MEN IN MY SITUATION

A NOVEL

Graywolf Press

MURDER BY INJECTION

The present work, the result of some forty years of investigative research, is a logical progression from my previous books: the expose of the international control of monetary issue and banking practices in the United States; a later work revealing the secret network of organizations through which these alien forces wield political power-the secret committees, foundations, and political parties through which their hidden plans are implemented; and now; to the most vital issue of all, the manner in which these depredations affect the daily lives and health of American citizens. Despite the great power of the hidden rulers, I found that only one group has the power to issue life or death sentences to any American-our nation's physicians. I discovered that these physicians, despite their great power, were themselves subjected to very strict controls over every aspect of their professional lives. These controls, surprisingly enough, were not wielded by any state or federal agency, although almost every other aspect of American life is now under the absolute control of the bureaucracy. The physicians have their own autocracy, a private trade association, the American Medical Association. This group, which is headquartered in Chicago, Illinois, had gradually built up its power until it assumed total control over medical schools and the accreditation of physicians. The trail of these manipulators led me straight to the same lairs of the international conspirators whom I had exposed in previous books. I knew that they had already looted America, reduced its military power to a dangerously low level, and imposed bureaucratic controls on every American. I now discovered that their conspiracies also directly affected the health of every American. This conspiracy has resulted in a documented decline in the health of our citizens. We now rank far down the list of civilized nations in infant mortality and other significant medical statistics. I was able to document the shocking record of these cold-blooded tycoons who not only plan and carry out famines, economic depressions, revolutions and wars, but who also find their greatest profits in their manipulations of our medical care. The cynicism and malice of these conspirators is something beyond the imagination of most Americans. They deliberately mulct our people of millions of dollars each year through "charitable" organizations and then use these same organizations as key groups to bolster their Medical Monopoly. Fear and intimidation are the basic techniques by which the conspirators maintain their control over all aspects of our health care, as they ruthlessly crush any competitor who challenges their profits. As in other aspects of their "behavioural control" over the American people, their most constantly used weapon against us is their employment of federal agents and federal agencies to carry out their intrigues. The proof of this operation may be the most disturbing revelation of my work.

YVAIN

THE KNIGHT OF THE LION

Yale University Press *The twelfth-century French poet Chrétien de Troyes is a major figure in European literature. His courtly romances fathered the Arthurian tradition and influenced countless other poets in England as well as on the continent. Yet because of the difficulty of capturing his swift-moving style in translation, English-speaking audiences are largely unfamiliar with the pleasures of reading his poems. Now, for the first time, an experienced translator of medieval verse who is himself a poet provides a translation of Chrétien's major poem, Yvain, in verse that fully and satisfyingly captures the movement, the sense, and the spirit of the Old French original. Yvain is a courtly romance with a moral tenor; it is ironic and sometimes bawdy; the poetry is crisp and vivid. In addition, the psychological and the socio-historical perceptions of the poem are of profound literary and historical importance, for it evokes the emotions and the values of a flourishing, vibrant medieval past.*

FUNDAMENTALS OF THE GENERAL THEORY OF THE UNIVERSE

AuthorHouse Fundamentals of the General Theory of the Universe builds upon knowledge empirically obtained by mankind. In doing so, it interprets phenomena that have until now lacked definitive explanation, such as superconductivity and propagation of electromagnetic waves in conductor and in vacuum; the book also resolves the dilemma of the well-known wave-practical dualism. For the first time ever, this book answers the question, "What is gravitational interaction?" The book points out the connection between our material world and the world of elementary particles, as exemplified by n0?1H1. Here one will find classification of matter and its creation. The author underscores the universal character of the laws of energy distribution at all matter levels. The levels themselves are triune and built in "the image and after the likeness". This book is the first attempt ever at combining all natural sciences and stepping out of the bounds of generally accepted concepts.

