This course will provide participants a better understanding of the issues faced in all aspects of drilling operations, with a particular focus on the unique aspects of offshore operations.

PERSPECTIVES ON TEACHER EDUCATION IN THE DIGITAL AGE

Springer Nature This book relates to the experiences and initiatives of teacher education institutions in the Southern Africa region to empower teachers to cope with teaching and learning in the digital age. The book covers the impacts of digital technologies on the teaching and learning process. Online and blended learning, digital pedagogies, the design of curricula and learning experiences to address the learning needs and profile of learners are considered in this book. Furthermore, the way in which pre- and in-service teachers learn about alternative modes of assessment will also be considered. In this regard, innovative concepts such as renewable and situated assessments, multimodal assessments, digital storytelling and e-portfolios, amongst others, were explored.

NURSING INTERVENTIONS & CLINICAL SKILLS E-BOOK

Elsevier Health Sciences Master nursing skills with this guide from the respected Perry, Potter & Ostendorf author team! The concise coverage in Nursing Interventions & Clinical Skills, 7th Edition makes it easy to learn the skills most commonly used in everyday nursing practice. Clear, step-by-step instructions cover more than 160 basic, intermediate, and advanced skills — from measuring body temperature to insertion of a peripheral intravenous device — using evidence-based concepts to improve patient safety and outcomes. A streamlined, visual approach makes the book easy to read, and an Evolve companion website enhances learning with review questions and handy checklists for each clinical skill. Coverage of more than 160 skills and interventions addresses the basic, intermediate, and advanced skills you'll use every day in practice. Safe Patient Care Alerts highlight risks or other key information to know in performing skills, so you can plan ahead at each step of nursing care. Unique! Using Evidence in Nursing Practice chapter provides the information needed to use evidence-based care to solve clinical problems. Coverage of evidence-based nursing techniques includes the concept of care bundles, structured practices that improve patient safety and outcomes, in addition to the coverage of teach-back. Delegation & Collaboration guidelines help you make decisions in whether to delegate a skill to unlicensed assistive personnel, and indicates what key information must be shared. Teach-Back step shows how to evaluate the success of patient teaching, so you can see whether the patient understands a task or topic or if additional teaching may be needed. Recording guidelines describe what should be reported and documented after performing skills, with Hand-off Reporting sections listing important patient care information to include in the handoff. Special Considerations indicate the additional risks or accommodations you may face when caring for pediatric or geriatric patients, as well as patients in home care settings. A consistent format for nursing skills makes it easier

to perform skills, organized by Assessment, Planning, Implementation, and Evaluation. Media resources include skills performance checklists on the Evolve companion website and related lessons, videos, and interactive exercises on Nursing Skills Online. NEW! 2017 Infusion Nurses Society standards are included on administering IVs and on other changes in evidence-based practice. NEW Disaster Preparedness chapter focuses on caring for patients after biological, chemical, or radiation exposure. NEW! SBAR samples show how to quickly and effectively communicate a patient's condition in terms of Situation, Background, Assessment, and Recommendation. NEW! Practice Reflections sections include a clinical scenario and questions, helping you reflect on clinical and simulation experiences. NEW! Three Master Debriefs help you develop a better understanding of the "big picture" by synthesizing skill performance with overall patient care.

BUILDING COMMUNITIES OF ENGAGED READERS

READING FOR PLEASURE

Routledge Reading for pleasure urgently requires a higher profile to raise attainment and increase children's engagement as self-motivated and socially interactive readers. Building Communities of Engaged Readers highlights the concept of 'Reading Teachers' who are not only knowledgeable about texts for children, but are aware of their own reading identities and prepared to share their enthusiasm and understanding of what being a reader means. Sharing the processes of reading with young readers is an innovative approach to developing new generations of readers. Examining the interplay between the 'will and the skill' to read, the book distinctively details a reading for pleasure pedagogy and demonstrates that reader engagement is strongly influenced by relationships between children, teachers, families and communities. Importantly it provides compelling evidence that reciprocal reading communities in school encompass: a shared concept of what it means to be a reader in the 21st century; considerable teacher and child knowledge of children's literature and other texts; pedagogic practices which acknowledge and develop diverse reader identities; spontaneous 'inside-text talk' on the part of all members; a shift in the focus of control and new social spaces that encourage choice and children's rights as readers. Written by experts in the literacy field and illustrated throughout with examples from the project schools, it is essential reading for all those concerned with improving young people's enjoyment of and attainment in reading.

ENVIRONMENTAL ENRICHMENT: ENHANCING NEURAL PLASTICITY, RESILIENCE, AND REPAIR

Frontiers Media SA The collection of articles in this eBook focuses on important issues related to environmental enrichment including standardization, neurobehavioral and physiological effects across the age axis, neuroprotection and plasticity, and implications for translation. Evaluation of key parameters and issues related to standardization is important for promoting species-typical behavior and broader adaptation and translation to clinical settings. Furthermore, understanding seminal mechanisms contributing to the effects of environmental enrichment in both biological sexes is also important for the application of this housing condition to preclinical models of neurological and psychiatric disorders. Taken together, this body of work points to the relevance of enriched housing environments in laboratory practice and the potential for translation to clinical populations.

