The Encyclopædia of Geography Comprising a Complete Description of the Earth, Physical, Statistical, Civil, and Political Haikyo The Modern Ruins of Japan Carpet Bombing Culture Stepping away from the lights and into the shadows, one adventurous photographer embarks on an underground voyeuristic journey, documenting a curious collection of images that provide a rare and intimate glimpse into a secret, mysterious and sometimes bizarre world. Miniature jungles sprout and thrive in the rooms of a discarded beachside resort. Filled with curiosities and eccentric furniture, a long forgotten love hotel crumbles away on the outskirts of a small country town. Inside a large snow covered building, a giant taxidermy walrus sits wedged in the corner of a darkened, dust filled room. After years of abandonment, vines and foliage take over from past crowds to engulf roller coasters, carousels and water slides in a swampy amusement park. Rows of stools await more customers as the years pass by in a dilapidated strip club filled with retro treasures. Each with its own unique story to tell, the end result is the presentation of a fascinating realm where one can contemplate Japan's hidden journey from permanence to disposability, composition to decomposition and construction to deconstruction." Bandung, Global History, and International Law Critical Past and Pending Futures Cambridge University Press "In 1955 a conference was held in Bandung, Indonesia that was attended by representatives from twenty-nine developing nations. Against the backdrop of crumbling European colonies, Asian and African leaders forged a new alliance and established anti-imperial principles for a new world order. The conference captured the popular imagination across the Global South. Bandung's larger significance as counterpoint to the dominant world order was both an act of collective imagination and a practical political project for decolonization that inspired a range of social movements, diplomatic efforts, institutional experiments and heterodox visions of the history and future of the world. This book explores what the spirit of Bandung has meant to people across the world over the past decades and what it means today. Experts from a wide range of fields show how, despite the complicated legacy of the conference, international law was never the same after Bandung"-- Life An Encyclopaedia of Geography Geography The Encyclopædia of Geography: Comprising a Complete Description of the Earth, Physical, Statistical, Civil, and Political The Encyclopedia of Geography Comprising a Complete Description of the Earth, Physical, Statistical, Civil, and Political ... Few books have taken a close look at the immediate aftermath of the worldwide catastrophe. Drawing on hundreds of eye-witness accounts and personal stories, this sweeping book examines the seven months (in Europe) and four months (in Asia) that followed the surrender of the Axis powers, from the fate of Holocaust survivors liberated from the concentration camps, and the formation of the state of Israel, to the incipient civil war in China, and the allied occupation of Japan. It was a time when terrible revenge was taken on collaborators and their former masters; of ubiquitous black markets, war crime tribunals; and the servicing of millions of occupation troops, former foes in some places, liberators in others. But Year Zero is not just a story of vengeance. It was also a new beginning, of democratic restorations in Japan and West Germany, of social democracy in Britain and of a new world order under the United Nations. If construction follows destruction, Year Zero describes that extraordinary moment in between, when people faced the wreckage, full of despair, as well as great hope. An old world had been destroyed; a new one was yet to be built. Lands and Peoples:
