Illustrated World's Religions A Guide to Our Wisdom Traditions** [HarperOne](#) **A presentation of the world's predominant religions includes the essential elements and teachings of each, a description of their similarities and differences, and full-color illustrations. 50,000 first printing. \$50,000 ad/promo. QPB Main. BOMC, History, & Natural Science Bk Club. The Illustrated World's Religions A Guide to Our Wisdom Traditions** [HarperOne](#) **Retaining all the beloved qualities of Huston Smith's classic The Religions of Man and the current fully revised and updated The World's Religions, this stunning pictorial presentation refines the text to its wonderful essentials. In detailed, absorbing, richly illustrated, and highly readable chapters on Hinduism, Buddhism, Confucianism, Taoism, Islam, Judaism, Christianity and primal religions, we find refreshing and fascinating presentations of both the differences and the similarities among the worldwide religious traditions. The approach is at once classic and contemporary, retaining all the empathy, eloquence and erudition that millions of readers love about the earlier editions, while being edited and designed for a contemporary general readership. This delightful marriage of winsome text and remarkable pictures vividly brings to life the scope and vision of Huston Smith's expertise and insight. The World's Wisdom Sacred Texts of the World's Religions** [Book Sales](#) **A world Bible for our time**

from Buddhist, Hindu, Confucian, Taoist, Jewish, Christian, Islamic, and primal religion sources. In this perfect companion to Huston Smith's bestselling *The World's Wisdom*, Philip Novak distills the most powerful and elegant expressions of the wisdom of humankind. Authentic, poetic translations of key texts are coupled with insightful introductions and "grace notes." **Confucianism as a World Religion Contested Histories and Contemporary Realities** [Princeton University Press](#) **Is Confucianism a religion? If so, why do most Chinese think it isn't? From ancient Confucian temples, to nineteenth-century archives, to the testimony of people interviewed by the author throughout China over a period of more than a decade, this book traces the birth and growth of the idea of Confucianism as a world religion. The book begins at Oxford, in the late nineteenth century, when Friedrich Max Müller and James Legge classified Confucianism as a world religion in the new discourse of "world religions" and the emerging discipline of comparative religion. Anna Sun shows how that decisive moment continues to influence the understanding of Confucianism in the contemporary world, not only in the West but also in China, where the politics of Confucianism has become important to the present regime in a time of transition. Contested histories of Confucianism are vital signs of social and political change. Sun also examines the revival of Confucianism in contemporary China and the social significance of the ritual practice of Confucian temples. While the Chinese government turns to Confucianism to justify its political agenda, Confucian activists have started a movement to turn Confucianism into a religion. Confucianism as a world religion might have begun as a scholarly construction, but are we witnessing its transformation into a social and political reality? With historical analysis, extensive research, and thoughtful reflection, *Confucianism as a World Religion* will engage all those interested in religion and global politics at the beginning of the Chinese century. **Appreciating All Religions Religious Literacy in Small Bites** [AuthorHouse](#) **MANY OF US value our own religion, but know little and care even less about other religions. To facilitate much needed religious literacy and mutual-understanding, this book succinctly examines the main features of all living religions show they were formed and what they have become, how they are similar and how they differ, and what we can do to better appreciate and respect religions other than our own. EACH CHAPTER IS short, informative, and easy-to-read. Together, these chapters provide a good understanding of the basic beliefs of all religions and their main sects. They also provide a valuable perspective on religious unity, diversity, and interaction, setting the stage for open-minded interfaith dialogue and respectful mutual acceptance of all religions. **RELIGION REEXAMINED** [DIEGO A. ODCHIMAR III](#) **Religion Reexamined** is a concise introduction to world religions. It is designed to facilitate a comparative study of religions. It is divided into eight chapters that thoroughly examine the foundations of Judaism, Christianity, Islam, Hinduism, Buddhism, Confucianism, Taoism, and Secularism. Following Clifford Geertz, it treats each religion as a cultural system composed of****

three parts: ethos (character), ethics (way of life), and ethnos (social entity). Using Stephen Prothero's approach, it identifies each religions' problem, solutions to the problem, techniques for moving from problem to solution, and exemplars who chart the path from problem to solution. It includes critical reviews of religion by psychologists, sociologists, anthropologists, and philosophers from Aristotle to Karen Armstrong.

