Elephant Man

Grove/Atlantic, Inc. **“An enthralling and luminous play” about the nineteenth-century man whose physical deformity doomed him to the life of an outcast: “haunting [and] splendid” (The New York Times). The Elephant Man is based on the life of John Merrick, who lived in London during the latter part of the nineteenth century. A horribly deformed young man, a freak attraction in traveling side shows, is found abandoned and helpless and is admitted for observation to Whitechapel, a prestigious London hospital. Under the care of a famous young doctor who educates him and introduces him to London society, Merrick changes from a sensational object of pity to the urbane and witty favorite of the aristocracy and literati. But his belief that he can become a man like any other is a dream**

never to be realized. After premiering in London, *The Elephant Man* went on to Broadway where it won the Tony for Best Play in 1979. It was later revived in a Broadway production starring Bradley Cooper. “*The Elephant Man* is a moving drama. Lofted on poetic wings, it nests on the human heart.” —Time Magazine

The State of the World’s Forests 2020

Forests, biodiversity and people

Food & Agriculture Org. **As the United Nations Decade on Biodiversity 2011-2020 comes to a close and countries prepare to adopt a post-2020 global biodiversity framework, this edition of *The State of the World’s Forests (SOFO)* examines the contributions of forests, and of the people who use and manage them, to the conservation and sustainable use of biodiversity. Forests cover just over 30 percent of the global land area, yet they provide habitat for the vast majority of the terrestrial plant and animal species known to science. Unfortunately, forests and the biodiversity they contain continue to be under threat from actions to convert the land to agriculture or unsustainable levels of exploitation, much of it illegal. *The State of the World’s Forests 2020* assesses progress to date in meeting global targets and goals related to forest biodiversity and examines the effectiveness of policies, actions and approaches, in terms of both conservation and sustainable development outcomes. A series of case studies provide examples of innovative practices that combine conservation and sustainable use of forest biodiversity to create balanced solutions for both people and the planet.**

Swahili for the Broken-hearted

Cape Town to Cairo by Any Means Possible

Random House **A week after breaking up with the girl next door - his girlfriend and travelling companion through Central America - Peter Moore heads off to Africa to lose himself for a while. In the grand tradition of 19th-century scoundrels, explorers and romantics, Africa strikes him as the ideal place to find solitude and anonymity in the face of a personal crisis.**

Sound Reproduction

The Acoustics and Psychoacoustics of Loudspeakers and Rooms

Routledge **Sound Reproduction: The Acoustics and Psychoacoustics of Loudspeakers and Rooms, Third Edition** explains the physical and perceptual processes that are involved in sound reproduction and demonstrates how to use the processes to create high-quality listening experiences in stereo and multichannel formats. Understanding the principles of sound production is necessary to achieve the goals of sound reproduction in spaces ranging from recording control rooms and home listening rooms to large cinemas. This revision brings new science-based perspectives on the performance of loudspeakers, room acoustics, measurements and equalization, all of which need to be appropriately used to ensure the accurate delivery of music and movie sound tracks from creators to listeners. The robust website (www.routledge.com/cw/toole) is the perfect companion to this necessary resource.

Sound & Vision

Phantom Formations

Aesthetic Ideology and the "Bildungsroman"

Cornell University Press **Marc Redfield** maintains that the literary genre of the *Bildungsroman* brings into sharp focus the contradictions of aesthetics, and also that aesthetics exemplifies what is called ideology. He combines a wide-ranging account of the history and theory of aesthetics with close readings of novels by Goethe, George Eliot, and Gustave Flaubert. For Redfield, these fictions of character formation demonstrate the paradoxical relation between aesthetics and literature: the notion of the *Bildungsroman* may be expanded to apply to any text that can be figured as a subject producing itself in history, which is to say any text whatsoever. At the same time, the category may be contracted to include only a handful of novels, (or even none at all), a paradox that has led critics to denigrate the *Bildungsroman* as a phantom genre.

Bound by Distance

Rethinking Nationalism Through the Italian Diaspora

Fairleigh Dickinson Univ Press **Bound by Distance** takes its place among a growing body of scholarship the goal of which is to challenge the kind of thinking that reproduces the "West" as a stable and homogenous political and discursive entity. The Italian nation, with its peculiar process of formation, the continuous tensions between its own northern and southern regions, and its history of emigration, provides an important case for complicating and reassessing concepts of national, racial, economic, and cultural dominance. The author analyzes the interactive space of the history of Italian state formation, Italian subaltern literature, Italian emigrant writing, and the current situation of North African and Asian immigrants to Italy, in order to contest the "feigned homogeneity" of the Italian nation and to complicate and reassess concepts of national, racial, economic, and cultural dominance.

