Starting a business • Dealing with construction permits • Getting electricity • Registering property • Getting credit • Protecting minority investors • Paying taxes • Trading across borders • Enforcing contracts • Resolving insolvency These areas are included in the distance to frontier score and ease of doing business ranking. Doing Business also measures features of labor market regulation, which is not included in these two measures. This year's report introduces major improvements by expanding the paying taxes indicators to cover postfiling processes—tax audits, tax refunds and tax appeals—and presents analysis of pilot data on selling to the government which measures public procurement regulations. Also for the first time this year Doing Business collects data on Somalia, bringing the total number of economies covered to 190. Using the data originally developed by Women, Business and the Law, this year for the first time Doing Business adds a gender component to three indicators—starting a business, registering property, and enforcing contracts—and finds that those economies which limit women's access in these areas have fewer women working in the private sector both as employers and employees. The report updates all indicators as of June 1, 2016, ranks economies on their overall “ease of doing business†”, and analyzes reforms to business regulation †“ identifying which economies are strengthening their business environment the most. Doing Business illustrates how reforms in business regulations are being used to analyze economic outcomes for domestic entrepreneurs and for the wider economy. It is a flagship product produced in partnership by the World Bank Group that garners worldwide attention on regulatory barriers to entrepreneurship. More than 137 economies have used the Doing Business indicators to shape reform agendas and monitor improvements on the ground. In addition, the Doing Business data has generated over 2,182 articles in peer-reviewed academic journals since its inception.
