KEY=HODDER - CONOR MARIANA

Schools History Project Letts & Lonsdale *One of a series, this book on Schools history project provides questions from past exam papers as well as new questions set by actual GCSE examiners. The authors who are all either Chief Examiners or Examiners, have prepared answers and a full mark scheme for each of the questions. They also include their tips on what the examiner is looking for and how to avoid the most commonly made mistakes.* **Teaching Assistant's Handbook Level 3 Supporting Teaching and Learning in Schools Hodder Education Publishers** *Brand new handbook that fully meets the 2010 National Occupational Standards for eager students wanting to learn from a bestselling and highly experienced author. Written by an experienced author, this clearly-written book is the perfect companion for those studying Teaching Assistant qualifications at Level 3, including Supporting Teaching and Learning in Schools (Award, Certificate or Diploma) at level 3, or Certificate in Cover Supervision. Widely respected, this book gives your students practical guidance on how to support the development of children and young people in a variety of educational settings and will be the perfect companion throughout their course and as they develop their career.* **Cambridge Primary English Learner's Book 6 Hodder Education** *This title has been endorsed by Cambridge Assessment International Education Inspire learners to build, strengthen and extend their skills. Written by experienced authors and primary practitioners, Cambridge Primary English offers full coverage of the new Cambridge Primary English curriculum framework (0058).* - Boost confidence and extend understanding: Tasks built in a three-step approach with 'Learn', 'Get started!' and 'Go further' plus 'Challenge yourself' activities to support differentiation and higher order thinking skills. - Revisit, practice and build on previous learning: Let learners see how their skills are developing with 'What can you remember?' checklists at the end of each unit and self-check practice quizzes. - Develop key concepts and skills: A variety of practice material throughout to build Reading, Writing, Speaking and Listening skills. - Motivate learners with an international approach: The learner's books provide a variety of engaging extracts from diverse international authors covering fiction genres, non-fiction text types, poetry and plays. **Study Skills 11+: Building the study skills needed for 11+ and pre-tests Hachette UK** *This book covers everything you need to know in preparing children for both pre-tests and 11+ entrance exams for admission into independent and grammar schools. It sets out ways in which children can become successful and confident learners over the years and months building up to these tests taken in Year 6. The author passionately believes that intelligence is not fixed but can be nurtured and grown with the right support. The key to putting this into action is to understand how you learn and to master the strategies for learning, retaining and recalling information effectively. This book will help parents and teachers support children approach one of their first academic hurdles with confidence. The book begins by looking at why revision is important and how the brain works. It introduces the concept of growth mindset and how with the right support, confidence, resilience and independence can be nurtured. It provides guidance on physical and mental wellbeing (including a section on coping with stress). It moves on to cover ideas on how to gain control of studying and how to develop good organisational skills. Being healthy, feeling stress free, in control and excited about school is vital. There is a comprehensive chapter study skills and how to master them, from learning how to identify key words, using flashcards, to creating mindmaps. Examples based on the 11+ syllabus and questions or tasks to revise the skill are given throughout. The book then focuses specifically on the skills needed for the 11+ tests. It offers wide-ranging advice on each subject (English, Maths, Verbal and Non-Verbal reasoning), how to prepare for online tests, interviews and test day tips. Current thinking and research by world-renowned social psychologists, psychologists and educators is at the heart of this book and are referenced. Tips for parents supporting their children's learning journey are given throughout.* **Teaching Assistant's Handbook** *A comprehensive and practical guide to supporting the development of children and young people in a variety of educational settings including primary, secondary and special schools as well as extended schools. It also includes exercises to develop the TA's personal and professional skills as well as key tasks which contribute to portfolio of evidence. Ideal for all Level 2 and 3 NVQ and SVQ Teaching Assistants and support staff, Teaching Assistant's Handbook 2nd edition is fully updated in line with the new National Occupational Standards.* **Music for the IB MYP 4&5: MYP by Concept Hachette UK** *A concept-driven and assessment -focused approach to Music teaching and learning.