**When Scotland Was Jewish DNA Evidence, Archeology, Analysis of Migrations, and Public and Family Records Show Twelfth Century Semitic Roots McFarland** The popular image of Scotland is dominated by widely recognized elements of Celtic culture. But a significant non-Celtic influence on Scotland's history has been largely ignored for centuries? This book argues that much of Scotland's history and culture from 1100 forward is Jewish. The authors provide evidence that many of the national heroes, villains, rulers, nobles, traders, merchants, bishops, guild members, burgesses, and ministers of Scotland were of Jewish descent, their ancestors originating in France and Spain. Much of the traditional historical account of Scotland, it is proposed, rests on fundamental interpretive errors, perpetuated in order to affirm Scotland's identity as a Celtic, Christian society. A more accurate and profound understanding of Scottish history has thus been buried. The authors' wide-ranging research includes examination of census records, archaeological artifacts, castle carvings, cemetery inscriptions, religious seals, coinage, burgess and guild member rolls, noble genealogies, family crests, portraiture, and geographic place names. Explores whether sufficient data exists to examine the temporal and spatial relationships that existed in terrorist group planning, and if so, could patterns of preparatory conduct be identified? About one-half of the terrorists resided, planned, and prepared for terrorism relatively close to their eventual target. The terrorist groups existed for 1,205 days from the first planning meeting to the date of the actual/planned terrorist incident. The planning process for specific acts began 2-3 months prior to the terrorist incident. This study examined selected terrorist groups/incidents in the U.S. from 1980-2002. It provides for the potential to identify patterns of conduct that might lead to intervention prior to the commission of the actual terrorist incidents. **Illustrations. Open Blind Eyes Xlibris Corporation** Open Blind Eyes brings you face to face with the reality of sex trafficking in America through the true story viewpoint of a girl from a small town. Rachel was only nine years old when she was first approached by a perpetrator who was known to her as a teacher and coach. She goes into detail of the process of being groomed and how the evil of what was happening to her in the dark remained unseen by everyone around her. She describes how she coped for so many years by blocking out the memories only to have them resurface when she was an adult with a family of her own. Rachel had no idea that when she would pursue justice it would end up putting her right back in the world of trafficking. It wasn't until her church family saw the signs and believed what she was saying that she was able to start the process of finding freedom. Rachel shows her faith and love of God during the highs and lows of her journey and she prays for each person who reads her story. That their eyes will be opened and their actions will lead us toward ending sex trafficking in our world. **Mary and Early Christian Women Hidden Leadership Springer** This book is open access under a CC BY-NC-ND license. This book reveals exciting early Christian evidence that Mary was remembered as a powerful role model for women leaders—women apostles, baptizers, and presiders at the ritual meal. Early Christian art portrays Mary and other women clergy serving as deacon, presbyter/priest, and bishop. In addition, the two oldest surviving artifacts to depict people at an altar table inside a real church depict women and men in a gender-parallel liturgy inside two of the most important churches in Christendom—Old Saint Peter's Basilica in Rome and the second

Hagia Sophia in Constantinople. Dr. Kateusz's research brings to light centuries of censorship, both ancient and modern, and debunks the modern imagination that from the beginning only men were apostles and clergy. *Mental Health and Disasters* Cambridge University Press A reference on mental health and disasters, focused on the full spectrum of psychopathologies associated with many different types of disasters. *A Genealogical Dictionary of the First Settlers of New England Showing Three Generations of Those who Came Before May, 1692, on the Basis of the Farmer's Register* A dictionary of surnames of the first settlers of New England and 3 successive generations prior to 1692. *Prominent Families of New York Being an Account in Biographical Form of Individuals and Families Distinguished as Representatives of the Social, Professional and Civic Life of New York City* Promoting Social and Emotional Learning Guidelines for Educators ASCD A guide to establishing high-quality social and emotional education programs describes approaches to social and emotional learning for all levels and includes thirty-nine guidelines and field-inspired examples for classrooms, schools, and districts. *Hereditary Genius An Inquiry Into Its Laws and Consequences* What Works in Girls' Education Evidence for the World's Best Investment Brookings Institution Press Hard-headed evidence on why the returns from investing in girls are so high that no nation or family can afford not to educate their girls. Gene Sperling, author of the seminal 2004 report published by the Council on Foreign Relations, and Rebecca Winthrop, director of the Center for Universal Education, have written this definitive book on the importance of girls' education. As Malala Yousafzai expresses in her foreword, the idea that any child could be denied an education due to poverty, custom, the law, or terrorist threats is just wrong and unimaginable. More than 1,000 studies have provided evidence that high-quality girls' education around the world leads to wide-ranging returns: Better outcomes in economic areas of growth and incomes Reduced rates of infant and maternal mortality Reduced rates of child marriage Reduced rates of the incidence of HIV/AIDS and malaria Increased agricultural productivity Increased resilience to natural disasters Women's empowerment What Works in Girls' Education is a compelling work for both concerned global citizens, and any academic, expert, nongovernmental organization (NGO) staff member, policymaker, or journalist seeking to dive into the evidence and policies on girls' education. *Adapting to Climate Change* Thresholds, Values, Governance Cambridge University Press This presents top scientific research by leading researchers and practitioners on the critical issue of adapting to climate change. *Consumer Behavior* Pearson Education India Twelve Years a Slave Prabhat Prakashan "Having been born a freeman, and for more than thirty years enjoyed the blessings of liberty in a free State—and having at the end of that time been kidnapped and sold into Slavery, where I remained, until happily rescued in the month of January, 1853, after a bondage of twelve years—it has been suggested that an account of my life and fortunes would not be uninteresting to the public." -an excerpt *New England Families, Genealogical and Memorial A Record of the Achievements of Her People in the Making of Commonwealths and the Founding of a Nation* Genealogical Publishing Com The Baldwin genealogy from 1500 to 1881 Рипол Классик *The Dead Student* Open Road + Grove/Atlantic A grad student and his ex-girlfriend team up to solve a murder in this psychological thriller from the New York Times bestselling author of *Just Cause*. These challenges reflect widespread deprivations and constraints and include epidemic levels of gender-based violence and discriminatory laws and norms that prevent women from

owning property, being educated, and making meaningful decisions about their own lives--such as whether and when to marry or have children. These often violate their most basic rights and are magnified and multiplied by poverty and lack of education. This groundbreaking book distills vast data and hundreds of studies to shed new light on deprivations and constraints facing the voice and agency of women and girls worldwide, and on the associated costs for individuals, families, communities, and global development. The volume presents major new findings about the patterns of constraints and overlapping deprivations and focuses on several areas key to women's empowerment: freedom from violence, sexual and reproductive health and rights, ownership of land and housing, and voice and collective action. It highlights promising reforms and interventions from around the world and lays out an urgent agenda for governments, civil society, development agencies, and other stakeholders, including a call for greater investment in data and knowledge to benchmark progress.

**Digital Rubbish A Natural History of Electronics** University of Michigan Press "This is a study of the material life of information and its devices; of electronic waste in its physical and electronic incarnations; a cultural and material mapping of the spaces where electronics in the form of both hardware and information accumulate, break down, or are stowed away. Electronic waste occurs not just in the form of discarded computers but also as a scatter of information devices, software, and systems that are rendered obsolete and fail. Where other studies have addressed "digital" technology through a focus on its immateriality or virtual qualities, Gabrys traces the material, spatial, cultural, and political infrastructures that enable the emergence and dissolution of these technologies. In the course of her book, she explores five interrelated "spaces" where electronics fall apart: from Silicon Valley to Nasdaq, from containers bound for China to museums and archives that preserve obsolete electronics as cultural artifacts, to the landfill as material repository. All together, these sites stack up into a sedimentary record that forms the "natural history" of this study. **Digital Rubbish: A Natural History of Electronics** describes the materiality of electronics from a unique perspective, examining the multiple forms of waste that electronics create as evidence of the resources, labor, and imaginaries that are bundled into these machines. By drawing on the material analysis developed by Walter Benjamin, this natural history method allows for an inquiry into electronics that focuses neither on technological progression nor on great inventors but rather considers the ways in which electronic technologies fail and decay. Ranging across studies of media and technology, as well as environments, geography, and design, Jennifer Gabrys pulls together the far-reaching material and cultural processes that enable the making and breaking of these technologies"--Publisher's description.

