#### A MEMOIR OF PRISON, FAMILY AND PHILOSOPHY

---

*Pan Macmillan* 'An authentic, fascinating and deeply moving story about the different ways people search for freedom.' **TERRY WAITE** 'Andy West's tense and intimate book is an education - a completely unsentimental and, for that reason, a compassionate and moving one.' **GEOFF DYER** Andy West teaches philosophy in prisons. He has conversations with people inside about their lives, discusses their ideas and feelings and listens as the men and women he works with explore new ways to think about their situation. Could we ever be good if we never felt shame? What makes a person worthy of forgiveness? Could someone in prison ever be more free than someone outside? These questions about how to live are ones we all need to ask, but in this setting they are even more urgent. When Andy steps into jail, he also confronts his inherited guilt: his father, uncle and brother all spent time in prison. He has built a different life for himself, but he still fears that their fate will be his. As he discusses questions of truth, identity and hope with his students, he searches for his own form of freedom. Moving, sympathetic, wise and frequently funny, *The Life Inside* is an elegantly written and unforgettable book. Through its blend of memoir, storytelling and gentle philosophical questioning, readers will gain a new insight into our justice system, our prisons and the plurality of lives found inside.

#### O'DONOVAN ROSSA'S PRISON LIFE

---

---

#### SIX YEARS IN SIX ENGLISH PRISONS

---

Jeremiah O'Donovan Rossa (1831-1915) was an Irish Fenian leader. In 1865, he was charged with plotting a Fenian uprising, put on trial for high treason and sentenced to penal servitude for life. He served his time in Pentonville, Portland, and Chatham prisons, among others. He was finally released on the understanding that he would not return to Ireland and moved to the United States in 1870. His tale of famine, leek porridge, tight irons, taking an airing in the exercise yard, and working in the quarries is a disturbing portrayal of another age, regardless of one's political point of view. Press opinions at rear, along with advertising for the author's own hotel.

#### PRISON LIFE IN VICTORIAN ENGLAND

---

*The History Press* It is a commonly held assumption that all Victorian prisons were grim, abhorrent places, loathed by their inmates. This is undoubtedly an accurate description of many English prisons in the nineteenth century. However, because of the way in which prisons were run, there were two distinct types: convict prisons and local prisons. While convict prisons attempted to reform their inmates, local prisons acted as a deterrent. This meant that standards of accommodation and sanitation were lower than in convict prisons and treatment, particularly in terms of the hard labour prisoners were expected to undertake, was often more severe. Whichever type of prison they were sent to, for many prisoners and convicts from the poorest classes, prison life compared favourably with their own miserable existence at home.

#### WHY LIFE BEHIND BARS VARIES AROUND THE WORLD

---

*Oxford University Press, USA* Many people think prisons are all the same-rows of cells filled with violent men who officials rule with an iron fist. Yet, life behind bars varies in incredible ways. In some facilities, prison officials govern with care and attention to prisoners' needs. In others, officials have remarkably little influence on the everyday life of prisoners, sometimes not even providing necessities like food and clean water. Why does prison social order around the world look so remarkably different? In *The Puzzle of Prison Order*, David Skarbek develops a theory of why prisons and prison life vary so much. He finds that how they're governed-sometimes by the state, and sometimes by the prisoners-matters the most. He investigates life in a wide array of prisons-in Brazil, Bolivia, Norway, a prisoner of war camp, England and Wales, women's prisons in California, and a gay and transgender housing unit in the Los Angeles County

Jail-to understand the hierarchy of life on the inside. Drawing on economics and a vast empirical literature on legal systems, Skarbek offers a framework to not only understand why life on the inside varies in such fascinating and novel ways, but also how social order evolves and takes root behind bars.

## **VICTORIAN PRISON LIVES**

---

*Random House* **Victorian Prison Lives** is the first account of the process of imprisonment in England between 1830 and 1914 to be drawn largely from the writings of prisoners themselves. The period was in some ways one of great change, beginning with an astonishing penitentiary experiment when prisons were seen as moral hospitals. But this approach eventually gave way to the idea of penal servitude and created a legacy of harshness and suffering still preserved in the reputations of Portland Chatham and Dartmoor. It was only towards the end of the period that the concept of modern prison administration began to emerge. But while statutory changes were taking place there was an underlying continuity. This is examined in a series of chapters on every aspect of prison life - from admission procedure, fellow prisoners and the nature of hard labour, diet and discipline to the process of release, which for a long-term prisoner could be as daunting as entry into prison.