Searching for Peace

The Road to Transcend

Pluto Press (UK) Annotation Drawing on the Transcend approach to peace making, **Searching for Peace** provides a comprehensive guide to conflict resolution. The TRANSCEND method, now used by the UN as a guide to future conflict resolution approaches, applies to all conflict constellations. It has been used in Northern Ireland; Kashmir; Korea; the Gulf conflict; Ecuador and Peru; Kosovo; Guatemala and Honduras; and China and Tibet. **Searching for Peace** provides a wide ranging survey of past and present approaches to violent conflict prevention, and includes detailed analysis of over forty conflicts as case studies. It critiques the failures of recent peacekeeping and peacemaking efforts while presenting the multi-decade research and arguments that underlie the Transcend approach. Aiming to include all participants in the peace dialogue, TRANSCEND offers hopeful prescriptions for the future.

Bob Moore

No Hero

Super powered humans started appearing 30 years ago. Now, they are everywhere. Bob Moore, *Private Eye*, dares to investigate those who could incinerate him with a thought. When he is called to help a super from his past, however, he'll be pushed to his limit. When supers and the police think there is no crime, can he get to the truth? Will he want to for the man that destroyed his marriage?

Attract Mode: The Rise and Fall of

Coin-Op Arcade Games

Steel Gear Press From their haunts in the shadowy corner of a bar, front and center at a convenience store, or reigning over a massive mall installation bursting with light, sound, and action, arcade games have been thrilling and addicting quarter-bearers of all ages ever since Pong first lit up its paddles. Whether you wanted a few minutes' quick-twitch exhilaration or the taste of three-initial immortality that came with topping the high score screen, you could get it from the diverse range of space shooters, dot-eating extravaganzas, quirky beat-'em-ups, and more that have helped define pop culture for more than four decades. In *Attract Mode: The Rise and Fall of Coin-Op Arcade Games*, author Jamie Lendino celebrates both the biggest blockbusters (Pac-Man, Star Wars: The Arcade Game) and the forgotten gems (Phoenix, Star Castle) of the Golden Age of coin-op gaming, and pulls back the curtain on the personalities and the groundbreaking technologies that brought them to glitzy, color-drenched life in the U.S., Japan, and all over the world. You'll start your journey exploring the electromechanical attractions and pinball games of the early 20th century. Next, you'll meet the earliest innovators, who used college computers and untested electronics to outline the possibilities of the emerging form, and discover the surprising history behind the towering megahits from Nintendo, Sega, and others that still inform gaming today. Then you'll witness the devastating crash that almost ended it all—and the rebirth no one expected. Whether you prefer the white-knuckle gameplay of *Robotron: 2084*, the barrel-jumping whimsy of *Donkey Kong*, or the stunning graphics and animation of *Dragon's Lair*, *Attract Mode* will transport you back to the heyday of arcade games and let you relive—or experience for the first time—the unique magic that transformed entertainment forever.

The Diversity of Sacred Lands in Europe

Proceedings of the Third Workshop

of the Delos Initiative, Inari/Aanaar 2010

World Conservation Union **The Delos Initiative focuses on the sacred natural sites in developed countries throughout the world (such as Australia, Canada, the European countries, Japan, New Zealand and the United States of America). Its main purpose is to help in maintaining both the sanctity and the biodiversity of these sites, through the understanding of the complex relationship between spiritual/cultural and natural values.**

Bad Science

Quacks, Hacks, and Big Pharma Flacks

Emblem Editions **The informative and witty expose of the "bad science" we are all subjected to, called "one of the essential reads of the year" by New Scientist. We are obsessed with our health. And yet -- from the media's "world-expert microbiologist" with a mail-order Ph.D. in his garden shed laboratory, and via multiple health scares and miracle cures -- we are constantly bombarded with inaccurate, contradictory, and sometimes even misleading information. Until now. Ben Goldacre masterfully dismantles the questionable science behind some of the great drug trials, court cases, and missed opportunities of our time, but he also goes further: out of the bullshit, he shows us the fascinating story of how we know what we know, and gives us the tools to uncover bad science for ourselves. From the Hardcover edition.**

Library of Alexandria

The Debate over Corporate Social Responsibility

Oxford University Press **Should business strive to be socially responsible, and if so, how? The Debate over Corporate Social Responsibility updates and broadens the discussion of these questions by bringing together in one**

volume a variety of practical and theoretical perspectives on corporate social responsibility. It is perhaps the single most comprehensive volume available on the question of just how "social" business ought to be. The volume includes contributions from the fields of communication, business, law, sociology, political science, economics, accounting, and environmental studies. Moreover, it draws from experiences and examples from around the world, including but not limited to recent corporate scandals and controversies in the U.S. and Europe. A number of the chapters examine closely the basic assumptions underlying the philosophy of socially responsible business. Other chapters speak to the practical challenges and possibilities for corporate social responsibility in the twenty-first century. One of the most distinctive features of the book is its coverage of the very ways that the issue of corporate social responsibility has been defined, shaped, and discussed in the past four decades. That is, the editors and many of the authors are attuned to the persuasive strategies and formulations used to talk about socially responsible business, and demonstrate why the talk matters. For example, the book offers a careful analysis of how certain values have become associated with the business enterprise and how particular economic and political positions have been established by and for business. This book will be of great interest to scholars, business leaders, graduate students, and others interested in the contours of the debate over what role large-scale corporate commerce should take in the future of the industrialized world.

