DATA AND RESEARCH ON HUMAN TRAFFICKING

A GLOBAL SURVEY

United Nations Publications **During the last decade there has been a considerable increase in the number of studies about human trafficking. This review of research and data on trafficking shows that despite the growing literature on trafficking around the world, relatively few studies are based on extensive or empirical research, and information on the actual numbers of people trafficked remains very sketchy. The book, which includes 9 regional chapters, and 3 chapters dealing with methodological issues, suggests a number of ways in which to enhance research and data on human trafficking. These papers were first discussed at an international conference sponsored by the Italian Government, held in Rome in May 2004.**

MORGAN AND ME

Heritage Builders **On the northern slope of the island of Serendipity is a small, wonderful kingdom called the Land of Later. In this kingdom there lived a young, beautiful princess who everyone simply called Princess. The castle was governed by the king's simple rules. One of those rules was that when you woke in the morning, you cleaned your room and made your bed. Princess hated rules. Most of all, she hated doing anything at any time unless it was much, much later. This morning, as on others, she awoke, got dressed, and went outside and took a walk instead of cleaning her room. Princess walked into the forest near the castle. "I should start back before I get lost," she whispered to a bunny on the path. Then she laughed, "I will go back but just, just a little later!" It was on the journey that Princess met a unicorn called Morgan. And it was on this journey, with the help of Morgan, that she learned that doing things now is always much better than later.**

She thinks she might be an ant and merrily joins them in their chores. She picked up a large crumb of bread in her mouth and got in line with the other ants. Sadly, she got stuck in the entrance of the ant nest. She definitely was not an ant. She tried to be a bee and fluttered about sipping the nectar from the flowers in the garden. Her mouth full, she flew back to the beehive. Unfortunately, with a simple gulp she swallowed all of the nectar, and then accidentally leaped into the center of the honeycomb. She definitely was not a bee. She did a bit of this and a bit of that, but nowhere could she find where she belonged. Through a series of magical misadventures, she discovered that she is most special just being who she is.**

BUTTERMILK

Heritage Builders **The Island of Serendipity is a land filled with magical delights, but sometimes when sunlight dims and surrenders to the night, things take on a mystery that is hard to explain. No less imaginative and no less afraid was a little bunny called Buttermilk. She had played with her friends in a far-away meadow only to discover that the sun was setting low. Buttermilk hurriedly hopped for home and all would have been good save for a bear that suddenly appeared just off the path. Scared nearly out of her wits, she raced quickly up the path. What had been such a pretty path in the noonday sun was now a nightmare of monstrous proportions. Finally, Buttermilk dashed down the hallway and leaped into bed pulling the covers over her head. She would have been hiding there to this very day if her father hadn't shown her fears in the bright light of day when shadows are asleep.**

SNIFFLES

[Heritage Builders](#) In the southern extremes on the island of Serendipity was a magical desert of silver sand. In the desert lived wonderful creatures—camels with humps and wart hogs with bumps. Of special delight was an ostrich called Sniffles. Sniffles loved to run with the other ostriches, but more than running she loved to tell stories. The stories she told were little stories filled with big exaggerations. If she came upon a single purpled pansy in the dunes she would count it once, then twice, then thrice. Soon a single flower became a veritable meadow filled with purpled pansies. Her stories had become so filled with exaggerations that the truth was often lost in the telling of the story. And then, one day she really did experience a fantastical adventure. She tried to tell the story without lies or exaggeration, but none of the animals in the desert believed a single word that Sniffles said.

THE MUFFIN DRAGON

[Heritage Builders](#) In a far corner of the Island of Serendipity stood the poorest of poor castles. Everything was poor including the villagers who lived inside. No matter how poor, the villagers took the greatest of pride in the baking and selling of muffins Every morning, villagers loaded them onto their only wagon and went from village to village selling all the muffins. One day there appeared at the castle a great and monstrous dragon—a muffin-munching dragon. With crumbs still on his face from the muffins he'd eaten at the last castle he'd visited, the dragon came waddling down the hill, right up to the drawbridge. From the smell of things, this was a perfect place for a muffin-munching dragon to live. From that day forward, he ate all of the muffins. With no muffins to sell, the castle folk had no money to buy supplies to bake more muffins. All would have ended here had they not all learned to work together. A delightful tale about simple economics.