## **THE CAGE OF DAYS**

---

---

### **TIME AND TEMPORAL EXPERIENCE IN PRISON**

---

*Columbia University Press* **Prisons operate according to the clockwork logic of our criminal justice system: we punish people by making them "serve" time. The Cage of Days** combines the perspectives of K. C. Carceral, a formerly incarcerated convict criminologist, and Michael G. Flaherty, a sociologist who studies temporal experience. Drawing from Carceral's field notes, his interviews with fellow inmates, and convict memoirs, this book reveals what time does to prisoners and what prisoners do to time. Carceral and Flaherty consider the connection between the subjective dimensions of time and the existential circumstances of imprisonment. Convicts find that their experience of time has become deeply distorted by the rhythm and routines of prison and by how authorities ensure that an inmate's time is under their control. They become obsessed with the passage of time and preoccupied with regaining temporal autonomy, creating elaborate strategies for modifying their perception of time. To escape the feeling that their lives lack forward momentum, prisoners devise distinctive ways to mark the passage of time, but these tactics can backfire by intensifying their awareness of temporality. Providing rich and nuanced analysis grounded in the distinctive voices of diverse prisoners, *The Cage of Days* examines how prisons regulate time and how prisoners resist the temporal regime.

## **LIFE IN PRISON**

---

*Chronicle Books* "The true stories I've written in this book are my living nightmares. My greatest hope is that the lessons the stories offer will help you make better choices than I did." Stanley "Tookie" Williams, cofounder of the notorious Crips gang, is a death-row inmate. But in his two decades of incarceration, Williams has also become a respected author and activist whose dedication to ending gang warfare in the lives of inner-city children has earned him a 2001 Nobel Peace Prize nomination. In this award-winning book which has drawn praise from educators, government leaders, and families alike Williams describes the brutal reality of being an inmate. He debunks myths of prisons as "gladiator schools" with blunt, riveting stories of overwhelming homesickness, the terror of solitary confinement, and the humiliation of strip-searches. Williams' words are a frank challenge to adolescent readers to educate themselves, make intelligent decisions, and above all, not to follow in his footsteps.

## **A BEGINNERS GUIDE**

---

*Waterside Press* **Winner of a Koestler Platinum Award (judged by author and comedian Will Self). As Frankie Owens writes in The Little Book of Prison (LBP), "Society wants to know about prison life, an interesting place to visit but you wouldn't want to live there". An easy-to-read prison survival guide of do's and don'ts. Perfect for anyone facing trial for an offence that may lead to imprisonment, their families and friends. Packed with humour as well as more serious**

items. Backed by prisoner support organizations. Straightforward and highly entertaining. Frankie started writing the LBP from day two of entering prison as a first-time offender. He had no idea how the system or a prison worked. He was clueless about it all and it was hard for him going in and frightening for the family and loved ones he left behind. The writing began as self-help and as the days progressed it occurred to Frankie that the LBP would prove useful to first-time offenders as well as other prisoners and help them get through what is surely one of the most difficult times in their lives. It also motivated him to get out on the prison wing and find out as much as possible about his new home. There are a lot of books about people in prison, people in far worse places than Frankie was and on far longer sentences. But the LBP is a book about prison not people, and will help new inmates, their friends and families get to know what to expect from the system. The LBP is a masterpiece in comic writing but somehow gets through to people with serious information in a way that more formal texts cannot. Already organizations connected to the criminal justice system are beginning to acknowledge that Frankie Owens's LBP is an ideal read for people facing the trauma of a first prison sentence. It will also be of considerable interest to other prisoners or people working in a custodial setting. "If people want to know what prison is like it's for them, if people need to know what happens in prison it's definitely for them". Reviews 'Our awards judges don't give a Platinum Award lightly, and this book is a winner on more than one level. It is a practical and totally frank introduction to real life in the British prison system - probably the best introduction there is. But it is also a wonderfully human narrative and a sharply argued critique - the wit and wisdom of one inmate who turns out to be a born writer. I was gripped from start to finish - roared with laughter one minute, winced with pain the next, and was left wondering why we have prisons at all': Tim Robertson, Chief Executive, The Koestler Trust 'Absolutely hilarious, I'm not sure it'll ever be standard prison issue but maybe it should be! Packed full of witty and wry observations and some extremely pertinent advice. It is well-structured, easy to read and informative. I hope he continues writing as The Little Book of Prison is something that the general public would love to read as well as a guide book for other prisoners': Koestler Award Judges As featured in The Guardian; in leading prison newspaper Inside Time; in Church Times; on BBC Radio; and around the web, including RSA, The Huffington Post, Sabotage Times. Author Frankie Owens was prisoner A1443CA at Her Majesty's pleasure until 2 August 2011. If he had been given the information gathered in LBP, he thinks that the first weeks inside would have been better and the learning curve not as steep.

## THE GROWTH OF INCARCERATION IN THE UNITED STATES

---

---

## EXPLORING CAUSES AND CONSEQUENCES

---

*National Academies Press* After decades of stability from the 1920s to the early 1970s, the rate of imprisonment in the United States has increased fivefold during the last four decades. The U.S. penal population of 2.2 million adults is by far the largest in the world. Just under one-quarter of the world's prisoners are held in American prisons. The U.S. rate of incarceration, with nearly 1 out of every 100 adults in prison or jail, is 5 to 10 times higher than the rates in Western Europe and other democracies. The U.S. prison population is largely drawn from the most disadvantaged part of the nation's population: mostly men under age 40, disproportionately minority, and poorly educated. Prisoners often carry additional deficits of drug and alcohol addictions, mental and physical illnesses, and lack of work preparation or experience. The growth of incarceration in the United States during four decades has prompted numerous critiques and a growing body of scientific knowledge about what prompted the rise and what its consequences have been for the people imprisoned, their families and communities, and for U.S. society. The Growth of Incarceration in the United States examines research and analysis of the dramatic rise of incarceration rates and its affects. This study makes the case that the United States has gone far past the point where the numbers of people in prison can be justified by social benefits and has reached a level where these high rates of incarceration themselves constitute a source of injustice and social harm. The Growth of Incarceration in the United States examines policy changes that created an increasingly punitive political climate and offers specific policy advice in sentencing policy, prison policy, and social policy. The report also identifies important research questions that must be answered to provide a firmer basis for policy. This report is a call for change in the way society views criminals, punishment, and prison. This landmark study assesses the evidence and its implications for public policy to inform an extensive and thoughtful public debate about and reconsideration of policies.

### A TRUE STORY OF PRISON LIFE IN CASTRO'S CUBA

---

*Weidenfeld & Nicolson* **WINNER OF THE CRIME WRITERS' ASSOCIATION GOLD DAGGER FOR NON-FICTION 2017** 'In its tragic absurdity, *Close But No Cigar* reads like a Graham Greene story, with a cast of characters to make Hemingway proud' *Daily Telegraph* For over a decade Stephen Purvis had been a pillar of Havana's expat community, one of many foreign businessmen investing in Cuba's crawl from Cold War communism towards modernity. But for reasons unknown to him he was also under State Security's microscope. One morning during the height of President Raúl Castro's purges in 2012, while his family slept the unmarked Ladas of State Security arrived at his home and he was taken away into the absurd and brutal world of Cuban justice. In this engrossing memoir, Purvis recounts his fifteen-month ordeal. Accused at first of selling state secrets, he is taken to the notorious interrogation centre Villa Marista, where he endures brutal conditions designed by the KGB and Stasi to break the bodies and minds of spies and political prisoners, and resists the paranoia and incompetence of his jailers. Later, held in a maximum-security prison, he finds himself surrounded by a motley crew of convicts: people-smugglers and drug-runners together with a handful of confused businessmen also awaiting formal charges. From his arrest to his farcical secret trial and sudden release, Purvis exposes the madness of modern Cuba with wit, grit and a sharp eye for character. As tourists flock to Havana to marvel at a city frozen in time, he shows that despite reforms and international reconciliation the Castro regime remains a corrupt, dictatorial relic. *Close But No Cigar* is part thriller, part comedy and part morality tale, but most of all a true story that takes the reader into a dark side of a sunny place that remains an enigma.

## PRISON LIFE WRITING

---

---

### CONVERSION AND THE LITERARY ROOTS OF THE U.S. PRISON SYSTEM

---

*Wilfrid Laurier Univ. Press* *Prison Life Writing* is the first full-length study of one of the most controversial genres in American literature. By exploring the complicated relationship between life writing and institutional power, this book reveals the overlooked aesthetic innovations of incarcerated people and the surprising literary roots of the U.S. prison system. Simon Rolston observes that the autobiographical work of incarcerated people is based on a conversion narrative, a story arc that underpins the concept of prison rehabilitation and that sometimes serves the interests of the prison system, rather than those on the inside. Yet many imprisoned people rework the conversion narrative the way they repurpose other objects in prison. Like a radio motor retooled into a tattoo gun, the conversion narrative has been redefined by some authors for subversive purposes, including questioning the ostensible emancipatory role of prison writing, critiquing white supremacy, and broadly reimagining autobiographical discourse. An interdisciplinary work that brings life writing scholarship into conversation with prison studies and law and literature studies, *Prison Life Writing* theorizes how life writing works in prison, explains literature's complicated entanglements with institutional power, and demonstrates the political and aesthetic innovations of one of America's most fascinating literary genres.

## GETTING LIFE

---

---

### AN INNOCENT MAN'S 25-YEAR JOURNEY FROM PRISON TO PEACE

---

*Simon and Schuster* "A devastating and infuriating book, more astonishing than any legal thriller by John Grisham" (*The New York Times*) about a young father who spent twenty-five years in prison for a crime he did not commit...and his eventual exoneration and return to life as a free man. On August 13, 1986, just one day after his thirty-second birthday, Michael Morton went to work at his usual time. By the end of the day, his wife Christine had been savagely bludgeoned to death in the couple's bed—and the Williamson County Sheriff's office in Texas wasted no time in pinning her murder on Michael, despite an absolute lack of physical evidence. Michael was swiftly sentenced to life in prison for a crime he had not committed. He mourned his wife from a prison cell. He lost all contact with their son. Life, as he knew it, was over. Drawing on his recollections, court transcripts, and more than 1,000 pages of personal journals he wrote in prison, Michael recounts the hidden police reports about an unidentified van parked near his house that were never pursued; the bandana with the killer's DNA on it, that was never introduced in court; the call

from a neighboring county reporting the attempted use of his wife's credit card, which was never followed up on; and ultimately, how he battled his way through the darkness to become a free man once again. "Even for readers who may feel practically jaded about stories of injustice in Texas—even those who followed this case closely in the press—could do themselves a favor by picking up Michael Morton's new memoir...It is extremely well-written [and] insightful" (The Austin Chronicle). *Getting Life* is an extraordinary story of unfathomable tragedy, grave injustice, and the strength and courage it takes to find forgiveness.

*Skyhorse* "I would recommend *A Day in Prison* to anyone entering prison, as well as to the families who have someone going into the system." —Sal Luciano, nephew of mob boss Charles "Lucky" Luciano Twenty-four hours pass slowly in a prison. *A Day in Prison* will help new inmates understand what's ahead of them, hour by hour, and how to deal with the many challenges. From doing laundry in "the hole" to surviving a fight, this book offers invaluable advice for both prisoners and their families, as well as plenty of first-hand stories. Prison Coach John "Doc" Fuller illustrates what life is like behind bars from morning roll call to lights out, and a comprehensive description of the official prison rules and the inmates' "real" rules. The prison culture, detailed here, is maintained by violence; Fuller teaches inmates how to interact with convicts, prison guards, and administrators in different situations, so as to avoid bodily harm as much as possible, insisting prisoners embrace their new life as a cog in a system they cannot change. Fuller also offers specific suggestions for filling the hours in ways that benefit inmates in their daily prison life, provides meaning, and even prepares them for release. Also included is updated contact information for resources and helpful organizations. *A Day in Prison* is structured like an actual day in prison, tracking where in the building an inmate might be at any given point in a twenty-four hour period, what they should be doing at that time, and what to watch out for. This realistic, thorough guide is based on the author's own time in a federal penitentiary and his years coaching people—from soccer moms to NBA stars—on how to survive on the inside.

### **A PRISONER'S NOTEBOOK**

---

*Atlantic Books* Nineteen years ago, while still in his twenties, Erwin James was sentenced to life imprisonment. Over the past three years, he has written about prison life for the Guardian. This book brings together these pieces. In *A Life Inside*, James writes about learning the who, what, why and when of the prison world. He describes the struggle to keep sane; the dynamics of paranoia and solidarity between men forced into years of co-existence; and the commitment that it takes to prepare for life outside. Along the way, James introduces us to other prisoners. There is Rinty, the big Dundonian and enthusiastic fan of Antiques Roadshow; Cody, the elderly former sergeant who still protests his innocence after twenty-four years; and Felix the Gambler - serial schemer and sometime Buddhist. It is through their stories, told with humour and warmth, the James reveals the reality of prison life.

### **THE SHOCKING TRUTH ABOUT LIFE BEHIND BARS**

---

*Pan Macmillan* A darkly funny, harrowing and heartbreaking look at the reality of prison life, with first-hand accounts from men who found themselves on the wrong side of the cell doors. Neil 'Sam' Samworth spent eleven years as a prison officer at HMP Manchester, better known as Strangeways. He has seen it all: from notorious criminals, dangerous gangsters and repeat offenders to those who simply made the wrong decisions. In this shocking page-turner, he tracks down former prisoners and staff, and uncovers the inside story of what life is really like in one of the UK's most infamous high-security prisons. We'll see a prisoner whose unwanted feud with an inmate ends in a fight and the loss of his eye, another who is convicted for theft but leaves addicted to spice, and many who become victims of the IPP system where they find themselves serving indefinite sentences for petty crimes. We'll see the dark underworld of the prison system, where riots can occur at any time, where the worlds of gangbangers suddenly collide, where class A drugs and contrabands roam. On the other side, we'll see staff grappling with a failing prison system, while dealing with an inmate who records the highest ever psychopath rating and caring fully for another they suspect is feigning handicap. In brutally raw and gripping detail, *Strangeways Unlocked* gives voice to the people behind the bars and exposes a prison system that is failing them, providing an unforgettable account of a life that many can only imagine.

with him. He writes a few stories about the gentleness of the recently fired prison guard. He explains why cruelty is tolerated in prison but kindness is not.

### **UNFLINCHING STORIES OF EVERYDAY PRISON LIFE**

---

*Crown A* “profound, sometimes hilarious, often heartbreaking” (The New York Times) view of prison life, as told by currently and formerly incarcerated people, from the co-creators and co-hosts of the Peabody- and Pulitzer-nominated podcast Ear Hustle “A must-read for fans of the legendary podcast and all those who seek to understand crime, punishment, and mass incarceration in America.”—Piper Kerman, author of *Orange Is the New Black* When Nigel Poor and Earlonne Woods met, Nigel was a photography professor volunteering with the Prison University Project and Earlonne was serving thirty-one years to life at California’s San Quentin State Prison. Initially drawn to each other by their shared interest in storytelling, neither had podcast production experience when they decided to enter Radiotopia’s contest for new shows . . . and won. Using the prize for seed money, Nigel and Earlonne launched Ear Hustle, named after the prison term for “eavesdropping.” It was the first podcast created and produced entirely within prison and would go on to be heard millions of times worldwide, garner Peabody and Pulitzer award nominations, and help earn Earlonne his freedom when his sentence was commuted in 2018. In *This Is Ear Hustle*, Nigel and Earlonne share their own stories of how they came to San Quentin, how they created their phenomenally popular podcast amid extreme limitations, and what has kept them collaborating season after season. They present new stories, all with the same insight, balance, and rapport that distinguish the podcast. In an era when more than two million people are incarcerated across the United States—a number that grows by 600,000 annually—Nigel and Earlonne explore the full and often surprising realities of prison life. With characteristic candor and humor, their moving portrayals include unexpected moments of self-discovery, unlikely alliances, inspirational resilience, and ingenious work-arounds. One personal narrative at a time, framed by Nigel’s and Earlonne’s distinct perspectives, *This Is Ear Hustle* reveals the complexity of life for incarcerated and formerly incarcerated people while illuminating the shared experiences of humanity that unite us all.

