### The Green Book

## Appraisal and Evaluation in Central Government : Treasury Guidance

Stationery Office This new edition incorporates revised guidance from H.M Treasury which is designed to promote efficient policy development and resource allocation across government through the use of a thorough, long-term and analytically robust approach to the appraisal and evaluation of public service projects before significant funds are committed. It is the first edition to have been aided by a consultation process in order to ensure the guidance is clearer and more closely tailored to suit the needs of users.

### Defense Management Reform

## How to Make the Pentagon Work Better and Cost Less

Stanford University Press Pentagon spending has been the target of decades of criticism and reform efforts. Billions of dollars are spent on weapons programs that are later abandoned. State-of-the-art data centers are underutilized and overstaffed. New business systems are built at great expense but fail to meet the needs of their users. Every Secretary of Defense for the last five Administrations has made it a priority to address perceived bloat and inefficiency by making management reform a major priority. The congressional defense committees have been just as active, enacting hundreds of legislative provisions. Yet few of these initiatives produce significant results, and the Pentagon appears to go on, as wasteful as ever. In this book, Peter Levine addresses why, despite a long history of attempted reform, the Pentagon continues to struggle to reduce waste and inefficiency. The heart of Defense Management Reform is three case studies covering civilian personnel, acquisitions, and financial management. Narrated with the insight of an insider, the result is a clear understanding of what went wrong in the past and a set of concrete guidelines to plot a better future.

### Research Handbook on Asian Financial Law

Edward Elgar Publishing This comprehensive Research Handbook provides an in-depth analysis of the different financial law approaches, legal systems and trends throughout Asia. It considers how reforms following the crises have been critical for the development and growth of the region and explores a broad range of post-crisis financial regulatory issues. This timely book also examines how inconsistent and divergent approaches to financial market regulation are curtailing the region's potential.

### Education without Debt

## Giving Back and Paying It Forward

Indiana University Press Almost 50 million Americans have cumulatively borrowed more than \$1.5 trillion to attend college. Roughly one-third of all adults aged 25 to 34 have a student loan. In Education without Debt businessman and philanthropist Scott MacDonald examines the real-life impact of crushing levels of student debt on borrowers and what can be done to fix this crisis. Weaving together stories of debt-impaired lives with stories of personal success achieved with the essential help of financial aid, MacDonald reveals the devastating personal and societal impact of the debt problem and offers possible solutions. He explores the efforts of colleges and private philanthropists to make education affordable and relates his own experience of funding financial aid for need-eligible students at five universities. Education without Debt is a must-read book for anyone concerned about the rising cost of education and what to do about this critical policy and societal issue.

## Funding Public Schools in the United States and Indian Country

IAP The National Education Finance Academy (NEFA) has completed a project providing a one-of-a-kind practical book on funding P-12 education in the United States. The book, entitled Funding Public Schools in the United States and Indian Country is a single volume with a clear and short chapter about each state. Approximately 50% of chapters are authored by university faculty who are members of NEFA; approximately 25% of chapters are authored by state department of education officials and/or state school board association officials; and the remaining 25% of chapters are authored by ASBO affiliate states. Each chapter contains information about: • Each state's aid formula background; • Basic support program description and operation (the state aid formula) including how school aid is apportioned (e.g., state appropriations, local tax contributions, cost share ratios, and more); • Supplemental funding options relating to how school districts raise funds attached to or above the regular state aid scheme; • Compensatory programs operated in school districts and how those are funded and aided; • Categorical programs operated in school districts and how those are funded and aided; • Any funding supports for transportation operations; • Any funding supports for physical facilities and operations; and • Other state aids not covered in the above list.

## Globalization and Regime Change

### Lessons from the New Russia and the New Europe

Rowman & Littlefield Publishers This timely book examines post-communist developments in Russia, central Europe, and the Balkans, emphasizing foreign and security policies and their domestic linkages. Framed around the concepts of globalization and regime change, the rich set of case studies traces the repercussions for politicians and institutions forced to adjust to the disappearance of the "East" from the cold war's East-West polarity. The contributors explore how each country has grappled with such questions as how to change from one party to many, how to create viable market economies, and how to restructure security alliances. They conclude by considering the prospects for further regime change from democracies to hybrid systems and the implications for the future of the European Union.