Triumph on the Western Front

Diary of a Despatch Rider with the ANZACs 1915-1919

Triumph on the Western Front **Oswald Harcourt Davis was a despatch motorcycle rider during World War 1. This item contains his own words written as a diary during his years on the Western Front. Oswald joined the Royal Engineers in 1916 and arrived in Abbeville, Somme, France, in July that year. He was attached to the ANZACs and rode a Triumph motorcycle to carry pigeons at a time when communications were limited and risky.**

Power and State Formation in West Africa

Appolonia from the Sixteenth to the Eighteenth Century

Palgrave Macmillan **This study looks at the political and social history of the Gold Coast in West Africa from the early sixteenth century to the second half of the eighteenth. It mainly focuses on the western extreme of the Gold Coast, the region known as Nzema, which today has been divided between Ghana and the Ivory Coast. In linguistic, cultural, historical, and political terms, Nzema is part of the Akan world, a larger formation of societies sharing many common elements. The book examines the logic behind the manner in which political entities in Nzema were structured territorially, as well as the formation of ruling groups and aspects of their political, economic, and military actions, while placing all these in the wider regional context. The object is to give historical substance to the shift from a politically fragmented situation to the territorially and institutionally unified Kingdom of Appolonia, marked by a considerable concentration of power in the hands of a select few, who controlled the institutions and trade with Europe.**

Arise Ye Starvelings

The Jamaican Labour Rebellion of 1938 and its Aftermath

Springer Science & Business Media

Typhoons in Micronesia

A History of Tropical Cyclones and Their Effects Until 1914

The Oxford Handbook of the Ethiopian Economy

Oxford University Press **From a war-torn and famine-plagued country at the beginning of the 1990s, Ethiopia is today emerging as one of the fastest-growing economies in Africa. Growth in Ethiopia has surpassed that of every other sub-Saharan country over the past decade and is forecast by**

the International Monetary Fund to exceed 8 percent over the next two years. The government has set its eyes on transforming the country into a middle-income country by 2025, and into a leading manufacturing hub in Africa. The Oxford Handbook of the Ethiopian Economy studies this country's unique model of development, where the state plays a central role, and where a successful industrialization drive has challenged the long-held erroneous assumption that industrial policy will never work in poor African countries. While much of the volume is focused on post-1991 economic development policy and strategy, the analysis is set against the background of the long history of Ethiopia, and more specifically on the Imperial period that ended in 1974, the socialist development experiment of the Derg regime between 1974 and 1991, and the policies and strategies of the current EPRDF government that assumed power in 1991. Including a range of contributions from both academic and professional standpoints, this volume is a key reference work on the economy of Ethiopia.

The Hill of Fire

Biography of Suzanne Alexandra Curtil Sen, a French doctor who went to India, Ceylon, and Tibet to become a Buddhist priestess.

Advances in Computer Science and Ubiquitous Computing

CSA & CUTE

Springer This book presents the combined proceedings of the 7th International Conference on Computer Science and its Applications (CSA-15) and the International Conference on Ubiquitous Information Technologies and Applications (CUTE 2015), both held in Cebu, Philippines, December 15 - 17, 2015. The aim of these two meetings was to promote discussion and interaction among academics, researchers and professionals in the field of computer science covering topics including mobile computing, security and trust management, multimedia systems and devices, networks and communications, databases and data mining, and ubiquitous computing technologies such as ubiquitous communication and networking, ubiquitous software technology, ubiquitous systems and applications, security and privacy. These proceedings reflect the state-of-the-art in the development of computational methods, numerical simulations, error and uncertainty analysis and novel applications of new processing techniques in engineering, science, and other disciplines related to computer science.

The Horse Whisperer

A Novel

Dell #1 NEW YORK TIMES BESTSELLER • “A compelling portrait of three people who love each other but can't break through the self-created walls that keep them apart.”—Chicago Sun-Times His name is Tom Booker. His voice can calm wild horses, his touch can heal broken spirits. And Annie Graves has traveled across a continent to the Booker ranch in Montana, desperate to heal her injured daughter, the girl's savage horse, and her own wounded heart. She comes for hope. She comes for her child. And beneath the wide Montana sky, she comes to him for what no one else can give her: a reason to believe. Praise for The Horse Whisperer “Compelling . . . a real page-turner.”—San Francisco Chronicle “Fascinating . . . moving . . . a big, engrossing book [with] an unexpected ending that surprises mightily.”—Los Angeles Times “Brilliance pervades this five-hankerchief weepie.”—The Times (London) “Outstanding . . . a book of rare power and beauty.”—Booklist

CJKV Information Processing

"O'Reilly Media, Inc." The completely revised edition of "Understanding Japanese Information Processing" supplements each chapter with details about how Chinese, Korean, and Vietnamese scripts are processed on computer systems. New information, such as how these scripts impact contemporary Internet resources (such as the WWW and Adobe Acrobat) is provided.