* - Approaches each chapter with statements of inquiry framed by key and related concepts, set in a global context. - Supports every aspect of assessment using tasks designed by an experienced MYP educator. - Differentiates and extends learning with research projects and interdisciplinary opportunities. - Applies global contexts in meaningful ways to offer an MYP Music programme with an internationally-minded perspective. Also available Student eTextbook 9781510475533 Whiteboard eTextbook 9781510475540 Teacher's Pack 9781510478145 **Explore PSHE for Key Stage 4 Student Book Hachette UK** *Develop your students' skills and understanding of PSHE and encourage an active learning approach, all whilst providing essential coverage of the 2020 statutory guidelines. It provides a good balance of theoretical material with practical ideas for application in the classroom and strongly encourages reflection and critical thought. This new edition includes: coverage of the National Curriculum 2000, the National Literacy Strategy and the new Key Stage 3 Strategy a new chapter on how to teach ICT a new chapter on Inclusion - including differentiation, cultural diversity, EAL and teaching across the ability range new material on how to teach Shakespeare an introduction to cross-curricular themes - such as citizenship, and social, moral and spiritual values. Written in an accessible and conversational style, this text poses an excellent degree of challenge for all students on initial teacher training courses. **Michel Thomas: the Learning Revolution Teach Yourself** The publication of the Michel Thomas ground-breaking, all-audio language learning materials has been a publishing phenomenon. Sales of over one million units in just eight years and the universal acclaim his method has excited would indicate that there is a large body of people who want to know more about how and why his method works where so many others have failed. The book will give a brief history of Michel's fascinating life and summarise how he became interested in teaching foreign languages, before going on to look at the experience of learning a foreign language in general and Michel's method of teaching in particular. It examines the barriers to language learning in both the UK and the US, Michel's focus on the role and quality of the teacher rather than the learner, and Michel's core belief that with the right teaching anyone can learn another language quickly and easily. The reader will be introduced to new trends in psychology and their relationship to the way Michel teaches foreign languages as well as examining conventional wisdoms. There follows a detailed analysis of Michel's programmes for foreign language teaching and the implications for schools, colleges and universities if they wish to adopt his methodology and at the same time meet the requirements of the public examinations both in the UK and the US. **Inspirational Teachers Inspirational Learners A book of hope for creativity and the curriculum in the twenty first century Crown House Publishing** What is it that Inspirational teachers do differently? In short, they plan for their pupils to be inspirational. Many teachers who join the teaching profession do so because they were taught by inadequate teachers and they feel they can provide a far better and more exciting education for youngsters than they received themselves. Whereas other teachers speak with clarity of detail about stimulating and influential teachers who inspired their lives and now they want to do the same. This book is an examination of what our most inspirational teachers do in order to get creative and inspirational responses from children. It aims to put fun back into teaching, provide a framework for creativity in the twenty first century and act as a book of hope for the new curriculum proposals. **OCR Computer Science for GCSE Student Book Hachette UK** Exam Board: OCR Level: GCSE Subject: Computer Science First Teaching: September 2016 First Exam: June 2018 Build student confidence and ensure successful progress through GCSE Computer Science. How do their relationships and interactions with peers, teachers and other school staff influence their development and experience of school? This book, written by leading researchers in educational and developmental psychology, provides answers to these questions by offering an integrated perspective on children's social interactions and relationships with their peers and teachers in school. Peer interactions in school have tended to be underestimated by educationalists, and this book redresses the balance by giving them equal weight to teacher-child interactions. In this second edition, the authors extensively revise the text on the basis of many years of research and teaching experience. They highlight common misconceptions about children, their social lives, and school achievement which have often resulted in ineffective school policy. The book includes a number of important topics, including: The significance of peer-friendships at school The nature and importance of play and break-times Aggression and bullying at school Peer relations and learning at school The classroom environment and teacher-pupil interaction The influence of gender in how children learn at school. Advantages and disadvantages of different methodological approaches for studying children in school settings Policy implications of current research findings. The Child at School will be essential reading for all students of child development and educational psychology. It will also be an invaluable source for both trainee and practicing teachers and teaching assistants, as well as clinical psychologists and policy makers in this area.