Religious Truth A Volume in the Comparative Religious Ideas Project [SUNY Press](#) Explores religious truth in a range of world religions and discusses the issue and philosophical implications of comparison itself. Examine Your Faith! [WestBow Press](#) Well-meaning people want to believe that all roads lead to the same God and heaven. But wanting something to be true is far different from truth lining up with reality. Unless you make an intentional effort to examine what you believe and why you believe it, it's quite possible you are living your life on the basis of a lie, and don't know it. - What is truth? - Is it relative or absolute? - Is it personal or universal? - What are the differences among the various religious faiths? Can they be blended? - Are we creating faith--a belief system--that is impotent by trying to accept all religions as equal? Hope for a Global Ethic Shared Principles in Religious Scriptures [Baha'i Publishing Trust](#) Argues that, in a post 9/11 world, only a global ethic—a relatively specific set of shared ethical principles—will ultimately be sufficient to support the positive, unifying and harmonizing forces operating in the world today. Original.

False Dawn The United Religions Initiative, Globalism, and the Quest for a One-World Religion [Sophia Perennis](#) The interfaith movement, which began with the 1893 World's Parliament of Religions in Chicago, has grown worldwide. Although this movement has been largely unknown to the public, it now provides a spiritual face for globalization, the economic and political forces leading us all from nationalism to 'One World'. The most ambitious organization in today's interfaith movement is the United Religions Initiative (URI), founded by William Swing, the Episcopal Bishop of California. Investigative reporter Lee Penn, a Catholic ex-Marxist, exhaustively documents the history and beliefs of the URI and its New Age and globalist allies, the vested interests that support these movements, and the direction they appear to be taking. The interfaith movement is no longer merely the province of a coterie of little-heeded religious idealists with grandiose visions. The URI's proponents have ranged from billionaire George Soros to President George W. Bush, from the far-right Rev. Sun Myung Moon to the liberal Catholic theologian Hans Küng, and from the Dalai Lama to the leaders of government-approved Protestant churches in the People's Republic of China. The interfaith movement, including the URI, is being promoted by globalist and New Age reformers who favor erosion of national sovereignty, marginalization of traditional religions, establishment of 'global governance', and creation of a new, Earth-based 'global spirituality'—in effect, a one-world religion. Therefore, the URI and the interfaith movement are poised to become the spiritual foundation of the New World Order: the 'new civilization' now proposed by Mikhail

Gorbachev, the last leader of the Soviet Union. In *The Reign of Quantity and the Signs of the Times*, French metaphysician René Guénon spoke of the “anti-tradition” (the forces of materialism and secular humanism) finally giving way to the “counter-tradition” (the satanic inversion of true spirituality), leading to the regime of Antichrist. The “anti-tradition” weakens and dissolves traditional spiritualities, after which the “counter-tradition” sets up a counterfeit in their place. Since Guénon’s time, as is well known, anti-traditional forces have greatly advanced worldwide. It is less well-known that counter-traditional movements have also made great strides, and now stand closer to the centers of global political and religious power than ever before. The “counter-tradition” is making inroads on the political and cultural Right, as much as it is doing on the Left. *False Dawn* painstakingly documents these trends, and speculates on their future development. In so doing, the author takes investigative reporting to the threshold of prophecy, and gives us a stunningly plausible picture of the global religious landscape of the 21st century. This extraordinary project is the literary equivalent of turning over a flat rock. There is much to be seen and learned here—all of it unsettling, disquieting, occasionally downright scary.

William Murchison, Radford Distinguished Professor, Baylor University
When a bishop of a Christian church happily worships alongside a Wiccan invoking other gods, something has gone horribly wrong. In *False Dawn*, Lee Penn has produced a comprehensive and critical history of the United Religions Initiative. This book sounds a clear warning: Anyone who makes theological truth subservient to utopianism denigrates all religions.