TOPICS FROM AUSTRALIAN CONFERENCES ON TEACHING STATISTICS

OZCOTS 2008-2012

Springer The first OZCOTS conference in 1998 was inspired by papers contributed by Australians to the 5th International Conference on Teaching Statistics. In 2008, as part of the program of one of the first National Senior Teaching Fellowships, the 6th OZCOTS was held in conjunction with the Australian Statistical Conference, with Fellowship keynotes and contributed papers, optional refereeing and proceedings. This venture was so successful that the 7th and 8th OZCOTS were similarly run, conjoined with Australian Statistical Conferences in 2010 and 2012. Authors of papers from these OZCOTS conferences were invited to develop chapters for refereeing and inclusion in this volume. There are sections on keynote topics, undergraduate curriculum and learning, professional development, postgraduate learning, and papers from OZCOTS 2012. Because OZCOTS aim to unite statisticians and statistics educators, the approaches this volume takes are immediately relevant to all who have a vested interest in good teaching practices. Globally, statistics as a discipline, statistical pedagogy and statistics in academia and industry are all critically important to the modern information society. This volume addresses these roles within the wider society as well as questions that are specific to the discipline itself. Other chapters share research on learning and teaching statistics in interdisciplinary work and student preparation for futures in academia, government and industry.

MEDINFO 2019: HEALTH AND WELLBEING E-NETWORKS FOR ALL

PROCEEDINGS OF THE 17TH WORLD CONGRESS ON MEDICAL AND HEALTH INFORMATICS

IOS Press Combining and integrating cross-institutional data remains a challenge for both researchers and those involved in patient care. Patient-generated data can contribute precious information to healthcare professionals by enabling monitoring under normal life conditions and also helping patients play a more active role in their own care. This book presents the proceedings of MEDINFO 2019, the 17th World Congress on Medical and Health Informatics, held in Lyon, France, from 25 to 30 August 2019. The theme of this year's conference was 'Health and Wellbeing: E-Networks for All', stressing the increasing importance of networks in healthcare on the one hand, and the patient-centered perspective on the other. Over 1100 manuscripts were submitted to the conference and, after a thorough review process by at least three reviewers and assessment by a scientific program committee member, 285 papers and 296 posters were accepted, together with 47 podium abstracts, 7 demonstrations, 45 panels, 21 workshops and 9 tutorials. All accepted paper and poster contributions are included in these proceedings. The papers are grouped under four thematic tracks: interpreting health and biomedical data, supporting care delivery, enabling precision medicine and public health, and the human element in medical informatics. The posters are divided into the same four groups. The book presents an overview of state-of-the-art informatics projects from multiple regions of the world; it will be of interest to anyone working in the field of medical informatics.

AAUSC 2016 VOLUME - ISSUES IN LANGUAGE PROGRAM DIRECTION: THE INTERCONNECTED LANGUAGE CURRICULUM: CRITICAL TRANSITIONS AND INTERFACES IN ARTICULATED K-16 CONTEXTS

Cengage Learning Many foreign language departments have developed innovative curricula with the goal of overcoming two-tiered structures that often separate language instruction at the lower levels from upper division content coursework. However, language departments rarely extend their articulation efforts to include pre-collegiate experiences even though recent educational reforms have significantly altered not only the skill sets, but also needs and expectations of students entering college. In addition to attending to vertical interfaces, successful language curricula integrate horizontally with academic and professional units outside the language department. This volume furthers the existing knowledge base on the collegiate foreign language curriculum by providing a K-20 perspective on the achievement of curricular coherence. It is intended for a broad audience, but in particular language program directors, to help them address the critical transitions that language learners face during their progression from public schools through undergraduate programs and into graduate education. RESEARCH HANDBOOK ON INNOVATION GOVERNANCE FOR EMERGING ECONOMIES

TOWARDS BETTER MODELS

Edward Elgar Publishing Although in recent years some emerging economies have improved their performance in terms of R&D investment, outputs and innovative capacity, these countries are still blighted by extreme poverty, inequality and social exclusion. Hence, emerging countries are exposed to conditions which differ quite substantially from the dominant OECD model of innovation policy for development and welfare. This Research Handbook contributes to the debate by looking at how innovation theory, policy and practice interact, and explains different types of configurations in countries that are characterized by two contrasting but mutually reinforcing features: systemic failure and resourcefulness. Focusing on innovation governance and public policies, it aims to understand related governance failures and to explore options for alternative, more efficient approaches.

THE ENCYCLOPEDIA OF MIDDLE GRADES EDUCATION (2ND ED.)

IAP The second edition of The Encyclopedia of Middle Grades Education has been revised, updated, and expanded since its original publication in 2005. The Encyclopedia is a comprehensive overview of the field; it contains alphabetically organized entries that address important concepts, ideas, terms, people, organizations, publications, and research studies specifically related to middle grades education. This edition contains over 210 entries from nearly 160 expert contributors, this is a 25% increase in the number of entries over the first edition. The Encyclopedia is aimed at a general audience including undergraduate students in middle-level teacher preparation programs, graduate students, higher education faculty, and practitioners and administrators. The comprehensive list of entries are comprised of both short entries (500 words) and longer entries (2000 words). A significant number of entries appearing in the first edition have been revised and updated. Citations and references are provided for each entry.