**bookdown** Authoring Books and Technical Documents with R Markdown CRC Press bookdown: Authoring Books and Technical Documents with R Markdown presents a much easier way to write books and technical publications than traditional tools such as LaTeX and Word. The bookdown package inherits the simplicity of syntax and flexibility for data analysis from R Markdown, and extends R Markdown for technical writing, so that you can make better use of document elements such as figures, tables, equations, theorems, citations, and references. Similar to LaTeX, you can number and cross-reference these elements with bookdown. Your document can even include live examples so readers can interact with them while reading the book. The book can be rendered to multiple output formats, including LaTeX/PDF, HTML, EPUB, and Word, thus making it easy to put your documents online. The style and theme of these output formats can be customized. We used books and R primarily for examples in this book, but bookdown is not only for books or R. Most features introduced in this book also apply to other types of publications: journal papers, reports, dissertations, course handouts, study notes, and even novels. You do not have to use R, either. Other choices of computing languages include Python, C, C++, SQL, Bash, Stan, JavaScript, and so on, although R is best supported. You can also leave out computing, for example, to write a fiction. This book itself is an example of publishing with bookdown and R Markdown, and its source is fully available on GitHub.

**The Pleasures of God Meditations on God's Delight in Being God** Multnomah The author of *Desiring God* reveals the biblical evidence to help us see and savor what the pleasures of God show us about Him. Includes a study guide for individual and small-group use. Isn't it true—we really don't know someone until we understand what makes that person happy? And so it is with God! What does bring delight to the happiest Being in the universe? John Piper writes, that it's only when we know what makes God glad that we'll know the greatness of His glory. Therefore, we must comprehend "the pleasures of God." Unlike so much of what is written today, this is not a book about us. It is about the One we were made for—God Himself. In this theological masterpiece—chosen by World Magazine as one of the 20th Century's top 100 books, John Piper reveals the biblical evidence to help us see and savor what the pleasures of God show us about Him. Then we will be able to drink deeply—and satisfyingly—from the only well that offers living water. What followers of Jesus need now, more than anything else, is to know and love—behold and embrace—the great, glorious, sovereign, happy God of the Bible. "This is a unique and precious book that everybody should read more than once." —J.I. PACKER, Regent College, Vancouver, British Columbia

**Unprotected Texts The Bible's Surprising Contradictions About Sex and Desire** Harper Collins "An explosive, fascinating book that reveals how the Bible cannot be used as a rulebook when it comes to sex. A terrific read by a top scholar." —Bart Ehrman, author of *Misquoting Jesus*

Boston University's cutting-edge religion scholar Jennifer Wright Knust reveals the Bible's contradictory messages about sex in this thoughtful, riveting, and timely reexploration of the letter of the gospels. In the tradition of Bart Erhman's *Jesus Interrupted* and John Shelby Spong's *Sins of Scripture*, Knust's *Unprotected Texts* liberates us from the pervasive moralizing—the fickle dos and don'ts—so often dictated by religious demagogues. Knust's powerful reading offers a return to the

