The Age of Revolution 1789-1848

New York and Toronto: New American Library

Global Trends 2030

Alternative Worlds

Createspace Independent Publishing Platform *This publication covers global megatrends for the next 20 years and how they will affect the United States. This is the fifth installment in the National Intelligence Council's series aimed at providing a framework for thinking about possible futures and their implications. The report is intended to stimulate strategic thinking about the rapid and vast geopolitical changes characterizing the world today and possible global trajectories during the next 15-20 years by identifying critical trends and potential discontinuities. The authors distinguish between megatrends, those factors that will likely occur under any scenario, and game-changers, critical variables whose trajectories are far less certain. NIC 2012-001. Several innovations are included in Global Trends 2030, including: a review of the four previous Global Trends reports, input from academic and other experts around the world, coverage of disruptive technologies, and a chapter on the potential trajectories for the US role in the international system and the possible the impact on future international relations. Table of Contents: Introduction 1 Megatrends 6 Individual Empowerment 8 Poverty Reduction 8 An Expanding Global Middle Class 8 Education and the Gender Gap 10 Role of Communications Technologies 11 Improving Health 11 A MORE CONFLICTED IDEOLOGICAL LANDSCAPE 12 Diffusion of Power 15 THE RISE AND FALL OF COUNTRIES: NOT THE SAME OLD STORY 17 THE LIMITS OF HARD POWER IN THE WORLD OF 2030 18 Demographic Patterns 20 Widespread Aging 20 Shrinking Number of Youthful Countries 22 A New Age of Migration 23 The World as Urban 26 Growing Food, Water, and Energy Nexus 30 Food, Water, and Climate 30 A Brighter Energy Outlook 34 Game-Changers 38 The Crisis-Prone Global Economy 40 The Plight of the West 40 Crunch Time Too for the Emerging Powers 43 A Multipolar Global Economy: Inherently More Fragile? 46 The Governance Gap 48 Governance Starts at Home: Risks and Opportunities 48 INCREASED FOCUS ON EQUALITY AND OPENNESS 53 NEW GOVERNMENTAL FORMS 54 A New Regional Order? 55 Global Multilateral Cooperation 55 The Potential for Increased Conflict 59 INTRASTATE CONFLICT: CONTINUED DECLINE 59 Interstate Conflict: Chances Rising 61 Wider Scope of Regional Instability 70 The Middle East: At a Tipping Point 70 South Asia: Shocks on the Horizon 75 East Asia: Multiple Strategic Futures 76 Europe: Transforming Itself 78 Sub-Saharan Africa: Turning a Corner by 2030? 79 Latin America: More Prosperous but Inherently Fragile 81 The Impact of New Technologies 83 Information Technologies 83 AUTOMATION AND MANUFACTURING TECHNOLOGIES 87 Resource Technologies 90 Health Technologies 95 The Role of the United States 98 Steady US Role 98 Multiple Potential Scenarios for the United States' Global Role 101 Alternative Worlds 107 Stalled Engines 110 FUSION 116 Gini-out-of-the-Bottle 122 Nonstate World 128 Acknowledgements 134 GT2030 Blog References 137 Audience: Appropriate for anyone, from businesses to banks, government agencies to start-ups, the technology sector to the teaching sector, and more. This publication helps anticipate where the world will be: socially, politically, technologically, and culturally over the next few decades. The Fourth Industrial Revolution

Penguin UK *The founder and executive chairman of the World Economic Forum on how the impending technological revolution will change our lives We are on the brink of the Fourth Industrial Revolution. And this one will be unlike any other in human history. Characterized by new technologies fusing the physical, digital and biological worlds, the Fourth Industrial Revolution will impact all disciplines, economies and industries - and it will do so at an unprecedented rate. World Economic Forum data predicts that by 2025 we will see: commercial use of nanomaterials 200 times stronger than steel and a million times thinner than human hair; the first transplant of a 3D-printed liver; 10% of all cars on US roads being driverless; and much more besides. In The Fourth Industrial Revolution, Schwab outlines the key technologies driving this revolution, discusses the major impacts on governments, businesses, civil society and individuals, and offers bold ideas for what can be done to shape a better future for all.*

An Historical and Moral View of the Origin and Progress of the French Revolution

And the Effect it Has Produced in Europe

In addition to her works on feminist thought and the education of women, Wollstonecraft also wrote historical texts such as this work dedicated to the French Revolution and its effects throughout Europe.

