Learning disabilities screening and evaluation guide for low- and middle-income countries

RTI Press Learning disabilities are among the most common disabilities experienced in childhood and adulthood. Although identifying learning disabilities in a school setting is a complex process, it is particularly challenging in low- and middle-income countries that lack the appropriate resources, tools, and supports. This guide provides an introduction to learning disabilities and describes the processes and practices that are necessary for the identification process. It also describes a phased approach that countries can use to assess their current screening and evaluation services, as well as determine the steps needed to develop, strengthen, and build systems that support students with learning disabilities. This guide also provides intervention recommendations that teachers and school administrators can implement at each phase of system development. Although this guide primarily addresses learning disabilities, the practices, processes, and systems described may be also used to improve the identification of other disabilities commonly encountered in schools.

Western Plainchant

A Handbook

Oxford University Press Plainchant is the oldest substantial body of music that has been preserved in any shape or form. It was first written down in Western Europe in the eighth to ninth centuries. Many thousands of chants have been sung at different times or places in a multitude of forms and styles, responding to the differing needs of the church through the ages. This book provides a clear and concise introduction, designed both for those to whom the subject is new and those who require a reference work for advanced study. It begins with an explanation of the liturgies that plainchant was designed to serve. It describes all the chief genres of chant, different types of liturgical book, and plainchant notations. After an exposition of early medieval theoretical writing on plainchant, Hiley provides a historical survey that traces the constantly changing nature of the repertory. He also discusses important musicians and centers of composition. Copiously illustrated with over 200 musical examples, this book highlights the diversity of practice and richness of the chant repertory in the Middle Ages. It will be an indispensable introduction and reference source on this important music for many years to come.

Forward with Classics

Classical Languages in Schools and Communities

Bloomsbury Publishing Despite their removal from England's National Curriculum in 1988, and claims of elitism, Latin and Greek are increasingly re-entering the 'mainstream' educational arena. Since 2012, there have been more students in state-maintained schools in England studying classical subjects than in independent schools, and the number of schools offering Classics continues to rise in the state-maintained sector. The teaching and learning of Latin and Greek is not, however, confined to the classroom: community-based learning for adults and children is facilitated in newly established regional Classics hubs in evenings and at weekends, in universities as part of outreach, and even in parks and in prisons. This book investigates the motivations of teachers and learners behind the rise of Classics in the classroom and in communities, and explores ways in which knowledge of classical languages is considered valuable for diverse learners in the 21st century. The role of classical languages within the English educational policy landscape is examined, as new possibilities exist for introducing Latin and Greek into school curricula. The state of Classics education internationally is also investigated, with case studies presenting the status quo in policy and practice from Australasia, North America, the rest of Europe and worldwide. The priorities for the future of Classics education in these diverse locations are compared and contrasted by the editors, who conjecture what strategies are conducive to success.

Cicero, Philippic 2, 44–50, 78–92, 100–119

Latin Text, Study Aids with Vocabulary, and Commentary

Open Book Publishers Cicero composed his incendiary Philippics only a few months after Rome was rocked by the brutal assassination of Julius Caesar. In the tumultuous aftermath of Caesar's death, Cicero and Mark Antony found themselves on opposing sides of an increasingly bitter and dangerous battle for control. Philippic 2 was a weapon in that war. Conceived as Cicero's response to a verbal attack from Antony in the Senate, Philippic 2 is a rhetorical firework that ranges from abusive references to Antony's supposedly sordid sex life to a sustained critique of what Cicero saw as Antony's tyrannical ambitions. Vituperatively brilliant and politically committed, it is both a carefully crafted literary artefact

and an explosive example of crisis rhetoric. It ultimately led to Cicero's own gruesome death. This course book offers a portion of the original Latin text, vocabulary aids, study questions, and an extensive commentary. Designed to stretch and stimulate readers, Ingo Gildenhard's volume will be of particular interest to students of Latin studying for A-Level or on undergraduate courses. It extends beyond detailed linguistic analysis to encourage critical engagement with Cicero, his oratory, the politics of late-republican Rome, and the transhistorical import of Cicero's politics of verbal (and physical) violence.

Latin Alive

The Survival of Latin in English and the Romance Languages

Cambridge University Press In Latin Alive, Joseph Solodow tells the story of how Latin developed into modern French, Spanish, and Italian, and deeply affected English as well. Offering a gripping narrative of language change, Solodow charts Latin's course from classical times to the modern era, with focus on the first millennium of the Common Era. Though the Romance languages evolved directly from Latin, Solodow shows how every important feature of Latin's evolution is also reflected in English. His story includes scores of intriguing etymologies, along with many concrete examples of texts, studies, scholars, anecdotes, and historical events; observations on language; and more. Written with crystalline clarity, this book tells the story of the Romance languages for the general reader and to illustrate so amply Latin's many-sided survival in English as well.

Season One

A Latin reader like no other. Legonium is both a town and a tale. It is a town built entirely from LEGO® bricks, and filled with an incredible cast of characters. There is Marcellus, the struggling artist; Augustus, the bank manager; Miranda, the police officer; Monas Bricvir, the private detective; plus a suspicious character spotted on the roof of the town bank; and, of course, Pico, the cat. From Children's Services to Children's Spaces

Public Policy, Children and Childhood

Routledge More than ever before, children are apparently being recognised as social actors and citizens. Yet public policy often involves increased control and surveillance of children. This book explores the contradiction. It shows how different ways of thinking about children produce different childhoods, different public provisions for children (including schools) and different ways of working with children. It argues that how we understand children and make public provision for them involves political and ethical choices. Through case studies and the analysis of policy and practice drawn from a number of countries, the authors describe an approach to public provision for children which they term 'children's services'. They then propose an alternative approach named 'children's spaces', and go on to consider an alternative theory, practice and profession of work with children: pedagogy

and the pedagogue. This ground breaking book will be essential reading for tutors and students on higher education or in-service courses in early childhood, education, play, social work and social policy, as well as practitioners and policy makers in these areas.

Poetics and Politics

Net Structures and Agencies in Early Modern Drama

Walter de Gruyter GmbH & Co KG Far from teleological historiography, the pan-European perspective on Early Modern drama offered in this volume provides answers to why, how, where and when the given phenomena of theatre appear in history. Using theories of circulation and other concepts of exchange, transfer and movement, the authors analyze the development and differentiation of European secular and religious drama, within the disciplinary framework of comparative literature and the history of literature and concepts. Within this frame, aspects of major interest are the relationship between tradition and innovation, the status of genre, the proportion of autonomous and heteronomous creational dispositions within the artefacts or genres they belong to, as well as strategies of functionalization in the context of a given part of the cultural net. Contributions cover a broad range of topics, including poetics of Early Modern Drama; political, institutional and social practices; history of themes and motifs (Stoffgeschichte); history of genres/cross-fertilization between genres; textual traditions and distribution of texts; questions of originality and authorship; theories of circulation and net structures in Drama Studies.

Inclusion from the Start - Guidelines on Inclusive Early Childhood Care and Education for Roma Children

UNESCO Like any other children, Roma children have the right to education. They are all born with talents and potential, just like other children, and are capable of succeeding and contributing to society - if they are accepted by the majority and educated in inclusive early childhood services and schools. However, many Roma children in Europe continue to face discrimination, segregation and exclusion from quality early childhood care and education (ECCE). Inclusion from the start - Guidelines on inclusive early childhood care and education for Roma children envisions ECCE as an important stepping stone toward inclusive participation in school and society. By fostering good health, well-being, school readiness and the value of equality and living together in the early years, society can help Roma children get a good start in primary school. These guidelines provide guidance on key themes in ECCE - such as the conceptualisation of ECCE services, agenda setting, curricular and pedagogical approaches, staff training and professional development, assessment and transition to primary education - and highlight examples of good practice. It is hoped that they will support the work of policy makers, early childhood educators and their trainers, Roma organisations, NGOs and international organisations and contribute to making a real change in the lives of young Roma children.