Empowerment of Women for Promoting Global Health and Quality of Life Oxford University Press
Empowerment of Women for Promoting Health and Quality of Life reviews the evolution of modern Public Health and Global Public Health and the role of women’s empowerment for promoting global health. It critically reviews the evolution of global health since the 1990s when the UN initiated the Human Development Approach and adopted the millennial development goals through global consensus. It analyses the paradigm shifts from disease-based prevention using the Public Health model to a new paradigm focusing on the root causes of health problems globally (e.g. inequalities, powerlessness). It reviews the philosophical, theoretical and empirical foundations of these paradigms. The second section presents our meta-analysis of 86 successful women’s empowerment case-studies around the world that address threats to health and well-being of their families and communities. These movements represent four domains: human-rights, equal-rights, health, and income. Using an EMPOWER (acronym) framework designed for the meta-analysis, it answers six questions: can ordinary women organize empowerment movements that enhance the well-being of their families and communities; if so, what are their characteristics; what problems motivate them; which empowerment methods are used and do they vary by domains; who support and oppose them and how; and what are the social contexts that affect their movements. Success consists of:

accomplishing the original goal/s, external recognition and/or replication by others, and subjective and objective empowerment outcomes. A summary of each case allows readers to learn directly from that movement. The final chapter critically reviews the key findings, issues and their implications for policy, actions, and research in human service professions. **The Spirit of Dialogue Lessons from Faith Traditions in Transforming Conflict** [Island Press](#) Over more than twenty years as a mediator, Aaron T. Wolf has learned that successful conflict resolution is shaped by complicated dynamics--from how comfortable the meeting room is to the participants' deepest senses of self. Bridging seemingly intractable issues means addressing multiple layers of needs. Wolf's approach may be surprising to Westerners who are accustomed to separating rationality from spirituality and science from religion. **The Spirit of Dialogue** draws lessons from a diversity of faith traditions to transform conflict, from identifying the root cause of anger to aligning with an energy beyond oneself--what Christians call grace--to the true listening practiced by Buddhist monks. Whether atheist or fundamentalist, Muslim or Jewish, Quaker or Hindu, any reader involved in difficult dialogue will find concrete steps towards a meeting of souls. **Interactive Faith The Essential Interreligious Community-Building Handbook** [SkyLight Paths Publishing](#) Drawing on the knowledge and experience of interfaith leaders from the world's many faiths, this practical guide will help you effectively engage people of other faith traditions to increase understanding and acceptance in your community and beyond. **Embracing Our Complexity Thomas Aquinas and Zhu Xi on Power and the Common Good** [State University of New York Press](#) Using the thought of Christian thinker Thomas Aquinas and Neo-Confucian Zhu Xi, explores how to exercise and limit authority. This book discusses what a religiously grounded authority might look like from the viewpoints of the European Catholic Thomas Aquinas (1225-1274) and the Chinese Neo-Confucian Zhu Xi (1130-1200). The consideration of these two figures, immensely influential in their respective traditions, reflects the conviction that any responsible discourse on authority must consider different cultural perspectives. Catherine Hudak Klancer notes that both Zhu Xi and Aquinas conceive wisdom as including, yet surpassing, human reason. Both express an explicit faith in the moral order of the cosmos and the ethical potential of human beings. The systematic, idealistic approach common to both provides the cosmic, anthropological, and ethical elements needed for a comprehensive exploration of how to exercise and limit authority. Ultimately, Klancer writes, authority requires a particular virtue, hitherto latent in both scholars' work and in their lives as well. A person with this virtue--humble authority--is properly grounded in the sacred order, and fully cognizant in theory and in practice of the parameters of human nature and the responsibilities attendant upon the human role. Catherine Hudak Klancer is Lecturer in the Core Curriculum at Boston University. **Religion, Globalization, and Culture** [BRILL](#) The topic of religion and globalization is complex, susceptible to a great variety of approaches. This book combines