The Coming of the Terror in the French Revolution

Harvard University Press *How did the French Revolution's ideals of liberty, equality, and fraternity descend into violence and terror? Timothy Tackett offers a new interpretation of this turning point in world history. Penetrating the mentality of Revolutionary elites on the eve of the Terror, he reveals how suspicion and mistrust escalated and helped propel their actions.*

Global Trends 2030

Alternative Worlds : a Publication of the National Intelligence Council

U.S. Government Printing Office *This report is intended to stimulate thinking about the rapid and vast geopolitical changes characterizing the world today and possible global trajectories over the next 15 years. As with the NIC's previous Global Trends reports, we do not seek to predict the future, which would be an impossible feat, but instead provide a framework for thinking about possible futures and their implications. In-depth research, detailed modeling and a variety of analytical tools drawn from public, private and academic sources were employed in the production of Global Trends 2030. NIC leadership engaged with experts in nearly 20 countries, from think tanks, banks, government offices and business groups, to solicit reviews of the report.*

The French Revolution: A Very Short Introduction

Oxford Paperbacks *'[William Doyle] writes on the French Revolution with more understanding, balance and clarity than any other historian, living or dead.'* -Prof. Tim Blanning, University of Cambridge

The Old Regime and the Revolution

The Psychology of Revolution

Courier Corporation *The author examines the psychology of revolutions in general, both religious and political, with a particular emphasis on the personalities and events of the French Revolution.*

The French Revolution

A History

The Haitian Revolution

Verso Books *Toussaint L'Ouverture was the leader of the Haitian Revolution in the late eighteenth century, in which slaves rebelled against their masters and established the first black republic. In this collection of his writings and speeches, former Haitian politician Jean-Bertrand Aristide demonstrates L'Ouverture's profound contribution to the struggle for equality.*

The French Revolution

Greenwood Publishing Group Presents essays covering the history of the French Revolution, covering important figures of the era, historical events, a selection of primary documents, and an annotated bibliography.

Toward the African Revolution

Political Essays

Grove Press Political essays, articles, and notes written between 1952 and 1961.

Citizens

a chronicle of the French revolution

This award-winning, worldwide bestseller is an authoritative social, cultural and narrative history of the French Revolution.

Contesting the French Revolution

John Wiley & Sons *Contesting the French Revolution* provides an insightful overview of one of history's most significant events, as well as examining the most significant historiographical debates about this period. Explores the causes, events, and consequences of the French Revolution Offers a stimulating analysis of the most controversial debates: Were the events of 1789 a social revolution or a political accident? Did they mark the rise of industrial capitalism or the birth of modern democracy? Was Napoleon Bonaparte an heir to the ideals of 1789 or a betrayer of the Revolution? Shows how historical interpretation of the French Revolution has been influenced by the changing political and social currents of the last 200 years – from the Russian Revolution to the fall of the Berlin Wall – and how historical study has shifted from a political focus to social and cultural approaches in more recent years.

Capital in the Twenty-First Century

Harvard University Press *The main driver of inequality—returns on capital that exceed the rate of economic growth—is again threatening to generate extreme discontent and undermine democratic values. Thomas Piketty's findings in this ambitious, original, rigorous work will transform debate and set the agenda for the next generation of thought about wealth and inequality.*

Revolutionary Writings

Reflections on the Revolution in France and the First Letter on a Regicide Peace

Cambridge University Press *An accessible and annotated edition of Burke's Reflections on the Revolution in France with the first Letter on a Regicide Peace.*

Popular Science

Popular Science gives our readers the information and tools to improve their technology and their world. The core belief that Popular Science and our readers share: The future is going to be better, and science and technology are the driving forces that will help make it better.

The State and Revolution

Penguin UK *State and Revolution* was written by Lenin during August-September, 1917, while he was living in hiding in Helsingfors. It was not published, however, until 1918. According to the draft of the original plan made by Lenin, the work was to contain not only a theoretical analysis of the theory of the state by Marx and Engels, but also a consideration of the "the experience of the Russian Revolutions of 1905 and 1917" from the point of view of this theory. But the October Revolution and the necessity to devote every effort to the immediate practical work interfered with the conclusion of the work begun.

