WHY PEOPLE GET LOST

THE PSYCHOLOGY AND NEUROSCIENCE OF SPATIAL COGNITION

Oxford University Press, USA Why People Get Lost reviews the psychology and neuroscience of how we find our way. Beginning with a history of studies looking at how organisms solve mazes, it then reviews contemporary studies of spatial cognition, and the wayfinding abilities of adults and children. Paul Dudchenko then explores how specific parts of the brain provide a cognitive map and a neural compass. This book also considers the neurology of spatial disorientation, and the tendency of patients with Alzheimer's disease to lose their way. It concludes with the proposal that we get lost because our brain's compass becomes disoriented. --

SAND IN YOUR SANDPILE

FACING LIFE'S STRESSES

BalboaPress How much sand is in your sandpile? Do you have lots of sand, or just a little? Our sandpiles are our emotional reserves. We constantly give the sand in our sandpiles away as we give to others, our work, our families, and the tasks of daily life. Lots of us have depleted sandpiles. This depletion diminishes our ability to manage stress, which in turn can have negative effects on our physical and emotional health. How do we replenish our emotional reserves? Do you know what puts sand in your sandpile? Sand in Your Sandpile looks at how we can build our

emotional reserves through nurturance and comfort, self-esteem, and empowerment. It examines what keeps us from doing the self-care we know we need. Using stories and metaphors, Dr. Kearney examines life attitudes that influence our ability and willingness to take care of ourselves. Since self-care is such a big part of stress reduction and resilience, Kearney wanted to create user-friendly access to practical psychological practices. This workbook is about loving kindness toward self and others with the goal of building a psychological immune system. Through self-care, self-esteem and knowing where your power is, you can learn how to address the natural blocks to coping. The guiding principle is respect for self and others. The goal is to facilitate personal motivation and methods of self-care. In this guide, you are encouraged to personalize the material, do the user-friendly exercises, and put sand in your sandpile. With self-care, you can create a life you want to live.

I MOVED YOUR CHEESE

FOR THOSE WHO REFUSE TO LIVE AS MICE IN SOMEONE ELSE'S MAZE

Berrett-Koehler Publishers The author of *Negotiating the Impossible* “tackles our assumptions about business and life with humor, zest, and wisdom in this delightful fable” (Daniel H. Pink, New York Times-bestselling author). If you were a mouse trapped in a maze and someone kept moving the cheese, what would you do? In a world where most mice dutifully accept their circumstances, ask no questions, and keep chasing the cheese, Deepak Malhotra tells an inspiring story about three unique and adventurous mice—Max, Big, and Zed—who refuse to accept their reality as given. *I Moved Your Cheese* reveals what is possible when we finally discard long-held and widely accepted assumptions about how we should live our lives. After all, achieving extraordinary success, personal or professional, has always depended on the ability to challenge assumptions, reshape the environment, and play by a different set of rules—our own. But rejecting deeply ingrained beliefs is not easy. As Zed explains, “You see, Max, the problem is not that the mouse is in the maze, but that the maze is in the mouse.” “Deepak Malhotra allows you to glimpse a world of your own making without the limits and barriers that others create.” —Stephen R. Covey, New York Times-bestselling author of *The 7 Habits of Highly Effective People* “A magnificent story with a powerful message. As someone who has encouraged scores of professionals into breaking through the maze and defining their own pursuits, I find this to be a gem of a book.” —Vinod Khosla, cofounder, former CEO and Chairman, Sun Microsystems, and founder, Khosla Ventures “This book’s message is both profound and durable. Malhotra has left the maze, and so can we.” —Foreword Reviews

OH BEHAVE

DOGS FROM PAVLOV TO PREMACK TO PINKER

Dogwise Publishing Jean Donaldson brings her considerable wisdom -- and wit -- to a wide variety of topics of interest to dog trainers and enthusiasts in this book from Dogwise Publishing. In 55 essays, Jean tackles issues ranging from the nature vs nurture debate, to the role of dominance in domestic dogs, to what are the most effective ways to train dogs. You will note a number of themes that flow throughout the book. Jean is a firm believer in conducting scientific research (verifiable results) rather than forming opinions based on gut feel or taking an anthropomorphic view of dog behavior. She also admits that we are flying blind on many issues because of a lack of research and tells the reader when that is the case. She looks at problem behaviors (problems for humans at least) from the perspective that both a dog's genes and environment impact behavior, and our ability to modify such behaviors is sometimes muddled since we don't always understand how genetics and environment interact. And finally, just what is a Dog Mom (or Dad) and how did that phenomenon develop and what is its genetic usefulness, if any, to both dogs and people?! Along with her other best selling books, *Oh Behave!* is destined to be a classic in the literature on dog behavior.