The Art of Italy in the Royal Collection

Renaissance & Baroque

Royal Collection Publications This landmark publication celebrates one of the most exciting periods in European art. It brings together 93 paintings and 85 drawings from the Royal Collection and accompanies an exhibition of international importance. The earliest paintings in the book date from the beginning of the sixteenth century and include Giovanni Bellini's Portrait of a Young Man, Lorenzo Costa's Portrait of a Lady with a Lapdog, and the Portrait of a Man, which has previously been attributed to Raphael. From the end of the seventeenth century is the series of twelve paintings on copper by Luca Giordano, illustrating the story of Cupid and Psyche. In between are works by Andrea del Sarto, Bronzino, Caravaggio, Correggio, Titian, Giulio Romano, Jacopa Bassano, Lorenzo Lotto, Palma Vecchio, Veronese, Parmigianino, Tintoretto, Annibale Carracci, Domenichino, Domenico Fetti, Orazio and Artemisia Gentileschi, Guido Reni, and Guercino; ranging in scale from small devotional paintings to large altarpieces, and from religious narratives to mythological subjects and portraiture. The sixteenth and seventeenth centuries also saw some of the richest and most dynamic developments in Italian drawing, and this book includes some of the finest drawings by many of the greatest artists of the period - from the achievements of the High Renaissance (including works by Leonardo, Raphael, Michelangelo, Andrea del Sarto and Parmigianino), through the later Renaissance in northern Italy (Barocci, Tintoretto, the Carracci), to the Baroque in Rome (Domenichino, Bernini, Maratti), Bologna (Reni, Guercino) and beyond. Several of the drawings are published under new attributions, and all the entries reflect recent developments in this field. Scholarly thinking on a number of the paintings is also reassessed, in some cases for the first time since John Shearman's *The Early Italian Paintings in the Collection of Her Majesty The Queen* (1983) and Michael Levey's *The Later Italian Pictures in the Collection of Her Majesty The Queen* (2nd edn 1991). Fresh insights are drawn from the latest research, and from recent cleaning and conservation, which has transformed critical opinion on a number of the paintings, in particular *The Calling of Saints Peter and Andrew*, a painting that is now firmly attributed to Caravaggio himself, rather than a follower. There are also further fascinating works by artists rarely encountered in British collections, such as Polidoro da Caravaggio, Francesco Salviati, Federico Zuccaro, Cristofano Allori and Guido Cagnacci.

Latin Beyond GCSE

Bloomsbury Publishing Latin Beyond GCSE covers all the linguistic requirements for the OCR AS and A Level in Latin. It aims to bring students to a point where they can tackle original Latin texts with confidence. Although designed as a continuation of Latin to GCSE, it is self-contained and can be used independently. This new edition is brought in line with the new OCR specifications and benefits from a completely redesigned layout, with added colour and images. The answer key is available on a companion website. The first part of the book introduces new constructions and the translation of sentences from English to Latin, with reading passages at AS standard. The next sections provide translation and comprehension passages at AS and A-level, including verse unseens, scansion, and a list of 300 common poetic words. Next come longer unadapted extracts from a range of authors. Finally there is a reference section including a summary of all constructions, a comprehensive grammar, and a general vocabulary of about 1200 Latin words.

A Cultural History of Tarot

From Entertainment to Esotericism

Bloomsbury Publishing The enigmatic and richly illustrative tarot deck reveals a host of strange and iconic mages, such as The Tower, The Wheel of Fortune, The Hanged Man and The Fool: over which loom the terrifying figures of Death and The Devil. The 21 numbered playing cards of tarot have always exerted strong fascination, way beyond their original purpose, and the multiple resonances of the deck are ubiquitous. From T S Eliot and his 'wicked pack of cards' in "The Waste Land" to the psychic divination of Solitaire in Ian Fleming's "Live and Let Die"; and from the satanic novels of Dennis Wheatley to the deck's adoption by New Age practitioners, the cards have in modern times become inseparably connected to the occult. They are now viewed as arguably the foremost medium of prophesying and foretelling. Yet, as the author shows, originally the tarot were used as recreational playing cards by the Italian nobility in the Renaissance. It was only much later, in the 18th and 19th centuries, that the deck became associated with esotericism before evolving finally into a diagnostic tool for mind, body and spirit. This is the first book to explore the remarkably varied ways in which tarot has influenced culture. Tracing the changing patterns of the deck's use, from game to mysterious oracular device, Helen Farley examines tarot's emergence in 15th century Milan and discusses its later associations with astrology, kabbalah and the Age of Aquarius.

The Musical Shape of the Liturgy

"Professor William Mahrt of Santford Univeristy and the Church Music Association of America has written a sweeping book--one that it is at once scholarly and practical--on that most controversial topic of music and the liturgy. He provides an over-whelming argument that every parish must have high standrads for liturgical music and he makes the full case for Gregorian chant as the model and the ideal of that liturgical music." - back cover
