FORD TOUGH

100 YEARS OF FORD TRUCKS

Motorbooks International In July 1917 Ford Motor Company introduced a one-ton chassis for commercial trucks, marking what many historians feel was its official entry into the dedicated truck business. Prior to this the company had offered commercial cars, including depot hacks and delivery van bodies mounted on its standard passenger car chassis. Dealers had also offered small after-market pickup beds that could be placed on the rear of a Model T car to convert it to a pickup. But with the debut of the rugged Model TT truck chassis, Ford was firmly in the truck market. Eight years later it introduced its first factory-produced pickup, a sturdy half-ton job that met with great acceptance. During the century that has passed since that first Ford truck chassis, the F-series has become the best-selling truck in the world, and the best-selling vehicle of any type in America. Every year the company sells over 700,000 F-series trucks, and well over 1.5 million trucks of all types, just in the U.S. It's an amazing success. **Ford Tough: 100 Years of Ford Trucks** tells the entire Ford truck story from the very beginning, when Ford got its start in truck production. This book provides the history of the wide array of models Ford has built over the past century, including the Model A roadster pick-up, stylish 81C pickups, legendary 1948 F-1, Bronco, Courier, Ranchero, Econoline.

FORD MUSTANG

AMERICA'S ORIGINAL PONY CAR

Motorbooks International Come along on Mustang's wild ride to automotive success. In the early 1960s, Lee Iacocca - then director of the Ford division at Ford Motor Company - convinced Henry Ford II to produce a sporty four-seat car aimed at the emerging youth market. That car, essentially a reconfigured and re-skinned Falcon economy car, became the Ford Mustang, and it changed the automotive world like no other car before or since. In *Ford Mustang: America's Original Pony Car*, acclaimed Mustang writer Donald Farr celebrates this unbroken lineage of muscle. He chronicles the car's phenomenal first-year sales, the new pony car category it pioneered, and subsequent models that include the Mustang GT, Shelby GT350, Shelby GT500, Super Cobra Jet, Boss 302, and Boss 429 - all part of a line of American performance cars that continues to this day. Created in cooperation with Ford Motor Company and featuring some 400 photos from its historic and media archives, *Ford Mustang* is a must on the bookshelf of any muscle car or Ford aficionado.