ANIMAL COGNITION AND BEHAVIOR

Elsevier Contributed chapters by psychologists and behavioral biologists provide a broad coverage of animal behavior, and governing brain processes. Topics covered include: foraging behavior and strategies, economics and psychology, memory of events and space, time perception, expectancies, food preferences and diet selection, behavior variability and the concept of mind. The volume is designed to satisfy an interdisciplinary audience, embracing the behavioristic tradition, biological and physiological approaches, and evolutionary theory as philosophical underpinnings to the chapters. Also achieved in this work is a good balance between empirical results and theory.

THE TOTAL QUESTION WORKOUT

THE COMPLETE GUIDE TO ASKING BETTER QUESTIONS TO GET BETTER ANSWERS FOR RUNNING YOUR

BUSINESS OR YOUR LIFE

Xlibris Corporation Here's the one-minute description of TQW: You have a Big Question of some kind. You know it's a Big Question because it's keeping you up at night, the outcome is important, and you don't have a ready answer. There are four stages you need to go through to answer a Big Question. I don't know where you are in the process; so let me describe the four stages. The first stage involves fully understanding your situation and your motives for wanting to resolve the question that comes from being in that situation. The second stage involves separating yourself from the situation you are in. You cannot resolve a situation if you see yourself as part of it. You have to gain perspective by separating yourself from your situation in as many ways as possible. The third stage involves letting go of something that keeps you attached to, and subject to, the situation you are in. Something is holding you back. Some fear, some projection of implications, some belief about what is possible and what is not possible. Something. As long as you hold onto these things they will hold you back. Fourth, you need to perceive new possibilities for resolving your Big Question. For various reasons, you are not able to see alternative resolutions today. You need to reframe your question in a way that will enable you to apply the substantial resources you have to address each and every part of the question. If you have a Big Question, you are stuck at one of those four stages. At which stage are you stuck? McClellan provides a complete roadmap for getting from the question you have to the question you need to answer. Dither no longer. Commit to the Total Question Workout. Address the Big Question you need to answer to take charge of running your business or your life. You can move forward. But first, you have to take the next step.

QUICKLET ON JAMES DASHNER'S THE MAZE RUNNER

Hyperink Inc ABOUT THE BOOK "Out there's the Maze," Newt whispered, eyes wide as if in a trance. "Everything we do—our whole life, Greenie—revolves around the Maze. Every lovin' second of every lovin' day we spend in honor of the Maze, tryin' to solve somethin' that's not shown us it has a bloody solution, ya know? And we want to show ya why it's not to be messed with. Show ya why them buggin' wals close shut every night. Show ya why you should never, never find your butt out there." "All is an illusion" is the core message emanating from James Dashner's novel, *The Maze Runner*, which hitches a young adult (YA) science-fiction fantasy plot to a premise reminiscent of *The Prisoner* or an old *Twilight Zone* episode. Children trapped in a manipulative experiment, with their memories of their past lives wiped clean, struggle to escape to a seemingly elusive freedom. The *Maze Runner* series is violent, dark, and edgy, with a similar allure to that of *The Hunger Games*. According to IMDb, in their article on *The Maze Runner*, a movie based on the novel is in development, and is scheduled for release in 2013. MEET THE AUTHOR Peg Robinson holds a BA in Religious Studies from the University of California at Santa Barbara, and has partially completed an MA/PhD in Mythological Studies from Pacifica Graduate Institute. She holds a certificate in copy editing from Media Bistro. Her publishing career started in 1998, on winning a place in Simon and Schuster's *Star Trek: Strange New Worlds* competition. Her novelette "Tonino and the Incubus" qualified for the 2007 Nebula Awards. She has worked as a content provider, copy writer, informational writer, copy editor, and developmental editor. EXCERPT FROM THE BOOK Thomas, a boy of about sixteen, arrives in a mysterious compound in the middle of a Maze. He's without any memories of his prior life, without friends or family. He meets the residents of the Maze—other teenaged boys who, like him, have found themselves in this unexplained place, pitted against deadly foes and struggling to find escape from their prison. Thomas finds himself wishing to become one of the Maze Runners for whom the story is named: the best, fastest, bravest, strongest, and most resourceful of the boys. Maze Runners go out daily to explore the maze, trying to learn its secrets and find a way out. His goals are challenged, though, by rivals within the compound known as the Glade, and by the dangers and difficulties of the world itself.