## Mapping Legal Innovation

### Trends and Perspectives

Springer Nature The legal sector is being hit by profound economic and technological changes (digitalization, open data, blockchain, artificial intelligence ...) forcing law firms and legal departments to become ever more creative in order to demonstrate their added value. To help lawyers meet this challenge, this book draws on the perspectives of lawyers and creative specialists to analyze the concept and life cycle of legal innovations, techniques and services, whether related to legislation, legal engineering, legal services, or legal strategies, as well as the role of law as a source of creativity and interdisciplinary collaboration. With 16 contributions by Daniel Martin Katz, Illinois Tech Chicago Kent College of Law Todd Lubart and Branden Thornhill-Miller, Paris Descartes University Christophe Collard, EDHEC Business School, Paris, and Mark Raison, Yellow Ideas and Solvay Brussels School of Economics & Management Florian Imbert and Caroline Martin-Forissier, Legal Design Assas, Paris Veronique Chapuis-Thuault, Legal & BI Consultant, General Counsel, Paris Michael Abramowicz, George Washington University, Washington DC, and John F. Duffy, University of Virginia Nabyla Daidj, University Paris-Saclay, Evry University, and Telecom Ecole de Management Thomas D. Barton, California Western School of Law, Helena Haapio, University of Vaasa and Lexpert Ltd, Helsinki, James G. Hazard, CommonAccord.org, Berkeley, and Stefania Passera, University of Vaasa and Passera Design, Espoo Joseph M. Green, Gunderson Dettmer, New York, NY Alice Belcher, University of Dundee Olivier

Beddeleem, EDHEC Business School, Paris Ivan Tchotourian, Laval University Ross D. Petty, Babson College Martina Eckardt and Stefan Okruch, Andrassy University Budapest Kaisa Sorsa, Turku University of Applied Sciences, and Tarja Salmi-Tolonen, University of Turku Stephanie Dangel, University of Pittsburgh, Margaret Hagan, Stanford University, and James Bryan Williams, University of Toronto and Google Inc.

## Essentials of Health Policy and Law

Jones & Bartlett Learning Awarded by Book Authority one of the best Public Health books of all time, Essentials of Health Policy and Law, Fourth Edition explores the essential policy and legal issues impacting and flowing out of the healthcare and public health systems and the way health policies and laws are formulated. Concise and straightforward, this textbook is an introduction to the seminal issues in U.S. health policy and law, with a particular focus on national health reform under the Affordable Care Act (ACA).

## Public Budgeting Systems

Jones & Bartlett Learning Public Budgeting Systems, Tenth Edition is the most comprehensive and balanced treatment of the current state of budgeting throughout all levels of the United States government. Current and prospective public managers, accordingly, often succeed or fail in their careers based in large part on whether they are intelligent consumers of financial data and have an adequate understanding of the budget process. By providing a detailed overview of all budgeting and financial management, the book enables students to gain an appropriate understanding of a complex topic.

## Standard for Automatic Exchange of Financial Account Information in Tax Matters, Second Edition

OECD Publishing This publication contains the following four parts: A model Competent Authority Agreement (CAA) for the automatic exchange of CRS information; the Common Reporting Standard; the Commentaries on the CAA and the CRS; and the CRS XML Schema User Guide.

## Family and Succession Law in Japan

Kluwer Law International B.V. Derived from the renowned multi-volume International Encyclopaedia of Laws, this concise exposition and analysis of the essential elements of law with regard to family relations, marital property, and succession to estates in Japan covers the legal rules and customs pertaining to the intertwined civic status of persons, the family, and property. After an informative general introduction, the book proceeds to an in-depth discussion of the sources and instruments of family and succession law, the authorities that adjudicate and administer the laws, and issues surrounding the person as a legal entity and the legal disposition of property among family members. Such matters as nationality, domicile, and residence; marriage, divorce, and cohabitation; adoption and guardianship; succession and inter vivos arrangements; and the acquisition and administration of estates are all treated to a degree of depth that will prove useful in nearly any situation likely to arise in legal practice. The book is primarily designed to assist lawyers who find themselves having to apply rules of international private law or otherwise handling cases connected with Japan. It will also be of great value to students and practitioners as a quick guide and easy-to-use practical resource in the field, and especially to academicians and researchers engaged in comparative studies by providing the necessary, basic material of family and succession law.

## Seeing White

## An Introduction to White Privilege and Race

Rowman & Littlefield "An interdisciplinary, supplemental textbook for undergraduate students that challenges students to see race as everyone's issue"--

## Who Donates in Campaigns?

## The Importance of Message, Messenger, Medium, and Structure

Cambridge University Press Utilizing surveys of Obama, McCain, and Romney donors, the authors explore the question: Who donates to presidential campaigns?