Festivals and the French Revolution

Harvard University Press *Festivals and the French Revolution--the subject conjures up visions of goddesses of Liberty, strange celebrations of Reason, and the oddly pretentious cult of the Supreme Being. Every history of the period includes some mention of festivals; Ozouf shows us that they were much more than bizarre marginalia to the revolutionary process.*

Managing Global Legal Systems

International Employment Regulation and Competitive Advantage

Routledge *Presenting a framework for understanding the corporate strategy-public policy interface as it relates to human capital management, this unique text treats legal systems as factors that must be actively managed in the firm's larger pursuit of international competitive advantage. It provides readers with the most comprehensive description to date of the role that transnational, regional and national institutions play in the evolution of domestic employment regulation and international labour standards, and discusses the opportunities that employers have to influence their form and application. High-profile news events from around the world are utilized to illustrate key concepts, offering unique insights into the regulatory environment that MNEs face when managing an international work force. Taking an applied approach to the subject of labour-market regulation on six continents, this book is a valuable reference for students and practitioners alike in the fields of HRM, business management and law.*

The Political Theory of Political Thinking

The Anatomy of a Practice

Oxford University Press *This book is the first to explore systematically what it means to think 'politically'. Using detailed contemporary and historical material, and investigating both professional and 'amateur' forms of political thinking, this study challenges much accepted wisdom on the topic, arguing that it is to be approached as a cluster of interacting features.*

Enquiring History: The French Revolution

Hachette UK *Think more deeply and work more independently at A level History through a carefully thought-out enquiry approach from SHP. Enquiring History: It makes you think! The OFSTED report on school history suggests that the current generation of A Level students have been poorly served by exam-based textbooks which spoon-feed students while failing to enthuse them or develop deeper understandings of studying History The Schools History Project has risen to this challenge with a new series for the next generation. Enquiring History is SHP's fresh approach to Advanced Level History*

that aims: - To motivate and engage readers - To help readers think and gain independence as learners - To encourage enquiry, and deeper understanding of periods and the people of the past - To engage with current scholarship - To prepare A Level students for university Key features of each Student book - Clear compelling narrative - books are designed to be read cover to cover - Structured enquiries - that explore the core content and issues of each period - 'Insight' panels between enquiries provide context, overview, and extension - Full colour illustrations throughout Web-based support includes - lesson planning tools and activities for teachers - Dynamic eBooks for whole class teaching or individual student reading - Exam advice for each specification The French Revolution This title covers the turbulent history of France from 1774 to 1802 and the revolutionary events and larger than life individuals whose ideas and actions sent shock waves around Europe. Each enquiry tackles a discrete topic which together build a rounded and balanced picture of the causes, the course, the consequences, and the historiography of the revolution. As William Doyle puts it: 'There are few periods in history when so many benevolent intentions led to such unintended chaos and destruction, ...'How and why did this happen? What can we learn from it? What has the French Revolution got to say to us today? Web-based support includes - lesson planning tools and guidance for teachers available from the SHP website <http://www.schoolshistoryproject.org.uk/Publishing/BooksSHP>- eBooks for whole class teaching or individual student reading available from eBook retailers

The French Revolution from Its Origins to 1793

Careers in Law: A Guide for Students, Graduates and Professionals

Springer Nature This book addresses the difficult decisions in the life of law students, graduates and young law professionals in deciding the area of legal practice to pursue as a career. The number of legal fields and subfields is over one hundred, making it virtually impossible for an upcoming lawyer to explore all of these career avenues. Many students finish law school with little understanding of what specific law careers involve, for example, or what sports or space lawyers routinely do. This book highlights the time-consuming nature of law education and training that causes a lack of experience in legal fields as being able to successfully determine the right legal profession for the student. Finding a law career that is a significant source of satisfaction is a function of serious thinking and active research, which the current university to legal practice does not facilitate. This book is a practical guide for any student or current lawyer who is deciding and evaluating their future legal profession.

Democracy and Education

Read Books Ltd This antiquarian volume contains a comprehensive treatise on democracy and education, being an introduction to the 'philosophy of education'. Written in clear, concise language and full of interesting expositions and thought-provoking assertions, this volume will appeal to those with an interest in the role of education in society, and it would make for a great addition to collections of allied literature. The chapters of this book include: 'Education as a Necessity of Life'; 'Education as a Social Function'; 'Education as Direction'; 'Education as Growth'; 'Preparation, Unfolding, and Formal Discipline'; 'Education as Conservative and Progressive'; 'The Democratic Conception in Education'; 'Aims in Education', etcetera. We are republishing this vintage book now complete with a new prefatory biography of the author.

The Coming of the French Revolution

Princeton University Press The Coming of the French Revolution remains essential reading for anyone interested in the origins of this great turning point in the formation of the modern world. First published in 1939, on the eve of the Second World War, and suppressed by the Vichy government, this classic work explains what happened in France in 1789, the first year of the French Revolution. Georges Lefebvre wrote history "from below"—a Marxist approach. Here, he places the peasantry at the center of his analysis, emphasizing the class struggles in France and the significant role they played in the coming of the revolution. Eloquent translated by the historian R. R. Palmer and featuring an introduction by Timothy Tackett that provides a concise intellectual biography of Lefebvre and a critical appraisal of the book, this Princeton Classics edition continues to offer fresh insights into democracy, dictatorship, and insurrection.

