Best Practice Approaches to the Study of Cognitive Functioning and Physical Activity/Sports *Frontiers Media SA* **Safety at Street Works and Road Works A Code of Practice** *This publication sets out the statutory requirements for signing, lighting, and guarding at street works and road works. This is the core reference manual for utility companies, local authorities, street work contractors and others whose day-to-day business involves street works (works by statutory undertakers and other utility companies etc) and road works (works to maintain or repair road infrastructure). The code, which covers all of the UK and includes national variations, is now compulsory for highway/road authorities in England, Wales and Northern Ireland. It applies to all single carriageway roads and dual carriageways with a speed limit of 40 mph or less. The code is now divided into three parts: Basic Principles, Operations, and Equipment and Vehicles; site layout diagrams have been redrawn to make them easier to understand. There is: increased emphasis on using risk assessment and guidance on what to consider in such assessments; strengthened guidance on providing for pedestrians and cyclists and new guidance on traffic control measures related to road closures, one-way working and temporary road obstructions; enhanced advice on other traffic control measures including works near tramways and railways, and mobile/short duration works; and updated advice on high visibility clothing and the signing and conspicuity requirements for work vehicles. Effective from 1 October 2014 when it will supersede the 2001 edition (ISBN 9780115519581).* **Report of the National Reading Panel : Teaching Children to Read : an Evidence-based Assessment of the Scientific Research Literature on Reading and Its Implications for Reading Instruction** *Catálogo de Productos Y Servicios de Head Start, 2005* *Catalog of publications, videotapes, and services designed to provide resources for Head Start grantees and delegates to use in the planning, management, and operations of their programs.* **A Guide for ensuring inclusion and equity in education** *UNESCO Publishing* **Ministry of Justice - Code of Practice for Victims of Crime** *The Stationery Office* *This Code of Practice for Victims of Crime forms a key part of the wider Government strategy to transform the criminal justice system by putting victims first, making the system more responsive and easier to navigate. Victims of crime should be treated in a respectful, sensitive and professional manner without discrimination of any kind. They should receive appropriate support to help them, as far as possible, to cope and recover and be protected from re-victimisation. It is important that victims of crime know what information and support is available to them from reporting a crime onwards and who to request help from if they are not getting it. This Code sets out the services to be provided to victims of criminal conduct by criminal justice organisations in England and Wales. Criminal conduct is behaviour constituting a criminal offence under the National Crime Recording Standard. Service providers may provide support and services in line with this Code on a discretionary basis if the offence does not fall under the National Crime Recording Standard (NCRS) (see the glossary of key terms found at the end of this Code). Non-NCRS offences include drink driving and careless driving. This Code also sets a minimum standard for these services. Criminal justice organisations can choose to offer additional services and victims can choose to receive services tailored to their individual needs that fall below the minimum stand* **Mental Capacity Act 2005 code of practice [large print 2007 final edition]** *The Stationery Office* *The Mental capacity Act 2005 provides a statutory framework for people who lack the capacity to make decisions for themselves, or for people who want to make provision for a time when they will be unable to make their own decisions. This code of practice, which has statutory force, provides information and guidance about how the Act should work in practice. It explains the principles behind the Act, defines when someone is incapable of making their own decisions and explains what is meant by acting in someone's best interests. It describes the role of the new Court of Protection and the role of Independent Mental Capacity Advocates and sets out the role of the Public Guardian. It also covers medical treatment and the way disputes can be resolved.* **A Handbook for Teaching and Learning in Higher Education Enhancing Academic Practice** *Routledge* *First Published in 2002.