## Like Nobody's Business

## An Insider's Guide to How US University Finances Really Work

Open Book Publishers How do university finances really work? From flagship public research universities to small, private liberal arts colleges, there are few aspects of these institutions associated with more confusion, myths or lack of understanding than how they fund themselves and function in the business of higher education. Using simple, approachable explanations supported by clear illustrations, this book takes the reader on an engaging and enlightening tour of how the money flows. How does the university really pay for itself? Why do tuition and fees rise so fast? Why do universities lose money on research? Do most donations go to athletics? Grounded in hard data, original analyses, and the practical experience of a seasoned administrator, this book provides refreshingly clear answers and comprehensive insights for anyone on or off campus who is interested in the business of the university: how it earns its money, how it spends it, and how it all works.

## Illicit Finance and the Law in the Commonwealth Caribbean

## The Myth of Paradise

Taylor & Francis This book provokes fresh ways of thinking about small developing States within the transnational legal order for combating money laundering and the financing of terrorism and proliferation (TAMLO). From the global wars on drugs and terror to journalistic exposés such as the 'Paradise', 'Panama' and 'Pandora' Papers, the Commonwealth Caribbean has been discursively stigmatised as a mythical island paradise of 'rogue' States. Not infrequently, their exercise of regulatory self-determination has been presented as the selling of their economic sovereignty to facilitate shady business deals and illicit finance from high-net-worth individuals, kleptocrats, tax-dodgers, organised crime networks and terrorist financiers. This book challenges conventional wisdom that Commonwealth Caribbean States are among the 'weakest links' within the global ecosystem to counter illicit finance. It achieves this by unmasking latent interests, and problematising coercive extraterritorial regulatory and surveillance practices, along the onshore/offshore and Global North/South axes. Interdisciplinary in its outlook, the book will appeal to policymakers, regulatory and supervisory authorities, academics and students concerned with better understanding legal and development policy issues related to risk-based regulatory governance of illicit finance as well as those arising from money laundering related to corruption, politically exposed persons (PEPs), offshore finance and offshore Internet gambling services.

## Research Handbook on Intellectual Property and Investment Law

Edward Elgar Publishing This innovative Research Handbook explores the complex and controversial interactions between intellectual property (IP) and investment law. In light of recent developments at national, European and international levels, the chapters critically examine the legitimacy of current practices with regard to the social function of IP rights and the regulatory autonomy of States to undertake measures in the public interest.

# FinTech, Artificial Intelligence and the Law

## Regulation and Crime Prevention

Routledge This collection critically explores the use of financial technology (FinTech) and artificial intelligence (AI) in the financial sector and discusses effective regulation and the prevention of crime. Focusing on crypto-assets, InsureTech and the digitisation of financial dispute resolution, the book examines the strategic and ethical aspects of incorporating AI into the financial sector. The volume adopts a comparative legal approach to: critically evaluate the strategic and ethical benefits and challenges of AI in the financial sector; critically analyse the role, values and challenges of FinTech in society; make recommendations on protecting vulnerable customers without restricting financial innovation; and to make recommendations on effective regulation and prevention of crime in these areas. The book will be of interest to teachers and students of banking and financial regulation related modules, researchers in computer science, corporate governance, and business and economics. It will also be a valuable resource for policy makers including government departments, law enforcement agencies, financial regulatory agencies, people employed within the financial services sector, and professional services such as law, and technology.

## Vulnerable Consumers and the Law

### Consumer Protection and Access to Justice

Routledge This book charts the difficulties encountered by vulnerable consumers in their access to justice, through the contributions of prominent authors (academic, practitioners and consultants) in the field of consumer law and access to justice. It demonstrates that despite the development of ADR, access to justice is still severely lacking for the vulnerable consumer. The book highlights that a broad understanding of access to justice, which encompasses good regulation and its public enforcement, is an essential ingredient alongside access to the mechanisms of traditional private justice (courts and ADR) to protect the vulnerable consumer. Indeed, many of the difficulties are linked to normative obstacles and lack of access to justice is primarily a vulnerability in itself that can exacerbate existing ones. In addition, because it may contribute to 'pushing' already vulnerable consumers into social exclusion it is not simply about economic justice but also about social justice. The book shows that lack of access to justice is not irreversible nor is it necessarily linked to consumer apathy. New technologies could provide solutions. The book concludes with a plea for developing 'inclusive' justice systems with more emphasis on public enforcement alongside effective courts systems to offer the vulnerable with adequate means to defend themselves. This book will be suitable for both students and practitioners, and all those with an interest in the justice system.

## What Have Charities Ever Done for Us?

### The Stories Behind the Headlines

Policy Press What Have Charities Ever Done for Us? uses case studies and interviews to illustrate how charities support people and communities, foster heritage and culture and pioneer responses to crucial social, ethical and environmental questions.