contributions from many authors who examine a wide range of subjects ranging from overall theoretical considerations to detailed regional perspectives. No single understanding of either religion or globalization is privileged. **The Way Things Are Conversations with Huston Smith on the Spiritual Life** [Univ of California Press](#) In his most accessible and personal book to date, Smith discusses "the spiritual life" with well-known writers and luminaries. **Pathways to Peace Interreligious Readings and Reflections** [Cowley Publications](#) "Religion can be a realm of extraordinary power," says U.N. Secretary-General Kofi Annan. "It can offer solace in troubled times. It can make sense of the seemingly senseless." In **Pathways to Peace**, A. Jean Leshar, a dedicated participant in interfaith dialogue initiatives and an accomplished editor, has collected sayings from many of the world's religious traditions and leaders. Thematically structured according to a Jain chant for hope, love, and peace, **Pathways to Peace** envisions the transformation of conflict in our world into hope for the future through the wisdom of the world's faiths. It will be a source of discussion and reflection among members of all traditions who yearn for peace and greater understanding all over the world. **The Future of God in the Global Village Spirituality in an Age of Terrorism and Beyond** [AuthorHouse](#) In the long trek of human history, the adage that there will never be peace among the nations until there is peace among the religions has never been truer. The growing trend toward spiritually inspired violence throughout the emerging global village of the twenty-first century has taken a terrible toll on the lives of thousands of innocent victims. The primary purpose of this book is to address this issue head-on by examining the role that the earth's diverse faith communities can play in stopping the needless hatreds and hostilities that all too often arise from the search for spiritual fulfillment. At this stage of human evolution, nothing is more urgent. **Exploring the Spirituality of the World Religions The Quest for Personal, Spiritual and Social Transformation** [A&C Black](#) Introduction to the spiritual pathways of the major world religions, exploring the core beliefs, values and practices of each tradition. **The Buddhist Voyage beyond Death Living Nirvana** [Cambridge Scholars Publishing](#) **The Buddhist Voyage beyond Death** comprehensively but concisely recapitulates the Three Turnings of the Dharma-Wheel: the central teachings of Buddha, of the Mahayana and of the Vajrayana; with a particular focus on the Mind-only tradition in relation to Buddhist cosmology, karma, and transmigration. With a Foreword by Dr. Robert Magliola, a specialist in comparative religion and author of *Derrida on the Mend; On Deconstructing Life-Worlds: Buddhism, Christianity, Culture; and Facing Up to Real Doctrinal Difference*, the book incorporates a modern scientific sensibility focusing on memory, time and space, matter and energy—using metaphors drawn from science and technology to illustrate spiritual concepts—and it provides an answer to those grappling with their life difficulties amid negative emotions of fear, anxiety, anger, and insecurity. **Religion As a Social Determinant of Public Health** [Oxford University Press](#) **Leading scholars in the social sciences, public health and**