Historical View of the French Revolution

From Its Earliest Indications to the Flight of the King in 1791

A Tale of Two Cities Illustrated

A Tale of Two Cities (1859) is a historical novel by Charles Dickens, set in London and Paris before and during the French Revolution. The novel tells the story of the French Doctor Manette, his 18-year-long imprisonment in the Bastille in Paris and his release to live in London with his daughter Lucie, whom he had never met. The story is set against the conditions that led up to the French Revolution and the Reign of Terror.

Pedagogy of the Oppressed

The Third Wave

Democratization in the Late 20th Century

University of Oklahoma Press *Between 1974 and 1990 more than thirty countries in southern Europe, Latin America, East Asia, and Eastern Europe shifted from authoritarian to democratic systems of government. This global democratic revolution is probably the most important political trend in the late twentieth century. In The Third Wave, Samuel P. Huntington analyzes the causes and nature of these democratic transitions, evaluates the prospects for stability of the new democracies, and explores the possibility of more countries becoming democratic. The recent transitions, he argues, are the third major wave of democratization in the modern world. Each of the two previous waves was followed by a reverse wave in which some countries shifted back to authoritarian government. Using concrete examples, empirical evidence, and insightful analysis, Huntington provides neither a theory nor a history of the third wave, but an explanation of why and how it occurred. Factors responsible for the democratic trend include the legitimacy dilemmas of authoritarian regimes; economic and social development; the changed role of the Catholic Church; the impact of the United States, the European Community, and the Soviet Union; and the "snowballing" phenomenon: change in one country stimulating change in others. Five key elite groups within and outside the nondemocratic regime played roles in shaping the various ways democratization occurred. Compromise was key to all democratizations, and elections and nonviolent tactics also were central. New democracies must deal with the "torturer problem" and the "praetorian problem" and attempt to develop democratic values and processes. Disillusionment with democracy, Huntington argues, is necessary to consolidating democracy. He concludes the book with an analysis of the political, economic, and cultural factors that will decide whether or not the third wave continues. Several "Guidelines for Democratizers" offer specific, practical suggestions for initiating and carrying out reform. Huntington's emphasis on practical application makes this book a valuable tool for anyone engaged in the democratization process. At this volatile time in history, Huntington's assessment of the processes of democratization is indispensable to understanding the future of democracy in the world.*

Backpacker

Backpacker brings the outdoors straight to the reader's doorstep, inspiring and enabling them to go more places and enjoy nature more often. The authority on active adventure, Backpacker is the world's first GPS-enabled magazine, and the only magazine whose editors personally test the hiking trails, camping gear, and survival tips they publish. Backpacker's Editors' Choice Awards, an industry honor recognizing design, feature and product innovation, has become the gold standard against which all other outdoor-industry awards are measured.

Bulletin of the Atomic Scientists

The Bulletin of the Atomic Scientists is the premier public resource on scientific and technological developments that impact global security. Founded by Manhattan Project Scientists, the Bulletin's iconic "Doomsday Clock" stimulates solutions for a safer world.

The Declaration of the Rights of Man and the Citizen 1789 and 1793

The Discovery of Oxygen, Part 1

Experiments

War and the Crisis of Youth in Sierra Leone

Cambridge University Press *The armed conflict in Sierra Leone and the extreme violence of the main rebel faction - the Revolutionary United Front (RUF) - have challenged scholars and members of the international community to come up with explanations. Up to this point, though, conclusions about the nature of the war are mainly drawn from accounts of civilian victims and commentators who had access to only one side of the war. The present study addresses this currently incomplete understanding of the conflict by focusing on the direct experiences and interpretations of protagonists, paying special attention to the hitherto neglected, and often underage, cadres of the RUF. The data presented challenges the widely canvassed notion of the Sierra Leone conflict as a war motivated by 'greed, not grievance'. Rather, it points to a rural crisis expressed in terms of unresolved tensions between landowners and marginalized rural youth, further reinforced and triggered by a collapsing patrimonial state.*

The Advocate

The Advocate is a lesbian, gay, bisexual, transgender (LGBT) monthly newsmagazine. Established in 1967, it is the oldest continuing LGBT publication in the United States.