## Law and Practice of Crowdfunding and Peer-to-Peer Lending in Australia, China and Japan

Springer Nature The revolution in financial technology (FinTech) has created many advancements in the lending and investment space across the world. Law and Practice of Crowdfunding and Peer-to-Peer Lending in Australia, China, and Japan is a timely publication as FinTech grows up and moved into the mainstream of finance in the last decade. Financial services is a highly regulated industry as it is the

lifeblood of a modern economy. Pelma Rajapakse, Haturu Morita, and YinXu Huang have done very solid work blazing a new trail in what is a new industry and how to regulate it properly instead of stifling innovation. They have carried out a deep exploration and a thorough compilation of research that will bring everyone up to date on what Australia, China, and Japan are planning and doing in the field of crowdfunding and peer-to-peer lending. In addition to peer-to-peer lending, the book focuses on laws and practices related to Central Bank digital currencies, cryptocurrency, Bitcoin, and Initial Coin Offerings (ICOs) which is very meaningful and forward-looking. The authors presented their thoughts in such clarity that, even those who lack familiarity with Asia-Pacific, will see how FinTech was growing in various ways driven by different factors. For example, peer-to-peer lending in Japan is mostly for small and medium enterprises. It was popular in China but cracked down by the authorities for a few years. It provides an alternative fundraising channel for the capital market in Australia. We also see a set of regulatory approaches among jurisdictions. Some countries draft new regulations, while others amend existing laws. The mechanism of the regulatory sandbox was introduced. As we know, one size does not fit all. What kind of best practices or lessons learned can we apply to our own jurisdiction? This book covers all available answers to date. This volume speaks highly of the quality and foresight of Pelma Rajapakse and her co-authors.

## Madhukar Hiregange's Practical Guide to GST on Textile Industry

Bloomsbury Publishing The purpose of this book is to enable the taxable person to understand the applicability and impact of GST provisions with respect to the Textile Industry. The comprehensive and in-depth practical knowledge of the three authors would help in the implementation of the provisions in an easy manner. This book is divided into eight parts as follows: Part 1 - Introduction and Overview Part 2 - GST impact analysis on relevant sectors: Manufacturers and Traders, Service Providers, Job workers and other supplies. Part 3 - Conceptual law containing classification, ITC, valuation, place of supply, reverse charge and transitional provisions. Part 4 - Procedural law containing registration, payment, returns, refunds, assessment, audit, advance ruling, appeals, penalties, demands etc. Part 5 - Import and export containing SEZ supplies and FTP incentives. Part 6 - Disputes mitigation and department actions, [focussing on prevention of possible disputes & their resolution]. Part 7 - Tax planning and professional services. Part 8 - Miscellaneous containing FAQs and filled forms.

## Debunk This!

## Shattering Liberal Lies

Post Hill Press Countless studies have proven that over 90 percent of Trump-related news coverage is negative, and the percentage of journalists that identify as Republicans are in the single digits. When liberals are running the show, you can bet that their narrative has gone unchallenged. If you tell a lie long enough people will begin to believe it, and that's certainly the case with so many liberal myths that have become accepted as conventional wisdom. In this book you'll learn, among many other facts: What happened to non-gun mass killings when Australia enacted strict gun control. The truth about "Scandinavian socialism." How Obama twisted the numbers to appear tough on immigration. Why Mexico has stricter immigration laws than the US. How Bill Clinton faked the "Clinton surplus." That the US doesn't have the majority of the world's mass shootings. Why statistics claiming that illegal aliens commit fewer crimes than the general public are bogus. The countless lies the media simply made up about the Trump administration. If you're in need of ammunition to shoot down liberal lies, this is the book for you.

## Madhukar Hiregange's A Practical Guide to GST Audits and Certification (5th edition)

Bloomsbury Publishing The fifth edition of this book has been written with a perspective to enable the taxpayers to ensure compliance with the applicable provisions of GST related to filing of annual returns and self-certified Form GSTR-9C. The vast experience of the four authors totaling about one hundred years in consulting, adjudicating, judging and implementation of indirect taxes would immensely help the professionals implement GST provisions and conduct of audit in an easier way while providing value to their clients/employers. The book is divided into 6 parts as follows: Part 1 - Overview of GST law and insights on good accounting practices, record maintenance and documentation to facilitate returns filing, reconciliation and professional opportunities from the perspective of GST Audit. Part 2 - Background of the Annual returns, role of professionals and a detailed clause by clause analysis with Practical FAQ's for filing the Annual Returns in Form GSTR 9. Part 3 - Background of the GST Audit, role of professionals and a detailed clause by clause analysis with practical FAQ's for filing the Reconciliation statement in Form GSTR 9C. Part 4 - Checklists, formats, ICQ's, templates and practical methodology of conducting GST Audit [verification of documents/transactions after evaluation of internal control, reconciliations with tips to mitigate demand, common errors to avoid. Part 5 - Customs Audit, year-end action points for taxpayers, other GST certifications and Departmental Audit and some useful decisions. Part 6 - Appendices containing the gist of important notifications, guidance notes, standards, forms of audit under GST, and important templates for ready reference of professionals. KEY FEATURES Includes practical tables giving Step by Step approach with internal control questionnaires, checklists, templates, Good accounting practices, review program and reconciliation statements for: -Filing annual return with checklist and enabling formats -Audit certification Detailed