religion examine the embodied sacred practices of the world's religions, the history of alignment and tension between religious and public health institutions and the role of religious institutions in health and development efforts around the globe. **The INTRAFaith Conversation: How Do Christians Talk Among Ourselves About INTERfaith Matters?** [Lulu.com](https://www.lulu.com) **The INTRAFaith Conversation: How Do Christians Talk Among Ourselves About INTERfaith Matters?** by Susan M. Strouse is a guide for individuals and faith communities to explore what it means to be a Christian in a multifaith world. **The Rev. Dr. Susan M. Str Reading the Two Books of God Sacred Time and Place in Nature and History** [Wipf and Stock Publishers](https://www.wipfandstock.com) **Thomas W. Mann** is a biblical scholar and retired parish minister and the author of numerous books and articles. He is particularly interested in how experiences in nature prompt theological reflection based in the Bible, shaping our sense of sacred time and place, and how the lectionary readings of the church year also provide a spiritual calendar for the seasons of our lives. The result is a conversation inspired by poets and writers like Mary Oliver, Wendell Berry, and John Muir, but also by philosophers and theologians ranging from Abraham Joshua Heschel to David Kelsey. Along the way, we enter “beach time” and take backpacking trips in the Sierras, but also join the “triumphal entry” parade on Palm Sunday and listen to the stable animals on Christmas Eve. We perceive the beauty of creation through the eyes of science as well as religion, sensually as well as intellectually. We celebrate our communion with all creatures, from fungus to forests, inspired with awe and reverence, and with a responsibility to care for the earth, so threatened by climate change. **Religions of India A User Friendly and Brief Introduction to Hinduism, Buddhism, Sikhism, and the Jains** [iUniverse](https://www.iuniverse.com) **A concise and plain spoken introduction to Hinduism, Buddhism, Sikhism, and the religion of the Jains.** This book is for students and anyone else desiring to learn the basics of religion in India in a quick yet comprehensive way. **Between the Pigeonholes Gerald Heard, 1889-1971** [Cambridge Scholars Publishing](https://www.cambridge.org) **Aldous Huxley** described Gerald Heard as “that rare being—a learned man who [made] his mental home on the vacant spaces between the pigeonholes.” Heard’s off-beat interests made him a cultural and intellectual pioneer on both sides of the Atlantic in the middle decades of the twentieth century. Despite accolades from such figures as E.M. Forster, who characterized him as “one of the most penetrating minds in England,” and Christopher Isherwood, who described him upon his death as one of the “few great magic mythmakers and revealers of life’s wonder,” Heard is largely unknown today. **Between the Pigeonholes** is the first published full-length study of Gerald Heard. **Alison Falby** examines Heard’s ideas and contexts in interwar Britain and postwar America, demonstrating his significance in several important twentieth-century movements. These movements include popular science and psychology, psychical research, Eastern spirituality, pacifism, cooperativism, and Californian counter-culture. All of Heard’s involvements expressed his desire to convey religious ideas in the

modern languages of biological, social, and physical science. Falby also traces Heard's shifting political leanings from left-liberal in the early-1930s to libertarian in the early-1960s. She finds that his modernist theological approach, conventionally associated with liberal religion and politics, provided spiritual fodder for those on both the Left and the Right: Isherwood and W.H. Auden on the one hand, and Clare Boothe Luce and Spiritual Mobilization on the other. Using Heard as a prism through which to examine popular ideas, Falby shows that the twentieth century contained much political and religious heterogeneity. This heterogeneity illustrates the diverse and overlapping roots of both liberal religion and conservative politics in the twenty-first century.

Religion and Contemporary Management Moses as a Model for Effective Leadership
 Anthem Press Although few might think of Moses as a 'leader' in the contemporary business and political sense, Moses is not only among the most significant leaders in Western civilization but is also arguably the quintessential example of a powerful leader from whom much can be learned by anyone entering and occupying leadership positions. Various types of leadership approaches are considered that have been advocated by scholars over the past century. Moses' example as described in the Bible is analyzed to assert why Moses' approach makes for an appropriate and compelling form of leadership today. While present leadership and management vocabulary might differ from the Hebrew Bible, many of the notions advocated by modern leadership theorists appear to parallel major behaviors, traits, functions, experiences and actions ascribed to Moses, especially in the first five books of the Hebrew Bible. Anyone can view Moses through the lens of a particular religion, whether shared or not, and still learn considerably from the experience. One will find Moses depicted as heroic, charismatic, and certainly empathic. Yet, Moses also shows transactional, transformational and visionary leadership qualities. Hence, 'Religion and Contemporary Management' discerns why Moses represents such an important model of effective leadership for contemporary times.

Overcoming America / America Overcoming Reinventing Culture and Being at Home in the World in the Age of Pandemic
 Rowman & Littlefield On the moral decay surrounding the collapse of the modern worldview with its isolated and competitive individualism, abstraction and mechanism. Also on the dynamics of emerging, relational worldview and vision of human development/maturity necessary to the human future beyond the societal upheaval and reorder caused by the COVID-19 pandemic.

Religion and Everyday Life and Culture [3 Volumes]
 ABC-CLIO This intriguing three-volume set explores the ways in which religion is bound to the practice of daily life and how daily life is bound to religion.