COMING APART

THE STATE OF WHITE AMERICA, 1960-2010

Crown Forum NEW YORK TIMES BESTSELLER • A fascinating explanation for why white America has become fractured and divided in education and class, from the acclaimed author of *Human Diversity*. "I'll be shocked if there's another book that so compellingly describes the most important trends in American society."—David Brooks, *New York Times* In *Coming Apart*, Charles Murray explores the formation of American classes that are different in kind from anything we have ever known, focusing on whites as a way of driving home the fact that the trends he describes do not break along lines of race or ethnicity. Drawing on five decades of statistics and research, *Coming Apart* demonstrates that a new upper class and a new lower class have diverged so far in core behaviors and values that they barely recognize their underlying American kinship—divergence that has nothing to do with income inequality and that has grown during good economic times and bad. The top and bottom of white America increasingly live in different cultures, Murray argues, with the powerful upper class living in enclaves surrounded by their own kind, ignorant about life in mainstream America, and the lower class suffering from erosions of family and community life that strike at the heart of the pursuit of happiness. That divergence puts the success of the American project at risk. The evidence in *Coming*

Apart is about white America. Its message is about all of America.

THE QUESTION OF HERMENEUTICS

ESSAYS IN HONOR OF JOSEPH J. KOCKELMANS

Springer Science & Business Media by Pierre Kerszberg **Joseph J. Kockelmans: A Biographical Note** Joseph Kockelmans was born on December 1, 1923, at Meerssen in the Netherlands. In 1951 he received his doctoral degree in philosophy from the Institute for Medieval Philosophy, Angelico, Rome. Earlier on, he had earned a "Baccalaureate" and a "Licence" from the same institution. Upon his return to the Netherlands, he engaged in a series of post-doctoral studies. His first subject was mathematics, which he studied under H. Busard who taught at the Institute of Technology at Venlo (1952-55). A major turning-point then occurred when, from 1955 to 1962, his post-doctoral research centered simultaneously around physics under A. D. Fokker at the University of Leyden, and phenomenology under H. L. Van Breda at the Husserl Archives of the University of Louvain. Still in the Netherlands, his first position as professor of philosophy was at the Agricultural University of Wageningen from 1963 to 1964. Even though he had been a Visiting Professor at Duquesne University in 1962, the year 1964 marked the actual beginning of his career in the United States. He began by holding a professorship at the New School for Social Research in New York (1964-65). Before establishing himself permanently at the Pennsylvania State University from 1968 onward, where he became a Distinguished Professor of Philosophy in 1990, he also held a professorship at the University of Rittsburgh from 1965 to 1968.

CRITICAL FOUNDATIONS IN YOUNG ADULT LITERATURE

CHALLENGING GENRES

Springer Science & Business Media Young Adult literature, from *The Outsiders* to *Harry Potter*, has helped shape the cultural landscape for adolescents perhaps more than any other form of consumable media in the twentieth and twenty-first century. With the rise of mega blockbuster films based on these books in recent years, the young adult genre is being co-opted by curious adult readers and by Hollywood producers. However, while the genre may be getting more readers than ever before, Young Adult literature remains exclusionary and problematic: few titles feature historically marginalized individuals, the books present heteronormative perspectives, and gender stereotypes continue to persist. Taking a critical approach, *Young Adult Literature: Challenging Genres* offers educators, youth librarians, and students a set of strategies for unpacking, challenging, and transforming the assumptions of some of the genre's most popular titles. Pushing the genre forward, Antero Garcia builds on his experiences as a former high school teacher to offer strategies for integrating Young Adult literature in a contemporary critical pedagogy through the use of participatory media.
