Octavia and Rafael are a revelation." - Dana Grisham "Sara Ramsey has woven an intricate and utterly compelling story around deceit, hypocrisy, and revenge unlike anything I've ever read before. This is a truly magnificent piece of art and should be appreciated as such.” - Jessi, Goodreads “Amazing book! Her stories are never trivial, her heroines unpredictable and unusual for the time, strong, smart and funny and her male protagonists are absolutely magnificent.” - Cinzia, Goodreads

## Lord of Deceit

Sara Ramsey Thousands of readers have already fallen in love with the Briarleys — a family known for centuries of sin and scandal, now on the verge of extinction. In LORD OF DECEIT, Octavia Briarley continues the family tradition of revenge while fighting to reclaim her birthright — but in the Heiress Games, love doesn’t always follow the rules... Rule #1: Never give your heart to a rake... Octavia Briarley took society by storm during her debut season — until one disastrous night changed everything, and she was forced to become London’s most notorious courtesan. She’s already paid the price for trusting too easily, and she won’t make the same mistake again. But when she finally gets a chance to take revenge against the cousin who betrayed her, Octavia needs a willing partner for her schemes — someone charming, aristocratic, and devilish. The kind of man she might have married, in a different life. And the kind of man she absolutely can’t risk giving her heart to.... Rule #2: Never fall in love with the target... Lord Rafael Emerson-Fairhurst survived as a spy in Spain through charm and subterfuge. In London, he uses those same skills to pursue justice against those who are above the law. His next mission is Lord Somerville — Octavia’s former patron. When Octavia asks Rafe to help sabotage her cousin’s house party, he can’t refuse. If he can destroy Somerville by using her...well, Rafe never claimed to be a saint, and he never promised to protect her. But he never expected Octavia to be quite so delightful — or quite so inexperienced, given her bold demands and reckless smile. And falling in love is a mistake he’s never made before.... Rule #3: Never ignore your destiny... As Rafe and Octavia set out to ruin the most illustrious house party of the summer, they discover that revenge can’t possibly compete with the pleasure they find in

each other's arms. Can an innocent courtesan and a broken charmer risk losing everything they ever wanted to seize the love they never expected to find? ----- Want to catch up on other books by Sara Ramsey? ## Restaging the Past

## Historical Pageants, Culture and Society in Modern Britain

**UCL Press** *Restaging the Past* is the first edited collection devoted to the study of historical pageants in Britain, ranging from their Edwardian origins to the present day. Across Britain in the twentieth century, people succumbed to 'pageant fever'. Thousands dressed up in historical costumes and performed scenes from the history of the places where they lived, and hundreds of thousands more watched them. These pageants were one of the most significant aspects of popular engagement with the past between the 1900s and the 1970s: they took place in large cities, small towns and tiny villages, and engaged a whole range of different organised groups, including Women's Institutes, political parties, schools, churches and youth organisations. Pageants were community events, bringing large numbers of people together in a shared celebration and performance of the past; they also involved many prominent novelists, professional historians and other writers, as well as featuring repeatedly in popular and highbrow literature. Although the pageant tradition has largely died out, it deserves to be acknowledged as a key aspect of community history during a period of great social and political change. Indeed, as this book shows, some traces of 'pageant fever' remain in evidence today.

## Pandaemonium 1660–1886

# The Coming of the Machine as Seen by Contemporary Observers

Icon Books Ltd Collecting texts taken from letters, diaries, literature, scientific journals and reports, Pandæmonium gathers a beguiling narrative as it traces the development of the machine age in Britain. Covering the years between 1660 and 1886, it offers a rich tapestry of human experience, from eyewitness reports of the Luddite Riots and the Peterloo Massacre to more intimate accounts of child labour, Utopian communities, the desecration of the natural world, ground-breaking scientific experiments, and the coming of the railways. Humphrey Jennings, co-founder of the Mass Observation movement of the 1930s and acclaimed documentary film-maker, assembled an enthralling narrative of this key period in Britain's national consciousness. The result is a highly original artistic achievement in its own right. Thanks to the efforts of his daughter, Marie-Louise Jennings, Pandæmonium was originally published in 1985, and in 2012 it was the inspiration behind Danny Boyle's electrifying Opening Ceremony for the London Olympic Games. Frank Cottrell Boyce, who wrote the scenario for the ceremony, contributes a revealing new foreword for this edition.

# Avenging Muse

## Naomi Royde-Smith, 1875-1964

**Avenging Muse is the biography of Naomi Royde-Smith, a powerful early twentieth-century British literary editor who discovered and published the first works of such writers as Rupert Brooke, Rose Macaulay, and Graham Greene. Beginning at age 50, she became in her own right a prolific author of more than thirty novels in addition to plays, biographies, and cultural critiques posing as travelogues. She writes about fin de siècle Geneva, about London and working women between the wars, about journalism and theater, about artists and their promoters, about banal culture, about social class in disarray, about a world that lacks spiritual center. Bravely Royde-Smith also writes about the lives of women loving women, men loving men, and tales about ordinary men and women in love--or not. The historical environment surrounding her writing, as well as those about whom she wrote, was morally and legally hostile to exploration of sexualities. Her fictions, witty and empathetic, emerge from her own experiences. Royde-Smith enjoyed her work as a professional muse--literary editor in London of the prestigious Saturday Westminster Gazette and then the Queen; however, she did not enjoy being cast by writers, such as Walter de la Mare and Henry Spiess, as their personal muse. Indeed, in certain of her novels, she retaliated against men who trespass, attacking their self-absorbed use of women in the name of art. Her personal story corresponds with an increasing historical realization of women's rights, a realization that undermines romantic and neoromantic reverence for conventional muses. Her writings anticipate current literary and feminist theories of performative gender.**

### 'Flower of Cities All'

**Springer This book is an anthology of extracts of literary writing (in prose, verse and drama) about London and its diverse inhabitants, taken from the accession of Queen Elizabeth I in 1558 to the outbreak of the Great War in 1914. The 143 extracts, divided into four periods (1558-1659, 1660-1780, 1781-1870 and 1871-1914), range from about 250 words to 2,500. Each of the four periods has an introduction that deals with relevant social, geographical and historical developments, and each extract is introduced with a contextualizing headnote and furnished with explanatory footnotes. In addition, the general introduction to the anthology addresses some of the literary questions that arise in writing about London, and the book ends with many suggestions for further reading. It should appeal not only to the general reader interested in London and its representation, but also to students of literature in courses about 'reading the city'.**

## Eat My Dust

## Early Women Motorists

**JHU Press The history of the automobile would be incomplete without considering the influence of the car on the lives and careers of women in the earliest decades of the twentieth century. Illuminating the relationship between women and cars with case studies from across the globe, Eat My Dust challenges the received wisdom that men embraced automobile technology more naturally than did women. Georgine Clarsen highlights the personal stories of women from the United States, Britain, Australia, and colonial Africa from the early days of motoring until 1930. She notes the different ways in which these women embraced automobile technology in their national and cultural context. As mechanics and taxi drivers -- like Australian Alice Anderson and Brit Sheila O'Neil -- and long-distance adventurers and political activists -- like South Africans Margaret Belcher and Ellen Budgell and American suffragist Sara Bard Field -- women sought to define the technology in their own terms and according to their own needs. They challenged traditional notions of femininity through their love of cars and proved they were articulate, confident, and mechanically savvy motorists in their own right. More than new chapters in automobile history, these stories locate women motorists within twentieth-century debates about class, gender, sexuality, race, and nation. -- Deborah Clarke**