Touchstones of the Spirit Essays on Religion, Tradition and Modernity
 World Wisdom, Inc This book explores three themes: the timeless messages of traditional Religion; the modern obscuration of this perennial Wisdom; and the spiritual encounter between East and West. Topics include the Australian Aborigines, the Bodhisattva in Buddhism, and key Perennialist figures such as Frithjof

Schuon, Ananda Coomaraswamy, and Huston Smith. Characterizing modernism as “a spiritual disease which is spreading like a plague across the globe,” Oldmeadow offers insightful criticisms of Eckhart Tolle’s *The Power of Now* and what he calls the “false prophets of modernity.” *The Oxford Handbook of Evolution, Biology, and Society* [Oxford University Press](#) Evolution, biology, and society is a catch-all phrase encompassing any scholarly work that utilizes evolutionary theory and/or biological or behavioral genetic methods in the study of the human social group, and *The Oxford Handbook of Evolution, Biology, and Society* contains an much needed overview of research in the area by sociologists and other social scientists. The examined topics cover a wide variety of issues, including the origins of social solidarity; religious beliefs; sex differences; gender inequality; determinants of human happiness; the nature of social stratification and inequality and its effects; identity, status, and other group processes; race, ethnicity, and race discrimination; fertility and family processes; crime and deviance; and cultural and social change. The scholars whose work is presented in this volume come from a variety of disciplines in addition to sociology, including psychology, political science, and criminology. Yet, as the essays in this volume demonstrate, the potential of theory and methods from biology for illuminating social phenomena is clear, and sociologists stand to gain from learning more about them and using them in their own work. The theory focuses on evolution by natural selection, the primary paradigm of the biological sciences, while the methods include the statistical analyses sociologists are familiar with, as well as other methods that they may not be familiar with, such as behavioral genetic methods, methods for including genetic factors in statistical analyses, gene-wide association studies, candidate gene studies, and methods for testing levels of hormones and other biochemicals in blood and saliva and including these factors in analyses. This work will be of interest to any sociologist with an interest in exploring the interaction of biological and sociological processes. As an introduction to the field it is useful for teaching upper-level or graduate students in sociology or a related social science. *The Geography of Religion Faith, Place, and Space* [Rowman & Littlefield Publishers](#) **The only book of its kind, this balanced and accessibly written text explores the geographical study of religion. Roger W. Stump presents a clear and meticulous examination of the intersection of religious belief and practice with the concepts of place and space. He begins by analyzing the factors that have shaped the spatial distributions of religious groups, including the seminal events that have fostered the organization of religions in diverse hearths and the subsequent processes of migration and conversion that have spread religious beliefs. The author then assesses how major religions have diversified as they have become established in disparate places, producing a variety of religious systems from a common tradition. Stump explores the efforts of religious groups to control secular space at various scales, relating their own uses of particular spaces and the meanings they**