## **THE SAGE HANDBOOK OF CRIMINOLOGICAL RESEARCH METHODS**

---

*SAGE* Conducting research into crime and criminal justice carries unique challenges. This Handbook focuses on the application of ‘methods’ to address the core substantive questions that currently motivate contemporary criminological research. It maps a canon of methods that are more elaborated than in most other fields of social science, and the intellectual terrain of research problems with which criminologists are routinely confronted. Drawing on exemplary studies, chapters in each section illustrate the techniques (qualitative and quantitative) that are commonly applied in empirical studies, as well as the logic of criminological enquiry. Organized into five sections, each prefaced by an editorial introduction, the Handbook covers: • Crime and Criminals • Contextualizing Crimes in Space and Time: Networks, Communities and Culture • Perceptual Dimensions of Crime • Criminal Justice Systems: Organizations and Institutions • Preventing Crime and Improving Justice Edited by leaders in the field of criminological research, and with contributions from internationally renowned experts, *The SAGE Handbook of Criminological Research Methods* is set to become the definitive resource for postgraduates, researchers and academics in criminology, criminal justice, policing, law, and sociology. David Gadd is Professor of Criminology at Manchester University School of Law where he is also Director of the Centre for Criminology and Criminal Justice. Susanne Karstedt has a Chair in Criminology and Criminological Justice at the University of Leeds. Steven F. Messner is Distinguished

Teaching Professor of Sociology, University at Albany, State University of New York.

*NYU Press* In 1888, Leo Tolstoy mysteriously declared that sexual intercourse should no longer exist. Years later he would admit to being "horrified" by this pronouncement, but still remained an ardent believer in sexual abstinence. Frequenter of brothels in his youth, father of thirteen children by his wife and at least two children by peasant women before he was married, Tolstoy now had the audacity to suggest that people should stop having sex. How can such a repudiation be explained? Beginning with Tolstoy's *Kreutzer Sonata*-his first written "declaration of war on human sexuality"--Tolstoy on the Couch takes us on a sweeping psychoanalytic tour of Tolstoy's diaries and other private materials, revealing that behind his campaign for celibacy lay a painful and complicated drama of early childhood. Rooting Tolstoy's polarized feelings about women and sexuality in his uncontrollable rage toward the mother who died when he was a toddler, Rancour-Laferriere offers profound psychobiographic insights into Tolstoy's lifelong animosity toward women--and into the women he loved to hate.

### **YOUNG MEN IN PRISON**

---

*Routledge* This book examines how young men between the ages of 18 and 21 make the transition to prison life and how they adapt practically, socially and psychologically. Based on extensive research in Feltham Young Offenders Institution, this book examines in particular the role of social support, both inside and outside prison, in relation to their adaptation, along with the constructs of trust, locus of control, and safety. It concentrates both on the successful adaptation to prison life and on the experience of individuals who have difficulties in adapting; it pays special attention to those who harm themselves whilst in prison. It is the first study to provide an in-depth account of the psycho-social experience of imprisonment for young adults. Understanding this early stage of imprisonment is of major importance to policy makers and practitioners in the light of the fact that up to a half of completed suicides occur within the first month in prison.

*Pickle Partners Publishing* Your knowledge of Eugene Victor Debs' activity during and since the First World War will not be complete until you read this book. It includes his speech at Canton, Ohio, that brought about his arrest; his fearless address to the jury; his daring statement to the court, and excellent account of the trial; and a short history of the Socialist Party's Amnesty Campaign. The suggestion, coming from various sources, appealed to me for the reason that I saw in it an opportunity to give the general public certain information in regard to the prison, based upon my personal observation and experience, that I hoped might result in some beneficial changes in the management of prisons and in the treatment of their inmates."—Eugene Victor Debs, Introduction