analysis of reporting comments, remarks and qualifications in Part B of GSTR 9C along with exhaustive list of sample observations, remarks to be reported which would be relevant till FY 2019-20 Detailed discussion on various other key reconciliations including ITC, outward supplies, etc. Extensive list of common errors to be avoided in GST while doing preparation for audit. Coverage of key reconciliations viz., GSTR 2A to 3B, GSTR 1 to 3B, etc. Extensive discussion on professional approach to GST audit using the internal control questionnaire and sample audit program for enabling taxpayers in filing GSTR 9C form. Insights on key year-end activities & relationship between GSTR 1, GSTR 3B & GSTR 9. Covering important tools/techniques for optimization of tax, ITC, year-end actions, and some decisions in favour of taxpayers to avoid future disputes and adding value. Visit <http://bit.ly/GSTAudit> for updates and information.

## Ebc: 2021 Health Reform Update

This 2021 Health Reform Update offers a concise examination of health reform in the United States and a comprehensive look at the key components of the Affordable Care Act (ACA), the ACA under the Trump administration, and the partisan divide in relation to the ACA. It also explores all previous attempts at health reform, as well as the core rulings of multiple U.S. Supreme Court decisions related to the ACA, and key issues going forward. This 2021 update also includes information and updated material related to COVID-19 and its effect on the U.S. health care system. Classroom-tested, this update offers learning objectives, new figures and graphs, a vignette, and many discussion questions that will spark student dialogue and critical thinking. This unique analysis serves as an excellent supplement to any textbook for courses across the spectrum of the health care disciplines, including Public Health, Health Administration, Medicine, Nursing, and other Health Professions.

## Handbook on GST Audit by Tax Authorities, Second edition

Bloomsbury Publishing About the Book This book has been written with the twin goals of making the tax-payers aware about the compliances required for smooth conduct of GST audit of their business operations as well as to educate the tax auditors so as to enable them to conduct the audit in a fair, transparent and impartial way to ensure compliance of GST law as well as to prevent and plug in the leakage of revenue well in time. The book discusses the practical aspects which an auditor should concentrate on while doing GST audit and where the taxpayers need to be more careful and vigilant. The audit process has been explained from inception i.e. selection of taxpayer and intimation of conducting GST audit right upto the conclusion of the same. The knowledge of accounts is pre-requisite for the departmental officers who otherwise have diverse academic backgrounds. A separate chapter on accounting has been written not only to acquaint them with the elementary accounting process but also to provide further authentic resources to those interested in enhancing their accounting skills. The auditors must perform their duties with utmost sincerity, integrity and diligence; therefore, guidelines about overall conduct of the auditors have been included following which they will manifest the best professional ethics. Key Features · Analysis of GST Audit Process, Annual Returns (Form GSTR-9), Reconciliation Statement (GSTR-9C), Assessments under GST. · Includes GSTAM-2019 issued by CBIC with specific reference to checks to be undertaken during GST Audit. · Comprehensive guidance for conducting different types of audits under GST Act. · Includes practical tables giving Step-by-Step approach with Internal control questionnaires. · Detailed discussions on Key Reconciliation Statements including ITC, outward supplies etc. · Dedicated chapter on analysis of GST returns, giving itemized compliance requirement by the taxpayers as well as points for checks by the departmental auditors. · Explains key auditing and accounting terms relevant to GST.