attribute to space beyond the boundaries of their own communities. Examining sacred space as a diverse but recurring theme in religious belief, the book considers its role in religious forms of spatial behavior and as a source of conflict within and between religious groups. Refreshingly jargon-free and impartial, this text provides a broad, comparative view of religion as a focus of geographical inquiry. [DeepLight A Memoir of the Soul Wipf and Stock Publishers](#) **DeepLight: A Memoir of the Soul** is a rich narrative of a contemporary woman's spiritual quest. Within the context of her extensive study of religious and mystical traditions, and her experiences as a woman, a monastic, and an Episcopal priest, Susan Creighton weaves a spiral tapestry of memories, journal entries, and poetry. Her search for an authentic practice of contemplative prayer led across cultural, historical, and religious boundaries, but is most significantly shaped and enriched by the teachings of mystics like St. John of the Cross and the ancient tradition of Orthodox ascetical theology and spiritual practice. Now living under vows as an anchorite, her memoir shares with the reader ways in which the Jesus Prayer and other spiritual practices lead to deeper contemplative prayer as well as helping us develop greater discrimination and compassion for ourselves and others. **One God, Shared Hope Twenty Threads Shared by Judaism, Christianity, and Islam** [Red Wheel Writer](#) and spiritual director Maggie Oman Shannon has long believed that we all yearn for a spiritual connection to a higher power. In **One God, Shared Hope** she presents twenty principles shared by Judaism, Christianity, and Islam, and provides passages from each religion's holy scriptures to illustrate their commonalities. **One God, Shared Hope** is organized in three sections, Concerning God, Concerning Others, and Concerning Self, within which are chapters on each of the twenty universal principles the three religions ask their adherents to live by. The principles range from "Trust in God" and "Stay Thankful" to "Honor Your Parents" to "Be a Peacemaker." Each chapter begins with a short explanation of the similarities and differences in belief and practice of each religion, followed by excerpts from the scriptures that accentuate universality. The book also includes a list of resources for further study. Taken all together the principles teach us how to live, how to connect to each other, and how to connect with God. This is a simple and simply profound book. **Mysticism and Morality A New Look at Old Questions** [Lexington Books](#) **InMysticism and Morality** author Richard Jones explores an often neglected area of comparative religious ethics: mysticism. By addressing a myriad of traditions, both Eastern and Western, Jones explores the question: Is mysticism moral? His discussion of this question takes him through Hinduism, Jainism, varieties of Buddhism, Tantrism, Daoism, and Christianity. Richard Jones's unique work is a salient addition to philosophy of religion, ethics, and religious studies. **Religion in Ohio Profiles of Faith Communities** [Ohio University Press](#) **Annotation Tells the story of Ohio's religious and spiritual heritage going back to the state's ancient and historic native populations. Journeys East 20th Century Western Encounters with Eastern Religious Traditions** [World Wisdom, Inc](#)

Journeys East tells the story of the twentieth century's encounters between East and West by exploring the lives of many of the most fascinating scientists, intellectuals, artists, and spiritual seekers of our time.

Buddhism The Big Picture Explained [iUniverse](#) **Buddhism: The Big Picture Explained** answers the common questions a beginning and inquisitive learner might have regarding this seemingly complex religion. In easy-to-understand terms, Edward Woo first demonstrates the ideas and concepts behind this often misunderstood faith and then provides explanations for both basic and intricate questions including: What is a religion? Why is Buddhism a religion? What does Buddhism teach us? What constitutes the basic principle of Buddhism? What is the most important of Buddhist teachings? What precisely it means to get enlightened? Why is Buddhism meaningful? How does Buddhism change our way of life? In a sometimes unpredictable world, **Buddhism: The Big Picture Explained** explores the benefit this great religion has on global peace and harmony, promotes the idea of being good to others and the environment, and teaches us that we are the masters of our own destiny. **Buddhism: The Big Picture Explained** answers the common questions a beginning and inquisitive learner might have regarding this seemingly complex religion. She shows that by working together, religious communities can more effectively address global and local problems that all people face: poverty, environmental destruction, and armed conflict. Grefe describes interreligious cooperation at work in local communities. She develops tools that equip religious leaders with the interreligious competence needed for spiritual care and counseling with individual persons in crisis. Cooperation is not only effective in the care for communities and persons in crisis, it also heals distant and strained interreligious relationships. In the process of working together, perceptions of each other can transform.** **Evil: A Guide for the Perplexed** [A&C Black](#) **One of the most perplexing problems facing believers in God is the problem of evil. The words of Epicurus put the point concisely: "Either God wants to abolish evil, and cannot; or he can, but does not want**

to. If he wants to, but cannot, he is impotent. If he can, but does not want to, he is wicked. If God can abolish evil, and God really wants to do it, why is there evil in the world?" This is a difficult problem to unpick and it remains an issue that continues to concern people and inspire debate. The problem has taken a variety of forms over the centuries; in fact, there are numerous "problems" of evil-problems for theists but, perhaps surprisingly, problems for non-theists as well. *Evil: A Guide for the Perplexed* explores, in a rigorous but engaging way, central challenges to religious belief raised by evil and suffering in the world as well as significant responses to them from both theistic and non-theistic perspectives.
