## Nelson Handwriting

*Nelson Thornes* Nelson Handwriting contains six workbooks for infants and five full colour pupil books, one for each year group. The books are sequenced for progression and contain three levels of differentiation designed for a wide range of abilities. The books introduce, teach and develop the technical aspects of key handwriting skills in meaningful, relevant language contexts. They have been organized in such a way that you can teach handwriting to the whole class, groups and individuals. They contain increased provision for the early years, introducing exit flicks from the beginning, provides structured units which offer a teaching focus point followed by opportunities for practice and gives support and extension copymaster options. They contain improved assessment provision which helps to assess progress and encourages pupils to monitor their own development.

## Nelson Caribbean Mathematics 1

*Nelson Thornes* Nelson Caribbean Mathematics is a three book course suitable for students of all abilities in lower Secondary school. The series aims to provide students with a solid foundation in Mathematics needed in everyday life and provides a firm basis for study up to CXC and beyond.
