### **SOCIAL SCIENCE REQUIREMENTS FOR BACHELOR'S DEGREES**

---

---

#### **A STUDY OF ANTHROPOLOGY, ECONOMICS, HISTORY, POLITICAL SCIENCE, AND SOCIOLOGY IN GENERAL GRADUATION REQUIREMENTS**

---

This study is based upon responses to questionnaires sent in December 1956 to chairmen of departments of anthropology, economics, history, political science, and sociology in a sample of 319 institutions of higher education. The survey just completed provides the first data ever assembled on a large scale of social science requirements for bachelor's degrees. It shows the extent to which institutions of higher education have such requirements and the extent to which anthropology, economics, history, political science, and sociology each may be taken by the student in satisfaction of them. It then proceeds to a study in depth of the courses most frequently taken by students for this purpose. The data thus assembled can be used by administrators, department heads, and professors for reappraising the role of the social sciences in general curricular requirements, and for re-examining those courses shown to be the only ones to which a majority of students are likely ever to be exposed. Appended are: (1) Cover letter and questionnaire employed; and (2) Tabular Material. (Contains 11 tables and 18 footnotes.) [Best copy available has been provided.].

Forgotten Books Excerpt from Requirements for the Bachelor's Degree The following study is based on the analysis of the requirements for the bachelor's degree of 101 universities and colleges in the United States, including Hawaii and Porto Rico. The first chapter contains a brief resume of the history of entrance and college graduation requirements for the bachelor's degree with special reference to the subjects required. And the order of their appearance in the curricula. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books. Find more at [www.forgottenbooks.com](http://www.forgottenbooks.com) This book is a reproduction of an important historical work. Forgotten Books uses state-of-the-art

technology to digitally reconstruct the work, preserving the original format whilst repairing imperfections present in the aged copy. In rare cases, an imperfection in the original, such as a blemish or missing page, may be replicated in our edition. We do, however, repair the vast majority of imperfections successfully; any imperfections that remain are intentionally left to preserve the state of such historical works.

Springer Nature This is Volume 42 of the Educational Media and Technology Yearbook. For the past 40 years, our Yearbook has contributed to the field of Educational Technology in presenting contemporary topics, ideas, and developments regarding diverse technology tools for educational purposes. Our Yearbook has inspired researchers, practitioners, and teachers to consider how to develop technological designs and develop curricula and instruction integrating technology to enhance student learning, teach diverse populations across levels with effective technology integration, and apply technology in interactive ways to motivate students to engage in course content. In addition, Volume 42 features the Virtual Reality (VR) and Augmented Reality (AR) research and educational use cases, organized and coordinated by Vivienne and David. This section provides evidence that the affordances of AR, VR, and mixed reality, defined as an immersive multi-platform experience reality (XR), have begun to make indelible changes in teaching and learning in the United States. XR's recent developments stimulated the editors to propose a special edition to mark the interoperability of immersive technology to push the boundaries of human curiosity, creativity, and problem solving. After years of incremental development, XR has reached a critical level of investment, infrastructure, and emerging production. The chapters included in this section illustrate how XR can push user inquiry, engagement, learning, and interactivity to new levels within physical and digital contexts.

---

---

The Advanced Degree Requirements Information System (ADRIS), an interactive computer-based data retrieval system, was updated, validated, optimized, and documented. ADRIS was implemented for use by noncomputer oriented Air Force Institute of Technology faculty and staff at time-sharing terminals. The ADRIS Inventory and Requirements data bases can be queried for information about Air Force graduate degree officers and Advanced Academic Degree job positions. The ADRIS system was analyzed, tested, and altered to insure correct operation and reliable output reports. A successful validation effort was conducted with the Air Force Data Services Center using two separately developed computer programs to compare results.

**A GUIDE TO THE STUDY AND USE OF MILITARY HISTORY**

---

---

This Guide to the Study and Use of Military History is designed to foster an appreciation of the value of military history and explain its uses and the resources available for its study. It is not a work to be read and lightly tossed aside, but one the career soldier should read again or use as a reference at those times during his career when necessity or leisure turns him to the contemplation of the military past.