BEYOND ISABELLA

SECULAR WOMEN PATRONS OF ART IN RENAISSANCE ITALY

To demonstrate that Isabella d'Este, marchioness of Mantua (1474-1539) was not the only woman patron of art during the period, and to balance the recent focus on religious women's patronage, US art historians and medievalists consider women patron's relationships with other women and men, including kinsmen and the artists and architects whose work they commissioned; what social classes they belong to; how they were able to finance the undertakings they sponsored; and other matters. The many photographs and reproductions are in black and white. Annotation c. Book News, Inc., Portland, OR (booknews.com)

GREAT BRIDGES

FROM ANCIENT TIMES TO THE TWENTIETH CENTURY

Courier Dover Publications Bridges serve a practical purpose, providing passage over rivers, valleys, roads, railroad tracks, and other obstacles to transportation. But many bridges are also works of art. This splendid archive by an expert on the history of bridges and civil engineering amply illustrates the art of good bridge design, as exemplified by ancient and modern constructions. Wilbur J. Watson's study ranges far and wide, and his text — accompanied by 200 rare photographs and illustrations — contains vivid descriptions of many of the Old and New World's finest bridges, as well as historical data, and considerable literary and legendary lore. Bridges of all purposes and sizes are considered—from stone viaducts in Roman Iberia and Chinese masonry arches of the Han dynasty to the pontoon spans of Asia Minor and the modern steel and concrete suspension bridges in Geneva, Switzerland, and in New York. Here also are views of the Old London Bridge (1209), the Karlsbrücke in Prague, the imposing 14th-century Valentr bridge in Cahors, France, and scores more. A fact-filled pictorial guide, this volume will be welcomed by students of engineering and architecture, and anyone who has ever marveled at the size and grandeur of a well-built bridge.

THE FORGOTTEN ROHINGYA: THEIR STRUGGLE FOR HUMAN RIGHTS IN BURMA

Imagine that you are living in a country that does not recognize you as a citizen in spite of the fact that your people have maintained a continuous existence there for several centuries. If that was not enough of a traumatic experience, consider that because of your racial, ethnic and religious identity other ethnic groups that are fighting the brutal military regime in your country for their self-determination and human rights consider you as "settlers" from a neighboring country. It must be your worst nightmare when you realize that half of your people (almost 2 million) have been forced to take asylum or refuge outside, and you may be the next in line to seek a way out of this living hell of xenophobia, discrimination, intolerance, racism and bigotry. The victims are the Rohingya people of Burma (Myanmar). Because of their religion, race, ethnicity, color and language they are the most discriminated and persecuted people in our planet. Some argue that they are also one of the most forgotten. The Myanmar military regime has denied their citizenship rights, claiming that they are illegal settlers from nearby Bangladesh who have moved into Arakan during the British occupation of Burma in the 19th century. Is there any truth to such allegations? Does the military junta apply the same litmus test against all ethnic and religious groups in matters of citizenship? What is the basis for a nation's claim to self-determination? Must a people wander in the wilderness for two millennia and suffer repeated persecution, humiliation and genocide to qualify? How about the rights of a minority community to survive with their culture and traditions intact? Do they need to be 'children' of a 'higher' God to qualify? What makes the children of a 'lesser' God to be forgotten and denied the same treatment and privilege that was granted hitherto to other nations? For much of its history, Burma has been ruled by military. As has once again been demonstrated recently they are brutal, savage and tyrannical. They have ignored people's verdict in the election and imprisoned leaders and workers of the democracy movement. They cannot be guarantors or protectors of human rights of anyone, let alone religious and ethnic minorities. Do you know that the Rohingyas - face cruel restriction on marriage and those married without government authorization are paraded naked on the streets? - Are restricted from traveling outside their villages? - Have no legal right to own land or property? - Are restricted from getting education, finding work, getting medical and health care? - Are subjected to land confiscation, forced eviction and destruction of homes, offices, schools, mosques, shops, etc., and face religious persecution on a daily basis? - Are victims of staged riots, forced starvation, arbitrary taxation, extortion, arrest, torture and extra-judicial killings? - Are forced to do slave labor for establishment of government infrastructure, new Buddhist settlements, pagodas and monasteries on evicted lands with the government intent of changing the landscape and demography of Arakan? - Are forced to convert to Buddhism &/or worship Buddha? Do you know that when it comes to the Rohingya people, the Burmese government doesn't uphold any of the Articles of the Universal Declaration of Human Rights? Nothing can excuse us from the criminal silence that we practice in not voicing our concern about the plight of the Rohingya people. "The Forgotten Rohingya" makes a strong case for mobilizing concerned citizens of our globe to ease their sufferings. The author analyzes origin of the Rohingya people and offers ideas to solve their problem. The author also discusses problems of xenophobia and racism, which are so rampant in this country of many races, ethnicities and religions. He also analyzes the role of Daw Suu Kyi and failure of Burma's orange revolution.