scripture, away from the mere slogans to which it is so often reduced. **39 Ways to Save the Planet** Random House We got ourselves into this. Here's how we can get ourselves out. **What Universities Owe Democracy** JHU Press "This book identifies four distinct functions of American higher education that colleges and universities have acquired over the past two hundred years and that are integral to liberal democracy: social mobility, citizenship education, the discovery and communication of knowledge, and the cultivation of a pluralistic society. Each chapter takes up one of these functions to analyze and assess"-- **A Missionary Heart and a Missionary Life** ZTF Books Online In this book "A Missionary Heart and A Missionary Life", Professor Fomum writes: "Our aim in this book is to bring God's people back to the missionary purposes of God. The missionary heart and the missionary life find their origin, base and model in the heart of God. He is a missionary God. The missionary heart and the missionary life are to be judged, viewed and appreciated the way God judges, views and appreciates them. In other words, the missionary life stems from the missionary heart. The very source of the missionary life is the missionary heart and this heart is God's heart. Our God has the missionary heart and so from Him comes the missionary life. Every mission is thus connected to the heart of God. The enabling, blessing, fruitfulness, and growth all flow into the missionary life from the missionary heart through divine arteries. We hope to "sting" and to propel all children of God to become missionaries - missionaries to their families, villages, cities, districts, subdivisions, provinces, regions, nations, continents and Planet Earth. Our second objective is to produce restless people who are increasingly restless until the missionary purposes of God for our generation be accomplished. We wish to produce a people who see the world as God sees it; people who live daily under the constraint of the missionary needs of God; people who dream of God's mission field all night and work on ensuring that our God's missionary purposes are accomplished all day long. Thirdly and lastly, we wish to share with the world that which the Lord has been doing in our hearts, lives and ministry for some years now. right hearts and the right lives, poised for a permanent and fruitful work. Every missionary, who goes out on the Lord's commission, goes out for fruit. He goes out into the business of making disciples the success of which the Lord has assured" May you be richly blessed as you read this book **The David Story: A Translation with Commentary of 1 and 2 Samuel** W. W. Norton & Company "A masterpiece of contemporary Bible translation and commentary."—Los Angeles Times Book Review, Best Books of 1999 Acclaimed for its masterful new translation and insightful commentary, **The David Story** is a fresh, vivid rendition of one of the great works in Western literature. Robert Alter's brilliant translation gives us David, the beautiful, musical hero who slays Goliath and, through his struggles with Saul, advances to the kingship of Israel. But this David is also fully human: an ambitious, calculating man who navigates his life's course with a flawed moral vision. The consequences for him, his family, and his nation are tragic and bloody. Historical personage and full-blooded imagining, David is the creation of a literary artist comparable to the Shakespeare of the history plays. **The Parochial History of Cornwall** Founded on the Manuscript Histories of Mr. Hals and Mr. Tonkin; with Additions and Various Appendices Iron and Health Stationery Office/Tso The report provides a comprehensive review of the role of iron in human nutrition and also assesses the adequacy of iron intakes and status of the general and low income populations in the UK. For the general population, SACN is recommending a public health approach to achieving adequate iron status based on a healthy

balanced diet that includes a variety of foods containing iron. This is a change to current dietary advice that iron-rich foods should be consumed at the same time as foods/drinks which enhance iron absorption (e.g., fruit, meat) but should not be consumed with those that inhibit iron absorption (e.g., tea, coffee, milk). Groups identified as being at risk of iron deficiency anaemia include toddlers, girls and women of reproductive age, and some adult groups aged over 65 years. Health professionals need to be aware of increased risk of iron deficiency anaemia in these groups and those with evidence suggestive of iron deficiency anaemia should receive appropriate clinical assessment and advice. Red and processed meat is probably associated with an increased risk of colorectal cancer and SACN is advising high consumers of red and processed meat to consider reducing their intakes. Reducing such intake to the population average for adult consumers (estimated to be about 70 g/day cooked weight in 2000/01) would have little effect on the proportion of the population with iron intakes below the lower limit of recommended intake for iron.