## Education Leadership and the COVID-19 Crisis

Frontiers Media SA

## American Public School Finance

Routledge Designed for aspiring school leaders, this text presents the realities of school finance policy and issues, as well as the tools for formulating and managing school budgets. In an era of dwindling fiscal support for public schools, increasing federal mandates, and additional local budget requirements, educational leaders must be able to articulate sound finance theory and application. The authors move beyond coverage found in other texts by providing critical analysis and unique chapters on misconceptions about school finance; fiscal capacity, fiscal effort, adequacy, and efficiency; demographic issues; and spending and student achievement. Examining local, state, and federal education spending, this text gives readers the foundation to understand school finance and knowledgeably educate colleagues, parents, and other stakeholders about its big-picture issues, facts, and trends. The new edition of American Public School Finance will help educational leaders at all stages of their careers become informed advocates for education finance practice and reform. New in this edition: Expanded coverage on school choice Discussion of new standards and law Updated exploration of student demographics and its impact on learning Advanced pedagogical features such as connections to the latest Professional Standards for Educational Leaders (PSEL), Focus Questions, Case Studies, and Chapter Questions/Assignments Complementary electronic resources designed to deepen and extend the topics in each chapter and to provide instructors with lecture slides and other teaching strategies.

## Hot Stocks

### Investing for Impact and Profit in a Warming World

Rowman & Littlefield Publishers The world is warming, our portfolios will have to adapt, and the stocks we own can help shape our future; James Ellman shows how to invest wisely as climate change impacts multiple sectors across the stock market. The costs of global warming and its mitigation will have a major impact on equity market performance over the next two decades. As the climate changes, investors will need to understand which are the best-positioned market sectors and stocks as well as those to avoid. Hot Stocks provides a roadmap detailing how to invest in this new reality. It evaluates the many ways global warming will affect profit flows in the economy: • Impacts of a warmer climate, rising ocean levels, more frequent extreme storm events, land desertification and ocean acidification. • Potential for government taxation on greenhouse gas emissions. • Accelerating switching to renewable power systems that are increasingly cost competitive with those powered by oil fossil fuels. • Government bans on sales of cars powered by internal combustion engines and the electrification of the terrestrial vehicle fleet. • Potential for hydrocarbon reserves and equipment becoming impaired or 'stranded assets'. • Rising demand for major infrastructure projects to protect valuable coastal real estate from inundation. • Litigation aimed at forcing legacy polluters to pay mitigation costs. The book drills down on how these changes will depress or support stocks in sectors such as the petroleum industry, automakers, renewable power providers, regional banking, property insurance, heavy equipment manufacturers, Real Estate Investment Trusts (REITs) and agricultural chemicals. The analysis then pivots away from a US-centric focus to identify those nations around the world whose economies are best positioned to successfully adjust to the impact of rising prevailing temperatures, as well as those likely to suffer the most from the trend.

## War and Peace in Outer Space

### Law, Policy, and Ethics

Oxford University Press, USA "Historically, strategic restraint was the dominant approach among nations active in outer space, all of whom understood that continued access to and use of space required holding back on threats or activities which might jeopardize the status quo of peace in space. However, recently there has been a discernible shift in international rhetoric towards a more offensive approach to defense in space. The U.S. move towards establishing a "Space Force" has been echoed by similar announcements in France and Japan. India launched an anti-satellite weapon test and announced proudly that it thereby joined the elite group of China, Russia and the U.S., who have all demonstrated this capability in the past. And as technologies in space advance, along with our terrestrial dependence on space-based systems for our peaceful civilian lives and for support of terrestrial warfare, the political stability of this vulnerable environment comes under threat. These factors, combined with a lack of transparency about actual capabilities and intentions on the part of all major players in space, creates a cyclical escalation which has led some commentators to describe this as a return to a Cold War-type arms race, and to the foreseeability of a space-based conflict. Due to many unique characteristics of the space domain, an armed conflict in space would be catastrophic for all players, including neutral States, commercial actors, and international civil society. Due to the specificity of the space domain, specialized expertise must be provided to decision-makers, and interdisciplinary opinions must be sought from a multitude of stakeholders. To that end, this volume provides a wide spectrum of perspectives from experts who have engaged together at a conference hosted by the Center for Ethics in the Rule of Law to discuss these issues. Ethical, legal and policy solutions are offered here by those with experience in the space sector, including academia, legal practitioners, military lawyers and operators, diplomats and policy advisors"--

## Records and Information Management

### Fundamentals of Professional Practice

Rowman & Littlefield This is the "go to" book for newly appointed records managers, as well as experienced records and information management (RIM) professionals who want a review of specific topics. The approach here is practical rather than theoretical and emphasizes best practices and published standards.

## Secured Transactions Law Reform in Africa

Bloomsbury Publishing Over the last few decades, many countries have reformed their secured transactions law. One of the main reasons has been the clear link between reform and the availability of credit, and the drive to improve access to finance, particularly for micro, small and medium-sized enterprises. This book focuses particularly on developing economies in Africa, which have legal frameworks influenced by English, French, Belgian, Roman-Dutch and other laws. Reform in this area of law across African countries has taken a number of forms, which are explored and discussed in this book. Secured Transactions Law Reform in Africa is a mixture of a critical description of the pre-reform law and practice, and the reform process itself. It also includes a comparative analysis of the legal provisions and an examination of the early results of the reforms. The book sets out a road map for the future of secured transactions reform; primarily in Africa, but also in other countries that have undertaken or are contemplating similar reforms. This book is the second in a series of books about Secured Transactions Law in countries around the world, and its reform, both on a national and an international scale. The first book, Secured Transactions Law Reform: Principles, Policies and Practice, was published in 2016.

## The Modern Hospital

### Patients Centered, Disease Based, Research Oriented, Technology Driven

Springer The rapidly growing developments in medicine and science in the last few decades has evoked a greater need for modern institutions, with modern medicine, advanced technologies, and cutting edge research. Today, the modern hospital is a highly competitive, multibillion dollar industry that plays a large role in our healthcare systems. Far different from older institutions, modern hospitals juggle the dynamics of running a business that proves financially fruitful and sustainable, with maintaining and staying ahead of medical developments and offering the best possible patient care. This comprehensive book explores all aspects of the inner workings of a modern hospital, from research and technology driven treatment and patient centered care, to the organizational, functional, architectural, and ergonomic aspects of the business. The text is organized into three parts. The first part covers a number of important aspects of the modern hospital including hospital transformation over the centuries, the new medical world order, overall concept, academic mission and economics of new healthcare. Additionally, experts in the field address issues such as modern design functionally and creating an environment that is ergonomically friendly, technologically advanced, and easy to navigate for both worker and patient. Other topics covered include, the role of genomics and nano-technologies, controversies that come with introducing new technologies, the world-wide pharmaceutical industry, electronic medical health records, informatics, and quality of patient care. Part II addresses nine specific elements of modernization of the hospital that deal with high acuity, life and death situations, and complex medical and surgical diseases. These chapters cover the organization of new emergency departments, trauma room, hybrid operating rooms, intensive care units, radiology, pharmaceutical and nutritional support, and most essential, patient and public relation services. These nine elements reflect the most important and most visible indicators of modernization and transformation of the hospital. Part III examines and highlights the team approach as a crucial component of the transformation, as well as specific perspectives on the modern hospital from nurses, physicians, surgeons and administrators. Finally, a chapter dedicated to patient perspective is also presented. The Modern Hospital provides an all-inclusive review of the hospital industry. It will serve as a valuable resource for administrators, clinicians, surgeons, nurses, and researchers. All chapters will be written by practicing experts in their fields and include the most up-to-date scientific and clinical information.

## Education at a Glance 2021 OECD Indicators

### OECD Indicators

OECD Publishing Education at a Glance is the authoritative source for information on the state of education around the world. The 2021 edition includes a focus on equity, investigating how progress through education and the associated learning and labour market outcomes are impacted by dimensions such as gender, socio-economic status, country of birth and regional location.

## Sustainable Development Report 2020

## The Sustainable Development Goals and Covid-19 Includes the SDG Index and Dashboards

Cambridge University Press Contains insights on current issues in research on sustainable development, featuring the SDG Index and Dashboards.

## Offshore Financial Centres and the Law

## Suspect Wealth in British Overseas Territories

Routledge This book considers the ability of island jurisdictions with financial centres to meet the expectations of the international community in addressing the threats posed to themselves and others by their innocent (or otherwise) facilitation of the receipt of suspect wealth. In the global financial architecture, British Overseas Territories are of material significance. Through their inalienable right to self-determination, many developed offshore financial centres to achieve sustainable economic development. Focusing on Bermuda, Turks and Caicos, and Anguilla, the book concerns suspect wealth emanating from financial crimes including corruption, money laundering and tax evasion, as well as controversial conduct like tax avoidance. This work considers the viability of international standards on suspect wealth in the context of the territories, how willing or able they are to comply with them, and how their financial centres can better prevent receipt of suspect wealth. While universalism is desirable in the modern approach to tackling suspect wealth, a one-size-fits-all approach is inappropriate for these jurisdictions. On critically evaluating their legislative and regulatory regimes, the book advances that they demonstrate willingness to comply with international standards. However, their abilities and levels of compliance vary. In acknowledging the facilitatively harmful role the territories can play, this work draws upon evidence of implication in transnational financial crime cases. Notwithstanding this, the book questions whether the degree of criticism that these offshore jurisdictions have encountered is warranted in light of apparent willingness to engage in the enactment and administration of internationally accepted laws and cooperate with international institutions.

## Government financial reporting manual 2010-11

The Stationery Office Known as FReM. Ring binder available separately (ISBN 9780115601422). Also available with binder (ISBN 9780115601439)

## Forensic Chemistry of Substance Misuse

## A Guide to Drug Control

Royal Society of Chemistry Updating and expanding the coverage of the first Edition, this book provides a chemical background to domestic and international controls on substances of misuse. In the United Kingdom, structure-specific (generic) controls have been further developed in the past 13 years and now cover 17 groups of compounds. The focus of those controls has been on new psychoactive substances (NPS). Since 1997, over 800 NPS have been reported to the European Monitoring Centre for Drugs and Drug Addiction. International generic and analogue controls are described together with a critical review of their effectiveness. Other, established, drugs are described as well as a large group of psychoactive substances that are not scheduled by the International Conventions. This book has general appeal to those needing information on illicit drugs including forensic scientists, lawyers, law enforcement agencies, drug regulatory authorities as well as graduate and postgraduate students of chemistry and the criminal law. The chapters are supported by chemical structures, numerous tables and charts, appendices, a glossary and a bibliography. This unique book is a valuable addition to the literature in this area and will be of great assistance to those studying this topic.

## Law and Macroeconomics

### Legal Remedies to Recessions

Harvard University Press After 2008, private-sector spending took a decade to recover. Yair Listokin thinks we can respond more quickly to the next meltdown by reviving and refashioning a policy approach, used in the New Deal, to harness law's ability to function as a macroeconomic tool, stimulating or relieving demand as required under certain crisis conditions.

### TERI Energy & Environment Data Diary and Yearbook (TEDDY) 2019/20

The Energy and Resources Institute (TERI) TERI Energy & Environment Data Diary and Yearbook (TEDDY) is an annual publication brought out by TERI since 1986. It is the only comprehensive energy and environment yearbook in India that provides updated information on the energy supply sectors (coal and lignite, petroleum and natural gas, power, and renewable energy sources), energy demand sectors (agriculture, industry, transport, household, buildings), and environment (local and global). Recent changes in the energy sector and environment are depicted with the help of graphs, figures, maps, and tables. The publication also reviews government policies associated with energy and environment. TEDDY 2019/20 gives an account of India's commercial energy balances, extensively covering energy flows within different sectors of the economy and how they have been changing over time. These energy balances and conversion factors are a valuable reference for researchers, scholars, and organizations engaged in energy and related sectors. Contents of the book are organized into three sections—Energy Supply, Energy Demand, and Local and Global Environment. Interlinkage of SDGs with energy and environment also forms the subject matter of TEDDY 2019/20. The thirty fifth edition continues to remain less prose intensive with inclusion of more data, represented with the help of infographics, thus making the publication an authentic and interesting read. Key Features: • Provides a review of government policies, programmes and initiatives that have implications for the petroleum and natural gas sector and the Indian economy • New chapters on Air Pollution, Solid Waste Management, Water Resource Management, and Land and Forest Resource Management • Exhaustive data from energy supply, energy demand, and local and global environment sectors Contents: Energy and environment: an overview Energy supply: Coal and lignite • Petroleum and natural gas • Power • Renewable energy Energy demand: Agriculture • Industry • Transport • Household energy • Buildings Local and global environment: Air quality and pollution • Solid waste management • Water resource management • Land and forest resource management • Climate change Audience: Researchers and Professionals from industries, government organizations, and public sector undertakings. Research scholars from different NGOs, bilateral and multilateral institutions, and academic institutions. Shelving: Energy, Environmental Sciences and Studies, Industry (Coal and lignite, oil and gas, power, renewable energy), climate change, Agriculture sector, Transport sector, domestic sector

## Debt-Free Degree

### The Step-by-Step Guide to Getting Your Kid Through College Without Student Loans

Ramsey Press Every parent wants the best for their child. That's why they send them to college! But most parents struggle to pay for school and end up turning to student loans. That's why the majority of graduates walk away with \$35,000 in student loan debt and no clue what that debt will really cost them.1 Student loan debt doesn't open doors for young adults—it closes them. They postpone getting married and starting a family. That debt even takes away their freedom to pursue their dreams. But there is a different way. Going to college without student loans is possible! In Debt-Free Degree, Anthony O'Neal teaches parents how to get their child through school without debt, even if they haven't saved for it. He also shows parents: \*How to prepare their child for college \*Which classes to take in high school \*How and when to take the ACT and SAT \*The right way to do college visits \*How to choose a major A college education is supposed to prepare a graduate for their future, not rob them of their paycheck and freedom for decades. Debt-Free Degree shows parents how to pay cash for college and set their child up to succeed for life.
